RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many fine cures effected by it since I have acted as agent for the sale of Dr. SWETT'S MEDICINES.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May 31, 1841.*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health, can rest her body quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.
☞ Any one wishing the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. marx20

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the sales as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Prostate Gland, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Albumen, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their manhood, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in similar part, of the same failing. Failing to find relief in the Dr. I. broken down in health, now resolve in all that makes life desirable and man happy. Without a doubt of any case, the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for every body—Married or Single—Delicate. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy! A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. The sale of more than 50,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, Ten Dollars (one box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, NOVEMBER 28, 1863.

THE REBELLION.

Charleston rebel dispatches state that six launches made an attack on Sumter on the 24th, and were repulsed. 10 shells were thrown into Charleston on the same day, and 18 on the 21st, striking 19 buildings. The fire on Sumter on the night of the 21st was very heavy.

The Lynchburg Virginian confirms the capture of Bragg's train a few days since. There were from 500 to 700 wagons, which the Yankees burned in sight of the rebel army.

We have decisive and most gratifying news from Gen. Grant, informing us of the further successful prosecution of the work which was begun, as announced in former dispatches. Under date of Nov. 22,—7:15 P. M., he reports that although the battle lasted from early dawn till dark that evening, he believed he was not premature in announcing a complete victory over Bragg. Lookout Mountain top, all the rifle-pits in Chattanooga Valley to Missionary ridge entire had been carried, and were then held by us. The rebels were utterly routed and are in full retreat. Nearly 6000 prisoners have already been reported. There were taken 5000 stand of small arms, 10 flags and 52 cannon, including the celebrated battery lost by us at Chicamauga. The rebels burned the depot and stores at Chicamauga, and also attempted to burn the bridge behind them, in which they were partially successful. At 1 A. M., Nov. 27, Gen. Grant telegraphed to the War Department that he was just in from the front, and the rout of the enemy was most complete. Abandoned wagons and occasional pieces of artillery were everywhere to be found. He thinks Bragg's loss will fully reach 60 pieces of artillery. A large number of prisoners have fallen into our hands. The pursuit would continue to Red Clay in the morning, for which place he would start in a few hours. This is in Whitefield Co., Ga., 25 miles southwest of Chattanooga.—The routed rebels are reported to be deserting in great numbers.

The roads in Virginia have dried up wonderfully within a few days, and on Thursday morning at as early hour the Army of the Potomac commenced moving, the men being full of enthusiasm at the good news from General Grant's army. The army advanced in three columns, to cross at as many different fords. A Washington dispatch to the Boston Merchants' Exchange, reports a great battle, lasting 5 hours, on the Rapidan, near Germania Ford, and that Lee was driven from his intrenchments.

An Incident of the Victory.—Very full and semi-official despatches descriptive of Wednesday's operations in front of Chattanooga have been received in Washington. They speak in terms of the most enthusiastic admiration of the conduct of the troops, and particularly that of the divisions of Generals Wood and Sherman, now embraced in the command of Gen. Hooker. These men, excited by carrying the rifle pits in the slope on Missionary Ridge, which they had been ordered to take at all hazards, rushed up the steep precipice beyond and carried the crest of the hill, capturing some 30 cannon and thousands of prisoners. Neither Gens. Grant nor Thomas believed that the hill could be carried by a direct assault. No orders for the assault were given, and the officers were almost literally swept along in the current of the soldiers under their command.

The hill, besides being exceedingly steep was enfiladed by artillery, both to the right and left, and the men were also exposed to a heavy fire from the rifle pits in front.—This was regarded by the rebels as by far the strongest point of their lines, as indeed all but impregnable, and Gens. Bragg and Breckinridge were so confident that they could hold their ground that they staid almost to the last, narrowly escaping capture. Notwithstanding the terrible fire the assaulting parties were exposed to, the casualties were extremely small.

— Gen. Grant has already brought gold down to 143 1 4. It has fallen 10 per cent. in four days.

— Richmond papers deprecate the advocacy of peace by one or two papers in Georgia, as well as in North Carolina, and say that the sole policy of the South is war.

— Charles Dickens is engaged to write a novel, and its publication will be commenced in May next. It will be completed in twenty parts.

— The Richmond Examiner mentions a plot to liberate the Union prisoners in Libby prison, Richmond, and to burn that place, and says it is asserted that the conspirators were to receive very material aid from persons in Richmond.

— The French Government have informed Mr. Dayton of their views on the American question, and that they had not recognized the South, consequently they had not signed any treaty for the acquisition of Texas and Louisiana, as reported.

NOTES OF FORMER DAYS.

Meeting House at the Plains, 1727—Liberty Bridge—Earthquake—General Assembly—George II—Governor Burnett.

In 1727, several persons, situated at or near the Plains, in this town, built a meeting-house on the rise of ground to the eastward of the training-field, in which they had had preaching regularly nearly two years. On the 4th of March the north parish "voted to free and exonerate them from any tax or charge towards the support of the Gospel ministry, or any parish charge at the Bank for the future, provided they have frequent preaching more for accommodation than at the Bank." They afterwards petitioned the General Court to be made a separate parish, which was not granted.

The town granted permission to build a bridge over the cove or dock, from Lieutenant Governor Wentworth's wharf to Captain Joseph Sherburne's wharf, leaving a passage for boats, canoes, and barks of twenty-five or thirty feet wide, provided the town be exempt from any charge of making or repairing said bridge. [Now Liberty Bridge.]

On the 29th of October, 1727, about 10 o'clock, a very violent earthquake happened; it was preceded by considerable noise, resembling distant thunder. Some persons perceived flashes of light the moment trembling commenced. The sea was affected as well as the land, and roared in an unusual manner. Several slight shocks were felt during the night, and almost every day for a fortnight afterwards. Some chimnies were cracked, and others shattered. The pewter on the dressers rattled, and in some instances were thrown down. The brute creatures discovered evident tokens of fear, and ran about the fields in great distress.

The representatives of the General Assembly were chosen by virtue of a warrant from the Governor to the sheriff of the province, directing him to issue his precepts to the selectmen of certain towns and districts therein enumerated, requiring them to cause the freeholders and other inhabitants of their respective towns and districts, duly qualified to vote for representatives, to assemble at such times and places, as they shall appoint, to elect and depute certain fit persons, in their respective towns or districts to represent them in the General Assembly. The selectmen were to return their precepts to the sheriff, with the names of the persons elected, from which the sheriff was to make a list of the representatives, and return the same, with the Governor's warrant, to him, into the Secretary's office, previous to the day appointed for the meeting of the Assembly. They were elected for no definite time, but the Governor exercised the authority of dissolving them whenever he thought proper. The Assembly, which had subsisted for five years, was dissolved of course by the demise of the King, George I., who died this year. Upon the accession of George the second, writs were issued for the election of a new assembly, which met on the 15th of December, 1727. A law was passed, which received the royal approbation, limiting the duration of the Assembly, or House of Representatives, to three years, from the time appointed for them to meet. This law was very popular; the long continuance of the Assembly was regarded as a grievance, because it deprived the people of the privilege of the election. Some members of the Legislature protested against the law, as an abridgement of their rights. The act did not determine who should issue the writs for calling the new Assembly, nor to what places they should be directed; but the Governor exercised the authority he had formerly done, which caused frequent altercations between him and the Assembly.

On the 22d day of January, 1728, the house of Robert Medin, situated on King's (now Congress) street, accidentally took fire, and was entirely consumed, together with a great part of his stock of flour, and the clothing of himself and family. The great exertions of the inhabitants prevented the fire from spreading. [This house stood on the corner of Chestnut street, that now is.—The house that now stands there was built shortly after the fire.]

The dwelling house of Mr. George Walker accidentally took fire, and was entirely consumed, with all his furniture and clothing.

William Burnett, son of the celebrated Bishop of Sarum, had lately been removed from the Governments of New York and New Jersey, to make way for some favorite of the British ministry. He was appointed Governor of Massachusetts and New Hampshire. His administration in New York was popular, and his fame had preceded him to his new governments, so that the expectations of the people were raised in his favor. He was easy and polite in his address, and unaffected in his manners.—He cultivated a taste for literature, and courted the company of men of science; but all ostentation and parade were very irksome to him. On the 22d of July, Lieutenant Governor Wentworth, and a committee of the Council, waited upon him at Boston, to congratulate him on his appointment, and arrival in the governments under his command.

Doctor Thomas Packer was one of the earliest surgeons of this town, who had been regularly bred to the profession. He was born in London, and educated a surgeon. He came to this country a young man, resided a short time in Salem, and then removed to Portsmouth. There being no physician here at that time of much repute, he united the practice of physic with that of surgery, and attained some eminence in both. He held the offices of Judge of the Court of Common Pleas, Lieutenant Colonel in the militia, and Judge of Probate for the province for many years. As Judge of the Court of Common Pleas, he was superseded in the year 1695, and from the other two offices, was dismissed by the President and Council, the beginning of the year 1697, when the public sentiment was much divided by political disputes. He was appointed a Counsellor in 1719, which office he held till his death, which took place in 1728.

On the 7th of September, 1729, Governor Burnet visited this province. He was received with distinguished marks of affection and respect. His residence here was was short, and he died at Boston a few months after his return.

NEW HAMPSHIRE ITEMS.

—— Lieut. Col. George Bowers, of Nashua, formerly of the 13th N. H. Regiment, has received the appointment of a Major in the Invalid Corps.

—— A detachment of two hundred recruits for the Second Regiment, were sent from Concord to Long Island, Boston Harbor, Tuesday, in charge of Lieut. Barton of the Invalid Corps, and a guard.

—— On Tuesday afternoon about 3 o'clock, one of the large iron steam condensers at the depot in Manchester, connected with the heating apparatus, exploded, with a loud report. The wood work near the condenser was somewhat injured and the depot filled with steam, but no great damage was done.

—— The Trustees of Dartmouth College have transferred Prof. Wm. A. Packard from the chair of Modern Languages to that of Greek Language and Literature, rendered vacant by the death of the lamented Putnam. Prof. Packard is a son of Prof. A. S. Packard, of Bowdoin College, Me.

—— The Dover City Election on Tuesday was all one way. The Democrats had no candidate for Mayor, no candidates for Aldermen, "no nothing," except in Ward 1, where, from the changes by absence and removal since the last election, they conceived they stood a chance to do something. But the Republicans elected every thing.—Hon. Wm. F. Estes, the present incumbent, was re-elected Mayor, by the following vote: Estes. 392; Scattering 4.

—— Mr. and Mrs. Charles Dennett, of Rochester, celebrated the 50th anniversary of their marriage Nov. 11th, having resided during the whole period of time in the house erected by Mr. D. just previous to his marriage. Last fall a sister of Mr. D. celebrated her Golden Wedding; and in two years — Providence permitting — a brother and wife will complete the "golden circlet of years" attained by so few.

—— Annual session of the New Hampshire State Teacher's Association was commenced in Manchester on Wednesday of last week, in the City Hall. There were 104 members present, 32 gentlemen, and 72 ladies. The meeting was a very profitable and interesting one. Some excellent essays were read, and the discussions were animated. Among the proceedings was an interesting biographical sketch of Moses A. Cartland, by Jonathan Tenney, also resolutions in memory of Mr. Cartland and Prof. John N. Putnam of Dartmouth College.—The meeting closed on Saturday afternoon, Dover having been selected as the next place of annual meeting.

—— In Newport, on Thursday, Nov. 19th., Mr. Daniel Muzzey, a man of advanced age, and a young man named Charles Dunham were engaged in digging a ditch in which to lay an aqueduct when the sides of the ditch, which was unusually deep, poured in like an avalanche and buried Messrs. Muzzey and Dunham to a depth of nearly six feet. After most diligent spading for nearly half an hour they were rescued. Mr. Muzzey was considerably injured. Mr. Dunham was not materially injured. On Monday the 23d inst., William Hoban, an Irishman, was a victim to a similar accident in nearly the same place. He was soon rescued, not seriously injured.

The European Congress, as yet only a prospective matter, started by the French Emperor, is much discussed by the English papers.

None of the Great Powers have yet given in their adhesion. The London journals show increasing objection to it.

Wm. Cornell Jewett publishes a long pamphlet in advocacy of mediation in America, in which he maintains that the American question is designed to come before the proposed Congress, as the most important matter affecting the peace and prosperity of Europe, and consequently appeals to England to support Napoleon. [Who and what is Wm. Cornell Jewett?]

It is rumored that M. Drouyn de Lhuys is drawing up an extraordinary document of the proposed Congress, comprising the different questions which the Emperor Napoleon intends to submit for consideration. In the meantime, English journals appear to be taking views adverse to the Congress.

The Globe (Ministerial) energetically opposes it. The Daily News and Morning Herald also oppose it, and agree that if it is held, unfavorable results will ensue. The Times inquires what England will have to do in the Congress, should it ever be more than an ideal conception, and points out that there is no place for England in it, all the honors being monopolized by France.

The English Cabinet have held evening meetings to consider the subject, but the results have not transpired. Another meeting was fixed for the 16th.

The Madrid Correspondentia says that the Spanish government has resolved to send representatives to the Congress, but some Spanish journals look coldly upon it.

It is asserted that Austria will give no answer until the resolution of England is known.

At the latest date, the London Times treats the subject as a very unreal proposition, and says it may possibly turn out that the proposal was something in the nature of a freesnape, the expedient of a man determined to come down somehow from an untenable position. The Emperor may have made the proposition without desiring a Congress itself, and England, by declining to join it, may be doing the Emperor the neatest possible service.

A Paris letter says: As yet the cold shoulder is all that is to be seen with regard to the congress, and the matter is drifting into an abyss of impracticability.

— The Glasgow Emancipation Society having memorialized Earl Russell in regard to the suspicious character of the recently launched steamer Pampero, formerly known as the Canton, insinuating that she is another Alabama for the Confederates, Lord Russell acknowledges the memorial, and says the attention of the government has been already directed to the matter.

Peremptory Sale
—OF—
Valuable Wood and Timber Lands.
I shall sell at Public Auction, by directions contained in the will of the late John Perley, deceased, on WEDNESDAY, the ninth day of December, 1863, at 10 o'clock A. M., on the premises—
One hundred and sixty-six acres of Land, situate in the towns of Auburn and Candia, N. H., about one mile from the station of the Concord and Portsmouth Railroad in Auburn, and five miles from the city of Manchester, N. H. Land contains a heavy growth of hard wood, interspersed with oak timber, and will be offered in two lots.
At 2 o'clock P. M. on the same day, after the above sale, will be sold on the premises, a Lot situate in Auburn, on the highway near the residence of Mr. Geo. W. Severance, about three miles from the Massabesic station of the Concord and Portsmouth Railroad. This lot is covered with a thrifty growth of chestnut, oak and pine, and contains thirty-eight acres.
Terms of the sale are cash. Ten per cent. of the purchase money will be required to be paid on the completion of the sale, and the balance within thirty days, within which time the deeds will be ready for delivery.
Plans of the lots may be seen at the dwelling-house of Mr. JOHN MOORE, in Auburn; and at the office of SAMUEL N. BELL, Esq., in Manchester.
The quantity and quality of wood and timber upon these lots, their situation near Manchester, and the facilities for reaching good markets by the way of the railroad near which they are located, commend this as an opportunity seldom offered for a remunerative investment.
The sale is made by directions contained in the will of the deceased, and in accordance with his directions ordered by the Trustees, will be positive.
For further particulars inquire of MOSES DORMAN, Roxbury, Mass.; JOHN KILLAM and GEO. W. CRAFTS, Boston, Mass.; J. H. TOWNE, at Naumkeag Bank, Salem, Mass.; or of WILLIAM H. HACKETT, Auctioneer.

Local.

☞ His Honor the Mayor and a portion of our City Government elect (together with many of the old board,) visited the City Farm on Thanksgiving Day, and made a tour of inspection around the premises; expressing themselves pleased with the neatness and exactitude with which all things were kept, and especially pleased with the well filled corn barn and the systematic vegetable cellar. The view of the tables spread for the inmates, by means of the annual proceeds of Mayor Toppan's legacy, was not the least interesting sight on the occasion.

☞ Recruits are now being enlisted at the Provost Marshal's office. The towns of Greenland, Newmarket, Hampton, &c., have taken the lead, and others are coming in. $525 is about the price paid for the gallant volunteers, who assign to towns all State and U. S. Bounties, and take the cash in hand.

☞ It will be gratifying to the many friends of Mr. Wm. Akerman, of Portland, who for so many years was the popular conductor on the P. S. & P. Railroad, to know that he is now making a visit in this city at the residence of J. Johnson, Esq.—Mr. Akerman was prostrated by illness some two or three years ago, and this is his first visit here since that time.

☞ The garrison at Fort Constitution disported themselves on Thanksgiving day in the laughable sports of ye olden times,—a greased pig, a bag-race, and other amusements of similar character affording much gratification to the spectators, and perhaps not less to the participants.

☞ Col. Wm. Stearns has resigned the position of Agent of the Portsmouth Steam Factory. The resignation has been accepted by the Directors.

THE DENIER PANTOMIME and gymnastic Troupe, consisting of 18 first class Artists—comprising a portion of the old Ravel Troupe,—are to visit this city next week. The Troupe will introduce the same style of entertainment which rendered the Ravels so famous.

☞ The new United States gunboat Agawam was expected to come around from Portland to the Portsmouth Navy Yard on Thursday, but a leakage in the boilers prevented.

☞ Rev. Mr. Patterson will deliver his next lecture to the young at the Universalist Church, to-morrow (Sunday) evening. Services to commence at 7 o'clock. Subject—Proprieties of Language.

☞ The steamer Dacotah, from New York, arrived at the Portsmouth Navy Yard on Thursday morning.

☞ A dispatch to his friends in this city from Capt. Samuel Laighton, Co. A, 8th Kansas Volunteers, dated at Chattanooga, since Grant's victory, says:—"I am safe—the victory ours."

PRIZES.—Boston and other ports are being crowded with prizes, while none are sent to Portsmouth. Our District Attorney seems to have burrowed in the Upper Coos instead of getting his share of this remunerative business. Marshal Ela is behind the age also. We will venture to say that if our old friend Gilman was in office he would have had half the prizes captured sent to this District for condemnation, and ere this made a fortune out of the operation. A share of this business might as well be sent to this District, where the court has abundant leisure to attend to the cases, and claimants could then realize a speedier result for their captures.—*Ports. Cor. Ballot.*

THE Town of Hooksett appointed Col. Nat Head of the Governor's staff, heretofore a gay bachelor, as committee to get men to fill the quota of Hooksett. Nat went right off and got married. It is expected that the quota will soon be filled.—*Ports. Cor. Ballot.*

THE IRON-CLAD SANGAMON.—It appears that the reports in regard to the new iron clad Sangamon, which was said to have come near sinking at the Washington Navy Yard, were erroneous. There was no defect in the engine to be repaired.—The boilers were filled twice and a half, for the purpose of discovering leaks, and the water from these boilers was indiscreetly let into the vessel. This brought her down so much that water came in at the junction of the overhang and the body of the vessel. Hence the reports of disaster.

SHOAL OFF CAPE RACE.—The recent official survey off the coast of Newfoundland has proved the existence of a shoal hitherto unknown. Capt. Orlebar, R. N., conducting the survey, reports that a shoal 15 miles long and 5 broad, and with 15 fathoms water on it, extends from about 7 miles off Cape Race. The depth of water on the shoal gives little fear of vessels touching the ground, but in the ordinary course of navigation it will be a great assistance to ship masters, having good anchorage.

— Several gentlemen in Boston have subscribed $10,000 for a marble statue of Edwin Forrest, in the character of Coriolanus. It is to be of the heroic size.

☞ "One Price," "Terms Cash," are the rules at Shute & Son's Hat and Fur Stores, 173 and 175 Washington street, Boston.

To every barrel of Flour you can make thirty pounds more Bread or Biscuit (and much better) by using Herrick Allen's Gold Medal, than by yeast fermentation or any other Saleratus.—It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs and cure dyspeptic persons. It is much better to be with your tea than without it. Try it once, and you will be convinced. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

To the Hon. Judge of Probate for the County of Rockingham, in the State of New Hampshire.

Respectfully shews JOHN BENNETT, of Portsmouth in the County of Rockingham, that he is Guardian of Joseph Willis Marden, Francis W. Marden, Willard Marden and Sarah A. Marden, by the appointment of the Judge of Probate for said County, and has duly bounded and described as follows: On the north by land of John P. Dennett, northeasterly by land of Nathaniel Jackson (deceased), southerly and easterly by land of George Dennett, and southerly and westerly by the North Road, so called

Also, a certain other tract of land, situate in said Portsmouth, containing about four acres, be the same more or less, and bounded northwesterly by land of Bickford L Rand (deceased), northeasterly by land of Samuel C. Berry, southeasterly by land of Josiah Marston, southerly by land of Samuel Whidden, and southwesterly by land of Jefferson Norton and by Rollins's land; they being the same premises set forth in trust deed of Joseph W. Marden to Robert Lefavour, as by his deeds dated May 29, A. D. 1857, and July 15, 1860, fully appears, the said deeds being deeds of trust, and the rights of said Wards to be sold being their rights subject to said trust; and that it is necessary for the support of his said Wards and will be conducive to their interest to have all their right, title and interest in the premises sold; wherefore he prays that he may be licensed and authorized to sell the same at public auction, according to the statute in such case made and provided. JOHN BENNETT, Guardian.

STATE OF NEW HAMPSHIRE.

Rockingham ss. Probate Court at Portsmouth, in said County, November 24, A. D. 1863.

Upon the foregoing Petition it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Portsmouth in said County, on the second Tuesday of January next, and that the Petitioner notify the heirs of said deceased and all persons concerned in interested thereto to appear at said Court, and show cause if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Daily Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court.

From the Journal

THE THANKSGIVING DINNER AT THE ALMS-HOUSE.

"Good deeds never die."

Sacred to the memory of a departed Ex-Mayor will forever be the annual occurrence of Thanksgiving at the Almshouse. That interesting occasion was duly honored on Thursday last; and the bountifully spread board was viewed with satisfaction by a large delegation of the city government and other invited guests. The tables laden with turkeys, geese, puddings, pies, &c. was evidence enough of Thanksgiving, without reading it in the pleased countenances of the happy expectants to the feast, which gave evidence of the fact proclaimed by the placard pendant upon the wall, "We bless the memory of the Hon C. S. Toppan."

Before looking upon the tables the visitors at the house were shown about the premises. There is an air of comfort and cleanliness everywhere displayed, which does great credit to the superintendant, Mr. Benj. Norton, and his worthy helpmeet. The improvements about the grounds have within a few years been very extensive. The well stocked barns and cellars give evidence of good thrift. A ball and chain was called into notice—"That," said Mr. Norton, "is for punishment, but I have no occasion for such things." That spoke well for the government of the institution.

IMPORTANT ORDER.

The Board of Enrollment of this District have received orders from the Provost Marshal General to publish the Enrollment Lists of the various sub-districts, and have them placed in conspicuous places in those districts, for the inspection of all persons interested.

Whoever is enrolled, but claims not to be liable to military duty, by reason of Alienage; Unsuitableness of age; Non residence; or manifest permanent Physical Disability, can appear before the Board of Enrollment and prove his claim.

On the establishment of either of the above exemptions, the claimant's name is struck from the Enrollment List.

The printed lists are being prepared as rapidly as possible, and the Board will soon be ready to exempt from the present Enrollment.

If volunteering does not go forward rapidly there will be a draft in a little more than a month, and it is desired to make it stringent and effective.

NEW DRAFT.—The New Hampshire quota of the last 300,000 men called for, it is hoped, will be forthcoming, very essentially, by voluntary enlistments, before the period assigned for drafting. Already New Ipswich, (the first) New London, Hooksett, Hillsboro' and Deering, have filled up, and reported the men required, and Concord, Amherst, and other towns, making good progress.—Massachusetts is first in her very liberal encouragement. Indeed the great bounties of the General and State governments cannot fail to show the rebels 300,000 new determined volunteers, should they be enabled to exist as a rebel confederacy through the present winter.

A GLORIOUS VICTORY.

The Hill taken after Repeated Assaults.—The Enemy in Flight.—Capture of 5000 Prisoners.

CHATTANOOGA, Nov. 25.—We are completely victorious. The enemy is totally routed and driven from every position. The enemy's loss is heavy in prisoners. Finding Gen. Hooker so successful in his movement against Lookout Mountain, the enemy evacuated that post during the night. Gen. Hooker took possession early this morning. The enemy moved south and got on Missionary Ridge, in the battlefield, somewhere near Chickamagua. He (Hooker) is expected to intercept the flying rebels, and is said to have captured not less than 2000 prisoners in his magnificent assault on Lookout Mountain. Gen. Sherman being all prepared, began an assault at 8 A. M. to-day, on the strong position of the enemy at Missionary Ridge. He had the day before taken a hill near the position of the rebels and commanded it by their artillery. He had to descend into a valley and then make another ascent to the post held by the enemy. Two unsuccessful attempts were made by Gen. Sherman, but with the co-operation of the centre he ultimately gained the position and completed the victory. The brigade of Gen. Cass with a part of Gen. Leighar's brigade composed the storming party in the first assault. They were repulsed with quite a heavy loss. After an attack persisted in for an hour, but being reinforced, were enabled to hold a part of the hill.—In this attack Gen. Cass was wounded quite severely in the thigh. The 37th Ohio, the 6th Iowa and 100d Illinois were in the attack. A second assault was made at 1.30 P. M., in which Mathias's, Loomis's and Raul's brigades were engaged.

The force marched within twenty yards of the summit of the hill and works of the enemy, which were flanked and broke, retiring to the reserve.—In this assault Gen. Mathias was wounded, and Col. Putnam, 93d Ohio, killed. Their persistent efforts compelled the enemy to mass heavy on his right in order to hold the position of so much importance to him. About 3 o'clock, Gen. Grant started two columns against their weakened centre, and in an hour's desperate fighting succeeded in breaking it and gaining possession of the ridge on which the enemy was posted. The main force of the rebels was driven northward towards Sherman, who opened on them, and they were forced to break and seek safety in disordered flight down the western slope of the ridge, and across the Chickamagua.

We have taken not less than 5000 prisoners, and perhaps 10,000. Gen. Hooker will probably intercept the flying enemy in the vicinity of Rossville and the region east of it.

The captured artillery is reported at about 40 pieces. Gen. Hooker captured five boxes of new muskets on Lookout Mountain. We are in possession of the field. We have control over the railway and river to Bridgeport; two boats came through this forenoon. Our loss will not amount to more than 500 killed and 250 wounded, in the three days' operations. The success has been most brilliant. The enemy is reported to be bivouacking two miles beyond Missionary Ridge.

CHATTANOOGA, Nov. 25.—We have had a brisk engagement this forenoon and have driven the enemy entirely off Lookout Mountain, a considerable part of which they had held until that time. We have also taken Missionary Ridge from him this forenoon, and the troublesome rifle pits, in possession of which yesterday's engagement left them at its close.

All firing has ceased for a sufficient time to warrant the conclusion that Bragg has retreated certainly, leaving all ground and strong points in our hands, for which we have been fighting for for the last three days.

In Ward 2, Wm. B Lowd having declined serving on the Common Council, on Friday morning at the adjourned meeting in the Council room, Lewis G. Davis was elected in his stead.

Morning Chronicle.

"GIVE TO HIM THAT ASKETH THEE."

If the poor man pass thy door,
Give him of thy bounteous store
Give him food, and give him gold,
Give him clothes from thine fold;
Aid him his lone life to live,
For 'tis angel-like to give.

Though world riches though hast not,
Give to him of poorer lot;
Think then of the widow's mite,
In the holy Master's sight,
It was more, a thousand fold,
Than the rich man's hoard of gold.

Give, it is the better part,
Give to him, "the poor in heart;"
Give of love in large degree,
Give of hope and sympathy;
Cheer to them who sigh forlorn,
Light to him whose lamp is gone.

Give the gray-haired wanderer room,
Lead him gently to the tomb;
Let him not in friendless clime
Float adown the tide of time;
Hear the mother's lonely call,
She, the nearest one of all.

And the last, abandoned one,
In thy pathway, do not shun;
Of thy kindness she hath need,
Bind with balm the bruised reed;
Give, and gifts above all price
Shall be thine in Paradise.

Genuine Preparations, Viz.:
HELMBOLD'S EXTRACT "BUCHU,"
" " " SARSAPARILLA,
" " IMPROVED ROSE WASH.

HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance,
	Dryness of the Skin.

These symptoms, if allowed to go on, which frequently are the immediate forerunners, soon follow IMPOTENCY, FATUITY, EPILEPTIC FITS, in one of which the patient may expire. Who can say that they are not frequently followed by those "Horrors" Idiotism and Insanity.

INSANITY AND CONSUMPTION,
Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the mortality daily destroyed by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS, Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chlorix or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhoea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE AND DECAY OF LIFE.
SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases

HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases
In all their stages; at little expense; little or no change in diet; no inconvenience.

AND NO EXPOSURE.
It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter*

Thousands upon Thousands
WHO HAVE BEEN THE VICTIMS OF QUACKS,
and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE
HELMBOLD'S EXTRACT BUCHU
For all Affections and Diseases of
The Urinary Organs
Whether existing in *MALE OR FEMALE*, from whatever originating, and no matter
OF HOW LONG STANDING.
Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,
And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!
Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla,
SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Glands, the Nose, Eyes, Throat, Windpipe, and other Mucous Membranes, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.
An excellent Lotion for Diseases of a Syphilitic Nature, and in combination with the Extract of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, renders a cure in most instances.

Evidence of the most responsible and reliable character will accompany the medicines.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any persons desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good, and can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most inveterate cases of
GONORRHOEA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal disease, such as Pain in the Bones, Joints, Gonorrhoea, Ulcers, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Blotches, Pimples, Eruptions, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.
Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded, viz: Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and vigor.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of the case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Diagnosis Chlorosis or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and specify relief guaranteed in a few days. An invariable cure is now made of the most obstinate complaints yield under it, and the afflicted are restored to vigorous health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which attracts patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1862. eodly

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plates which renders it equal to the old-fashioned brick oven for particular in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from passing to the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove; as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—as all who use it know—the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given quantity fuel and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former models, while others have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass of into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe of flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire can be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert H. Hatch, Esq.,
Aaron M. Hill,	Charles H. Bentley,
Henry F. Wendell,	John Sise, and others.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless substance, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious effects to call and be convinced.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. HERSEY, for particular success in extracting teeth. They have extracted teeth without pain to perfect satisfy, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

VOL. 23. PORTSMOUTH, N. H. MONDAY NOV 30 1863. NO. 128.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every inn fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged. Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

ARTFUL DODGES.—The Portland Advertiser gives two or three examples of sharp practice, one of which is that of a stranger who called at a tailoring establishment, and, as he entered, addressed the proprietor—"How do you do, Mr. ——?" "Really, sir, you've got the upper hands of me. I don't know you!" "Don't know me?" exclaimed the stranger. "Why, I've been fishing with you many a time up in Windham and thereabouts." "Have you?" said the proprietor. "Yes, and I want my coat fixed," was the reply, "the buttons and button holes repaired." "Taint worth fixing," said the tailor. "Well, I thought I would have it fixed up a little. It will do to go out fishing in, you know. How long will it take to do it? If it should take over an hour I shall not want it done." "I can do it in half an hour," said the tailor. "By the way," said the dodger, "I have got to go down to the bank, and shall want a coat to wear." "There is mine, take that," said the obliging proprietor, "and a better one you never wore in your life." The stranger took it, and went to the bank, it is presumed, but never returned to get his old coat.

And yet another. A man went into a certain boot and shoe store, and after dickering about a pair of boots, which he had on his feet, trying to beat down the shopman, another man entered the store, apparently in search of the first comer. The last man went up to the customer and struck him a blow in the side of the head. The customer looked up to the shopkeeper and asked "would you stand that?" The shopkeeper said, "No, sir;" at which the customer returned the blow, and the first assailant retreated to the door, followed by the customer and shopkeeper, the latter of whom said to the man who had the boots, "Go in!"—and he went in and went off, and that was the last he ever saw of his man or his boots.

☞ A shocking murder took place in a cab in the streets of London on the night of the 7th inst. Between night and nine o'clock a man called a cab at the Great Eastern Railway Station and got into it with a woman and two girls. They had not gone far when he stopped the cab and desired the cabman to bring a pint of ale, which was handed in, and drunk by the inmates of the cab. On reaching Holborn hill the cab was stopped again, and the man got out, professed to have an appointment, but paid the fare for the others, and desired the cabman to drive them to Westbourne grove. On opening the door to let them out, the cabman was horrified to find that the females whom he had seen enter the cab a few minutes before in full health, were all lying dead at the bottom of the cab. The man is supposed to have poisoned them by mixing prussic acid in their drink.

THE NON-RESISTANTS TRIUMPHANT. It is stated that three Quakers, or other non-resistant conscripts from Vermont, and two from Massachusetts, including C. G. S. Austin, of Nantucket, have been "dismissed until called for," and sent home, from the Army of the Potomac, it being impossible to make soldiers of them. Austin was in the front, in the 22d regiment, two weeks, sick all the time, lost fourteen pounds in weight, and was then sent to hospital at Washington.

Brigham Young boasts that he can see more gold and silver from the door of his house than would equal the whole currency of the world. These mines are not allowed to be opened. The effect would be, according to Brigham's ideas, to bring near the "City of Saints" a large mining population, which he would find exceedingly hard to rule.

— There are more sewing machines manufactured in the State of Connecticut than in any other State in the Union; 39,268 have been thrown into market in a single year, and probably more have been manufactured in Bridgeport than in any town.

Singing Schools.

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.

JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has enjoyed her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease mentioned. Yours, &c., I. CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26d

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for those diseases offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been treated in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a Friend to counsel and a Physician who has treated thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. DR TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, containing hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Swett's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. (In the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from A. M. 10 to 2 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

MONDAY, NOVEMBER 30, 1863.

THE REBELLION.

Gen. Grant's victorious troops are following Bragg's crumbling army, and still making captures. The road along which Bragg is retreating is lined with jeaisons, wagons, commissary and medical stores. The prisoners say it is impossible for the rebel leaders to make their men stand. Our losses in the three days' fight, it is said, will not exceed 3000.

Col. Lang's cavalry command returned to Chattanooga on Friday night, from a raid to the East Tennessee Railroad. They destroyed the road 15 miles above and below Cleveland; burned a rebel foundry at Cleveland, where large quantities of munitions and 100 wagons loaded with baggage were stored, and captured 80 prisoners.—Col. Lang was attacked subsequently by a superior force of infantry and artillery, but succeeded in bringing his prisoners off.

A special dispatch states that Longstreet has not made any heavy assault upon Knoxville, acting as if he considered his force not heavy enough to hazard a serious battle. Gen. Wilcox with a column of troops is rapidly marching to Burnside's relief. The rebel cavalry are between Cumberland Gap and Knoxville, but communication is still open. Another dispatch gives a report that Longstreet has raised the siege of Knoxville.

Gen. Meade crossed the Rapidan on Friday, but the report of a battle was false. The rebels seem to have made little opposition to his crossing. They were discovered in force, but contracted their lines and fell back from the river.

BY TELEGRAPH, SUNDAY.

Gen. Grant, in commencing the battle of Chattanooga, drew up his men as if for review, and the rebels looked on it as such until their pickets were driven in and Gen. Thomas with 25,000 men was in their first line of rifle pits. That night communication was established on the Tennessee river and steamers were conveying troops across all night. Gen. Hooker captured 2000 prisoners in scaling Lookout Mountain.—On the night of the 25th, Bragg retreated toward Dalton, Ga., destroying the railroad and bridges. Gen. Sherman is in pursuit of the scattering forces. Gen. Burnside is relieved from danger, Tennessee and Kentucky are rescued, and Georgia is threatened in the southeast. Our loss in killed and wounded is about 2500.

No news had been received from the Army of the Potomac up to Saturday night. On Friday Lee retreated towards Orange Court House, falling back some 10 miles beyond the Rapidan.

The rebel Gen. John Morgan and six of his officers escaped from Columbus prison on Friday night by digging from their cell into a sewer leading into the river. They have not yet been caught.

The New Orleans Era has a dispatch from Mobile papers of the 18th, stating that Charleston had been burning 63 hours, and that Gen. Gilmore's shells were making it worse. [This is among the desirables but also among the impossibles: we have had later advices.]

The news from Gen. Banks continues to be good. He has captured Corpus Christi, and several other places. A strong Union feeling is showing itself in Texas. The rebels are endeavoring to concentrate a force on the Mississippi, above Port Hudson, to impede navigation on that river.

☞ The rebel steamer Sumter is reported to have arrived at Bermuda, Nov. 17, from Wilmington, with 350 bales of cotton. She reports that four steamers from Bermuda and seven from Nassau have been captured off Wilmington within a short time. The Sumter is painted black, and is bound to Liverpool, where she expects to receive an outfit and resume her old trade of pirate.

— A couple of young men, in Chesterville, Me., who wanted to see how a man looked when he was scared, met a man in the highway and demanded his money. Hence arose the reports of highwaymen operating in that vicinity. If an officer should overhaul them, they might see how a man feels when he is scared.

— Among the novelties of the age is a seedless apple. A tree has been found in Duchess County, New York, bearing this fruit. There are no blossoms; the bud forms and, without any show of petals, the fruit sets and grows entirely destitute of seeds. In outward appearance the apples resemble Rhode Island Greenings.

— The Glasgow Emancipation Society having memorialized Earl Russell in regard to the suspicious character of the recently launched steamer Pampero, formerly known at the Canton, insinuating that she is another Alabama for the Confederates, Lord Russell acknowledges the memorial and says the attention of the Government has been already directed to the matter.

NEW HAMPSHIRE ITEMS.

—— A man in West Concord realized $80 from the sale of chestnuts gathered by himself this autumn.

—— Quite an extensive revival of religion is in progress in the Free Will Baptist Church in Rochester.

—— The 14th N. H. V. is ordered from its encampment into barracks, preparatory to a movement for field duty in the West.

—— Hon. Asa P. Cate, of Northfield, recently fell some fifteen feet in his barn, and was considerably hurt, but no bones were broken.

—— Hon. E. A. Rollins, of Somersworth, has so far recovered from a run of varioloid as to be again at his responsible post of Cashier of the Internal Revenue Department.

—— A new Temperance Society has been organized in Newport and is ready for work. On Sunday last, in the afternoon the Clergymen of the several Churches delivered discourses on the subject of Temperance.

—— The Lebanon Free Press says:

Ex-Gov. Berry was in town on Thursday, looking hale and hearty. We understand he is about to sell his property and remove out of the State or to some other location in the State. We have heard it intimated that Lebanon is among the places he has in view. We should be glad to welcome the Ex-Governor among us.

—— Great activity is witnessed daily at the office of the Provost Marshal of the 2d District, Ex-Gov. Colby. Its quota is 1129, and on Tuesday night 350 recruits had been sent into camp. The following towns have answered the Government call on the last 300,000: New Ipswich, New London, Hookset, Milford, Hillsborough, Deering, Wilton, Webster, Bow and Andover.

—— A week ago last Monday morning Capt. Blodgett of Hudson went to procure some money from his trunk, when he was unable to find either trunk or money. After a diligent search the trunk was found broken open behind a haystack in the vicinity of the house. A pocket book and bag of change containing $120, had been taken but another pocket-book containing $380 in large bills escaped the notice of the villian, and was left behind. No trace of the robber has yet been found.

—— A call has been issued for a State Convention, to be holden on Wednesday, Jan. 6, 1864, at the Phenix Hall, Concord, of delegates representing all the people of the State of New Hampshire in favor of sustaining the National Administration in the vigorous and effective prosecution of the war against treason and rebellion and of maintaining at all hazards, in their original integrity, the Constitution and Union of the United States, for the purpose of nominating candidates for Governor and Railroad commissioner, to be supported at the ensuing State election.

—— The Concord Statesman says:—

There is reason to believe that henceforth the post-office waiting room in Concord is to be a place into which females and all other quietly disposed people will have courage to enter. For a long time it was the scene of much rudeness on the part of those who went thither to occupy the floor, block up the doorways, and scuffle with each other. Placards have been printed and posted in the room, and if the reasonable requests therein made by the Postmaster are not complied with, the police are desired on these posters to exercise their authority. The lobby has at times been a place whence people made a precipitate escape after transacting the errand for which they went thither.

—— A fire broke out in the large wood sheds belonging to the Concord and Claremont Railroad, at Contoocookville, Thursday night about 11 o'clock. There were in the sheds about 700 cords of wood, just put in, and a part of it being green the progress of the fire was slow. There was but one hand engine in the place, but through the exertions of the citizens, including the ladies, the fire was confined to the sheds until a fire-engine arrived from Concord by railroad. It was an extremely hot fire, and at 10 o'clock Friday morning it was still burning, the depots, which are but the distance of a double-track from the sheds, being protected only by being continually wet by the engines. Mr. Stearns estimates the loss at about $3,500—$2,500 of which is covered by insurance. The origin of the fire is unknown, though supposed to be the work of an incendiary.

☞ A General Order just published by the War Department states that satisfactory evidence having been produced to the War Department that a bronze equestrian statue, unlawfully taken from a private house in Fredericksburg at the time of the capture of that place by the Union forces, was the private property of Dr. Douglas Gordon, of that city, it is ordered that it be restored to Mrs. Annie C. Thomas, the sister of Mr. Gordon, who has made application therefor. It is very possible that much other property "unlawfully" taken will be looked up.

Dean Swift was once called to preach a charity sermon. He read his text, which was in these words: He that giveth to the poor lendeth to the Lord; that which He hath will He repay him again. "My hearers!" said the Dean; "you mark the offer. If you like the security, down with your dust!"

— Congress assembles on the 7th of December.

— Gen. Buford goes West, to take charge of the cavalry at Chattanooga.

— Hon. Frederick W. Lincoln has been renominated for Mayor of Boston.

— Rochester, N. Y., is quite a place.—Seventy two trains leave there daily.

— The Lindell Hotel, just completed in St. Louis, is the largest hotel save one in the world.

— An exchange says a man bound over for trial, "fortified his bail and left for parts unknown."

— A large bail for public purposes has recently been built in Searsport, Me., by a company of citizens, at a cost of $7,500.

— The Detroit Tribune mentions the recent launch at that place, of a vessel built for the Detroit and Liverpool trade.

— The Russian officers have subscribed $4500 to furnish fuel for the poor of New York City.

— It is said there will soon be enough colored troops on the Mississippi to guard the whole river and garrison the towns.

— On the 4th of July Gen. Grant announced the surrender of Vicksburg; on Thanksgiving Day he announced the defeat of Bragg.

— The mother of General Winder, provost marshal of Richmond, was arrested in Baltimore on Saturday last, for corresponding with the rebels, and will be sent South.

— The Biddeford Journal, after stating that "Alfred was the *first* town in York county to fill its quota," gravely asks "what town will equal this?"

— The largest vote ever polled in Delaware, for any candidate, has just been returned for Mr. Smithers, the Union candidate for Congress.

— Gen. Grant has captured within the last seven months four hundred and twelve rebel cannon, including sixty taken this week before Chattanooga.

— The armament of the steam frigate Niagara is to be changed in some respects. The two hundred pounder Parrott guns on the spar deck are too heavy.

— Thaddeus Bolter a deserter and thief was arrested a few days since at Eddington Pond and lodged by the Provost Marshal in a very tight place.

— Fourteen blockade runners have arrived at Nassau from Wilmington alone since October 28. A new blockade runner from Greenock, the City of Petersburg, had arrived.

— Merino sheep from Vermont have just been shipped for Australia. They were sent for by sheep-farmers in "the bush" as the best that could be found anywhere.

— C. W. Hall, a horse contractor for the Government, has been sentenced at Cincinnati to an imprisonment of six months, and a fine of ten thousand dollars, for frauds in purchasing horses.

— One county in New York has sent to market this season 400,000 barrels of apples, which netted to the raisers three quarters of a million dollars. Another county has shipped 288,000 barrels.

— A Democrat who has been somewhat prominent in this State, is reported recently to have said: "The people of this country are determined to kill slavery, and we may as well go in for it first as last."

— A New York baker made a mammoth loaf, 12 feet long, and presented it to the large family of hungry little folks at the Five Points on Thanksgiving day. The loaf contained one barrel of flour.

— Moseby, with a force of cavalry, on Thursday night, captured a train while it was moving from Brandy Station to our front. He secured 15 of the wagons, and 139 mules, and burned 19 wagons loaded with oats.

— The N. Y. Herald's Washington dispatch says Gen. Grant has discovered large numbers of paroled Vicksburg rebels among his prisoners, and has telegraphed to the President to know what to do with them.—The army says shoot them.

— A boy was nearly drowned near Houlton, Me., a few days since, being precipitated into the water through a defective plank in the Maduxnekeag bridge. A bridge that labors under such a name as that, ought to have strong timbers.

— The French Government have informed Mr. Dayton of their views on the American question, and that they had not recognized the South; consequently they had not signed any treaty for the acquisition of Texas and Louisiana, as reported.

— Mrs. Semmes, an aunt of Capt. Semmes, has been arrested in Baltimore with her daughter, and both have been held to answer the charge of an attempt to poison the United States Surgeon of West Building Hospital, to whom, it is alleged, they sent a bottle of wine drugged with arsenic.

— The following singular announcement appeared in the New York Herald: "Six bridesmaids and groomsmen wanted, by a couple about to be married, who have but a few friends in this city, and wish to be handsomely united. To respectable parties a fair compensation will be given. Address," &c.

— The Empress Eugenie, in Seville, wore the Spanish costume of that part of the country—the long black veil, high comb, long gold pins with large knobs at the end in the hair, embroidered corsage, wide skirt and fan.

Challenge Accepted.

The challenge given out in last Wednesday's Chronicle for a boat-race, is accepted by a crew of practical oarsmen from Eden, who will be ready to row the well-known clipper boat GAZELLE, which is now fitted for twelve oars—some difference from eight, which we rowed with when you claimed to have beaten us with fourteen oars. The race may take place any time after MONDAY, Nov. 30, 1863, as we want a little time to instruct the Rooster not to squak, as you have done twice. May you not back down the third time!

Music may be expected at the race, by the Rooster.

We choose to row the distance of twelve miles. Please state the day.

Peremptory Sale
—OF—
Valuable Wood and Timber Lands.

I shall sell at Public Auction, by directions contained in the will of the late John Ferley, deceased, on WEDNESDAY, the ninth day of December, 1863, at 10 o'clock A. M., on the premises,

One hundred and sixty-six acres of Land, situate in the towns of Auburn and Candia, N. H., about one mile from the station of the Concord and Portsmouth Railroad in Auburn, and five miles from the city of Manchester. This land contains a heavy growth of hard wood, interspersed with oak timber, and will be offered in two lots.

At 3 o'clock P. M. on the same day, after the above sale, will be sold on the premises, a Lot situate in Auburn, on the highway near the residence of Mr. Geo. W. Severens, about three miles from the Massabesic station of the Concord and Portsmouth Railroad. This lot is covered with a thrifty growth of chestnut, oak and pine, and contains thirty-eight acres.

Terms of the sale are cash. Ten per cent of the purchase money will be required to be paid on the completion of the sale, and the balance within thirty days, within which time the deeds will be ready for delivery.

Plans of the lots may be seen at the dwelling-house of Mr. JOHN MOORE, in Auburn, and at the office of SAMUEL N. BELL, Esq., in Manchester.

The quantity and quality of wood and timber upon these lots, their situation near Manchester, and the facilities for reaching good markets by the way of the railroad near which they are located, commend this as an opportunity seldom offered for a remunerative investment.

The sale being expressly provided for in the will of the deceased, and in accordance with his directions ordered by the Trustees, will be positive.

For further particulars inquire of MOSES DORMAN, Roxbury, Mass.; JOHN KILLAM and GEO. W. CHAPLIN, Georgetown; C. H. TOWNE, at Naumkeag Bank, Salem, Mass.; or of WILLIAM H. HACKETT, Auctioneer.

Brown's Bronchial Troches FOR **Coughs** AND **Colds.**

A NEGLECTED COUGH OR COLD, AN IRRITATED OR SORE THROAT, if allowed to progress results in serious Pulmonary, Bronchial and Asthmatic Diseases, often times incurable. BROWN'S BRONCHIAL TROCHES reach *directly* the affected parts, and give almost immediate relief. For BRONCHITIS, ASTHMA CATARRH and CONSUMPTIVE COUGHS the Troches are useful. PUBLIC SPEAKERS and SINGERS should have the Troches to clear and strengthen the Voice. MILITARY OFFICERS and SOLDIERS who overtax the voice, and are exposed to sudden changes, should use them. Obtain only the *genuine*. "Brown's Bronchial Troches" having *proved* their efficacy by a test of many years, are highly recommended and prescribed by Physicians and Surgeons in the Army, and have received testimonials from many eminent men

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 6 to 8 Pills, to *get a* decent cathartic, was the study in the development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and shows how one can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. ap30

PORTSMOUTH LYCEUM.—The present association for the Portsmouth Lyceum contemplate as good a course of lectures as the means furnished them by the public will allow; it will, therefore, be understood that the quantity and kind of the lectures will be somewhat the choice of the public, as the Committee will spend all the money furnished them for the benefit of the course. It is some three or more years since this city has had a Course, and what has been the result? Counterfeit negro concerts, and the like, have had the public pretty much to themselves, and the result is what might have been expected. Young folks and others need and desire entertainment, and if good is not to be obtained, they are apt to be drawn to another kind. Besides, there are a great many strangers in the city at this time, who, not being acquainted, are at a loss how to spend their long winter evenings. Perhaps they have come from places where they have been accustomed to attend a Lyceum,—and desire and expect one here. Let our own city feel that to some extent the credit of our city, in comparison with others, is at stake, and use their exertions for their own benefit and others, that we may have a good, instructive and entertaining Course of Lectures during the winter. Will all who feel interested in a Course and in the city, use their exertions? B.

☞ One of the liveliest foot-races that we have seen for a long time, came off a few afternoons since, when one of the Police Officers of this city was observed making up Congress street, in rapid pursuit of a depraved juvenile, who had escaped from the Reform School. The officer shouted, "Stop that boy," but the boy declined to be stopped, and, fear giving wings to his feet, he fled as if for life itself. But wind and muscle told, and he was finally overhauled in Vaughan street, and marched under a strong guard to the Station House.

☞ Assistant Surgeon Wentworth R. Richardson, U. S. N., is ordered to the Portsmouth Navy Yard.

☞ Kate Emery, who was committed to the House of Correction on Saturday, 21st, on a four months' sentence, escaped on Monday morning, but was retaken on Friday evening, as she was coming out of the Post Office.

☞ The Denier Pantomime and Gymnastic Troupe, will make their first appearance in this city at the Temple on Wednesday evening next. Their gymnastic exhibitions have for many years delighted and astonished crowded audiences, while their pantomimes have greatly pleased and amused. The Troupe, as now organized, is quite large, and has been highly spoken of by the press. The Denier Brothers are in no way connected with the performer of that name who gave exhibitions in this city on the 4th of July last.

THIEVING. — The Biddeford Journal states that week before last one whole washing was stolen from the clothes line of a family at Wells Beach. The matter was investigated, and it resulted in finding the clothes in the house of Horace Chaney, of Wells. A constable arrested him, and placed him under keepers for the time being. Immediately thereupon, Chaney's wife feigned a terrible fainting fit, which so attracted the attention of his keepers that he managed to escape, since which time he has not been heard from. On the next day, the 12th inst., a search warrant was served by City Marshal Tarbox, of Biddeford, who found on the premises innumerable articles, plows, rakes, spades, forty ox chains, shovels, axes, &c., &c., comprising all articles which could be collected for years, by theft from a country neighborhood. People from all parts of the town have visited the premises, and recovered articles which had been missing for a long time.—Beneath a mound of hay was discovered a boggy wagon, taken apart, said wagon being identified as the same one let to a man who hired a horse and carriage of Otis Barker, a stable keeper in Biddeford, in July last. No reason can be assigned for this system of thieving on the part of Chaney, as he is a "well-to-do farmer." In his cellar were found 200 bushels of potatoes, 10 barrels and a hogshead of cider; in the corn-house 150 bushels of corn; in the barn 20 tons of hay, 4 cows, 44 sheep, and other things in proportion. Among the articles found was a bushel basket full of schoolbooks.

The Washington correspondent of the N. Y. Tribune says, the remark said to have been ascribed to President Lincoln to the effect that "the greatest folly of his life was the issuing of the Emancipation Proclamation," is emphatically pronounced in high quarters to be altogether untrue. Of course it is. When the President has any regrets to express for what he has done towards putting down the rebellion and slavery with it, he will doubtless utter them so that all the world can hear them. Till then it is safe to assume that he is all right.—*Dover Eng.*

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

and Five Boiling Places!

At the present high prices of fuel it is very desirable to use means to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The ovens are lined with zinc, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others in Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—so that need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

Morning Chronicle.

THE COST OF COAL.—The high price of coal causes many a sigh among those whose income will only permit an indulgence in luxuries. The editor of a country exchange, shivers the cry of "Copy," and with a sorry look at the vacant coal bin, thus ventilates his feelings:

Coal! Coal!
To keep together body and soul,
The people are crying aloud for coal.
And they cannot pay when the cormorants set,
And there is no sunshine in which to bask.

Coal! Coal!
To prodigals who in carriages roll,
Think of the poor once suffering for coal,
And spare a dollar or two for those
Who have shoeless feet and threadbare clothes.

Coal! Coal!
To politicians who'd reach your goal,
Although they promise fair, yet behold!
Think of the poor men in their homes of woes;
Think of rude winter's winds and snows.

Coal! Coal!
To learned divines who'd save the soul,
There are bodies to warm, and where's the coal?
Relieve the poor in their great distress,
And labors of love a Heaven will bless!

Coal! Coal!
Be sounding soon, or the bell with toll
For those who have died for the want of coal;—
Not so—no bell—but a single breath—
With a corpse's jury—"Frozen to Death!"

A MADMAN'S HINT.—An Englishman of fortune visited a lunatic asylum, where the treatment consisted chiefly in forcing the patients to stand in tubs of cold water—those slightly affected up to the knees; others, whose cases were graver up to the middle; while persons very seriously ill, were immersed up to the neck. The visitor entered into conversation with one of the patients, who appeared to have some curiosity to know how the stranger passed his time out of doors.

"I have horses and greyhounds for coursing," said the latter, in reply to the other's question.

"Ah! they are very expensive."

"Yes, they cost me a great deal of money in the year, but they are the best of their kind."

"Have you anything more?"

"Yes, I have a pack of hounds for hunting the fox."

"And they cost a great deal, too?"

"A very great deal. And I have birds for hawking."

"I see; birds for hunting birds. And these swell up the expense, I dare say?"

"You may say that, for they are not common in this country. And then, I sometimes go out alone with my gun, accompanied by a setter and retriever."

"And these are expensive, too?"

"Of course. After all, it is not in the animals of themselves that run away with the money—there must be men, you know, to feed and look after them, houses to lodge them in—in short, the whole sporting establishment."

"I see, I see. You have horses, hounds, setters, retrievers, hawks, men—and all for the capture of foxes and birds. What an enormous revenue they must cost you.—Now, what I want to know is this—what return do they pay? What does your year's sporting produce?"

"Why, we kill a fox now and then—only they are getting rather scarce hereabouts—and we seldom bag more than fifty brace of birds each season."

"Hark!" and the lunatic, looking anxiously around him. "My friend, (in an earnest whisper) there is a gate behind you; take my advice and get out of the while you are safe. Don't let the doctor get his eyes upon you. Heducks us to some purpose; but, as sure as you are a living man, he will drown you."

The gentleman looked serious as he passed on. Perhaps he thought that he was as mad as the inmates of the asylum.

— Canadian shipments are being made of grain to Montreal, but barley is the chief export trade at present, and that to Oswego. The bountiful harvests in England have almost put a stop to the foreign export trade; even the potato rot in Ireland has not increased the trade.

— The fugitive slave law is now and then enforced in Washington. A case occurred on Saturday in which a negro boy was claimed by a citizen of Maryland. The owner, on taking the oath of loyalty, and proving ownership, had his slave returned to him.

THE ALL SUFFICIENT THREE,
The Great "American Remedies"
Known as "Helmbold's."
Genuine Preparations, Viz.:
HELMBOLD'S EXTRACT BUCHU.
" " SARSAPARILLA,
" " IMPROVED ROSE WASH.

HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND
DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and exerts the Kidneys into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for Men, Women, or Children.

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excessive Use of Stimulants, Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:
Indigestion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Wakefulness, Horror of Disease, Pale in the Face, Dimness of Vision, Flushing of the Body, Universal Lassitude of the Muscular System, Pallid Countenance, Hot Hands, Dryness of the Skin.

These symptoms, if allowed to go on, which unless arrested, invariably terminate, soon follow INFIRMITY, FATILITY, EPILEPTIC FITS, in one of which the patient may expire. We quote cases that they are of frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess it. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of this assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of a tonic to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequaled. In any other remedy, as in Chlorie or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Inflammation, or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.
SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous disease.

HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases
In all their stages; at little expense; little or no change in diet, no exposure, no hindrance from business, AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, relieving pain and inflammation so frequent in this class of Diseases, and expelling Poisonous, Diseased and Worn out Matter.

Thousands upon Thousands
WHO HAVE BEEN THE VICTIMS OF QUACKERY,

and who have paid *heavy Fees* to be cured in as short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been driven up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE
HELMBOLD'S EXTRACT BUCHU
For all Affections and Diseases of
The Urinary Organs
Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter
OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!
Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla,
SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Lindings of the Nose, Ears, Throat, Windpipe, and other Mucous Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, or the reverse. Helmbold's Extract Buchu and Sarsaparilla, in such diseases are recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require but winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any persons desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good timepieces as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar more than the price asked for the clock. They will be set up in any part of the city, and regulated without extra charge.

SPEER'S SAMBUCI WINE.
PURE AND FOUR YEARS OLD.
OF CHOICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE OF PORTUGAL.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial properties, as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in Hospitals and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Physicians, as the best and possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and for aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and the steam heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. Fire is regulated at the same time as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

Improvements in air by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The communicable heat being lighter than the air, goes off into the pipe or chimney without being consumed. The objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the grate, which renders them as they pass off from the coal, thus saving at least 20 per cent of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe of flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of heat, thus generally making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus obstructing, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give more satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron McMill, "	Charles H. Mendum, "
Henry F. Wendell, "	John Hale, " and others.

DENTISTRY.
No. 60 CONGRESS STREET,
Portsmouth, Aug. 1st, 1863.
DR. GOODALL,
Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.
Teeth inserted on Gold and Silver, and all other operations performed as usual.
Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas.
He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.
I would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.
I take pleasure in referring the public to Dr. TRASK'S CIRCULAR, Dr. BOARDMAN'S, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth; Teeth extracted without pain, and with perfect success, with Teeth, Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.
Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

"SAD COMMENT ON FAST LIVING.—An old man, who has been living in the most abject poverty for several years, vibrating between Worcester county and Berkshire, Massachusetts and Connecticut, as he was shifted by selectmen, who wished to clear him from their precincts, has at last found a refuge, but perhaps only a temporary one, in the State Almshouse at Monson. Forty years ago, this same man did a heavy grain and shipping business, and was among the most influential and respected of the merchants of the Metropolis. About the time of the completion of the Erie canal, he, with others, conceived a grand scheme of doing an immense foreign trade; and went to Europe, taking most of his wealth with him. Family affairs did not run smooth, and he gave up his grand project, went to London, led a gay life, was feasted by lords, became very intimate with the household of a noble earl, and was presented at court by the American minister.

Afterwards he crossed to Paris, where some imbroglio obliged him to accept the challenge of a fighting marquis, who sent a ball through his right arm; but our pauper being a poor shot, severely wounded his own second instead of the marquis, and had to leave that city. Then he went to Munich, and made love to a niece of one of the royal families, was accepted, got drunk at a palatial ball over his conquest, made a bad thing of it and left Munich with dispatch. He continued in his excesses, gambled away all his property, was a vagabond in England a few years, then in New York, and then throughout western Massachusetts. His life is a sadder comment on fast living than was ever written.—*Trav.*

☞ A letter from the Army of the Potomac says that a few days since a private employed as blacksmith at headquarters got drunk on his ration of whisky, and took occasion while in pugilistic mood to approach Gen. Meade with a point blank challenge to single combat, asseverating in vigorous terms and in an expressive manner, his perfect confidence in his ability to vanquish the commander-in-chief "or any other man," and insisted on the General to "peel" and defend himself. The General ordered the hydropathic treatment, and it proved effectual and soothing to the smithy.

THE PRESIDENT'S HYMN, written by Dr. Muhlenburg, of New York, was sung with fine effect in many of the New England churches Thanksgiving day. We have heard of only a single instance of objection to the grand lyric. When it was announced in the First Presbyterian Church in Newburyport, one of the Copperhead deacons rose in his seat, and turning to the Chairman of the Music Committee, who occupied an adjoining pew, inquired by what authority that hymn was to be sung. He was answered, "By the authority of the Committee;" whereupon he took his hat and indignantly left the church. It is to be hoped that he will not stop on his march until he reaches the confines of that Confederacy with which he is so noted a sympathizer.—*Transcript.*

— One of the Russian officers attached to the flagship is about to marry the daughter of one of the merchant princes of New York. It is said that the ceremony will take place at the Trinity Church this week, and that the reception, at the residence of the bride's father, in Lexington avenue, will be on a scale of magnificence that will astonish the natives.

☞ Perley telegraphs from Washington to the Boston Journal as follows:

The Army Surgeons from the Libby Prison have addressed a memorial to the Secretary of War, setting forth the terrible treatment of the Union prisoners at Richmond. Deaths among them are estimated at fifty per day, and all are so destitute of clothing that cold weather will cause intenser suffering among them. Among the soldiers is Assistant Surgeon A. M. Palmer of the 1st Maine. A similar memorial has been addressed by returned Naval Surgeons to the Secretary of the Navy.

It is believed that the food sent for the prisoners at Richmond has not been distributed to them.

Some of the English peasantry took the recent earthquake for a sign that the world was coming to an end, and packed up to emigrate to America to avoid the calamity.

EYE, N.H., Feb. 26, 1845. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for sarsaparilla syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1863.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often wondered up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and prompt cure, to be obtained at no other office in America.

In Pills, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married life, are notified that in consulting Dr. J. Teller, they will find a Counsellor and a Physician who has cured thousands, in almost every part of the United States, who applied to him, and who broken down in health, now rejoice in all that makes life desirable and man happy. The readers of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

TUESDAY, DECEMBER 1, 1863.

THE REBELLION.

There was no fighting between Grant and Bragg on Saturday. The latter is concentrating his army at Dalton, Ga., with a view of making a stand. He recalled Longstreet from before Knoxville by an order dated the 25th and that officer is endeavoring to join him by a circuitous route. Reports from Knoxville to Wednesday state that the north part of the town had been burnt, including the railroad depot.

The N. Y. Times's Washington dispatch says the official statement of our losses at Chattanooga on the 23d, 24th and 25th, in storming Lookout, were 3000, and at the assault on Mission Ridge about 200. Our wounded are all under cover and well taken care of. Hospital and all other supplies are abundant.

We have but little from the Army of the Potomac as it is out of the reach of the telegraph. Telegraphic communication is to be opened to-day (Tuesday.) Dates are to Saturday noon, up to which time there had been considerable skirmishing, with some loss; it is reported that the rebels' left wing had then been cut off from their main army. Lee is reported to be gradually falling back, and from appearances would attempt to make a general stand at Hanover Junction or Gordonsville, the base of rebel supplies.

It is said that Gen. Meade in his present movements is left to exercise his own discretion. His supplies and forage will not be exhausted until after the 10th of December.

☞ A refugee from Richmond, recently received into our lines and now confined in the Carroll prison at Washington furnishes the following estimate of the present force of Lee's army:

Ewell's corps, now commanded by Early, from 20,000 to 21,000 infantry and 6 batteries of artillery; A. P. Hill's corps 20,000 infantry and 5 batteries of artillery; Stuart's cavalry 8000 and 2 batteries of flying artillery, making in all 41,000 infantry, 8000 cavalry and 78 cannon, provided the batteries are all complete. He also confirms the death of the rebel Gen. Posey, and says Ewell has retired to Charlottesville on account of ill health.

— Gen. Banks opened a recruiting office in Brownsville, and on the first day over one hundred Texans enlisted.

— In the coming draft, young men of defective vision, who can't see the point of a bayonet, are to be used to feel the enemy.

— The fate of the insurrection in San Domingo is still undecided. No fighting has taken place recently.

— A man in Poughkeepsie, N. Y., within three weeks has been drafted, married, and burned out. He might have recovered from the draft and the burn; but the marriage settled him.

— The New York Commercial says that about 1,500,000 yards of prints, bought last Thursday and Friday, in expectation of an advance, are now being sold by the jobbers at an average of one cent below manufacturers' prices.

— A commission of competent Engineers has, by direction of the Secretary of the Navy, made a thorough examination of the iron-clad Sacramento, now lying at Washington, and pronounced her in all respects seaworthy.

— Gen. Meredith telegraphs from Fortress Monroe that he has every reason to believe that the goods sent by individuals and the Sanitary and Christian Commission are delivered to our prisoners; and he suggests that as much be sent as possible.

EDITORIAL JOTTINGS.

In our hurried notes on a trip to Lawrence the other day, we omitted to mention a couple of incidents, pleasant to us at least, and suggestive of a "reflection" or two. Meeting Phil Butler, the decorative painter and artist, on Essex street, we learned that he was just finishing the fresco work of a new Masonic Hall, and accepted his invite to visit it. Everything was tasteful and well done, and the new hall a credit to all concerned, and we have no doubt well adapted to the (to the uninitiated) mysterious uses for which such places are designed. One good thing, at any rate, about this Lawrence hall,—the fitting of it for Masonic use, did not deprive the public of the only decent sizeable hall for dances and other social gatherings, as was, alas! the case in Portsmouth, when Congress Hall was allowed to be used thus, owing to a sad want of public spirit, on the part of somebody—we don't know or care who. Fortunately, a couple of good halls, but smaller, have since been built—but Portsmouth needs a nice large public hall more than any similar place in the world, we guess.

Prof. B. F. Baker of Boston—he who stands in such high esteem there, and almost everywhere else; but whom a certain would-be-critical singer in *musical* Portsmouth, did actually once speak slightingly of in a place somewhat public—this Prof. Baker, at once one of the most courteous and genial of gentlemen, as well as most accomplished, popular and successful of musical instructors, was holding a Musical Convention at the elegant and spacious City Hall in Lawrence, the day we were there. [Alas for another contrast with our Portsmouth City Hall!] Of course he was employed by some society or association of singers,—for these Conventions are always managed thus.

And this reminded us of the times, years ago, when certain lovers of music undertook to create or revive a public interest in the cause in Portsmouth and vicinity, by Conventions, and otherwise—with what success? Musically, let our waning public singing, and our feeble and yet dwindling church choirs tell. Pecuniarily, it is enough to say now, that the three annual Musical Conventions in Portsmouth, cost the writer of this, and a certain (then new) teacher of music here, not less than $400, (yes, four hundred dollars!) over and above all receipts; and that a couple of similar Conventions here and in New Market, afterwards, cost somebody another hundred or two over receipts! The writer hereof had the honor to be chosen Treasurer of the Association which held these Conventions; and as the Constitution made it his duty to "pay all bills," he has not since that time recommended the Secretary to call another convention. Not that we objected to the expense, if these admirable schools of singing had borne fruit commensurate with their cost of time and trouble; but nothing seems capable of rousing our people from their musical lethargy, and we prefer to aid the cause of music in other ways. Let the musically deaf bury their own dead. For our part, we can only mourn over their decease.

The Convention at Lawrence by invitation entered the High School, and sang with the scholars. [They think it worth while to teach singing in the schools of Lawrence.] Business allowed us to make only a brief visit to the City Hall—but there stood Prof. Baker, exactly as of old, the first time we saw him at Bath, Me. We had been driving down east for a week or two, with a friend, eight or ten years ago; and seeing at Brunswick a notice of a Musical Convention to be held at Bath, (they have them everywhere, *almost*,) we left our team for a day, and took care for Bath. A very pleasant occasion it proved, and the acquaintance there and thus begun with Mr. Baker, has been most intimately and agreeably continued—and on our side at least we hope not unprofitably, though pecuniarily we never reaped benefit from it, nor did we ever hope, nor do we ever expect, to make money from music—*for* which cause we trust we shall never feel to poor or too mean to invest at least one hundred dollars per year in its public dissemination, at least so long as it remains at the present lamentably low condition in our good city.

PHYSICAL CULTURE.—The "Normal Institute for Physical Education," Boston, incorporated in 1860, and under the management of Dr. Dio Lewis, will open its Sixth Session on the second of January. The demand for teachers of the new gymnastics has become such, that the last class of graduates, consisting of fifty ladies and gentlemen, were at once engaged, and has drawn more might find profitable employment.—Well-known medical men assist in preparing the pupils to act as guides in physical culture. In the department of gymnastics Dr. Lewis personally trains every candidate for the new profession. If any reader would know more of this pioneer institution in a new and noble profession, let him or her send for a full circular to Dr. Dio Lewis, Boston.

NEW HAMPSHIRE ITEMS.

—— A boy, 14 years old, was before the Manchester Police Court on Friday, for drunkenness.

—— We notice among the new counterfeit 10's on the Cocheco Bank, Dover—imitation; Vulcan, cars, buildings, &c.

—— Among the prisoners at Columbia, S. C., on the 8th of November was Lieut. Col. John Bedel, of the New Hampshire 3d regiment.

—— A farmer in Claremont recently placed eighteen fine chickens in a close box to have them ready caught to prepare for market in the morning, but on going to take them out found sixteen of them had been smothered.

—— On Monday, the publishing control of the Manchester American was resumed by Mr. S. D. Farnsworth, the proprietor.—He will be assisted in the editorial department by Hon. Walter Harriman, of Warner with whose effective and fearless service in the Union cause, both as a writer and speaker, the public are already acquainted.

—— The barn of C. C. Converse, Esq., of Rindge, was burnt Nov. 17th, with all its contents, consisting of thirty tons of hay, three sets of harnesses, blankets, &c., together with seven horses, valued at 100 to 300 dollars each. One horse, valued at $500, was saved, with ten colts which were in the barn when the fire was discovered. The horses burned were owned in Boston. Mr. Converse's loss is estimated at $1000. Insured for $200.

OUR SUBSTITUTE.—It is a maxim in law, that "what a man does by an agent, he does himself," or is accountable for. So, for the benefit of whom it may concern, and especially for the edification of the slang-whanging editor of the *dis*-Union sheet of this city, we may mention that *our* sub being evidently a better soldier than his principal would make, the cause which both have at heart suffers no detriment by the exchange. A letter received from said substitute, Saturday, mentions some things which may be of general interest, especially to those who sent substitutes in the same party with him: and it also shows that *all* the substitutes are not such sorry rascals as some folks would have us believe. F.

FORT TILLINGHAST, Camp near Portsmouth, R. I., Nov. 21.

DEAR FRIEND:—It is with pleasure that I write these few lines, according to promise. The next day after leaving you, we proceeded to Concord Camp; from there to Long Island, Boston; then embarked for Portsmouth, Va., Oct. 1st, on board the steamer Forest City. When about two days out, we experienced very heavy weather; we thought we would not see land any more. Saturday, Oct. 3, we came in sight of Fortress Monroe. It was a grand sight to behold; all along the river for miles were war steamers awaiting orders. Sunday, Oct. 2d, we landed at Portsmouth, on the old Virginia shore.—We next took the cars for six miles, and finally entered on the busy scenes of camp life.

I am at present stationed at the above mentioned Fort, to do garrison duty, drilling on big guns; and no one has the remotest idea of what a soldier's life is composed. You may think a little, and yet know in reality the one thousandth part. A few weeks ago, two deserters were shot, and I, along with all the regiments belonging to our brigade, was ordered to witness this sad sight. I could not help but shed one tear.

About a week or 10 days after this occurrence, the whole camp for miles around was in commotion, in consequence of expecting an attack from Gen. Longstreet.—We were ordered in the fort to man the guns about 8 o'clock P. M. The night was dark, and everything looked dismal around. We got no rest that night, only what we could catch occasionally by leaning on the guns. Morning came; welcome breakfast; "hard tack" and coffee, and glad to get it. ***But what of all this? We are only soldiers, and nobody cares for us. Who cares for the poor soldier? None.—Stop. Why, you care something; you often think of the man who has gone forth willingly to represent another in the field, to help crush this wicked Rebellion. Yes, and I hope and trust to be spared to see the day when the North and South will be one, and peace will be proclaimed all over this great country. Then I shall return to participate in the rejoicing of the Proclamation of Peace.

But again; are this reaches you, you will have participated in one rejoicing—that is, Thanksgiving day. All will have met together around the homestead hearth, and welcomed each other with hearty greetings, which none but a Thanksgiving day could bring forth. Then you think of the soldiers, and especially of the one who is now representing you in the field, and you ask yourself the question—"I wonder how my representative is getting along? I should like to know how he has spent Thanksgiving day." I must say good bye for the present, hoping to hear from you at any time—for a letter to a soldier is as good as a feast at home. From yours in true friendship,

ENGELBERT HENSLER,
Company D, 13th Regt., N. H. V.

The series of Public Lectures under the direction of the Citizens' Lyceum Association will commence, at the Temple, on
TUESDAY EVENING, Dec. 1, 1863,
and be continued through the winter.

THE OPENING LECTURE WILL BE BY
Judge Thomas Russell, of Boston;
Preceded by an Introductory Poem, by
B. P. Shillaber.

A National Overture, arranged for the occasion, will be performed by an Orchestra of accomplished musicians at the opening of the lecture, followed by selections from the Dramatical composers; and music of a high order will be furnished every evening of the course.

It is the intention of the Committee of Arrangements to make this series of lectures one of the most instructive and entertaining ever projected in this city. No pains will be spared to bring before the public the best literary talent to be found in the country.

Engagements have been effected with John B. Gough, Geo W. Curtis, John G. Saxe, Judge Thomas Russell, &c.

The association is also in correspondence with Henry Ward Beecher, Wendell Phillips, Wm. A. Alger, J. H. Siddons and Miss Cameron, Henry Morford, Miss Angela S. King, George H. Hepworth, Wm. W. Denton, Stephen Massett (better known as "Jeems Pipes, of Pipesville"), George Vandenhoff, Alonzo Tripp, de Cordova, Count Jeannes, Philip Snyder, Dr. J. G. Holland and John I. Peremptory Sale
—OF—
Valuable Wood and Timber Lands.
I shall sell at Public Auction, by directions contained in the will of the late John Perley, deceased, on WEDNESDAY, the ninth day of December, 1863, at 10 o'clock A. M., on the premises—
One hundred and sixty-six acres of Land, situate in the towns of Auburn and Candia, N. H., about one mile from the station of the Concord and Portsmouth Railroad in Auburn, and five miles from the city of Manchester. The land contains a heavy growth of hard wood, interspersed with oak timber, and will be offered in two lots.
At 2 o'clock P. M. on the same day, after the above sale, will be sold on the premises, a Lot situate in Auburn, on the highway near the residence of Mr. Geo. W. Sergent, about three miles from the Massabesic station of the Concord and Portsmouth Railroad. This lot is covered with a thrifty growth of chestnut, oak and pine, and contains thirty-eight acres.
Terms of the sale are cash. Ten per cent. of the purchase money will be required to be paid on the completion of the sale, and the balance within thirty days, within which time the deeds will be ready for delivery.
Plans of the lots may be seen at the dwelling-house of Mr. JOHN MOORE, in Auburn, and at the office of SAMUEL N. BELL, Esq., in Manchester.
The quantity and quality of wood and timber upon these lots, their situation near Manchester, and the facilities for reaching good markets by the way of the railroad near which they are located, combined, this is an opportunity seldom offered for a remunerative investment.
The sale being expressly provided for in the will of the deceased, and in accordance with his directions ordered by the Trustees, will be positive.
For further particulars inquire of MOSES DORMAN, Kingston, Mass.; JOHN KILLAM and SEO. W. CHASE, Esq., Gentlemen; J. H. TOWNE, at Naumkeag Bank, Salem, Mass.; or of WILLIAM H. HACKETT, Auctioneer.

HUNNEWELL'S ECLECTIC PILLS.—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so generally judged to be the accompaniment of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. Those solution exceeding one, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

Local.

LYCEUM THIS EVENING.—Have you purchased a ticket for the Lyceum Course? To-day is the last chance—the tickets are nearly all taken up. The subject of the lecture this evening by Judge Thomas Russell, will be—"The Wars of England for two centuries."

SINGING SCHOOLS.—On Wednesday afternoon and evening, Dec. 2d, a new Half Term of Mr. Davis' Singing Classes begins. It will be seen that the Com. of Arr. announce half-term tickets for sale at Mr. Head's. The new and popular "Harp of Judah" is the book used at the evening school.

☞ The opening lecture of the Lyceum Course is to be given at the Temple tonight,—to a full house we presume, as there surely ought to be. As for Shillaber, the poet, we shall not say a word for him; he can speak for himself. Of Judge Russell, a new lecturer here, a literary gentleman, a son of Portsmouth resident in Boston, says:—

"Judge Russell is one of the best speakers, as well as one of the best men, we have here. He is eminently a living man, and in the great questions of the day he is fully posted, and all his soul is enlisted in their elucidation. He is one of the best Judges we have ever had on the bench of our local courts. He was promoted from the bar to the bench almost as soon as he left college. He is one of the most genial and social of men, full of the kindest feeling, and I do not doubt he will give you a rich entertainment. He is a scholar, ripe and rare, and has all the *vim* that makes an orator popular."

☞ On Sunday evening, some time previous to the early hour announced for Rev. Mr. Patterson's third lecture of his course to the young, every seat in the capacious Universalist Church was occupied, and some persons were so unfortunate as to be compelled to go away for want of accommodation. The lecture, like its predecessors, was not only interesting, but true and earnest in its appeals against one of our growing evils; the subject being "Chastity of Language," and the drift of the lecturer's argument being directed not only against profanity, but also against those silly, useless slang phrases which form such unseemly excrescences on our beautiful mother tongue.

The fourth lecture, on "Business and Study," is announced for next Sunday evening, at 7 o'clock; to which there will be no need for us to urge attendants, but if the youth of the city will not only hear but *heed* the precepts evolved in these admirable discourses, the good they will have done will be incalculable.

THE LYCEUM ORCHESTRA.—The members of the Lyceum Orchestra held a rehearsal in their new gallery at the Temple, on Saturday evening last. A select audience were in attendance, who were delighted with the rendering of the pieces and the general appearance of the orchestra fixtures. The rehearsal gave perfect satisfaction to all, bespeaking a great musical treat for the lyceum audience.

☞ We are informed that there are no less than sixteen good Concert and Dance Halls in Concord; and as many as eight or nine in Dover. How many have we here in Portsmouth?

By the way, seeing that almost everybody, high or low, rich or poor, is in favor of a new City Hall—why don't we have it?—We hope our new City Council will start the matter soon after they get to work.

OF COURSE NOT.—The editor of the copperhead paper of this region, says he "does not fear the face of clay." Of course not—dough-faces need not be afraid of one another.

☞ Of the famous Denier Troupe which is to appear at the Temple on Wednesday evening, the Lowell Journal says the ball there was crowded to excess, to suit the performance. The entertainment was varied and pleasing. It consisted of songs of various descriptions, ballet pantomime, and dances incidental to the ballet. The tight rope performance of M'dlle Marietta Ravel was excellent, and some of the feats she performed, without the aid of the balance pole, were of the most difficult nature.—The entertainment concluded with the comic pantomime of the Four Lovers, or the Harvest Home. The performance gave the fullest satisfaction to the large and fashionable assemblage.

THE NEW OCEAN HOUSE, RYE BEACH. Messrs. Job Jenness & Son are making good progress with their new hotel. The floor timbers are all laid, and the frame of one wing, 75 feet long, will probably be raised this week. Contracts for much of the material are made, and Messrs. Jenness will cut 200 M. of lumber from their own wood lot not far off. They say they are determined, with the assistance of their friends and the well-wishers of the enterprise, to have the new house ready for next summer; and the travelling public will rejoice in the completion of the needed accommodations.

A POET'S TRIBUTE TO "BURNS."—Have heard it very highly spoken of, says New England's most vigorous poet. He referred not to Robert Burns, although in the matter of genius Whittier has much in common with the immortal Scottish Bard, but to those Burns which are speedily and certainly cured by Grace's Celebrated Salve. The Salve is also the best cure for flesh wounds, boils, felons, salt rheum and all cutaneous eruptions whatever. The oldest and most obstinate ulcers yield to its permeating qualities. In fact, it is a household friend, and no family should be without a box of it at hand. Only 25 cents per box.

THE CRAIG MICROSCOPE.—A returned soldier, who had purchased one of these Microscopes, in ordering a box of mounted objects, says: "I shall take pleasure in recommending this beautiful instrument. I am highly pleased with it, and think that every family ought to have one." C. H. Wheeler & Co., 5 and 7 Essex street, Boston, are the sole agents for New England. Price $2, sent by mail post paid for 2 25, or with six mounted objects for 3 00, or with twenty-four objects for 5 00. Trade supplied on liberal terms.

ATTENTION, COMPANY!—Volunteers, who expect to retain their health unimpaired during the campaign, must see to it themselves; they do not trust to the army surgeons, supply yourselves with HOLLOWAY'S PILLS and OINTMENT. Every English soldier's knapsack contains them. Only 25 cents per box or pot. 212

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use Herrick cream tartar instead of soda. It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambucs Grapes for Spear's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

LAST AND BEST.
THE MODEL COOK,
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!
At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.
The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.
The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted.
A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept at long as desirable.
A Water Tank and Hot Closet can be applied to either size, when needed.
In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.
It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.
No family, large or small, where economy, convenience and division are desirable, should be without one.
We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.
We offer this beautiful coal burner to the public with the confidence in its merits
It was brought into market three years since, and has come rapidly into use.
The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.
The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.
The quantity of fuel used is very small indeed.
We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

SITTING FOR A PHOTOGRAPH.

BY F. THORNE.

Since photographic albums have become the rage, there is no peace for those persons who cherish the same aversion to the photographic as to the dentist's chair. Your mother says, "Pauline, I am very anxious you should have some photographs. If you should be taken away"—and the sentence is left unfinished. Brother Tom writes home from College for "Poll's picture."—Your most intimate friend, Katie Diehl, has a Cousin Harry, who is described as all that is fascinating and desirable. Katie has read him extracts from your letters; he professes to be delighted thereat. Katie has already built a splendid air castle, of which Harry and yourself are the occupants, and every letter closes with a heart-rending appeal for your carte de visite.—Moreover, there are some people whose pictures you yourself desire. "I should be very happy to exchange," is the invariable reply, with a marked accent on the exchange. So, yielding to the pressure of circumstances, you resolve to immolate yourself on the altar of friendship.

On the morning of the fatal day you awake with a vague consciousness of some dire event impending. Everything goes wrong. Your hair will not roll back as on ordinary, every day occasions, but must needs stick up one side, lop down on the other, and part, revealing "rats" to an alarming extent. This difficulty overcome, though not without some danger to your temper, you don your best silk, pin your collar with mathematical precision, and announce that the victim is ready for the sacrifice. You feel nervous, consequently look pale and haggard, with dark blue circles under your eyes, but though provoked at your own lack of common sense, all attempts at reasoning with yourself prove in vain.

The artist advises you to stand, leaning gracefully on his Gothic chair. You strike an attitude. He then raises your chin an inch or so higher than is natural, applies the instrument of torture to your head, gives you the pleasure of winking at litium, (a blessed relief it is, too,) says, "Now then, if you please," and the operation commences. At the word "now," down sinks your heart, and down go the corners of your mouth in the same proportion.—You feel an unnatural, rigid expression settling over your face. After what seems an interminable time, you are released and the artist shows you the negative. You behold a haggard, savage looking individual, with eyes agonizingly rolled up, frantically clutching with both hands a chair.

The second time you sit in what you fancy an attitude of easy elegance, assuming a pleasant smile. The result is, you behold yourself with one elbow struck out on the table at an angle of forty-five degrees, each individual finger pointing stiffly down on its own account, the other hand doubled up defiantly, and magnified to twice its natural size, while across your face from one side to the other stretches your mouth in an idiotic grin, the whole thoroughly permeated by an "air of head-rest," as some one says. Having become desperate, the third time you accept the artist's declared opinion that it is a "very clear, correct picture," and go home, revolving in your mind two humiliating facts: that your looks surpass your worst forebodings, and that the artist thinks you a very vain person. Certainly, nothing tends to correct any latent vanity one may cherish, like sitting for a photograph.

The pictures are dispatched to your various friends. Behold the reward of your sufferings. Tom indignantly writes, "I hope you don't think I will acknowledge that *thing* as my sister. The fellows all ask if that is my maiden aunt." Uncle William in New York declares it his exact idea of a Mrs. Amindab Sleek. Liz writes, "Mother is surprised to see the wild schoolmate I've so often spoken of, such a very mature looking personage." *Mature!* Language fails me. Aunt Sarah writes, "I am sorry to see Pauline looking so wan and miserable. I fear you are not aroused to her condition. Do call in medical advice ere it be too late." You dare not picture to yourself the emotions of Katie's cousin Harry, as he gazes on that fearful and wonderful picture. You only hope he may not do anything rash, in the sudden revulsion of his feelings. To cap the climax, Mrs. Grundy, who met you in the street on that memorable day, seizes upon your melancholy appearance as the foundation of a report, widely circulated, that you have "met with a disappointment."

THE ALL SUFFICIENT THREE.

The Great "American Remedies"

Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" SARSAPARILLA,
" IMPROVED ROSE WASH.

HELMBOLD'S

GENUINE PREPARATION,

"HIGHLY CONCENTRATED" COMPOUND

FLUID EXTRACT BUCHU,

A Positive and Specific Remedy

For Diseases of the BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU

FOR WEAKNESSES

Arising from Excessive Habits of Dissipation, Early Indiscretion, or Abuse,

ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion.	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance.
	Dryness of the Skin

These symptoms, if allowed to go on, which immediate or invariably removes, soon follow IMPOTENCY, FATUITY, EPILEPTIC FITS, In one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess. The records of the Lunatic Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,

OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is recalled by any other remedy, as in Chloris or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Disease of the Womb, Gravel, Inflammation, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU

IS THE GREAT DIURETIC.

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!

Helmbold's Highly Concentrated Compound

Fluid Extract Sarsaparilla,

SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Linings of the Nose, Ears, Throat, Windpipe, and other Mucus Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, and in connection with Extracts Buchu and Sarsaparilla in such diseases as recommended.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and household qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the cooking being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

We have a new style and very superior broiler and air iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large water reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in the city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objection raised by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, rush off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which forces them as they pass off from the coal, thus saying at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert E. Hatch, Esq.,
Aaron H. Mill,	Charles H. Hendum,
Henry F. Wendell,	John Sise, and others.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TRASKWELL, Dr. HOARDMAN, Dr. LORD and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every sun fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

— A little boy stuck his finger into a pie, and holding it up, inquired—How much for this damaged tart?

— A Cologne young lady, of high family connections, has been sentenced to a month's imprisonment for pulling feathers from a live ostrich in the Zoological Gardens of that city.

— Frauds on the revenue department to a large amount have recently been discovered at Cairo, Ill., and several of the parties implicated have been arrested. The loss to the government is reported to be $200,000.

— The Sheriff of Los Angeles proposing to arrest the members of a vigilance committee who hung a party of thieves and murderers, a cavalry company of U. S. Volunteers from San Pedro marched to the town, when the Sheriff stopped the proceedings.

— A Maine officer relates that a rebel prisoner, taken at Chickamauga, was looking at one of our guns, and remarked that he "didn't think that the Yanks would use them big guns much longer." "Why not?" inquired the Feds. "Because," said he, "the Confederacy is getting so narrow that you'll fire clear over it and hit your men on the other side."

— The apartments at Warsaw of the aged Prince Lubomirski were recently visited by Gen. Trepow, to search for arms. Several very ancient and curious weapons were seized—one a poignard with a jeweled hilt, was passed around for examination, and suddenly disappeared. The Commissary of Police, who was present, denounced the servants as the thieves. The Prince suggested a search of all present; the General assented, and the poignard was found in the Commissary's own pocket.

— The American house, at Liverpool, of Messrs. James McIlenry & Co., which failed several years ago, have recently sent to Mr. Mosely a check for £47,000, principal and interest of a debt owing at the time of the failure. The English papers rightly describe the circumstance as an instance of American commercial honor.—Mr Mosely intends to give half the money to local charities. He is recently elected Mayor of Liverpool, is a banker, and a Jew.

— The Brazilian ladies think it fine to be fat; read nothing but French novels; dress splendidly out of doors, and live like pigs in the house. They all smoke and spit on the floor, or, if on the balcony, aim at the passengers' heads, which we suppose they think rich fun. As to picking the inhabited heads of their children in public reception rooms—there cannot be the least objection to that; don't the monkeys do it? The London Spectator gives these particulars in a more extended form.

— A Paris journal says: "The origin of whist does not go further back than 80 years. Lord Lyndhurst, born in 1772, was one of the most devoted adepts of this game. It is to him that is owing that manner of playing, namely, that when a person holds a single card of a suit that he at once plays it out, and which is known by the name of 'Singleton.' This name it derived from its inventor, Sir John Copley Singleton. His public services will be forgotten, but his name will survive at the whist-table."

— An aged and respectable citizen of Portland was riding about town a day or two since, as we learn from the Press, when he was accosted by a couple of young *la dies*, who invited him to give them a ride. With true gallantry, he immediately alighted to help them in. When they had reached their seats, one of them seized the reins, whipped up, and left the disconsolate old gentleman ruminating on the depravity of human nature, and of crinoline in particular.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, DECEMBER 2, 1863.

THE REBELLION.

The New Orleans correspondent of the N. Y. Herald says that Gen. Hamilton, Military Governor of Texas, left New Orleans Nov. 19th, for Brownsville, his headquarters for the present. A dispatch from Gen. Franklin, in the Teche district, says that Brig. Gen. Lee with a large force of cavalry left New Iberia early on the morning of the 19th, and after riding some distance surprised and attacked the camp of the 7th Texas rebel cavalry, killing 40, and capturing 100 prisoners, with all their camp equipage, arms and horses. Our loss was inconsiderable. This rebel regiment was the one that surprised and captured the 67th Indiana regiment, near Bayou Cotean, on the 3d ult.

A dispatch from Chattanooga, Nov. 30, states that our troops held the country as far as Ringgold and Cleveland. The enemy were below Tunnel hill. The fruits of the recent battles are 6000 prisoners, 58 pieces of artillery, and 7000 stand of arms. Our casualties will not exceed 4000.—There was no news from Gen. Burnside at headquarters. The siege of Knoxville was, no doubt, raised, and the rebel forces in East Tennessee can escape only by a miracle or miraculous fighting.

Heavy and rapid firing was heard in the direction of Knoxville on Monday. It lasted several hours. A Chattanooga dispatch says that sufficient reinforcements, under Maj. Gen. Gordon, have been sent to Gen. Burnside, to insure his success.

There are dispatches from Washington, relative to Gen. Meade's movements, but they give few particulars and no important news. There was no battle fought on Sunday, and merely heavy skirmishing previous to that. The rebels on Monday were strongly posted on Miner's Run. The dispatches say that no news from Meade is good news, and that probably the first intelligence of his principal operations will be received through Southern papers.

☞ The Newburyport Herald has received information which leads to the conclusion that there are at least forty thousand men in the British Provinces who have served from six months to a year and a half in our armies, and left the service without permission for various reasons, most of whom would now gladly return to their duty, if they could be assured that they could do so without being exposed to the terrors of a court martial and punishment. The Herald thinks a proclamation to this effect by the President would restore at least twenty thousand of them to their regiments before the 1st of January.

TREASURE RECOVERED.—A few days since, a Mr. Warren, of North Cambridge, Mass., lost a pocket book containing $26,000 in Government drafts, and $580 on the Safety Fund Bank, while at work in his stable. A man employed on the premises, named John Armstrong, confessed, after being arrested, to picking the treasure up and concealing it. He was liberated, according to a promise made before the confession.

☞ So long as our naval vessels had to be all employed in blockading, the rebels had a good time of it upon the ocean, burning and robbing our ships. A single competent vessel, like the Vanderbilt, has, however, spoiled their fun and scattered them in various directions. The Alabama went East, and the Georgia and Tuscaloosa started North, the former putting into Cherbourg for coal.

☞ The Missouri Senate has passed a bill to repeal the old law prohibiting whites teaching slaves to read and write.

— Dr. Francis Lieber denies that he had anything to do with the arrangement of the list of diseases which should exempt drafted men.

— The N. Y. Tribune states that a letter from their army correspondent at Matamoras says: Gen. Sam Houston is certainly dead. He died at Huntsville, Texas. I am with a man who was present when he died. J. Terrell Smith and another have administered on his estate. He was 70 years old.

— The mayor of a town in France was astonished, a few Sundays since, at seeing a raw leg of mutton fall down from the sky. He called the municipal authorities together to consult about the matter. The explanation of this singular meat-cor is to be found in the fact that the mutton fell from M. Nadar's great balloon, which was passing over at an immense height.

— A man has sued a London photographer for the price of two *cartes de visite*; he told the court that he had sat for seventeen days, and the only result was one picture that made him look like a black man, and another that made him look as though he was going to be hung. The court gave him its sympathy and the artist had to give him his money.

NEW HAMPSHIRE ITEMS.

—— J. H. Fuller, of Claremont, has been granted a patent for improvement in preparing vegetable fibre for paper.

—— Phineas Adams, Esq., Agent of the Stark Mills, Manchester, leaves for Europe next Wednesday, in the steamship Arabia, on business for the Corporation, to be gone from two to three months.

—— The Manchester Locomotive Works, built originally for locomotive work, but for several years engaged on other machinery, has again commenced building locomotives.

—— N. G. Ordway, of Concord, having recently purchased the Universalist church edifice, in Warner, has had it altered and fitted up, (at his own expense) so that it makes the best, most convenient, pleasant and spacious hall in that town.

—— The following promotions have just been made in the 4th N. H. V.: 1st Sergt. Matthew Adams, Co. H, to be 2d Lieut. Co. H; 1st Sergt. Frank B. Hutchinson, Co. E, to be 2d Lieut. Co. E; Sergt. Major Wm. D. Stearns, to be 2d Lieut. Co. C.

—— The Franconia Iron Works have been purchased by a company in Boston, and will be put in operation at once. The Franconia ore has a well-established reputation, it being similar to the ore used in making iron, equal to that in Norway and Sweden, from which the best steel is made in England. About one hundred thousand dollars have been expended on the works within a year or two. They are now in perfect order, and contain a new blast furnace, a new forge with two trip hammers, and two forge fires, blacksmith-shops, &c.

—— Mrs. Margaret Noone, of Peterboro', had her pocket picked at the Lowell depot, Boston, on the 20th ult., of a wallet, containing $784 in bank bills, by a well-known thief named Thomas Dolan, who was arrested. The money was recovered and the pickpocket committed for trial.

☞ "Messrs. Seth W. Fowle & Co., Boston, Mass.," have the impudence to write us, asking our terms for half a column of advertising for six months, &c. We say impudence—for we think it requires at least that quality to enable any body to ask the forming of another contract, with the same party which has already violated one. Two or three years ago, this same "*firm*" contracted with us for some advertising; and were very troublesomely particular at the time, about all stipulations, as well as very parsimonious about price; and very vexatious as to all details afterwards—and yet, ere the promised time of payment came, the house "failed"—it was currently reported, through outside "speculations," by which the head partner lost the large fortune he had (by the help of the newspapers) made in the drug business, which, perhaps, he had a *right* to lose; and a considerable sum of debts belonging to other people, which, to our apprehension, he had *no* right to risk—and which to us seems a fool transaction. To our vision, the difference and distinction between what is popularly termed speculation, and that which is called gambling, is decidedly in favor of the latter, in all but the name—as being, if fairly conducted, the less risky, and more open and above-board business. And if *not* fairly conducted, either is like any other stealing. But we hold that whatever right a man may have to put his own money in peril, or to fool it away, he clearly can have none to risk what does *not* belong to him, either in speculation, gambling or what not.

Well, this Seth W. Fowle & Co., long ago, in answer to our bill sent, directed us to refer to the Assignees, which we did, but have never seen even the poor provocative of a paltry per cent. dividend of *our* money, which went with the rest at the failure, we suppose.

Well, we grinned and bore it, as well as we could, and as we had done for several thousands of dollars of similar losses in the past dozen years, before we adopted the exclusive advance-cash plan; but when this new offer for similar "patronage" comes so coolly, it is rather too much for us.

In reply, we beg leave to refer to our advertised terms on the first page, which are, for half a column, $75 to $100 per year, according to location. And that we may not be obliged to run any risk of descending from our present comfortable position of "owing no man anything," we must insist on having our pay before we begin, as we do with all other out-of-town advertisers. We prefer, if any gambling or speculation is to be done with our money, to do it ourself, as we shall then have the excitement and fun of the thing, and also the chance to win as well as lose. As to our "circulation," which is so particularly inquired after, we will say that it is from one to five thousand, more or less, according as paying patrons call for the papers. But the Chronicle owes none of its success to subscribers or advertisers who do not pay, and we don't want any more of that sort.—Are our inquiring friends answered? F.

— The Great Eastern is advertised to be sold at auction. We shall not bid.

RICHMOND VIEWS.

The Richmond Examiner, of Nov. 24, says, in an article on the rebel policy:—

We do not comprehend how any man in the Confederacy can talk of honorable peace, save by vanquishing those enemies. If the political system of those invading enemies breaks up, by reason of reverses in war, or financial troubles; if certain States of their "Union" remember that they have *State rights* and act upon them by seceding from that Union, and offering us a peace, so far as they are concerned, it will be well; that will aid us materially in the one single task we have to achieve—the task of defeating and destroying the military power of our enemies. But reasonable Confederates would be at a loss to know how we can contribute to that happy state of things, except by continued and successful resistance in arms. Our sole policy and cunningest diplomacy is fighting; our most insinuating negotiator is the Confederate army in line of battle.

Now we perceive that just as Congress is about to meet, certain newspapers of the Confederacy are preparing the way for discussions in that body about some other method of obtaining peace. The other method suggested, in so far as we can comprehend it, consists in the several *States* of the Confederacy taking the matter out of the hands of the Confederate government, ignoring the *government* and the army, and all that army has done and suffered for the independence of the Confederacy, and then making peace, each *State* for *itself*.

The careful reader will see that this lordly rebel assumes that *State Rights* would permit a copperhead State to secede from *our Union*, but that *State Rights* would not permit a rebel State to secede from their *Confederacy*.

And the thoughtful reader may possibly be led to see that nearly the same view is taken of State Rights by the most approved model copperhead prints of the North.

Stripped of its verbiage, the doctrine of State Sovereignty and State Equality has amounted for several years past, to just this and no more: Any State is sovereign enough to aid the slave power; no State is sovereign enough to resist it:—any State is sovereign enough to help on the rebellion; no one is sovereign enough to oppose it.

It is laughable, as well as pitiable, to see the assertion of this Richmond print, that his confederacy is a *government*, coupled with the insinuation that the Union is *no* government at all, not even a confederation or a rope of sand, but a mere heap of sand without a rope.

The whole article is a curious exhibition of the State Rights doctrine, gone to seed, and growing in Virginia to a despotic absolute slave empire.

The article closes thus:

We are sorry to have to mention that such an idea has shown itself. It was believed that it was confined to about two newspapers, both of Raleigh, N. C. But something very similar is to be found in two other newspapers of Atlanta. As it is extremely essential that the time of this Congress should not be diverted for one instant from the business of carrying on the war by any vain palaver about peace, we reluctantly advert to the disagreeable circumstance in order that the small distracting element may be disposed of and made *innocuous* the more speedily.

That is to say,—these four papers must be silenced at once,—which is their idea of liberty of the press. U. T.

DALTON, GEORGIA.—This place promises to furnish the next battlefield of the armies of Generals Grant and Bragg. Dalton is thirty-eight miles from Chattanooga, and beyond the tremendous ranges of mountains which almost entirely fill the space between this place and the State line. Its location is in a beautiful valley surrounded by mountains. It is one of the most flourishing towns in the State, although not more than twenty-four years old. It has three thousand inhabitants. The distance from Dalton to Atlanta is about a hundred miles through a rather poor section of Georgia, only disturbed by an occasional range of monster hills.

☞ One Patrick Burke has been held in $500 for trial on a charge of assault with intent to kill in Boston. A graphic local reporter thus explains the little difficulty:

Patrick Burke and Martin Fleming went to a poultry raffle at South Boston, on Friday night, which is somewhat like going to a fair one or two days late, and gives the impression that their causes for Thanksgiving must be very extensive, since they continued its exercises so late. While wending their way homewards, Burke got to talking pretty large and finally insisted that he shook thirty-five at one throw, with three dice, and that a hundred was nothing unusual for him to get at New York grab.—Fleming was a little intoxicated as well as Burke, but mildly remarked that inasmuch as three times six was only twenty-seven, he didn't believe anybody except perhaps Mr. Hoyle and Paul Murphy could get over that number at one shake of three dice.—Patrick insisted, and said that he knew a man who could get eighty with a single die, at one throw. Fleming said he didn't believe it, and Patrick told him he'd make him believe it, whereupon he went at him with a knife, and came near killing him.

—Twelve millions of butterflies have been caught this year in the Canton of Basle, for which the Swiss Government has paid 3,000,000f.

— The Portland Courier says it learns from pretty good authority that all the nine months' soldiers are to be included in the class from which the next draft is to be made.

☞ A boy in Carro lton, La., was recently terribly wounded by the explosion of a twelve-pound shell with which he was foolishly experimenting. Striving to ascertain the contents of the shell, and failing, he applied to it a coal of fire, which produced an explosion. The buildings in the neighborhood were shaken and a piece of the shell was left firmly fixed in the boy's skull, just above his nose. This occasioned unconsciousness, which was not recovered from until the fragment was removed on the following day.

— A little boy in South Woodstock, Conn., while trying to cut a pumpkin with an ax, to quiet a cow which his father was milking, accidentally cut off the arm of a tiny brother who was trying to hold the pumpkin so it should not roll over.

— Gen. Meade having ordered, on Friday morning, that no more mails should be sent to the army until otherwise directed, all mails, except for the third division of the 1st corps, are held at the Washington Post Office. Peremptory Sale

—OF—

Valuable Wood and Timber Lands.

I shall sell at Public Auction, by directions contained in the will of the late John Parley, deceased, on WEDNESDAY, the ninth day of December, 1863, at 10 o'clock A. M., on the premises—

One hundred and sixty-six acres of Land, situate in the towns of Auburn and Candia, N. H., about one mile from the station of the Concord and Portsmouth Railroad in Auburn, and five miles from the city of Manchester. This land contains a heavy growth of heart wood, interspersed with oak timber, and will be offered in two lots.

At 2 o'clock P. M. on the same day, after the above sale, will be sold on the premises, a Lot situate in Auburn, on the highway near the residence of Mr. Geo. W. Severance, about three miles from the Massabesic station of the Concord and Portsmouth Railroad. This lot is covered with a thrifty growth of chestnut, oak and pine, and contains thirty-eight acres.

Terms of the sale are cash. Ten per cent. of the purchase money will be required to be paid on the completion of the sale, and the balance within thirty days, within which time the deeds will be ready for delivery.

Plans of the lots may be seen at the dwelling-house of Mr. JOHN MOORE, in Auburn, and at the office of SAMUEL N. BELL, Esq., in Manchester.

The quantity and quality of wood and timber upon these lots, their situation near Manchester, and the facilities for reaching good markets by the way of the railroad near which they are located, commend this as an opportunity seldom offered for a remunerative investment.

The sale being expressly provided for in the will of the deceased, and in accordance with his directions ordered by the Trustees, will be positive.

For further particulars inquire of MOSES DORMAN, Roxbury, Mass.; JOHN KILLAM and GEO. W. CRAFLIN, Georgetown; J. H. TOWNE, at Saunders Bank, Salem, Mass.; or of WILLIAM H. HACKETT, Auctioneer.

☞ The Lyceum is a success—the opening entertainment, and its reception last night, warrant that. We need only say a word of the rich triple feast provided, at a paltry price, for the public; but we must acknowledge the credit due to the Baker who first stirred the elements to produce such a nutritious batch and also to the chief manager who always gets a-Head of all others in such matters he is concerned in,—among others.

The music was fine, and formed a very agreeable introduction and enlivenment for all. The neat and tasteful orchestra accommodation is an ornament to the hall.—Shillaber was "happy" as usual, and helped make all his hearers so, too, as he always does. Judge Russell's lecture was an able, interesting and reliable treatise on the late English wars, their causes, &c., and was well given. The audience was large and appreciative, and the whole evening's exercises were highly enjoyed.

☞ The Enrollment Lists of the different Wards in this city are now published, and have been placed in various conspicuous places, where all who care may read.—Whoever is enrolled, but claims not to be liable to military duty by reason of alienage, unsuitableness of age, non-residence, or manifest permanent physical disability, can appear before the Board of Enrollment at any time previous to the 20th of December, and on the establishment of his claim his name will be struck from the list. Any person who is not exempt, and is grieved to learn that his name has been accidentally omitted from the rolls, will not find it so difficult to prove his claim to have it put on the list, as may do to get it taken off.—Should such a person, however, fail in his efforts, probably some one of his friends may be willing to give up his chance for the draft for a reasonable compensation.

☞ The boys found their first skating of the season, on Tuesday afternoon, on the extreme upper portion of the South Mill Pond. Beware of thin ice, boys.

— The Confederate cotton loan is 38 to 40 per cent. discount in London.

— Lead has been discovered in large quantities near Brandon, Vermont.

— A great Fair, for the benefit of the Sanitary Commission, is proposed in Washington.

— A newspaper in Aroostook county, Me., has a leader entitled, "Hell—its influence on Man."

— Within seven months the people of the North have subscribed and paid for at par over $330,000,000 of 5 per cent bonds.

— It is said that our men were for weeks reduced to one-third rations, at Chattanooga. But Gen. Grant has arranged all that now.

— There has been a great fire in Lisbon, Portugal, destroying the municipal chamber and numerous buildings. Several lives were lost.

— A man in Gloucester, Mass., singed his hair and whiskers, while filling his gas meter, the gas taking fire from a lighted lamp which he held in his hand.

— The fall returns from Ohio, which include the soldiers' vote, came in as follows: majority on home vote, 61,752; majority on soldiers' vote, 38,578; total majority, 100,330.

— A prisoner having been sentenced to the State Prison last week, it being the fourth time within the last twenty years, very coolly commenced singing "Home, Sweet Home."

— Ice was running freely in the Mississippi at St. Paul, on Friday last, and navigation is virtually suspended for the season. Farmers ploughed in that region this year as late as Nov. 23.

— A British brig from Jacmel reports—Nov. 18th, in Crooked Island Passage, saw a rebel propeller bark chasing an American side-wheel steamer. The latter was 7 miles ahead and had an eagle on wheelhouse.

— The Boston Post says—Good bye, Bragg; and asks, besides Lee and Beauregard what living officer is there in the Confederacy whose capacity for an important command has not been tried and found wanting?

☞ The rebels are uniformly very severe upon Gen. Thomas, now commanding the army of the Cumberland. There is hardly one of our Generals whom they slander in such a hearty way as this brave officer. The reason is that they are disappointed in him. Gen. Thomas is one of the men on whom they counted, but who refused to go into rebellion, although he is a Virginian. He was a Major in the famous 2d Cavalry, raised while Davis was Secretary of War, and of which Sidney Johnston was Colonel, Lee Lieut. Colonel, Thomas and Van Dorn Majors, and Kirby Smith a Captain. Hardee also was once a Major in this regiment. General Thomas was the only field officer who refused to join the rebellion, and of course he is properly hated for his firm loyalty under such circumstances.

— The rebel Gen. John H Morgan arrived at Toronto, Canada, on Monday, by the Great Western Railway.

— The Elmwood Hotel at Waterville, Me., was burnt on Monday afternoon. Loss $12,000—insured for $8,000.

ATTENTION, COMPANY!—Volunteers, who expect to retain their health unimpaired during the campaign, must see to it themselves; do not trust to the army surgeons, supply yourselves with HOLLOWAY'S PILLS and OINTMENT. Every English soldier's knapsack contains them. Only 25 cents per box or pot. 212

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

The Mutual Life Insurance Company,
—OF—
NEW YORK.
Cash Assets
Nearly Ten Million Dollars!

This is an "all cash" Company. Its accumulations do not include any such assets as "Premium Notes."

Its Dividends have been LARGER than in any other Company, and are only made when ACTUALLY EARNED. They may be applied either in Reduction of Premium or in purchase of additional Insurance. By this system all policies are constantly increasing in value or the Annual Premiums are constantly decreasing in amount, until they entirely cease.

Full information may be obtained on application, by mail or otherwise, to

J. P. BARTLETT, Agent,
s19 At the Bank of New Hampshire.

The Columbian Insurance Company

of the City of New York, have increased their capital to the full amount authorized by its charter, which gives them

$1,000,000, PAID UP IN CASH.

Total Assets, June 1, 1863, less Losses adjusted and paid.....$2,008,651 03.

Losses paid in Gold upon risks on which the Premium is paid in the Currency.

DEALERS with this company will be allowed the option to the signing of policies (at time of application for insurance) of receiving in lieu of scrip, at the end of each year, Returns in Cash, of premiums paid and earned during the year, upon all new risks under the New York form of policy, as follows:

1st. Upon every OPEN policy (CARGO RISKS) on which there shall been earned and paid $600 and upward, a return of TWENTY PER CENT.
2d. Upon other voyage risks upon CARGO and FREIGHT a return of FIFTEEN PER CENT.
3d. Upon TIME risks upon HULLS and FREIGHT, a return of TEN PER CENT.

Such privilege, however, being confined to persons and firms the aggregate of whose premiums upon such policies earned and paid during the year shall amount to the sum of One Hundred Dollars.

B. C. MORRIS, President.
THOS. LORD, Vice-President.
WM. M. WHITNEY, Second Vice-President.

LAST AND BEST.

THE MODEL COOK,

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; a great blessing in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

Morning Chronicle.

ROCKINGHAM CO. AGR. SOCIETY.—The Annual Meeting of this Association was held at the City Rooms in Portsmouth, on Monday, Nov 30th, Hon. J. H. Butler, President, in the chair. The Treasurer reported $1050 funds on hand, and no debts. The old Board of Officers was re-elected; and a vote passed to hold a Fair in 1864, Tuesday, Wednesday and Thursday of the first week in October. The desire to have a Fair, at any rate, seemed to possess all present,—at such place as may then be most favorable.

☞ A herdsman at Nennig, Austria, was accused lately by his master of cutting his cows' tails for the sake of selling the hair. In revenge, he crept into his accuser's room at night, cut his throat, badly wounded a friend in the next room, fearfully chopped with a hatchet two herd boys in the house, and then set fire to the whole premises. The neighbors tried to capture him, but he climbed to the roof of a burning barn, and crying out that he was condemned to all eternity, plunged headlong into the flames and so perished.

SLIGHTLY METAPHYSICAL.—"A frog," says Professor Bump, "is an amphibious animal what lickers our cold water, and consequently invented the tectotal society. He always walks with a jump, he does; and when he sits down has to stand up. Being a lover of native melodies, he gives free concerts every night, he does himself. He pewides music for the million, which is so called because it is usually heard in a mill pond. He is a warmint what ain't so bad when boiled on a gridiron."

— An officer of Palermo went recently to a villa to arrest a concealed conscript. He was presented to the lady of the house and her two daughters. No conscript could be found. Suggesting that one of the young ladies must be the gentleman, they protested that he was mistaken. "Well," said he, "as you both deny the truth of my suspicion, I shall take both of you to the barracks."—One blushed, the other turned pale—he was ordered thereupon to assume the proper costume and go along.

☞ We have received a copy of the New Hampshire Annual Register, for 1864, published by G. Parker Lyon, Concord for sale by Joseph H. Foster, Portsmouth A very convenient book, neatly bound and lettered.

THE ALL SUFFICIENT THREE,
The Great "American Remedies"
Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" " IMPROVED ROSE WASH.

HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, the results of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion, Loss of Memory, Weak Nerves, Horror of Disease, Dimness of Vision, Universal Lassitude of the Muscular System, Hot Hands, Loss of Power, Difficulty of Breathing, Trembling, Wakefulness, Pain in the Back, Flushing of the Body, Eruptions on the Face, Pallid Countenance, Dryness of the Skin.

These symptoms, if allowed to go on, which unmistakably invariably lead to the Miserable INFIRMITY, DEBILITY, EPILEPTIC FITS. In one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION,

Many are aware of the cause of their suffering, but none will confess. The records of the Disease Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chlorix or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Cancerous Humors of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Intemperance, or in the

DECLINE OR CHANGE OF LIFE.
SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.

HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases
In all their stages; at little expense; little or no change in diet; no exposure;
AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Stricture of the Urethra, allaying pain and inflammation so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter.*

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only. They secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the the clock. They will be set up in any part of the city, and regulated without extra charge.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, either before or since introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of perineum, Inflammation of the bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms resulting from abuse of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D.. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, Nervous Irritation, Aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be cured and restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, acknowledged to be the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 & 9 Endicott Street, Boston, continues to be consulted on diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that the most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his great skill and extraordinary success in curing, gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

F. S.—Dr. Dow imports and has for sale a new article, called the MYSTIC REMEDY. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for good results in baking.

There is a new style and very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and use of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable Invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is, that the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before visiting the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form so secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended by the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swayne's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who seem as much pleased as many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the slightest touch of any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Perhaps you may feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but could not get grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26tf

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

$100 REWARD!
For a Medicine that will cure
COUGHS, INFLUENZA, HOARSENESS,
TICKLING IN THE THROAT,
WHOOPING COUGH.
Or relieve CONSUMPTIVE COUGH,
IN QUICK TIME
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and give it the preeminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.*
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this knowing its superiority, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be consulted daily and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with the utmost Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus deprived themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician to cure the cured thousands.
It is almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and make happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S NEW WORK.
A book for every body.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid these Pills. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) inclosed, these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

THURSDAY, DECEMBER 3, 1863.

THE REBELLION.

Generals Hooker and Palmer evacuated Ringgold on Tuesday morning after burning the mills, depots, public buildings and railroad bridge. The cavalry reconnoissance twenty-three miles south-ward discloses no enemy, but they were found in force at Tunnel Hill. The railroad from Ringgold to Chickamauga was destroyed by Gen. Hooker. Col. Grass' brigade was left on the old battle-field in Chickamauga, burying our dead, a large number of which were left by the rebels uncovered since Sept. 20. Prisoners in large numbers are still coming in, and the total will foot up 7000. The mountains are full of Tennessee and Kentucky deserters trying to get home. A dispatch from Gen. Burnside, dated Nov. 25, says the enemy, on the 25th, moved up three brigades and attacked one of his brigades on the south of the river, three miles from Knoxville. A hard fight ensued.—The enemy were repulsed with a loss of one hundred and fifty killed.

The Cincinnati Commercial's Cumberland Gap correspondent telegraphs that all the available force has been sent from there to intercept Longstreet's retreat into Virginia. He says a courier from Knoxville brought intelligence of the enemy's attempt to cross the river on Sunday, bringing on a general engagement, and resulting in the defeat of the enemy, and the capture of Gen. Wheeler's division of five thousand rebels.

Another dispatch states that Wheeler was repulsed in an attack on Kingston, on Wednesday, and retired towards Knoxville. Scouts report that Longstreet has commenced to retreat from his position around Knoxville.

A dispatch from the Army of the Potomac, dated Monday, states that the armies of Gens. Meade and Lee were then divided by Mine Run Valley, crossing the Fredericksburg and Orange plank road about 12 miles from the latter place. The enemy were strongly intrenched and showed a determination to make a desperate resistance. Nothing of a decisive character had transpired up to that time. A forward movement was attempted on Monday morning, but the enemy being found in stronger number and position on the left than was anticipated, the movement was checked. Parley telegraphs that supplies by a new route have reached Gen. Meade.

Dispatches assert that everything was going on favorably with Gen. Meade at the latest advices,—Tuesday morning.

Rebel dispatches show that our forces at Charleston continue their usual practice, throwing a shell occasionally into the city.

Gen. Banks reports to the President, Nov. 9, that he occupies Brazos Island, Fort Isabel and Brownsville. He says that his most sanguine expectations are more than realized, and that everything is now as favorable as could be desired. Aransas was taken by our troops on the 17th, with 100 prisoners and their guns.

THE REBEL ACCOUNT of their defeat at Chattanooga, is thus given in a dispatch from Atlanta Ga., dated Nov. 27:

The city is full of conflicting rumors of the battle of Chickamauga. We have lost many prisoners—estimated at 5000 and upward. All our dead and seriously wounded are left in the hands of the enemy. In the attack on Lookout Mountain the enemy's loss was comparatively greater than ours. They drove us back by force of numbers. Skirmishing commenced on Saturday, and there was intense firing on Sunday and Monday. The enemy charged on Lookout Moutain 40,000 strong, at the same time occupying the attention of our right wing at the foot of Missionary Ridge.

The corps of Gen. Breckinridge met the shock with unflinching courage and determination. In the afternoon the enemy increased in numbers, and by repeated attacks succeeded in making an impression on our lines. At 4 o'clock in the afternoon the left of the centre gave way, the enemy pouring through the valley like a flood. Our troops, seeing themselves cut off, got confused and retreated in disorder, after repeated charges. We evacuated Missionary Ridge on Wednesday. Our army is now at Chickamauga. We have 600 prisoners. Washington's and Cobb's batteries lost all their guns. Gen. Waltham was wounded. Our wounded are arriving here and being cared for. Gen. Bragg's headquarters are at Ringgold."

— The progress of liberal institutions in Italy is attended with a remarkable change in its architecture. In Florence the old streets were dark and narrow; the new are all wide and spacious, and the residences and churches are now built to admit abundance of light and air.

— England's answer to Napoleon's proposed Congress has been delivered. It does not announce an unqualified acceptance of the proposal, but asks for information as to the points proposed for discussion. Further communications between the two Governments are expected.

The following is deceptively promulgated under the head of zoological information: "The black tapir is found in many districts of Sumatra, but the *red tapir* is found chiefly in the District of Columbia."

NEW HAMPSHIRE ITEMS.

—— On Friday night a barn belonging to Moses Brown in Wolfborough, was consumed, together with about forty tons of hay. Insured. Probable cause, a tobacco pipe.

—— In Warner, on Monday evening, Mr. Eliot C. Badger fell down the attic stairs in his house, killing him instantly.—He was a very worthy and much respected citizen.

—— A couple in Eaton, who have been married 65 years, during their lives have had no occasion to call a physician on account of disease. They have had 11 children, and from 1827 to 1853 but one death occurred in the whole family.

—— A correspondent, in speaking of a certain person, residing in this State, says: "Although an uneducated man, he has published a small volume of poems, which are very creditable to the author under the circumstances."

A NICE QUESTION.—Provost Marshal Doughty at Portland on Tuesday mustered into the U. S. service a man who had served fourteen months in the rebel army. He claimed to be a "veteran," but the Board decided to the contrary. It was a pretty nice question, for the law says those "who have seen at least nine months' service," and the reformed reb. rather thought he had seen every one of them, and ought to have the increased bounty paid other veterans.

DRAFTING IN THE WAR WITH ENGLAND.—The drafted men of 1814 received no bounty, but on the contrary had to furnish their own equipments, including gun, knapsack, canteen, cartridge box, and twenty-four rounds of ammunition. Their pay from Government was $8 per month. Offers of substitutes were numerous, but very few were accepted.

— Complete returns from New York city, except one district, gave Gunther, 26,881; Boole, 22,478; Blunt, 19,403. Gunther's plurality will be over 6400.

— It is alleged, upon reliable authority, that important discoveries of gold and silver have been made 500 miles west of Santa Fe, in Arizona Territory. The gold is said to be from one to four inches below the surface, and for a hundred miles it may be found in every gulch and creek bed.

— The rats are leaving the ship. The Petersburg Express says that "sundry persons" are trying to leave the confederacy for Nassau, Bermuda and elsewhere, with their wealth, in order to shirk taxation and military duty, and to do a blockade running business.

— The fall in the price of coal is noted in the Pennsylvania journals with exultation, and they recommend that purchases should be as limited as possible, as the price must decline under the various influences at work to break up the speculators. The Philadelphia journals predict that the price will fall to a comparatively low figure, as the supply is immense.

— The New York Post remarks: "Gen. Hooker has been the subject of unmeasured abuse; yet all his military career proves him to be a gallant, impetuous, brilliant leader in action, a cool and sagacious planner, and an unselfish patriot. Neither he nor Burnside talked when they were displaced; neither of them allied himself with a political opposition; both were true to their country, and they have their reward now, in the esteem and confidence of the people. Time, which has been fatal to the reputation of some, has only brightened the fame of these two generals."

THE IRON-CLAD DICTATOR.—It has been resolved that no further attempt will be made to launch the Dictator until about the 10th instant. In the meantime every possible preparation will be made to secure a successful result. The reason why she was not launched on the first trial is thus explained. It is usual in launching vessels to give them half an inch inclination to each foot. This has always been found sufficient, and would be in the case of the Dictator but for a very singular occurance. The vast iron-clad weighs over five hundred and a half millions of pounds, and the immense pressure of this great weight on the new ground, upon which the stocks were laid, caused undulations and irregularities which more than neutralized the inclination.—This fact was known last Saturday, and an immense steamer was engaged to aid in hauling the Dictator off, but the owners of the steamer backed out of the arrangement and the launch was ineffectually attempted as heretofore described.

— During a late representation at the London Lyceum, a singer who was executing a solo, sang it flat, when a gallery visitor immediately whistled the tune correctly, and the singer went back to the sharp, much to the amusement of the audience.

— It is said that quite a number of citizens who fled South on the breaking out of the rebellion are stealthily returning, and hope to be able to lie low and escape the authorities. Rats are in the habit of deserting the sinking ship.

— A New York blacksmith has made $20,000 by setting up government wheelbarrows, which were made in New England, and transported in pieces to save freight.

THE CONSPIRACY.—A letter from C. S. Tarpley, found among the Jeff. Davis papers, adds another to the long list of proofs that the leaders of the rebellion were long at work, planning and organizing their iniquitous scheme. Writing in 1848, Mr. Tarpley looked forward to a split in the Democratic party in 1860, and the secession of the Southern States, "to set up for themselves," as he expresses it. He adds:

Should the contingency happen as I anticipate, then the South must have some representative man. I need hardly tell you who that man should be. My object is to prepare the public mind, and turn the public eye in the proper direction. What so well calculated to do this as your speeches and other emanations of your brain upon the rights of the South, and the appropriate remedies for insults that have been heaped upon her.

☞ Gen. E. W. Gantt of Arkansas, in addressing the newly formed Union Club at Little Rock, recently used the following remarkable language:

"And I do say, in candor and sincerity, to those few Arkansas politicians who think they are striking the popular current by their efforts to reinstate slavery here, that they will be borne down by a tide as irresistible and powerful, as it will be overwhelming and annihilative of all their hopes and aspirations. The people of Arkansas are determined to go back to the Union, as they now find themselves, and they are not to be frightened from their purpose by having the words 'consistency' or 'Abolitionist' thrown at them. Finding slavery destroyed they can so pass upon it, and be neither 'inconsistent' nor 'Abolitionists.'"

LARGE CIDER BUSINESS.—Horace Johnson, Esq., of Middle Haddam, Ct., has, during the autumn just ended, ground up the enormous quantity of 16,000 bushels of apples in his mill. The product is 1700 barrels of cider. Most of this has been sold in the Philadelphia markets, and some of it (the latest and choicest, from picked lots of apples) sold at $8 a barrel.

HARD JOKING RESPECTING BRAGG'S MILITARY CAPACITY.—Most of the Southern journals express great distrust of Bragg's competency. The general feeling is, perhaps, well illustrated by these anecdotes, which we find in the Columbia South Carolinian:—

Two old ladies were recently conversing on the battle of Chicamauga. Said one:—"I wish, as Gen. Bragg is a christian man, he were dead and in heaven. I think it would be a God-send to the Confederacy." "Why, my dear," said the other, "if the General were near the Gates of Heaven, and invited in, at the critical moment he would fall back."

The following reply is of the same order: After the battle of Chicamauga, a soldier, who had been within the enemy's lines and escaped, was carried before Gen. Bragg, and questioned in relation to what he saw. He said the rout was complete and the enemy in full retreat when he left. The General asked him if he knew what a retreat was? He looked at the General with surprise and said: "Why, General, haven't I been with you in your whole campaign?"

Bragg has now given new piquancy to the stories.

— The railroad from Chattanooga to Atlanta crosses the Chickamauga twenty-two times.

— The stained glass windows presented by Mr. John A. Lowell to the parish who worship at King's Chanel, Boston, have arrived, and workmen are engaged in putting them up.

HOOKER'S BATTLE ABOVE THE CLOUDS.—Quartermaster General Meigs, in his lively account of the three days' conflict before Chattanooga, mentions the notable fact that Gen. Hooker's fight up the slopes of Lookout Mountain, "much of the battle was fought *above the clouds*, which concealed him from our view, but from which his musketry was heard." There is on record at least one parallel to this in the campaign of Napoleon in the Carnic Alps, in 1797. The battle of Col de Tarvis, March 22, 1797, was fought above the clouds—the artillery thundering in the very laboratory of storms and arsenal of the electric batteries—while the cavalry charged and performed their evolutions on the ice, and the infantry floundered to the attack through snow three feet deep.—*N. Peremptory Sale

—OF—

Valuable Wood and Timber Lands.

I shall sell at Public Auction, by directions contained in the will of the late John Perley, deceased, on WEDNESDAY, the ninth day of December, 1863, at 10 o'clock A. M., on the premises—

One hundred and sixty-six acres of Land, situate in the towns of Auburn and Candia, N. H., about one mile from the station of the Concord and Portsmouth Railroad in Auburn, and five miles from the city of Manchester. This land contains a heavy growth of hard wood, interspersed with oak timber, and will be offered in two lots.

At 2 o'clock P. M. on the same day, after the above sale, will be sold on the premises, a Lot situate in Auburn, on the highway near the residence of Mr. Geo. W. Severance, about three miles from the last station of the Concord and Portsmouth Railroad. This lot is covered with a thrifty growth of chestnut, oak and pine, and contains thirty-eight acres.

Terms of the sale at time of sale. Ten per cent. of the purchase money will be required to be paid on the completion of the sale, and the balance within thirty days, within which time the deeds will be ready for delivery.

Plans of the lots may be seen at the dwelling-house of Mr. JOHN MOORE, in Auburn, and at the office of SAMUEL N. BELL, Esq., in Manchester.

The quantity and quality of wood and timber upon these lots, their situation near Manchester, and the facilities for reaching good markets by the way of the railroad near which they are located, offer to the wood and timber market seldom offered for a remunerative investment.

The sale being expressly provided for in the will of the deceased, and in accordance with his directions ordered by the Trustees, will be positive.

For further particulars inquire of MOSES DORMAN, Roxbury, Mass.; JOHN KILLAM and GEO. W. CHAPLIN, Georgetown; J. H. TOWNE, at Nahmkeag Lake, Southbridge, Mass.; or of WILLIAM H. HACKETT, Auctioneer.

Brown's Bronchial Troches FOR **Coughs** AND **Colds.**

A NEGLECTED COUGH or COLD, AN IRRITATED OR SORE THROAT, if allowed to progress results in serious Pulmonary, Bronchial and Asthmatic Diseases, often times incurable. BROWN'S BRONCHIAL TROCHES reach *directly* the affected parts, and give almost immediate relief. For BRONCHITIS, ASTHMA CATARRH and CONSUMPTIVE COUGHS the Troches are useful. PUBLIC SPEAKERS and SINGERS should have the Troches to clear and strengthen the Voice. MILITARY OFFICERS and SOLDIERS who overtax the voice, and are exposed to sudden changes, should use them.—Obtain only the genuine "Brown's Bronchial Troches" having *proved* their efficacy by a test of many years, are highly recommended and prescribed by Physicians and Surgeons in the Army, and have received testimonials from many eminent men

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, are the study in this Develoment The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

Local.

☞ Among our new advertisements is a notice of the stock of horses, carriages, sleighs, &c at the State Street Livery Stable in this city, to be sold at auction next week.

A large and valuable stock of new books is also advertised and now being sold at auction, each day and evening, at J. B. Adams' store—a rare chance for buyers.

Messrs. C. H. Mendum & Co., also offer great bargains in their large and elegant stock of dry goods.

Bachman & Co. desire to call attention to their fresh supply of new dry goods; and especially in ladies' cloaks and capes, they have a large variety ready made, or a rich stock of cloths and trimmings to select from, if you will only Wait a little to have them made up—in which department they think they can't be beat, for style, quality and price.

Mr. Bodge takes this occasion, and one of our whole columns, to suggest to his patrons and the public, that he has just returned from New York, with a large and carefully selected stock of fine watches, jewelry and fancy goods, especially adapted for presents. Mr. Bodge displays much good taste in selection of goods, and is one of our most courteous and attentive young traders. It is a pleasure to look in at his neat store, and admire his handsome display.

☞ A special meeting of the Board of Aldermen was held on Tuesday evening. A Petition from the Portsmouth Steam Factory that McDonough street be accepted by the city, was referred to the Committee on Streets.

The subject of guide boards and street signs was referred to the same committee, with the Mayor added, with power to act. [It is proposed to re-arrange the street signs that they may not prove uncertain guides. The changes in the city, occasioned by opening new streets, &c., have occasioned errors.]

The subject of drains in Anthony street was also referred to the same committee, with the Mayor added.

A vote was passed, instructing the Mayor to secure such volunteers as may offer for this city's quota at a reasonable compensation.

A meeting of the Common Council was called, but there was not enough present to constitute a quorum.

(Communication.)

MUSIC IN PORTSMOUTH.—*Mr. Editor:* One of the readers of your invaluable paper, which generally comes like a sunbeam to give zest to the morning repast, has been much disturbed by communications which frequently appear, tending to depreciate the musical taste of our pleasant city. No one knows better than you, Mr. Editor, with your just appreciation of the Science, that there is talent of high order in our midst, but it is a Plant which does not readily flourish with dashes of cold water constantly thrown upon it. And the surest way to eradicate it entirely is to constantly deny that there is any, or to discourage all that there is *existant*.

Wake up the spirit. Flatter the people; don't tell them they are musically dead. It is enough to crush all life out of them—and don't condemn the choir-singing so indiscriminately. There is choir-singing here which would compete favorably with the best choirs in Boston or elsewhere. The surest way to convince yourself would be to attend church, and you will believe the testimony of A LISTENER.

Portsmouth, Dec. 2.

Remarks.—We give the above just as it comes to us, anonymously, with all its censures and compliments—and have no time now for a reply.—ED. CHRON.

☞ John Kilroy, at a late hour on Tuesday night, while under the influence of liquor, forcibly entered the house of Job n Norton, an Irishman, residing at the corner of Bridge and Hill street. Mr. Norton ejected him from the premises, whereupon Kilroy turned and inflicted five severe wounds on his person with a knife,—one of them being dangerous. Officer Dresser was summoned and arrested Kilroy. He was brought before Justice Odell on Wednesday on a charge of assault with intent to kill, but Mr. Norton's wounds not permitting him to appear as a witness, the accused was held for trial on Tuesday next.

☞ The Concord Patriot has discovered that "there was not much of a contest" at our recent election. It gives the vote thus: Republican 854, Democratic 435. That's what's the matter.

MORE GOOD THINGS IN PROSPECT.—We learn that in addition to the Citizen's Course of Lyceum Lectures, to be delivered this winter, we are shortly to have an exhibition of some of our home talent, it being the intention of Mr. JOHN F. LEVERTON, to deliver to our citizens on Christmas Night, a Poetical Dissertation on our Country, in the preparation of which he has been for some time engaged. And in order to add double interest to the occasion, he has secured the valuable services of our Cornet Band, and also effected an engagement with Mr. JAMES C. GOODRICH, well known among us as an accomplished and pleasing singer. 1tDAW

☞ The Denier Troupe gave a capital exhibition of gymnastics and pantomime, &c., at the Temple, last evening, to a good audience, and to the full satisfaction, delight and astonishment of everybody. One more chance to see them, to-night, and those who don't improve it, will "miss it." Go early—laugh and grow fat.

☞ Williams' famous Panorama of the infamous Rebellion, is coming, Friday and Saturday.

☞ A Washington dispatch states that the naval steamer Sassacus, built at the Portsmouth Navy Yard, made an average of seventeen miles an hour on her recent trip to Washington.

☞ It will be seen, on reference to the advertisement in this day's paper, that the rate of passage by the Portland and New York steamers has been increased to $7. The boats leave Portland and New York twice each week.

☞ Diarrhea and dysentery will decimate the volunteers far more than the bullets of the enemy, therefore let every man see to it that he carries with him a full supply of HOLLOWAY'S PILLS. Their use in India and the Crimea saved thousands of British soldiers. Only 25 cents per box. 213

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

ATTENTION, COMPANY!—Volunteers, who expect to retain their health unimpaired during the campaign, must see to it themselves; do not trust to the army surgeons, supply yourselves with HOLLOWAY'S PILLS and OINTMENT. Every English soldier's knapsack contains them. Only 25 cents per box or pot. 212

LOST—On Sunday, a black lace VEIL. The finder will be suitably rewarded on leaving it at the Chronicle Office. d1

S. A. AVERY

Would inform his friends, patrons and all citizens of Portsmouth and vicinity, that NOW is the time to send in their names for Story Papers, Fashion Books and other publications for the year 1864.

Having received a liberal patronage the past year, he is in hopes to increase it the coming year, by prompt attention to this part of the business; and he has also made arrangements for an extra hand to take charge of this department.

And, if there are any papers, monthly, quarterly or publications of any kind, that I do not have for sale or for regular subscribers, I will order the same for the coming year.

Furthermore, if any person wishes to subscribe for any work that they have read of or seen advertised, I will send for the same and have it on exhibition at my store free of charge.

KITCHEN FURNISHING GOODS!

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very nice—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

A SERENADE.

I sing beneath your lattice, love,
A song of great regard for you;
The moon is getting rather high;
My voice is, too

The blossoms on the pumpkin-vine
Are weeping diamond tears of dew;
'Tis warm; the flowers are wilting flat;
My linen is, too.

And now I've done my serenade,
Farewell! my best regards to you;
My clothes are feeling rather tight,
And I am, too.

☞ In a letter from Dickens to Irving, the novelist tells the following laughable story at the expense of Rogers, the poet :—

You know, I dare say, that for a year or so before his death, he wandered, and lost himself, like one of the Children in the Wood, grown up there and grown down again. He had Mrs. Procter and Mrs. Carlyle to breakfast with him one morning—only those two. Both excessively talkative, very quick and clever and bent on entertaining him. When Mrs. Carlyle had flashed and shone before him about three-quarters of an hour on one subject, he turned his poor old eyes on Mrs. Procter, and, pointing to the brilliant discourser with his poor old finger, said, (indignantly) "Who is she?" Upon this Mrs. Procter, cutting in, delivered—(it is her own story)—a best oration on the life and writings of Carlyle, and enlightened him in her happiest and strictest manner; all of which he heard, staring in the dreariest silence, and then said, (indignantly as before) "And who are you?" Was ever strong-minded woman less so squelched before?

AN INTERESTING COURT INTERVIEW. A writer in the Chicago Post describes how he got out of a bad scrape in the Police Court :—

The next morning the Judge of the Police Court sent for me. I went down, and he received me cordially. Said he had heard of the wonderful things I had accomplished at Bryan Hall, and was proud of me. I was a promising young man, and all that. Then he offered a toast : "Guilty or not Guilty?" I responded in a brief but eloquent speech, setting forth the importance of the occasion that had brought us together. After the usual ceremonies, I loaned the city $10.

— A writer in the Railroad Advocate says that statistics show that travelling in the cars is safer by night than by day.

— A workman of Boonton, N. J., has made a very beautiful and valuable collection of insects which have been attracted at night to the blast furnace of the nail works at that place, and he arranged them in the form of a series of bouquets of flowers of the most brilliant hues.

THE ALL SUFFICIENT THREE.
The Great "American Remedies"
Known as "Helmbold's"
Genuine Preparations, Viz.:
HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" " IMPROVED ROSE WASH.

HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which Watery or Fleshy deposits, Enlargements and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for Males, Females, or Children.

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:
Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Universal Lassitude of the Muscular System, Flushing of the Body, Hot Hands, Eruptions on the Face, Dryness of the Skin

These symptoms, if allowed to go on, which immediate invariably removes, soon follow IMPOTENCY, MATRIMONIAL INCAPACITY, INSANITY and CONSUMPTION.

In one of which the patient may expire. Who can say that they are not frequently followed by those direful diseases?

INSANITY AND CONSUMPTION.
Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy death by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS, Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chlorie or Retention, Irregularities, Painful or Suppressed of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhoea, or Whites, Sterility, and all Diseases incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!
Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla,
SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Lineaments of the Nose, Ears, Throat, Windpipe, and other Mucus Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, the Blood-Purifying Properties are preserved to a greater extent than any other preparation of sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and an injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla in such diseases as recommended.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and warranted without extra charge.

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of an unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal, such as impure blood, impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the bladder and kidneys, Bubo, Chancre, Abscesses, Humors, Painful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest allings of a child.
SEMINAL WEAKNESS.
Dr D.. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The faculties of the mind are affected, there is dread, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., rendering the unhappy victim of such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charged for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving particulars of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted persons soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, enjoys advantages not superior to the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M., upon cases difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
Dr. Dow's Medicines, Dow Imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, so no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, rush off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which injures them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cover can be made to consume the gases of the coal, as they pass off with a velocity sufficient to cool the best generator, and making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated to so to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used.
We have in store the different size, Brick and Portables, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

TEETH MOUNTED UPON GOLD, SILVER, AND VULCANIZED RUBBER
All Artificial Teeth coming from my office will be warranted to give entire satisfaction.

Teeth extracted positively without pain, by administering
PURE NITROUS OXYD GAS
No undue excitement ever accompanies or follows its use, and no injury, even to the most delicately constituted, can be an after result. n6

DENTISTRY.
No. 60 CONGRESS STREET,
Portsmouth, Aug. 1st, 1863.
DR. GOODALL
Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.
Teeth inserted on Gold and Silver, and all other operations performed as usual.
Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!
He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.
He would invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.
I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARMAN, Dr. WINYER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.
☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every item fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party, generally. It is a spirit not to be encouraged. Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Reissues, Extensions, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

Please Look at This.
RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—so it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it."
JONATHAN GOODWIN.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food. I commenced taking it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which truly cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.
M. LOWD.
From ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, so that she was for two years visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest, by day or night. She had supplied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then she has recovered her health, so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named.
ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such means allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be accorded in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and the confidence that our trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, DECEMBER 4, 1863.

—Gen. Meade's retreat carried gold to 1521-8.

THE STORMING OF MISSIONARY RIDGE in the great battle before Chattanooga, on the 26th, is thus described by an officer in a report to the War Department:—

— A New Yorker having been appointed Manager of the Boston Telegraph Office, a dispatch states that "some hundred *electrical* friends paid them farewells to him."

— The Toronto Leader of Tuesday says the report that Gen. Morgan had arrived there is a canard. It is thought in Cincinnati that he went to the Ohio river and crossed into Virginia.

— A man residing in New York State, having a wife and three children, lately sold his wife to a disconsolate widower for a cow valued at $30, the wife consenting to the arrangement.

— On Saturday last the estate of the late Senator Douglas, at Cottage Grove, near Chicago, was sold to satisfy a mortgage. It consisted of sixty acres, and brought $83,150, or $803 less than the amount to satisfy the mortage. The grave of Douglas is on these grounds.

A "FIRST RATE NOTICE."—The Old Broker who writes that capital series of papers in the Boston Commercial Bulletin, thus speaks incidentally of a man who if not a Portsmouth boy, "came within one (generation) of it," being a cousin of our "Sam," and the son of a native who emigrated many years since to Boston:

I doubt if there is a more universally liked, worthily esteemed, and particularly generous citizen of Boston than SAMUEL R. SPINNEY, the former clerk of John R. Thayer, and now long an Alderman of the 12th Ward. I could relate innumerable instances of his well-timed liberality and thoughtful assistance,—of how he has given to poverty-stricken, utterly broken-down tradesmen two or three hundred dollars to start them again in the world: and what was much more, continued to extend to them personal aid and influence—men, too, of whom he knew nothing, and the chances were that the amount tendered would be but added to the $20,000 of dead I O U's already in his possession,—of how he has helped some of his former acquaintances and friends again and again, when by their own acts or misfortunes they had cut themselves off from sympathy with everybody else—giving them freely and often. I will cite one instance, that of Tuckerman, to whom Mr. Spinney was a friend to the very last evening when he was in Boston. I rang the bell and sent for him to the door, refusing to come in, and asked him for a hundred dollars, saying, "If you ever wanted to help me, help me now." Mr. Spinney gave that sum to him, and has not, I believe, seen him since.

I remember a little anecdote of "Sam," as he is good-humoredly called, in reference to his finding on his way home one evening a ragged-rear youngster, sitting on a door-step and indulging in a juvenile boo-hoo.—After some soothing applications of a penny in hand and various mint-sticks as *future*, he elicited the cause of his grief, which was that,

"Fou-fo-four-Fourth of July was com-com-comin', and he hadn't a cent; and Bub-bub-Bill Jenk's mother had gug-gug-given himsixpencesofsheadyoo!"

"Oh, well, my boy, don't cry. Do you know where I live up at Bay View? Inquire for Mr. Spinney, anybody will tell you. Now do you come to my house tomorrow afternoon, and I will give you a quarter. And harkee, if there are any other little fellows you know of that haven't any money to spend on the Fourth of July, just bring them along, and they shall have a quarter too!"

The vagrom lad trotted off like a shot, with his penny in hand and bright anticipations in future for the coming *bamse* on fire crackers and short sixes.

On the following noon, Mr. Spinney got a message from his household circle, to the effect that a gang of "fearfully demoralized" looking youngsters, in very dilapidated garments, had been hanging round the house all day, and evidently were bent on some mischief, as they were watching it very closely, and kept pointing over and making threatening gestures. "Sam" sent back word not to be alarmed and he would be home early.

The report, however prepared him for what was to be expected on his return, and converting a $20 bill in new, shining quarters, he wended his way homewards. A turbulent assemblage of rag, tag and bobtail greeted his appearance with wild glee and a vociferous shout, which subsided into dead silence, when his wait of the evening previous came forward with a rush, as if impelled by some ragamuffin force in the rear, and squeaked out:

"I say, mister, here's me, and them tother chaps."

Each sprig of the bye-ways and underhills was presented with a quarter, upon which he disappeared as sudden as if the pavement had swallowed him up; and many an old candy woman and popbour shop keeper was doubtless astonished at the accession of circulating medium in the hands of the unwashed, unruly urchins of their precincts.

Such is the appreciation in which Mr. Spinney is held in his own district, South Boston or the 12th Ward, that even his political opponents would not vote against "Sam" on any account, and that single fact is a book in itself. He makes no effort to gain popularity either, gives no dinners or blows-out, panders to no prejudices, and seeks no other reward than is fully and freely accorded him from the exercise of an innate benevolence and kindly disposition. That is the standing of a State street broker in his own neighborhood.

NEW HAMPSHIRE ITEMS.

—— Privates Peter Donnelly and John Flynn, both of Co. H, 10th regiment, have been sentenced to be shot for desertion.

—— Samuel Upton, Esq., of Manchester, has been appointed Drafting Commissioner for the 2d District, in place of Henry F. Richmond, removed.

—— The Mirror states that operations in the Langdon Mills, Manchester, which were suspended a year ago last July, are to be resumed again this week. About one-half the capacity of the mills was employed at the time they stopped, and the same amount of work will be set running now.

—— At two o'clock, on Wednesday morning, a fire broke out in the valuable barn of D. Stewart, Esq., in Amherst, and spread till it had consumed the three-story hotel and out-buildings, and also the store occupied by H. E. Abbott, and the store of the late Col. Means. Loss from $8000 to $10,000. Partially insured.

—— Private Robert Johnson, Co. C, 10th regiment, for sleeping on his post, has been sentenced to be dishonorably dismissed from the service, and to be imprisoned two years at hard labor. Private William Johnson, Co. H, 10th, a substitute, has been sentenced to be dishonorably discharged from the service, and to be confined at hard labor for ten years, for desertion.

—— A serious accident occurred to the evening express train on the Northern Railroad, on Tuesday night, near Canaan, two cars being thrown down an embankment by the displacement of a rail. A French woman was badly burned, and probably will not live. A small boy was seriously injured, and George T. Commins, of Lowell, had a shoulder dislocated. Fifteen others were bruised, but not seriously hurt.

—— The Boston Post well says that "the many friends of Mrs. Jane M. Pierce, wife of ex-President Franklin Pierce, will learn with deep regret her decease at Andover, on Wednesday morning, in the fifty-seventh year of her age. For many years her health has been feeble and her sufferings intense, but she ever manifested a Christian resignation and patience under her afflictions, endearing herself by her gentleness to all who enjoyed her intimacy. During Mr. Pierce's official term, Mrs. Pierce was prevented by constant illness from mingling in general society or assuming the place in the White House which she would have adorned had her strength permitted; but, in private, to those who were permitted the privilege of intercourse with her, she indicated a winning sweetness of temper, an affability and womanly disgrace as rare as it is pleasant to behold. Her death will inspire the sincerest sorrow and her memory will be cherished as one of the joys of earth."

☞ A correspondent writing from Washington, Nov. 30, says of side-wheel steamer Sassacus, 2, which was then lying at the Washington Yard, waiting to tow iron clad steamer Sagamon down the river:

"I am pleased to inform you that this vessel, by her trial trip from New York to Washington, has proved herself probably the fastest in the Navy of the United States. A speed of 17 miles an hour has never, we believe, been attained by any of our men-of-war, when wind and tide were not with them. The Sassacus has made that time. Determined to find out exactly what she was capable of doing when at the top of her speed, we timed her. She made the distance from Fort Washington to Alexandria (the upper dock at that place) which is 8 1-2 miles, in 22 minutes, which gives her an average speed of 11.5 miles per hour. The engineers report that there was only 27 pounds of steam on at the time. We were running at our usual speed. There is not the slightest doubt that we could have made 13 miles, if she were put to the test. The draft of the ship is eight feet nine inches, our paddle wheels being down five feet three inches. The Sassacus is the first vessel of a new fleet of 27 wooden ships, which were built at the Navy Yard and by contractors. She is a Navy built ship, having been constructed at Portsmouth, N. H. She is 240 feet long, 35 feet wide, and 12 feet deep. Her first and second trips, as well as the last one, all demonstrate her entire success, but the newness of everything about her prevented her full speed from coming out. It is to be hoped that she will be sent to some station where fast movements are required."

☞ The ceremony of formally breaking ground on the west side of the Missouri river for the Union Pacific Railroad, occurred at Omaha on Wednesday, 1000 persons were present, including Gov. Saunders of Nebraska, and the Mayors and Councils of the cities of Omaha and Council Bluffs. Guns were fired and the people rejoiced; and in the evening they illuminated their houses, and sat down to a grand banquet at the Herndon House. Addresses were made by the Governor and others.—Dispatches were read from the President, Secretary Seward, Gov. Yates of Illinois, Mayor Opdyke of New York, Gen. Dix, and others.

— A correspondent with the army in Texas writes that the German element in that country will speedily restore the State to the Union. The Germans of Western Texas, in which locality they numerically predominate, are a hardy set of agriculturists, and, as a general thing, non-slaveholders.

From the Dover Enquirer, Dec. 3d.

DOVER AND PORTSMOUTH.—A sad disappointment has fallen upon those cities by reason of the lease of the Dover and Winnipisseogee Railroad to the Boston & Maine R. R., and the consequent defeat of the project of extending the former over Dover Point to Portsmouth. In no project have these cities been so earnestly united as in that extension. And it is due to the inhabitants of both cities, that some explanation should be given of a result which is so deeply injurious to them; the facts should be stated, also, for the further object of exonerating from reproach certain gentlemen of this city, who were prominent in procuring the charter for the extension.

It was not understood or intended that the D. & W. R. R. was strong enough of itself to build the road to Portsmouth. But verbal proposals had been made to and accepted by another large and competent company, by means of which this object was to be accomplished. Sufficient capital was promised, and honest and decided assurances were given to the Legislature that the road should be, and would be built, if the charter should be granted.

The bondholders of the Cocheche R. R., having become stockholders of the D. & W. R. R., and having lost all their original stock in the Cocheche R. R., desired to be relieved, some of them having devoted their time and large estates to the enterprise. But the large corporation upon which they relied for building this extension, dallied and delayed, and evaded closing the promised contract, until all patience and nearly all hope in that direction were exhausted; when the B. & Me. R. R. came forward and made a proposition for a lease for fifty years; which the majority of the stockholders of the D. & W. R. R. voted to accept; and thus the charter for the extension of the road has passed over to a corporation which is deeply interested to prevent, and which will forever retard any greater facilities for the mutual intercourse of the inhabitants of these cities; and unless these twenty thousand people come forward and in their own strength procure a new charter and build a railroad from Dover to Portsmouth, they must be doomed for many years, it is to be feared, to the inordinate expense and burden of twenty-two miles transportation over two railroads, to accomplish a passage of only ten miles.

The friends of this enterprise should bear in mind that but a few persons only in Dover are stockholders in the D. & W. R. R., and that the feelings and desires and necessities of the great mass of the people and business men on this subject are unchanged on this subject. A respectable minority of the D. & W. R. R. voted against the lease. That minority represented men of large wealth, high honor and unfailing devotion to the interest of this city; and they voted against it chiefly because they saw in it the destruction or suppression of the charter for the extension of their road.

There is probably no part of the world which presents greater beauties in natural scenery or more attractions for the traveller, than the route surveyed for a railroad from Dover to Portsmouth over the Point, and the parallel carriage drives.—Those who have time for recreation and social intercourse, or, who have the wisdom to appropriate time from their business for such purposes, anticipated with delight the time when they could in comfortable cars or private carriages follow the west shores of the two rivers to Strawberry Bank. Shall the fatuity of the past be compensated by the energy of the present? To each citizen the question is submitted and by him it is to be answered. SOCRUS.

Dover, Nov. 28, 1863.

— The statement telegraphed simultaneously from Cincinnati and Washington, that Gen. Thomas had telegraphed to the President that in his late operations he acted in accordance with plans matured by Gen. Rosecrans before his removal, is authoritatively announced to be false.

— Gen. Meredith telegraphs to the Secretary of War that all supplies for our prisoners at Richmond, whether sent by the Government, or by any State, or by private individuals, are received and forwarded by the rebel agent.

— "Jeszcze Polska nie Zginela!" is one of the startling head-lines to a report in a New York paper of a recent meeting in behalf of the Poles. That's as bad as the S T—1860—X.

THE SECOND LECTURE OF THE CITIZENS' LYCEUM COURSE WILL BE GIVEN ON THURSDAY EVENING, Dec. 10, 1863, BY

Rev. A. L. STONE, of Boston,

Late Chaplain of the 45th Massachusetts Reg't; SUBJECT—"CAMP LIFE."

As the tickets for the course are nearly all sold, it is not deemed expedient to sell single evening tickets.

A few course tickets can be found at the usual places.

TICKETS FOR THE COURSE, $1.

All persons in this city and neighboring towns having tickets for the Lyceum for sale which have been left previous to the opening, will please make immediate returns to the Secretary of the Association, 14 Pleasant street.

Ample accommodations will be made in future for sale for all holders of course tickets.

Per order, JAMES B. HEAD,
d3 Secretary of C. L. Association.

The Temple, Portsmouth.

FRIDAY and SATURDAY EVE'GS, Dec. 4th and 5th.

Williams's Great Panoramic of the AMERICAN REBELLION!

☞ Bear in mind that this stupendous Work of Art is produced upon a scale of magnificence and grandeur never before attempted. Remember that this is no Magic Lantern or Dissolving Views, but a beautiful and genuine Painting, covering over 3000 YARDS OF CANVAS. Each view presented the enormous size of Ten by Fifteen Feet, and pronounced by competent judges to be the Finest Moving Panorama in the World.

THE LECTURE constitutes a faithful and comprehensive history of this unfortunate rebellion, a correct description of the various localities, distances, cost of fortifications, &c., in fact, all the information that energy and perseverance has been able to collect to render this exhibition interesting and instructive.

Appropriate Music

By one the finest Pianists in the Country, will accompany the exhibition.

Among the many incidents represented, are Views of Charleston Harbor, with Battery and Parade Ground, as it appeared during the bombardment of Fort Sumter; Secession, and its surrounding fortifications, Washington, Long Bridge, Arlington Heights, Harper's Ferry, Cumberland Canal and the House made famous by John Brown; making a full and complete representation of the War, from its commencement to the present time.

Fred. Medex and his Penny Whistle,

The Marvel of the Nineteenth Century, is connected with this Panorama, and will positively appear at each Exhibition in his wonderful imitations on this miniature instrument. The world is challenged to produce a man that can blow thee clear notes from the whistle.

Peremptory Sale

—OF—

Valuable Wood and Timber Lands.

I shall sell at Public Auction, by directions contained in the will of the late Mr. Jo Perley, deceased, on WEDNESDAY, the ninth day of December, 1863, at 10 o'clock A. M., on the premises—

One hundred and sixty-six acres of Land, situate in the towns of Auburn and Candia, N. H., about one mile from the station of the Concord and Portsmouth Railroad in Auburn, and five miles from the city of Manchester. This land contains a heavy growth of hard wood, interspersed with oak timber, and will be offered in two lots.

At 2 o'clock P. M. on the same day, after the above sale, I will be sold on the premises, a Lot situate in Auburn, on the highway near the residence of Mr. Geo. W. Severance, about three miles from the station of the Concord and Portsmouth Railroad. This lot is covered with a thrifty growth of chestnut, oak and pine, and contains thirty acres.

Terms of the sale are cash. Ten per cent. of the purchase money will be required to be paid on the completion of the sale, and the balance within thirty days, within which time the deeds will be ready for delivery.

Plans of the lots may be seen at the dwelling-house of Mr. JOHN MOORE, in Auburn, and at the office of SAMUEL N. BELL, Esq., in Manchester.

The quantity and quality of wood and timber upon these lots, their situation near Manchester, and the facilities for reaching good markets by the way of the railroad near which they are located, commend this as an opportunity seldom offered for a remunerative investment.

The sale being expressly provided for in the will of the deceased, and in accordance with his directions ordered by the Trustees, will be positive.

For further particulars inquire of MOSES DORMAN, Roxbury, Mass.; JOHN KILLAM and GEO. W. CHAPLIN, Georgetown; J. H. TOWNE, at Naumkeag Mills, Salem, Mass.; or of WILLIAM H. HACKETT, Auctioneer.

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent catharsis, was the study in the development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

ROCKINGHAM MILLS.—This corporation, chartered by the last session of the Legislature, was organized last week. Mr. Charles Amory, of Boston, is Treasurer, and Wm. H. Hackett, of Portsmouth, Clerk. The company are rapidly completing arrangements for manufacturing tapes, braids, &c. The starting up of these mills has caused quite an important addition to our population, and has created an additional demand for tenements, and several new ones are in course of erection in the vicinity of the Mills.

☞ The town of New Market has about got its full quota of volunteers, for the new levy of troops—having secured 17 of the 18 required, through the attention and judicious management of S. A. Haley, Esq., their Town Agent, appointed for this purpose. The cost averages about $550 per man, and they were, we believe, all recruited in this city. On Thursday volunteers were receiving $575 or more, here.

☞ Speaking of advertisements—among our list of TAILORS or clothiers, will be found notices from *J. E. Ham & Co.*, "9 Tailors 9" Congress St., (*vide* their sign hung out) who have long had the name of giving their customers particular fits.

Walking on a little, you come to *Walker's* City Clothing Store—where the constantly increasing rush of business sufficiently attests William's popularity and skill, and the Lord-ly style in which they "do up" things there.

Then passing several others, (who, not having advertisements in these columns, it is fair to presume do not court our publicity, so *we* will also "pass" them here) and we come down to *Downie's*, where they know how to "do things up Brown," sure.

Then there are Myers & Simpson, who, though they keep on a bent street, do no crooked business, but have long ago reared for themselves a "monument" in the esteem of the public, by their uniform fair dealing.

Success to them all.

Last, but by no means least, especially on *this* occasion, comes Mr. Gerrish, with his large and well-stocked store, full of all things needful or desirable for men or boys' wear—and the suit-ing of the little folks he makes a speciality; and now, as usual, Charles presents himself in no doubtful shape, but gracefully wheels into column of the Chronicle brigade, and lets fly a full broadside at all who wish to be both suited and fitted,—for they are by no means synonymous terms.

And, by the way, the men of this name of Gerrish ought to be, and must be, good traders, for there are no less than five of the family connection doing large and successful business in this city. We will refer in a word only to the well-tuned senior, whose declining years (if *such* a cheerful old age can be termed a "decline,") must be enlivened by the remembrance of his lifelong endeavors to render all about him happy, and who still yet retains the blessed consciousness, realized in youth, that "no day is better than *this* day."

☞ It isn't often that our friend Auctioneer Hackett gets into a "box" that he can't get out of; and this morning he is to relieve Provost Marshal Godfrey from a *lot of 'em*, by auction—wooden ones these are; and we *would* not wonder if some unappreciative people may regard this a wooden joke.

BURGLARIES.—The Ballot hears that one night last week a number of burglars committed numerous robberies in North Hampton—stealing apples, potatoes, harnesses, and even the new shoes from a horse's feet. A harness stolen from Hezekiah Lamprey was found in pieces the next morning on the road between Hampton and Exeter, having probably fallen from the load during the burglars' rides by night.

☞ We learn that Mr. Davis, of Concord, who by request of citizens of Portsmouth has been and is now conducting Singing-Schools here—will at the close of the present term, give a public exhibition and concert, with about two hundred children and adult members of his classes—say about New Year.

☞ We referred on Thursday to an assault and stabbing case wherein a Mr. Norton was severely wounded. Mr. N. is represented to be a very honest and inoffensive man, and has served his country faithfully in the capacity of a soldier, until severely wounded, after which he received an honorable discharge, wenthome to New York and from thence came to this city in pursuit of employment, which he found in the Caulker's gang at the Portsmouth Navy Yard, where he has continued to labor up to the time of the before-mentioned affray.

☞ The war is the all engrossing subject of thought and of conversation, and the unrolling of Williams' great panorama of the principal battle-fields, fortifications and naval contests, at the Temple this evening, will afford our citizens an admirable opportunity to view vivid representations of scenes of which they have read so fully in the newspaper accounts.

FUR.—With fur in any shape, you can be supplied at Dearborn's or Head's, Market street; and you may perhaps go fur-ther and fur worse.

☞ The Portland, Saco and Portsmouth Railroad has declared a dividend of 3 per cent., payable Dec. 7, to holders Nov. 30.

☞ Tired and hungry, after a wearisome evening's work, we went to Hoyt's Young America Saloon. We came away rejuvenated.

☞ Col. John H. Jackson, of this city has relieved Lieut. Col. Wardwell, in charge of the conscript camp at Concord.

THE REBELLION.

All our available forces left Cumberland Gap on the 30th, under the direction of Maj. Gen. Foster, with a view to intercept Longstreet in his retreat to Virginia. Burnside is closely pushing the enemy's rear.

The Army of the Potomac is back again to the north side of the Rappahannock.—The retreat was made in good order and without loss. Among the reasons given for the abandonment of the campaign are that Lee so retreated and intrenched himself daily as to delay any rapid advance on our part, and at the same time to prevent any general attack; that the question of supplies alone required the withdrawal to Gen. Meade's old base; and that the weather was so cold it was certain that our wounded, in case of assault, would suffer and die by hundreds before they could be cared for. There was no fighting—not even a skirmish—and the entire army recrossed the river with all its trains intact. The entire loss of the campaign is 600 killed, wounded and missing, 60 of whom were killed.

The report of the capture of 5000 rebels at Knoxville was false.

The rebels are conscripting and plundering in the border counties of Tennessee indiscriminately, regardless of the political sentiments of their victims. Intelligence of the movements of Gen. Grant's army is contraband. Refugees and deserters report that Bragg has been reinforced near Dalton, Ga., by Joe Johnston.

— Two of John H. Morgan's Captains, R. Sheldon and S. B. Taylor, who escaped with him from Columbus, were captured on Wednesday evening, about 6 miles from Louisville, on the Kentucky side of the river.

— Four or five of Morgan's fellow prisoners are reported to have arrived at Toronto, Canada.

☞ Diarrhea and dysentery will decimate the volunteers far more than the bullets of the enemy, therefore let every man see to it that he carries with him a full supply of HOLLOWAY'S PILLS. Their use in India and the Crimea saved thousands of British soldiers. Only 25 cents per box. 213

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

S. A. AVERY

Would inform his friends, patrons and all citizens of Portsmouth and vicinity, that NOW is the time to send in their names for Story Papers, Fashion Books and other publications for the year 1864.

Having received a liberal patronage the past year, he is in hopes to increase it the coming year, by prompt attention to this part of the business; and he has also made arrangements for an extra hand to take charge of this department.

And, if there are any papers, monthly, quarterly or publications of any kind, that I do not have for sale, or for regular subscribers, I will order the same for the coming year.

Furthermore, if any person wishes to subscribe for any work that they have read of or seen advertised, I will send for the same and have it on exhibition at my store free of charge.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into use at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and buckets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much heat is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Quality, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood, Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one half.

No family, large or small, where economy, convenience and cleanliness are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

We offer this beautiful coal burner to the public with the full confidence that it will

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined. By the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 28th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar a item worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Nervous Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in Hospitals and Lying-in Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

AS A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritious properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and cast-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large capacious Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, rush off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned in the admission of cold air through the fire-pot, which renders them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Portsmouth, Aug. 1st, 1863.

DR. GOODALL,

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in five minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. Tarbox Beale, Dr. Boardman, Dr. Oliver and Dr. Bennett, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

"Bound to no party—to no sect confined;"
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all:
Exalt the right, though every item fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischiefs sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

THE STORMING OF MISSIONARY RIDGE in the great battle before Chattanooga, on the 26th, is thus described by an officer in a report to the War Department:—

The storming of the Ridge by our troops was one of the greatest miracles in military history. No man who climbs the ascent by any of the roads that wind along its front can believe that 1800 men were moved upon its broken and crumbling face, unless it was his fortune to witness the deed. It seems as awful as a visible interposition of God.—Neither Generals Grant nor Thomas intended it. Their orders were to carry the rifle-pits along the base of the Ridge and cut off their occupants; but when this was accomplished the unaccountable spirit of the troops bore them bodily up the impracticable steeps, over the bristling rifle-pits on the crest and the thirty cannon enfilading every gully. The order to storm appeared to have been given simultaneously by Gens. Wood and Sherman because the men were not to be held back, hopeless as the attempt appeared to military prudence; besides the Generals caught the inspiration of the men, and were ready themselves to undertake impossibilities.

— The auction shops in London are infested with a class of buyers called "knock-outs." These are persons combined to intimidate purchasers, even to the extent of using personal violence. The consequence is that they bid off the goods offered for sale at their own prices, and the owners of them suffer accordingly. The newspapers are crying out against them as a common nuisance, which should be abated.

— The King of Denmark died on Nov. 15. He is succeeded as King of Denmark by the father of the Princess of Wales, under the name of Christian IX. But his right to succeed the late king as Duke of Schleswig and Holstein is contested by the Prince of Augustenburg, who has already been recognized as Duke of Schleswig and Holstein by the Government of Saxe Coburg.

SATURDAY, DECEMBER 5, 1863.

THE REBELLION.

We now have clearer accounts of the recent fight at Knoxville. It seems that on Saturday night the rebels made an attack on a large portion of our skirmishing line, and early the next morning charged in strong force upon Gen. Ferrior's position, (Fort Saunders). They were met midway by a murderous discharge of grape and canister, and the steady fire of the rifle-pits, under which they faltered, and finally fell back in broken fragments, leaving two colonels, several captains, and in all, over 100 dead on the field. We captured 234 prisoners, and 8 stands of colors. Gen. Burnside offered a truce to Gen. Longstreet, for the removal of the enemy's wounded and burial of their dead, which was accepted, and the wounded rebels were exchanged for loyal soldiers wounded in previous engagements.

The rebels surrendered Mustang Island, near Corpus Christi, on the 19th, to a portion of Gen. Banks' forces, by showing a white shirt on the point of a bayonet.—They made an unconditional surrender of their fort, troops (a company of artillery and a squadron of cavalry) and munitions of war. We did not lose a man. Our gunboat threw shells and caused a panic among the rebels.

About 18 shells are thrown into Charleston per day, doing considerable damage, and the inhabitants have been removed to the rear of the city. Sumter no longer displays the rebel flag, although occasional shots are fired from its guns. Gen. Gilmore has turned his attention from it to the forts inside the harbor.

Gen. Meade's army will probably now go into winter quarters.

IN UNION ALONE IS STRENGTH.—J. S. Abbott, in his interesting and valuable series of articles on Rome and Naples, in the New York Ledger, constantly inculcates the lesson of "Union." Thus in his last, in speaking of the horrors which came upon Naples, he remarks:—

Surely there is a lesson for Americans to learn, in these historic scenes. A class of men in our country, claiming to be the noblemen of America, because they, like the corrupt aristocracy of Europe in the Middle ages, live in idleness upon the unpaid toil of the poor, are striving for the dismemberment of this republic.

"On the 21st of Jan., 1863," says the Paris correspondent of the Louisville Journal, "a letter was received at the French Court, signed by Jeff. Davis, Robt. Toombs, Henry A. Wise and seventy others, urging the recognition of the Southern Confederacy by the French Government, on the ground that they intended, so soon as their independence was recognized, to establish a Nobility before they disbanded the army; that the poor whites and non-slaveholders would emigrate, leaving only the nobles and their slaves; that this would be the firmest nobility in the world, as the nobles would own their laborers; that their ability to do this could not be doubted, since they had established the present confederacy, in opposition to a majority in every State; that the nobles of Europe ought to help them in thus striking a blow at democracy; and that they had arranged their conscription so as to exempt the sons of the nobles from the perils of the field."

There are thousands of indications that this was essentially the plan of many of the rebels. The Union, this glorious republican empire, soon to surpass ancient Rome in the grandeur of its wealth and power, was to be broken into fragments. And of these fragments each State was to be a petty independent sovereignty. If we would see the result of such folly let us look at Rome. For centuries the dishonored empire was but a conglomeration of insignificant kingdoms and dukedoms, ever warring against each other, and the whole land was darkened with the smoke of conflagration, and rendered dismal by the wails of despair. The only hope of our land is in union, and the maintenance of our free republican institutions. If we do not fight now until we beat down and crush out this foul spirit of rebellion, we shall have to fight through uncounted centuries to come, as we shall behold our once happy country broken up into a mass of discordant and belligerent States.

☞ A writer in the Montgomery Advertiser gives the following summary of what the rebel Gen. John H. Morgan had done previous to his capture, adding that his command at no time exceeded 5000 men:

He has fought sixty-three battles, and has been successful in fifty-seven; taken 50,000 prisoners; killed and wounded 20,000, and destroyed $50,000,000 worth of property; taken 50,000 stand of small arms, 50 pieces of artillery and 20,000 horses; and travelled 12,000 miles.

Who is to blame for the escape of this daring rebel?

☞ Part 38 of Putnam's Rebellion Record, edited by Frank Moore, completes the sixth volume. This work (as pronounced by the press, and by all who have carefully examined it) is "the standard authority of the war." It is publishing in parts, at 50c each part, illustrated with two portraits of the most prominent men of the day. To the student of History, and for public libraries, the work is invaluable; and as it has already been received as authentic evidence in trials for piracy and treason, in the United States Courts, it is essential to every lawyer's office.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TONY.

Governor Belcher, 1730. — Deaths of Richard Waldron and Lieut. Governor Wentworth.—In 1730, Jonathan Belcher of Boston was appointed Governor of Massachusetts and New Hampshire. He was a native of Boston, eminent as a merchant, and possessed of a large fortune. He was courteous to strangers, constant in his attachment to his friends, but severe to his opponents. His appointment was very acceptable to the people of both provinces.—Lieutenant Governor Wentworth wrote a complimentary letter to him, during his residence in England, whilst it remained uncertain whether he or his competitor, Shute, would be appointed. On his first visit to New Hampshire he accepted an invitation from Wentworth and resided at his house. But after he had been informed that Wentworth had written a similar letter to Shute, he highly resented it, accused him of duplicity, and on his next journey to this place refused to visit him. Nor did his resentment stop here; he limited Wentworth's compensation for his services, to the fees and perquisites arising from registers, certificates, licences, and passes, amounting to about fifty pounds sterling a year.—He even extended his displeasure to some of Wentworth's connexions, who were removed from office to make way for his own friends. Theodore Atkinson, who married the daughter of Lieutenant Governor Wentworth, was Collector of the Customs, Naval officer, and Sheriff of the province. Richard Wibird was appointed Collector, and Ellis Huske Naval officer in his stead, and Eleazer Russel was made joint Sheriff with him. Atkinson being a person of humor, turned this latter appointment into ridicule. The Governor had ordered a troop of horse to escort him to this town, and required the officers of government to join the cavalcade. When Atkinson appeared he had only half his wand, as his badge of office. The Governor reprimanded him for being late, and he apologized by saying he had only half a horse to ride.—The Governor's conduct towards Wentworth irritated some of his friends, who formed a strong party against him. Benning Wentworth, his oldest son, and Theodore Atkinson were leaders of the opposition.

On the 3d of November, 1730, the honorable Richard Waldron departed this life in the 80th year of his age. He was the son of Major Richard Waldron of Dover, and was bred a merchant under Lieutenant Governor Willoughby of Charlestown.—After his return to this province, he resided part of his time at Portsmouth, and part at Dover, and pursued the business of merchandize. He was early engaged in public life, and sustained many offices of honor and importance. His superior qualifications first introduced him to notice, and his desire of being useful to society induced him to accept the several appointments which were offered him. He was a Counsellor, Justice of the Court of Common Pleas, Judge of Probate, a Justice of the Peace, and Colonel of the militia for many years together. He discharged the duties of these several offices with great ability and undeviating rectitude. Amidst these worldly honors and riches, he did not neglect the more important concerns of religion. He was circumspect in his christian conduct, and endeavored to walk agreeably to the precepts of the gospel. He was buried without military honors, because he had frequently expressed his dislike to pomp and parade at funerals.

Lieutenant Governor Wentworth did not long survive. He fell into a lethargy, and died on the 12th of December, 1730, in the 59th year of his age. He was born at Portsmouth, in the year 1671, of pious parents, who educated him in the principles of the Christian religion. His inclinations led him to a seafaring life, and he soon obtained the command of a ship. In this situation he was very exemplary in his conduct, and constantly maintained the worship of God in his ship, by morning and evening prayer. By careful attention to his business, he acquired a handsome fortune. His engaging manners procured him the affection and esteem of all who knew him. His public spirit induced him to take an interest in whatever would benefit his native place. He was appointed one of the Council in 1712, and he adopted the sound prudential maxims in public life which he had found so very beneficial in managing his private concerns. After the administration of the government devolved upon him, his unwearied endeavors were to promote the welfare of the province. He had many difficulties to encounter; contending parties required great moderation to decide between them and reconcile their conflicting interests. The utmost prudence was necessary to direct an Indian war.—In the discharge of his official duties, he gained the approbation of the inhabitants, and the affairs of the province flourished under his mild administration. He was constant in his attendance upon public worship, regular in his family devotion and in the observance of all the ordinances of the Christian religion.

LOUIS NAPOLEON AGAIN SNUBBED.—One of the principal propositions in the French Emperor's late speech, was the assembling of a European Congress, to settle the Polish and other difficulties. Gortschalkoff informs the French Ambassador that Russia will participate in the Congress, but not until after the pacification of Poland!

— Robert Toombs has made a speech in the Georgia Legislature, in which he stated that the depreciation in the rebel currency from March 1 to July 1 was at the rate of 5 per cent. per day. This doleful cry from the tombs must animate the rebels.

— It is regarded as somewhat mysterious that the secesh young ladies sent away from Baltimore for contraband offences, appear bright and merry at the balls and theatres in New York. An underground railroad is said to be in operation somewhere.

— Gold declined to 151 5-8, Friday.

— The Penobscot was closed by ice at Bangor on Wednesday night, 2d.

—By the new constitution of Venezuela, slavery is forever abolished in that country.

— Well executed bills of the "Lincoln County Bank, Wiscasset, Maine," are in circulation. There is no such bank.

— Hon. Schuyler Colfax seems to be the most prominent candidate for Speaker of the House of Representatives.

— Gen. Butler has issued an order permitting trade with Norfolk, under certain restrictions.

— It is reported that Earl Russell leaves the British Cabinet, to be succeeded by Earl Clarendon.

— The salaries of the school teachers in the city of New York and in some other cities have been increased.

— Among the rebel killed and wounded in the battle before Chattanooga were thirty printers and editors.

— The army shoes for colored soldiers range from No. 11 to No. 15. They will be the fellows to occupy the South.

— Juries in Nevada may find verdicts by three-fourths majority, until the Legislature makes a unanimous vote necessary.

— Sixty tons of sanitary goods were shipped at Cairo on Thursday for Chattanooga, by the Illinois Sanitary Commission.

— Queen Victoria has forbidden the use of tobacco in Windsor Castle—even in the Prince of Wales's apartment.

— The remains of the musical composers, Beethoven and Schubert, have been exhumed, photographed and reburied.

— A Baptist council in New York has just decided that it was expedient to proceed to the ordination of the Rev. Matthew Hale Smith.

— After paying all the expenses of the Russian ball in New York, the committee find they have a surplus of three thousand dollars.

— The crew of a fishing schooner which arrived at Searsport, Me., last week, consisted of an Irishman, a negro and a Yankee.

— The Union State Central Committee of California suggest Gettysburg as the place for holding the next National Convention.

— Memphis papers of the 1st inst. report the cotton market languishing; 189 bales were sold on the 30th ult., at prices ranging from 45 to 70c.

— The last rebel killed (by deserters and other reliable gentlemen) is John C. Breckinridge. They say he died of wounds received at Ringgold.

— They've killed the owl in Portland, and the "Ghost" howls no more around the Sugar House. 'Twas a big owl,—5 feet, 6 inches, from tip to tip of his wings.

— Orders have been received by the Naval Constructor at the Brooklyn Yard to prepare the ways for three now fast sloops-of-war; the preliminary work has been for some time in progress.

— While the war has been going on there has been an unusually large settlement on our public lands, and the great producing area of the Republic has been largely extended.

— 78 rebel prisoners escaped from Camp Douglas, Chicago, on Wednesday night, by digging a tunnel from the barracks to the outside fence. A number have been recaptured.

— There are now living in Newburyport a Julius Cæsar and George Washington (contrabands), Patrick Henry, John Adams, John Quincy Adams, John Brown, and a General Jackson, though his Christian name is not Andrew.

— The losses of cattle by starvation in the southern counties of California on account of the very dry season, is estimated at over 15,000, and many more were killed to save the hides and tallow. The recent rains have started vegetation so that stock may commence recruiting.

— The head of the Statue of Freedom has been successfully placed in its position on the dome of the Capitol at Washington. The whole figure is nineteen feet high, of bronze, and weighs fifteen thousand pounds. It was designed by Crawford, and cast by Clark Mills.

— The Portland Press says the steamers of the Portland and Boston line have made, (since the company was organized) 11,200 trips, or an aggregate of 1,400,000 passengers and 2, 500,000 tons of freight, without the loss of a life. And yet the route is a rough and dangerous one.

— The number of invalid pensions granted by the Pension Office during the month of November was 2095. The number of pensions to widows, mothers and orphans allowed during the same month was 2002. The number of invalid cases allowed exceeds the number of new cases filed for the month by 1062.

— The Heenan and King fight, which is to take place in England next month, for a purse of £2,000, is the all-absorbing topic among the sporting men. The final deposit of £100 a side is yet to be made. Both men are in active training, and it is pretty generally believed that Heenan will have fair-play shown him this time.

—— Thermometer in Manchester on Thursday morning—8° above zero.

—— Twelve divorces have been decreed at the S. J. Court in Concord. In only one case was the husband the applicant.

— "Save my daughter," exclaimed a mother struggling with her child in the waters of the Mississippi at the Sunnyside disaster, to a man who swam up and said, "I will save one of you—which?" The daughter was saved and the mother went down.

FRIDAY and SATURDAY EVE'GS, Dec. 4th and 5th.

Williams's Great Painting of the
AMERICAN REBELLION!

☞ Bear in mind that this stupendous Work of Art is produced upon a scale of magnificence and grandeur never before attempted. Remember that this is no Magic Lantern or Dissolving Views, but a beautiful and genuine Painting, covering over 10,000 FEET OF CANVAS. Each view presented the enormous size of Ten by Fifteen Feet, and pronounced by competent judges to be the Finest Moving Panorama in the World.

THE LECTURE constitutes a faithful and comprehensive history of this unfortunate rebellion, a correct description of the various localities, distances, cost of fortifications, &c. in fact, all the information that energy and perseverance has been able to collect to render this exhibition interesting and instructive.

Appropriate Music

By one the finest Pianists in the Country, will accompany the exhibition.

Among the many incidents represented, are Views of Charleston Harbor, with the battery and Parade Ground, as it appeared during the bombardment of Fort Sumter; Pensacola, and its surrounding fortifications; Washington; Long Bridge, Arlington Heights, Harper's Ferry, Cumberland Canal and the House made famous by John Brown; making a full and complete representation of the War, from its commencement to the present time.

Fred. Medex and his Penny Whistle,

The Marvel of the Nineteenth Century, is connected with this Panorama, and will positively appear at each Exhibition in his wonderful imitations on this miniature instrument. The world is challenged to produce a man that can blow thee clear notes from the whistle.

Peremptory Sale
—OF—
Valuable Wood and Timber Land

I shall sell at Public Auction, by directions contained in the will of the late John Perley, of Auburn, deceased, on WEDNESDAY, the ninth day of December, 1863, at 10 o'clock A. M., on the premises—

One hundred and sixty-six acres of Land, situate in the towns of Auburn and Candia, N. H., about one mile from the station of the Concord and Portsmouth Railroad in Auburn, and 6 miles from the city of Manchester. This land contains a heavy growth of hard wood, intersperced with oak timber, and will be offered in two lots.

At 2 o'clock P. M. on the same day, after the above sale, will be sold on the premises, a lot situate in Auburn, on the highway near the residence of Mr. Geo. W. Severance, about three miles from the Manchester station of the Concord and Portsmouth Railroad. This lot is covered with a thrifty growth of chestnut, oak and pine, and contains thirty-eight acres.

Terms of the sale are cash. Ten per cent. of the purchase money will be required to be paid on the completion of the sale, and the balance within thirty days, within which time the deed will be ready for delivery.

Plans of the lots may be seen at the dwelling house of Mr. JOHN MOORE, in Auburn, and the office of SAMUEL N. BELL, Esq., in Manchester.

The quantity and quality of wood and timber upon these lots, their situation near Manchester and the facilities for reaching good markets by the way of the railroad near which they are located, commend this as an opportunity seldom offered for a remunerative investment.

The sale being expressly provided for in the will of the deceased, and in accordance with directions ordered by the Trustees, will be positive.

For further particulars inquire of MOSES DORMAN, Roxbury, Mass., JOHN KILLEY and WM. W. CHALLIS, Georgetown, J. TAYNE, at Naumkeag Bank, Salem, Mass., or of WILLIAM H. HACKETT, Auctioneer.

CITY COUNCIL.—Meetings of both Boards were held on Thursday evening.—In the Common Council, a message from the Mayor was received, in which he gave his reasons for refusing to sign "an Ordinance providing for bounties to Volunteers," passed Nov. 19. The message was read and accepted, and sent up to the Board of Aldermen, by whom it was also read and accepted.

The Mayor declined to sign the bill for the following reasons:—the ordinance contemplated the disbursement of the funds of the city by a Committee, and not by the Executive of the City Government, nor by any officer accountable by bond to the City; in carrying out its provisions it would create a debt in an unauthorized and illegal manner; it also was intended to repeal an ordinance recently passed, under which steps had been taken for like purposes,—and it was calculated, as it seemed to him, in its effects seriously to impair the financial credit of the City, by creating a debt to which the Mayor would be compelled to give his official sanction, while he would not be able in any manner to control the proper and legitimate disbursements of the money to be derived therefrom.

The following resolutions, originating in the Common Council, were passed by each Board:—

Be it resolved by the City Council of the City of Portsmouth, that the Mayor be and he hereby is authorized to procure from each Volunteer who may enlist as a part of the quota of this city, assignments of claims for the bounties offered to such volunteers by the President of the United States, and the Governor of New Hampshire, and to advance therefor such sum as he may judge to be equitable and for the best interest of the city.

And be it further resolved, that any portion of the loan authorised to be raised by an ordinance passed Aug. 13, 1863, entitled "an ordinance for the relief of drafted men in the service of the United States, and for other purposes," which may not be needed for the purposes specified in said ordinance, shall be and hereby is transferred and appropriated to pay the bounties assumed in consequence of said assignments, and shall be raised by said loan for said purpose.

☞ A fair to aid the Sanitary Commission is to be held in Boston, commencing Dec. 15. Contributions from different parts of New England are already being made, and it is hoped that our city will not be backward in forwarding donations for this object, which appeals so directly to the patriotism and liberality of our citizens. That New Hampshire industry may be adequately represented, citizens of Concord and Manchester are exerting themselves to secure large contributions from those cities, and surely Portsmouth may join in a generous rivalry with them, to help on the good work.

LOOK OUT FOR PICKPOCKETS.—A recruiting agent from one of the rural towns, while in the Provost Marshal's office yesterday, very suddenly discovered that he had lost $1800, which had been entrusted to him to pay to volunteer recruits. A sudden rush into the street, somewhere, anywhere, or nowhere, to find an officer, the money or the pickpocket, followed the discovery.

In his excitement he had forgotten to feel in the proper pocket, where the money, safely wrapped in a newspaper, was deposited.

It was a big scare, and probably spoiled his appetite for dinner.

☞ There were twenty-four recruits accepted at the Provost Marshal's office in this city on Friday. Forty were sent into camp at Concord on Thursday, and thirty-three are to be sent up to-day. Recruiting for the quota of this city will be commenced to-day. The price of volunteers ranges from $575 to $580.

☞ Rev. Mr. Patterson's next lecture to the young will be delivered at the Universalist Church to-morrow (Sunday) evening. Services commence at 7 o'clock. Subject—Work and Study.

☞ A large sale of valuable Oil Paintings is advertised in this morning's Chronicle, to be made at Mr. Wendell's auction store on Monday next. It will afford a rare opportunity to lovers of the fine arts.

☞ Don't forget Williams' great panorama of the Rebellion, which is to be unrolled at the Temple this evening. It gave great satisfaction to those present last night.

— A man 50 years of age attempted to elope in Chicago on Thanksgiving day with a young girl, 13 years of age, but the party was met at the church door by the girl's brother, who persuaded the old chap to drive back again. A pistol was the argument he used. The girl's parents are wealthy; the man is proprietor of a rag shop.

— The New Orleans Picayune has a sweet Potato, grown in Jefferson City, measuring two feet in circumference and eighteen in length and weighing eleven pounds and three quarters. The editor thinks 'twould be a burden for any man, especially in his stomach.

ENGLISH PIRATES.—One of the captains who was a prisoner on board the British "290," alias Alabama, states that the captain of a large ship, when captured, presented a letter from Jeff. Davis addressed to the officers of the Confederate cruisers, commanding them to let his ship pass free, as she was owned by friends of the South. Capt. Semmes, however, took a different view of the subject; he tore the letter in pieces, denounced the captain and owners as double-faced traitors, and ordered the ship to be plundered and burnt. His orders were promptly obeyed.

Now this incident shows that Semmes does not hold himself responsible to Jeff Davis or his government. Why should he? The "290" was built by the subcriptions of 290 Englishmen; she left Liverpool under the British flag, and is manned by British subjects, and no doubt from British subjects, who are her owners, Semmes receives his instructions. His supplies are sent to him from England in English vessels, and in English ports he receives them. No man in the possession of his senses believes that the Confederate Government ever expended a cent upon the outfits or expenditures of the pirates which are now afloat. They are all British and all manned by British seamen.

These facts are well known to Semmes, hence the contempt with which he can afford to treat any order from the Confederate Government. What has that Government or its chief to do with the management of British property? Captain Semmes is simply employed by Englishmen to destroy American commerce, and to Englishmen he doubtless looks for the funds to pay himself and his crew.—*Boston Com. Bulletin.*

☞ Diarrhea and dysentery will decimate the volunteers far more than the bullets of the enemy, therefore let every man see to it that he carries with him a full supply of HOLLOWAY'S PILLS. Their use in India and the Crimea saved thousands of British soldiers. Only 25 cents per box. 218

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspepsia perfectly. Use it with cream tartar instead of soda. It is much better. Try it. Grocers and Druggists sell it.

Dissolution of Copartnership.

PORTSMOUTH, Nov. 12, 1863.

The firm of G. Y. ROWE & CO. is this day dissolved, by mutual consent. All business of the late firm will be settled by the undersigned, who will continue business at the old stand.

G. Y. ROWE.

Morning Chronicle.

— The New Orleans Era has a report from Vera Cruz, by the arrival of a schooner from that place, of the recapture of Puebla by the Mexicans.

— London papers complain that nothing yet has been done toward applying Mr. Peabody's gift of $600,000 for the improvement of the poorer classes of dwellings. The committee having the money in charge are strongly denounced in some quarters.

— Gen. Wm. P. Sheffield, of Newport, R. I., at a second trial of his suit against the city of New York, which occurred last week in that city, obtained a verdict in his favor of ten thousand dollars damage, for injuries sustained by a severe fall in the streets of that city.

— The Eleventh army corps, which has been in bad odor since the battle of Chancellorsville, but which fought well at Gettysburg, has certainly more than redeemed its reputation now. There has been no more brilliant achievement in the war than the successful storming of Lookout Mountain by this corps, under the gallant "Fighting Joe Hooker."

— There is a story in private circles, that a few months ago, when the rebel rams were about ready to leave Liverpool, and our affairs with England were most fearful and threatening, President Lincoln wrote a personal, private letter to Queen Victoria on the subject; and from its reception by her dates the new and more just policy of the English Government towards us. A singular and pleasant bit of political history, if true—and it not true, it is very like, at least.

— An aerolite lately appeared at Cork, and struck in a field in which a valuable mare was feeding. The animal was next morning missed, and sought for, when a large circular hole or pit was discovered in the field, and at the bottom of this hole the mare was found standing erect, stiff and dead. The belief entertained by those who have seen the spot is, that the aerolite must have struck the earth from beneath the mare, forming this hole, and burying itself deep in the ground, while the mare fell from the receding earth, and was struck dead by the fright.

To the Hon. Judge of Probate for the County of Rockingham, in the State of New Hampshire.

Respectfully shews JOHN BENNETT, of Portsmouth in the County of Rockingham, that he is Guardian of Joseph William Marden, Francis W. Marden, Willard Marden and Sarah A. Marden, by the appointment of the Judge of Probate for the said County of Rockingham; that his said Wards are seized of a certain tract or parcel of land, situated in said Portsmouth, containing about one-half an acre, bounded and described as follows: On the north by land of John F. Dennett, northeasterly by land of Nathaniel Jackson (deceased), southerly and easterly by land of George Dennett, and southerly and westerly by the North Road, so called.

Also, a certain other tract of land, situate in said Portsmouth, containing about four acres, be the same more or less, and bounded northwesterly by land of Richard L. Rand (deceased), southerly by land of Samuel C. Berry, southeasterly by land of Josiah Marston, southerly by land of Samuel Whidden, and southwesterly by land of Jefferson Norton and by Rollins's land; they being the same premises set forth in trust deed of Joseph W. Marden to Robert Lafavour, as by his deed dated May 29, A. D. 1857, and July 15, 1860, fully appears, the said deeds being deeds of trust, and the rights of said Wards to be sold being their rights subject to said trust, and that it is necessary for the support of his said Wards and will be conducive to their interest to have all their right, title and interest in the premises sold; wherefore he prays that he may be licensed and authorized to sell the same at public auction, according to the statute in such case made and provided.

JOHN BENNETT, Guardian.

STATE OF NEW HAMPSHIRE,
Rockingham ss. Probate Court at Portsmouth, in said County, November 3d, A. D. 1863.

Upon the foregoing Petition it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Portsmouth in said County, on the second Tuesday of January next, and that the Petitioner notify the heirs of said deceased and all persons interested or interested therein to appear at said Court, and show cause if any they have, why the prayer of said petition should not be granted, by causing a copy of said petition and this order to be published three weeks successively in the Daily Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court.

By order of the Judge,
S. D. WINGATE, Register of Probate.

THE MODEL COOK.

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range now in use.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are fitted with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In neither pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; cannot be in a house where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer for some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

It takes place in one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a Clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

SAMBUCUS FREE, OF PORTUGAL,

The Great Remedy for Nervous Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diaphoretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is prepared from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is distinguished for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and oven toaster combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, it does not produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, having portentous but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

The heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated to use or give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Clemes, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

DR. GOODALL
Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.
Teeth inserted on Gold and Silver, and all other operations performed as usual.
Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!
He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.
He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.
I take pleasure in referring the public to Dr. TEAGUE, Dr. BOARDMAN, Dr. CLAYES and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

$100 REWARD!
For a Medicine that will cure
COUGHS, COLDS, INFLUENZA,
TICKLING IN THE THROAT,
WHOOPING COUGH,
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough;
but loosens it so as to enable the patient to expectorate freely.
Two or three Bottles will invariably cure TICKLING IN THE THROAT.
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Our Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the most speedy relief. He, therefore, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blisse, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and manhappy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Mahoit's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 7, 1863.

THE REBELLION.

The rebels lost over 1000 killed, wounded and prisoners in the assault on Knoxville, on the 27th. They were repulsed again on the 29th, and everything was going on well on the 30th. On the 2d Gen. Foster's cavalry were repulsed by Longstreet's cavalry in attempting to cross Chisch river. We lost 50 men, and captured 4 guns.

A dispatch dated the 4th states that Gen. Foster has driven the enemy from Clinch river and is in pursuit of them. The check our forces received, however, will secure the retreat of Gen. Longstreet.

Hardee has superseded Bragg and is endeavoring to pick up the scattered army and assume the offensive.

A rebel dispatch from Atlanta, Ga., states that Gen. Grant "seems disposed to push what he has gained energetically. He has gained what he has fought for. The battle will be resumed in a day or two, between Ringgold and Dalton, Ga."

A Mobile dispatch (rebel) admits that discouraging accounts are given of desertions from Price's army.

A large force of rebel infantry, cavalry and artillery attempted to cross the Rapidan on Thursday night, but were driven back by our cavalry in confusion and with considerable loss.

BY TELEGRAPH, SUNDAY.

All is quiet in Gen. Grant's army. The advance to relieve Gen. Burnside is under Gen. Sherman, who has doubtless reached Knoxville. The rumors of the death of John C. Breckinridge, from wounds received in the late battle, are confirmed.

The advices, Saturday night, from the Army of the Potomac, are somewhat important. The rebel army is on the Rapidan again, and some of their forces are on this side. They exhibit every sign of resuming the offensive, as if intending to flank Gen. Meade. Our army has already had its various corps so disposed as to be ready for Lee, whose movements will be developed by to-morrow (Monday.) Our army has fallen back to the Rappahannock, to prevent Lee from getting between it and the river.

Hon. Mr. Colfax was nominated for Speaker on Saturday night by the Republicans by acclamation. All the other candidates withdrew. The Democratic caucus made no nomination. The President's message will probably not be sent in until Tuesday.

Foreign news has been received per steamship Columbia, from Galway, Nov. 25th, which arrived at St. Johns, N. F., on Saturday evening. The dates are two days later. The question of a European Congress remained unchanged. The Alexandria case was still in the Courts. There is no truth in the reported resignation of Earl Russell, as Minister of Foreign Affairs.—The German and Polish questions had a threatening look. The Polish insurgents were very active in their struggle for liberty and independence. England will not give in her adherence to a European Congress.

☞ A letter from Hilton Head, dated 28th ult., states that the rebel design of building a covered way and erecting a stockade upon the sea-face of Fort Sumter, has been frustrated by Gen. Gilmore. The Calcium Light of Prof. Grant is kept upon the ruins all night, and the rebel working parties are fired on when they appear.—Two calcium lights planted in Fort Putnam (formerly Gregg) make a local illumination four times as brilliant as the full moon on the clearest night. The Ironsides, beside her protection of rafts, which surround her on all sides to fend off torpedoes and cigar-steamers, is supplied with the calcium light. This is kept revolving all night, and is useful, not only in preventing an attack upon the vessel, but in frustrating attempts at blockade running into or out of the harbor of Charleston.

HORSE THIEVES.—The Biddeford Journal states that for five years past the authorities have been on the alert for a gang of horse thieves whose operations have been extensively carried on by stealing horses in Maine, and running them to Vermont to sell, and on their return taking to Maine horses stolen in Vermont. The ring-leaders of the gang were known as Joe Jackson and Calvin Smith, belonging in Waterboro, and Limerick, who sometime ago escaped from Alfred jail, the first called "pumpkin-foot Jack," to distinguished him from the other. Through the exertions of Sheriff Burbank, Deputy Tarbox and Jason Hamilton of York county, the gang of four men were arrested in Bradford, Vt., on Monday last. The other two gave their names as Roberts and said they belonged in Lewiston.

"Some people," said a red nosed individual, haranguing three or four bystanders, "waste their money in charity, others squander theirs in supporting wives and families; but as for me, I save mine to buy spirits."

— The west wall of Fort Sumter has been undermined by our fire.

— The reward for the capturing of Morgan has been increased to $5000.

— Gov. Seymour has consented to the raising of a negro regiment in New York State.

— Adv s from Newburn states that thirteen steamers ran the blockade off Wilmington, N. C., on the night of Nov. 19th.

— The latest foreign advices give every indication that there is trouble ahead in Europe.

— Counterfeit $20 greenbacks are in extensive circulation throughout the country.

— A New Yorker, who twelve years ago was worth $80,000, has just been arrested for murder in the Five Points.

— Letters from officers in Gen. Banks' Texas Expedition report large quantities of cotton in the interior of the State, which the owners are anxious to sell.

— The trade in cotton between Memphis and Arkansas has been broken up by guerrillas, who plunder the people of their cotton, destroy it and conscript the owners.

— The Beaufort (S. C.) correspondent of the N. Y. Tribune says it is settled definitely that Greek fire is not to be used against Charleston.

— A report is in circulation that the Prince of Wales has purchased a residence in Rome, with the view of residing there this winter with the Princess of Wales.

— It is thought that the Rev. Dr. Breckinridge will be elected by the Kentucky Legislature to succeed Senator Powell in the U. S. Senate.

— George B. Curtis, of East Pittston, Me., returned home from California a few days since, for the purpose of being married, and died on the day appointed for his wedding.

— The London and St. Catherine's docks in London have been united under one management, and it is said this is the initiatory step for merging all the dock companies in that city in one.

— Rear Admiral Farragut, commanding the West Gulf Blockading Squadron, who has been for some time on leave of absence, reported on Friday morning to the Navy Department in person.

— Official statistics show a much more favorable condition of our foreign trade than has been generally supposed. The balance is largely in our favor for each of the three years of the war.

— The third decade meeting of the American Anti-Slavery Society at Philadelphia was distinguished by the presence of a file of colored soldiers, who were invited to take seats upon the platform.

— The ship Living Age, Emery, from Akyab, May 14, for England, was captured Sept. 18, in lat. 24° 48m, lon. 2° east, by the rebel pirate Tuscaloosa, and bonded for $160,000. The vessel is owned in Boston.

— Professor Maillefert, who has been successful in removing obstructions in various harbors on our Atlantic sea-board, is at Charleston inspecting "matters and things" supposed to be submerged in the channel of Charleston harbor.

— Admiral Stringham has been ordered to relieve Commodore Montgomery in command of the Charlestown Navy Yard, and Commodore Montgomery has been ordered to relieve Commodore Harwood at the Washington Navy Yard.

— Since January, 1863, one hundred and ten thousand men have been mustered into the United States service. Of these sixty thousand were volunteers and fifty thousand were drafted. Forty thousand were colored.

— The Seaman's Mutual Benefit Association, at a recent meeting in Boston, voted to use all legal means in co-operating with seamen to procure the following rate of wages: Eastward of the Cape of Good Hope and Westward of Cape Horn, twenty-five dollars per month, and all other voyages thirty dollars per month.

— A statement was made several weeks since that General Forey, or the French Minister, M. Mercier, had been furnished by the State Department with General Scott's military maps of Mexico. It is authoritatively stated that no person has applied for or received these maps.

— The Richmond Dispatch states that James Wood, the founder of a secret Union league in Tallapoosa and Coosa counties, Ala., was hung by some of the members of a cavalry company last week. The Dispatch adds,—"a good many of the ignorant had joined his band of traitors."

— Mr. James H. Roosevelt, who died at New York, this week, has left an estate of nearly a million dollars, the whole of which, subject to a temporary charge of about fifteen thousand dollars per annum, which will terminate with the death of two persons now living, is to be devoted to the erection and endowment of a hospital in that city.

— During General Averill's late expedition in southwestern Virginia, his soldiers inquired the price of butter at Hunterville, and found it was five dollars a pound in Confederate currency, but they purchased it for fifteen cents in U. S. postal currency.

NEW HAMPSHIRE ITEMS.

—— Government agents are buying horses in Dover for the army.

—— Rev. E. H. Richardson preached his farewell discourse to the 1st Congregational Society in Dover on Sunday, November 28.

—— The Manchester Union states that the old fashioned spotted fever is raging frightfully in Piermont, and that ten persons died of it in one school district in a single week.

—— Diptheria has been very fatal in some towns, and deaths have been attended by extraordinary circumstances. In Bartlett, a girl of some 17 years arose from her dying bed, hastened to and opened an outer door, roused all her remaining energy, jumped as far as she could, and immediately expired.

—— A sad accident occurred at the County Farm in Belknap County, on Monday, the 30th ult. One of the inmates, Joel Dockham, got up in the night and lit a lamp, in order to smoke, and by some accident set fire to the bed, which soon enveloped him in flames, burning his stomach and left side severely. Mr. Dockham was 68 years old, and died of his wounds on Tuesday night.

—— Last Sunday night some burglars broke into the dwelling house of Mr. Wm. P. Hill, at Sanborton Bridge, but in passing through the first room entered, they stumbled over a table, which aroused the inmates and caused a hasty retreat of the thieves. They afterwards attempted to enter the house occupied by J. W. Butterfield, Esq., but were intimidated by the barking of a large Newfoundland dog.

—— The Statesman says that Gen. Wheeler, chief of the rebel cavalry in Tennessee, is a son of Mr. Simon Wheeler, formerly of Newport. He was educated at Norwich, Vt., and had in early life a military turn. The father of Gen. Q. A. Gilmore, now commanding at Charleston, S. C., was a native of Derry. He went thence to Antrim, where it is presumed the son, Gen. Gilmore, was born. Thence the father went to Loraine Co., Ohio. Gen. Kelly, now commanding in West Virginia, is a native of New Hampton.

—— The day previous to the late accident at Canaan, on the Northern Railroad, a man, who could not pay his fare, was put off the train, near the spot where the train was run off the track. The Manchester American says that it being suspected that the attempt to destroy the train was the revengeful act of this person, energetic and instant efforts were made for his arrest.—After considerable search, the suspected individual was discovered near Canaan, and immediately placed in custody. He gives his name as John Morgan.

☞ The Philadelphia Ledger suggests that Lookout Mountain is a place to be taken possession of by the United States Government for all coming time, as both a military position, to be gradually fortified as carefully and impregnably as England has fortified Gibraltar, and also as a hospital for the worn out soldiers of the United States service. Most of the land is at present owned by private individuals now in rebellion against the Government. It has been taken from them by conquest in open war, declared such on their own part, and we presume that no trouble will be found to exist at the close of the war in securing such terms as will give the United States a clear title for all coming time. This point may be made and probably will become the centre of the military forces of the United States in the Southwest and South. Here and at Atlanta the railroads branch in such a manner as to make access naturally easy to all parts of the Union, while the supplies of food, which are so abundant, and the loyal character of, the inhabitants of the whole of East Tennessee, render it most desirable that a strong and influential depot of the United States should be here established. Indeed, something of this kind seems not only a desirable arrangement, but a military necessity. And as the associations of West Point, where the treason of Benedict Arnold was detected and defeated, caused it to be selected as the place for the education of our military officers, so will this mountain ever inspire henceforth terror to the foes of the Union, and loyalty and strength to all who shall approach its invigorating atmosphere.

TERRIBLE PUNISHMENT.—The Free South, published at Beaufort, S. C., says the South Carolina chivalry look with horror on the chances of Union success, and they preach to the people the doctrine that no mercy will be shown them when the Palmetto State shall be over-run by Union armies; and there is some reason for this apprehension, if what the journal named says of Gen. Saxton's plans turns out true.—These schemes are the division of the immense estates of the rebels among the freedmen who are children of the soil; the culture of free cotton; the introduction of manufactures for the uses of free labor; the improvement of internal resources by an emigrant population; the construction of railroads, canals and steamboats; the insurance of free speech and discussion; the introduction of free schools, which shall open the eyes of ignorance in whites and blacks alike to the existence of oppression; in brief, the South Carolinians are to be severely punished with the blessings they despise, which by sweeping out the filth of their home will force them to a higher plane of living, to see the dignity and blessedness of labor, to acknowledge and receive a new civilization, to discard ignorance and barbarism, substitute freedom for bondage, light for darkness, and introduce them to the glory of a permanent prosperity and peace.

☞ An English paper states that while in Bath, Mr. Sothern (Lord Dundreary) went to the shop of a fashionable hair dresser, where he was attended to by an assistant, who opened a lively conversation on the merits of the great actor who was announced to appear that evening. The assistant, of course, was not aware that he was dressing the head of Lord Dundreary himself. He told the astonished actor that Sothern was an amazingly clever fellow—intimable, in point of fact; "but, sir, he is a great scamp, a great scamp, sir. He ran away from home, ruined his parents by his extravagance, turned his family out of doors, and brought his father's grey hairs with sorrow to the grave." Mr. Sothern's son, an intelligent youth of nine or ten years, listened with considerable astonishment to the assistant's garrulous scandal, and smilingly asked his father whether he had seen this naughty actor. Mr. Sothern replied that he certainly had seen him in America, but had never heard so extraordinary a story about him before.

☞ If a man declines to enlist in the service of the United States because, as he alleges, "this is an abolition war," he may be set down at once as a coward and not worth enlisting. This is the convenient excuse of a large class of pusillanimous young men who are strong, able bodied, and have no incumbrances, and who know that they ought to be in the army. The Boston Post, addressing Democrats, remarks:

"The Democracy need not fear if they enter the ranks of the army, that bayonets will really be turned to advance partisan ideas. The voice of the North is utterly hostile to any such movements. He who fights now will fight to save the Union, and for nothing else; he will fight that all our hereditary memories, and all the blessings of constitutional liberty shall remain with us, permanent and sacred. Then let us rally once more, to the call of the Union, and the dawn will soon appear in the east."

S. A. AVERY

Would inform his friends, patrons and all citizens of Portsmouth and vicinity, that NOW is the time to send in their subscriptions for Fashion Books and other publications for the year 1864.

Having received a liberal patronage the past year, he is in hopes to increase it the coming year, by prompt attention to this part of the business; and he has also made arrangements for an extra hand to take charge of the department.

And, if there are any papers, monthly, quarterly or publications of any kind, that I do not have for sale or for regular subscribers, I will order the same for the coming year.

Furthermore, if any person wishes to subscribe for any work that they may see or hear of or see advertised, I will send for the same and have it on exhibition at my store free of charge.

OIL PAINTINGS!
AT AUCTION,
At the Auction Store, State street,
MONDAY, Dec. 7, at 10 A. M. & 7 P. M.
H. F. WENDELL, Auctioneer.
This is one of the finest collections ever offered at Public Auction, either in Europe or America. Among the Collection will be found some of the choicest works from the Italian, Dusseldorf, English, French, and American Schools. Every picture is of rare merit, being the entire collection of an Artist who is about leaving for Europe.
All the Paintings are richly mounted in gilt frames. The attention of connoisseurs and lovers of the Fine Arts is invited to this collection. Among them will be found works from the following eminent Artists of Europe and America:
G. L. Brown, Bommers, Hartwick, Shrader, D. Tenner, Metzio, George Lindfield, &c., &c.
Also, a fine lot of English, French, and American ENGRAVINGS.

Livery Stock at Auction,
—ON—
TUESDAY, Dec. 8th, 1863, at 10 o'clock.
The STOCK in the Livery Stable on State St., nearly opposite the Rockingham House, will be sold at public auction without reservation.—consisting of Horses, Harnesses, Carriages, Chaises, Wagons, Sleighs, Harnesses, Robes, Blankets, Bells, Hay Cutters, Stable Furniture and Office Furniture, and all that appertains to a Livery Stock.

Peremptory Sale
—OF—
Valuable Wood and Timber Lands.
I shall sell at Public Auction, by directions, contained in the will of the late John Ordley, deceased, on WEDNESDAY, the ninth day of December, 1863, at 10 o'clock A. M., on the premises—
One hundred and sixty-six acres of Land, situate in the towns of Auburn and Candia, N. H., about one mile from the junction of the Concord and Portsmouth Railroad in Auburn, and five miles from the city of Manchester. This land contains a very growth of hardwood, interspersed with oak timber, and will be offered in two lots.
At 2 o'clock P. M. on the same day, after the above sale, will be sold on the premises, a Lot situate in Auburn, on the highway near the residence of Mr. Geo. W. Severance, about three miles from the Massabesic station of the Concord and Portsmouth Railroad. This lot is covered with a thrifty growth of chestnut, oak and pine, and contains thirty-eight acres.
Terms of the sale are cash. Ten per cent. of the purchase money will be required to be paid on the completion of the sale, and the balance within thirty days, within which time the deeds will be ready for delivery.
Plans of the lots may be seen at the dwelling-house of Mr. JOHN MOORE, in Auburn, and at the office of SAMUEL N. BELL, Esq., in Manchester.
The quantity and quality of wood and timber upon these lots, their situation near Manchester, and the facilities for reaching good markets by the way of the railroad now in which they are located, commend this as an opportunity seldom offered for a remunerative investment.
The sale being peremptory, provided for in the will of the deceased, and in accordance with his directions ordered by the Trustees, will be positive.
For further particulars inquire of MOSES DORMAN, Roxbury, Mass; JOHN KILLAM and GEO. W. CHAPLIN, Georgetown; J. H. TOWNE, at Naumkeag Bank, Salem, Mass.; or of WILLIAM H. HACKETT, Auctioneer.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known, by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. eyno

Local.

☞ No evening tickets to the Lyceum will hereafter be sold. This course is pursued because the number of season-ticket holders is nearly sufficient to fill the Temple, and the sale of evening tickets would tend to crowd and render uncomfortable those who have purchased the course-tickets, and whose comfort should, of course, be first regarded. A few course-tickets are still for sale.

☞ The sale of Oil Paintings at Mr. Wendell's Auction Room, this morning, and also this evening, affords our citizens a rare opportunity to obtain pictures. The public are invited to call and examine the collection.

At Mr. Adams' Auction Store, Congress street, a large and valuable collection of miscellaneous works is being sold at auction. The sale will be continued on Monday and Tuesday evenings, and those who wish to obtain good books at low prices should be present at this sale.

☞ Capt. J. M. Bradford, of this city, has been appointed Fleet Captain at Charleston, vice Simmons removed.

☞ The Morris Minstrels are coming next week, with the Crystalenia, an instrument which, it is said, produces such exquisite bell-like notes that it would drive the Swiss Bell Ringers mad with jealousy should they hear it.

☞ The U. S. steamer Sassacus, while towing down the Potomac another vessel on Thursday evening, was run into near Mount Vernon by a brig bound up with a load of lumber. The wheelhouse of the Sassacus was torn off and the wheel injured. Four of her men fell over board, two of whom were rescued by the brig, which was also injured. The Sassacus returned to the Washington Navy Yard for repairs.

PAY OF A VOLUNTEER.—The pay of a volunteer under the last call, with the various bounties offered, for the full term of three years, amounts to over $2,50 per day for each working day, and no deduction on account of sickness, medical attendance, medicines, &c. If a man is drafted his pay is thirteen dollars a month! This view of the case is worthy the serious consideration of those who are liable to the draft. Merely as a speculation volunteering is about as remunerative as anything an able-bodied working-man can engage in, and what working-man but has the additional stimulus of Patriotism.

AN OUTLAW.—A few weeks since, the public were apprized of an attempt made by John C. Grove, of Weston, Me., to shoot Mr. A. H. Sawyer, of Calais. Since then Grove has been prowling about Weston and vicinity, threatening to shoot all such as ever caused him any trouble. As he was heavily armed with a rifle, revolvers and knives, he has been a terror to all who have had any suspicion of ever having provoked him. The Belfast Age says that on the evening of the 17th ult., he ambushed himself by the roadside in Weston, and while John Staples, of Bancroft, was riding home in company with another man, Grove twice discharged a pistol at him, the ball of which went through his hat, grazing his skull and hitting the horse. Grove then fled. Grove has accused Staples of having once stolen some money from him. In about three hours afterwards—some five miles from where the above transaction took place—the house and barn of Thomas Kennedy, in Danforth, was discovered to be in flames, and the family being absent to attend upon a dying relative, the buildings were entirely consumed. It is but natural to attribute this vandal act to Grove, as the fire was the work of incendiary. Grove is a single man, and formerly kept a store in Weston. While in trade he suffered much in trusting out goods, and failing to collect many of his debts, he closed up his business and resolved to seek reparation by inflicting upon his debtors summary dealings.—For a long time past he has been threatening to kill certain delinquents and others, but his talk was regarded as mere bravado, and no notice was taken of it.

ADVICE TO YOUNG LADIES.—If your husband that is to be is given to gambling, let it be a condition precedent to the marriage that he shall give it up; and when you put the announcement of your nuptials in the paper, add, for the information of his bachelor acquaintances, the significant words, "No cards." A young lady adopted this ingenious course not many weeks ago, and the happy bridegroom so far has not suggested even whist.

— A Scotch nobleman, seeing an old gardener of his establishment with a very ragged coat, made some passing remarks upon its condition. "It's a verra guid coat," said the honest old man. "I cannot agree with you there," said his Lordship. "Ay, it's just a verra guid coat," persisted the old man; "it covers a contented spirit, and a body that owes no man anything, and that's mair than many a man can say of his coat."

AN IMPORTANT DISCOVERY.—The Washington correspondent of the N. Y. Journal of Commerce writes that a curious and interesting discovery has just been made in the Department of State, bearing upon the boundary line between the State of Minnesota and the British provinces.—From time immemorial, all the maps that have come before the public have represented the dividing line as barely touching the utmost southern extremity of the Lake of the Woods, and then passing directly to the westward. A recent investigation of the maps and treaty touching this matter has brought to light the fact that the boundary line, after reaching the lake, passes through one half of its centre, thence westward up an extensive bay or arm, then directly south again, until it reaches the main meridian, and then continues to the west. The upshot of the story is, that Minnesota has a big lump of valuable land which she did not know belonged to her, and that she has full command of the Lake of Woods.

☞ While Isabella Cubas, the danseuse, was on her way to Nashville to fulfill a professional engagement, she was detained in Louisville by some parties who alleged that they were connected with the Provost Marshal's office there, and who tried to swindle her out of $2000, by inducing her to take the oath of allegiance and deposit the above amount of money as security for her loyalty. Cubas was, however, too sharp for the would-be swindler, and insisted on being taken to the Provost Marshal's office to arrange the little affair.

☞ The Chicago Tribune says that Mr. Hoes, a public-spirited jeweller of that city, offered a prize of a $50 gold watch to the largest contributor to the great Sanitary Fair. It turns out that President Lincoln was the largest contributor, his Proclamation having brought $3000 for the benefit of the Fair. Accordingly, Mr. Hoes has decided that the prize belongs to the President, and sent on the watch, but not a $50 watch, but a magnificent one worth $150, with this inscription upon it: "Presented to Abraham Lincoln as a memorial from the Northwestern Sanitary Fair, in consideration of his being the largest contributor to that enterprise." A letter accompanies it, explaining the matter.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

☞ Diarrhea and dysentery will decimate the volunteers far more than the bullets of the enemy; therefore let every man see to it that he carries with him a full supply of HOLLOWAY'S PILLS. Their use in India and the Crimea saved thousands of British soldiers. Only 25 cents per box. 213

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

Tickets for the Lyceum.

As the tickets for the course are nearly all sold, it is not deemed expedient to sell single evening tickets.

Morning Chronicle.

GUERRILLA WARFARE.—The following description of rebel guerrilla warfare, is written by a man who has seen something of it, viz., a soldier of the Union Army, writing from Kentucky to the Newburyport Herald:

The guerrillas are quite active in East Kentucky. The system of guerrilla warfare has been endorsed by an act of the rebel Congress and is fully inaugurated over a large part of the South. Their practice is distinguished from a regular warfare by two things—first, the troops are not under any brigade commander, but operate in small bands, march at their pleasure, and do pretty much as they please. One result of this feature of the system is to develope a large amount of talent in the ranks, as every man has an individual responsibility, and constant opportunities to test his shrewdness and daring. It also gives them a perfect knowledge of all roads and localities in a given section, as some one or more soldiers will be found in each gang who, in their frequent marauding have traversed every by-path and masked every important point.

The second prominent characteristic of guerrilla warfare is the license it gives to take by force, from supposed enemies or neutrals, money, horses, munitions of war, and in short everything that can aid the party for which he fights, with the promise of full pay for whatever he brings to his quarters. This is the essential principle of the system, giving it power and destruction, as it displaces patriotism from the breast of the fighter and substitutes in its room the desire for plunder.

The men thus engaged become highway robbers in organized and authorized bands. Nor do guerrilla bands long confine their depredations to knew enemies: wherever silver plate is supposed to be secreted; wherever money might be expected to be found, there they concentrate and rob, without enquiry as to the character of the owners. Hence the system is destructive to all confidence and to the safety of even innocent and defenceless females. It requires no prophet to foresee that the rebel authority has commenced a system which will utterly demoralize all engaged in it, destroy the peace and endanger the safety of non-combatants, and eventually reduce to ruin the whole community over which these bands of robbers have their range.

This process has already commenced, and if the loyal troops were withdrawn today from this State and East Tennessee, and the South allowed its independence, the people would find themselves in the hands of bandits, to harrass and plunder for months to come, and would have long scores of wrongs to set right, which have been inflicted upon neutrals and friends of the rebellion by its professed soldiers. Should the contest continue for two or three years longer the South bids fair to lapse into the semi-barbarism of Mexico, as the robbers ruled Spain after the Peninsular war. The legitimate tendency of the system is understood by the Southern generals, and some of them resisted its introduction, but the desperation of the whole Southern mind swept away opposition, and they are now embarked on a stormy sea, which will assuredly wreck the craft if it be not sooner sunk by loyal broadsides.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those secret diseases to a vicious or solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the end and early results effected produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded, loss of memory, Confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such cases require a Physician, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your complaint. DR. DOW has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 & 9 Endicott street, Boston, is consulted daily for all diseases incident to it. Female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges as superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1, and a red stamp.

LAST AND BEST.

THE MODEL COOK,

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be effected by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity of any common stove or range—and it has time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a cool room for the range kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this Lentiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed. We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine clocks before purchasing elsewhere, as we warrant them as good time keepers as can be obtained for the same price without the Calendar Attachment, and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE OF PORTUGAL.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

As A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wine Cordial, and as a tonic for a weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, cheerful healthy ruddy and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine.

Gen. W. Scott, U. S. A. Dr. Ward, Newark.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats will be prevented from entering the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or putting Furnaces to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe and chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they rise from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the weakest part of our structure.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Greaves, Esq.,	Albert E. Hatch, Esq.,
Aaron H. Hill, "	Charles H. Sheldon, "
Henry F. Wendell, "	John Sise, and others.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in WARRANTING *PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless substitute, its effect being the same as ether, and the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted without pain, to call, *as no possible injurious results, to call and be convinced.*

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr BINNEY, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
WHOOPING COUGH,
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of our testates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
☞ **It does not dry up a Cough,** but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the worst
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the most reliable remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Ulcerated Sore Throat, Sore Nose, Pimples, Bones, Cutaneous Eruptions, Blles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Proper Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are entitled first in consulting Dr. J. Teller, they will find a kind counsele and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of the subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it, 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 6 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 8, 1863.

THE REBELLION.

Longstreet's attack on Fort Saunders, by seven picked regiments, was desperate in the extreme. It was repulsed after a sanguinary struggle, in which the rebels lost 1000 killed, wounded and prisoners; our loss was not over 80, our troops being under cover. A correspondent says:—

Wires had been stretched from stump to stump in front of the work, and over these the enemy fell in confused heaps, with the killed and wounded around them. Our artillery mon hurled shell by hand forward upon the fallen and doomed rebels. Hot and hotter came the storm of shell; the ground over which they passed was carpeted with the slain. The ditch was filled with the dead, wounded and dying. Not one on their side faltered, not a score of the gallant stormers escaped. The sun rising looked down through the cold mist and chill of that November morning upon the remains of an army.

Advices from Kingston state that Gen. Sherman's expedition has Longstreet hemmed in, with a poor chance for escape.

The Richmond Examiner states that no successor to Bragg has yet been appointed, but Hardee will command until a chief has been appointed.

The N. Y. Herald's dispatch states that Lee is putting his army into winter quarters on the south side of the Rapidan. His movements on Saturday resulted in nothing, as only a small force was sent across the Rapidan.

Rebel dispatches to the 4th state that Gen. Gilmore has not fired on Charleston for some days, but was mounting guns in Wagner bearing on the city. He had also unmasked a new battery, and still continued to shell the forts.

A dispatch from Jackson, Miss., states that the Federal cavalry crossed the Big Black river in force on the 3d, going towards Canton.

The rebels on the 21st of November very nearly destroyed the steamer Black Hawk, on the Mississippi, by their battery near the mouth of Red River.

Late advices from Texas represent that Maj. Gen. Washburne with his command is moving in the direction of Matagorda, with every prospect of capturing that place.—Our forces would then have a footing on the main land, with a fine harbor, and a good base of operations.

HUSKS AND COL. FLOYD'S WARDS.—"Alone," "Nemesis," "Hidden Path," "Moss Side," and "Miriam," have attested the power of Marion Harland as a writer of fiction. This, her latest work, is worthy of its predecessors. The heroine of the story, Sarah, is a reserved, morbid woman, with a deep capacity for loving, concealed under a rather unpropossessing manner. She falls in love with one man; in pique marries another. The character of Sarah is well drawn, and many of the scenes are forcible. "Colonel Floyd's Wards" is also a story of merit. The volume is superior to the average of novels. For sale by J. H. Foster.

EDITH'S MINISTRY is the title of a deservedly popular work, the new edition of which has been sent us by Lindsay & Blakiston, Philadelphia. It is written by Harriet B. McKeever, author of "Sunshine," "Flounced Robe," &c. The heroine—a single woman, purified and enobled by many trials—dignified the state of single life by assisting the needy, educating the orphan and instructing the poor and ignorant. The book will be a most beautiful and acceptable gift.

PETERSON'S MAGAZINE for January is a capital number, containing two fine engravings, thirty-seven articles and eighty-eight embellishments. It begins a new volume.

B. B. Russell, of Boston, sends us a copy of the new and revised edition of his Historical War Map. The record of the principal events of the war, accompanying it, is brought down to Oct. 20, 1863.

CONGRESS assembled on Monday. Mr. Etheridge, the clerk, called the roll, omitting the names of members from the States of East and West Virginia, Missouri and Maryland, and calling the names of three members from Louisiana. The names were omitted on the ground that their certificates were not properly worded. A discussion ensued on his power to act on the roll.

The House voted, 90 to 75, to admit the Maryland members, and ordered the other members to be called. Enough Border State members voted with the Republicans to give them a majority, and on the vote for Speaker being taken, Mr. Colfax was elected by 21 majority.

— Two Portlanders made a resolution not to drink any intoxicating liquor in that city. This they kept, but every week day evening and Sunday morning, they go over one of the bridges leading out of the city, and then a bottle and glass will be produced from the pockets and they imbibe to the dregs. The Press rather admires this dodge.

NEW HAMPSHIRE ITEMS.

—— The Manchester Municipal election takes place to-day—Tuesday.

—— Hon. T. T. Abbott, the present Mayor of Manchester, declines a re-nomination.

—— Lieut. Col. Carr, of the 2d regiment, and Capt. Durgin, of the 12th, have come home with detachments from those regiments, to take out recruits.

—— Edward S. Tobey, Esq., of Boston, Mass, has been elected a member of the Board of Trustees of Dartmouth College, and has accepted the trust.

——Phineas Adams, Esq., of Manchester, leaves for Europe to-day (Tuesday) for the purpose of obtaining machinery for a new manufacture in the Stark Mills.

—— Privates Daniel Burrows of Co. D, Abel Eaton of Co. C, 6th regiment, have been sentenced to be shot for desertion, Jan. 8th. They were tried by court martial at Louisville.

—— The friends everywhere of the universally-popular John B. Clarke, of the Manchester Mirror, will regret to learn that he has been ill for several days with an attack of diptheria. He is now mending.

—— Mr. George H. Hazelton, of Manchester, fell from the pole of a four-wheeled lumber wagon, which he was riding on Friday, and two wheels passed over his body, just above his hips, injuring him so severely that he died a few hours afterwards.

—— The Northern road have settled satisfactorily with twenty or more of the sufferers by the late accident. The damages will range from $5000 to $10,000 to passengers and cars. The French woman had from $200 to $500 in bills burnt on her person. A man, said to be insane, has been arrested and examined at Canaan on suspicion of taking up the rail, and thus causing the accident. He would not give his name and has been committed to jail.

—— Last Saturday evening a New Hampshire man, giving his age as 83 years and having $130 in his possession, called at a police station in Boston, and desired to "stop over night," giving as a reason that he arrived in the city at a late hour, and having money and other valuables about him, he was bound not to fall into the hands of sharpers, and thought the safest place for him would be in the Station House. He also stated that he was not much acquainted in Boston, but he had "heard tell that sharpers there would tackle almost any stranger, and be had been around the world enough to learn him to keep out of the reach of the rascals." He was assigned the best room (cell) in the house.

NEW ZEALAND.—We are indebted to "Ice," our former Australian correspondent, for New Zealand papers of a late date (Sept. 14), but find nothing in their columns of interest, (the war existing there being entirely ignored, or "contraband,") except the interest awakened by seeing numbers of large octavo daily papers, teaming with advertisements, the sure signs of busy life, coming from that far-off and as yet to civilization new country, such as we receive both from Otago and Danedin.—He writes:

"One good reason for a short letter is, there's nothing on earth to tell you about, only the Maori war, and you have plenty of war news, without coming to New Zealand for any more."

Of the natural advantages of New Zealand he speaks in terms of high commendation:

"I'll give you a description of the features of these islands. Take Mount Agamenticus, York county, Me., put it up on one end alongside of Stratham Hill, multiply the pair indefinitely, and you have the surface; while the back yard of the old house in Hanover street, with its granite flagging, will give you a good idea of the fertility of the same—two crops of rocks every year."

☞ A steamboat trip down the Mississippi river must be intensely interesting at the present time, judging from the accounts in our New Orleans files of the guerrilla operations along that stream. Steamboat Welcome in passing Waterproof was fired into, receiving eleven cannon shot and 160 minie balls, and escaping by a miracle. At Hog Point, on the same day, the steamer Black Hawk was fired into; her pilothouse, texas and part of her wheelhouse burned; a head, a leg and an arm amputated; and in the confusion ten out of seventeen deserters who were on the boat escaped.

When the Welcome arrived at Jefferson City, a dead ox was carried ashore that had been butchered by one of the guerrilla shells, and the shell, which weighed nine pounds, was removed from the animal's carcass. It had not exploded, and the ox lived several hours with the bomb in his body.

— The Salisbury Villager tells of a young woman seen in the streets of that village, so intoxicated that she fell prostrate upon the side-walk. And the Newburyport Herald adds that it knows of two young married women, residing recently in the same house in that city, of respectable connections, pleasing in appearance and intelligent in conversation, neither of whom could be relied upon for sobriety after dinner.

— The President's disease is now said to be small pox.

— Breckinridge concluded to come to life again, and was serenaded at Dalton, Ga., on the 2d.

— Newburyport has made up about one-half of her quota under the new call for troops.

— The Paris correspondent of the London Times asserts that the believers in the European Congress grow fewer every day.

— The funeral of the wife of Ex-President Pierce took place at Andover, Mass., on Saturday, and was largely attended.

— Gov. Seymour and the Secretary of War have agreed on a commission to ascertain the fair quota of New York.

— The valuation of Portland, Oregon has increased $2,300,000 during the past year.

—The Marquis of Westminister's income is $5,000 a day, and that of the four leading Rothschilds $1000 an hour.

— Great preparations are being made all over New England for securing ice the present winter.

— Longfellow, a friendly critic writes, in thirty years of literary life, has never spoken a harsh or ignoble word.

— It is right to make an example of men whom it would be wrong to take as an example.

— There are 8,000 teams connected with the Army of the Potomac. If placed in a single line they would extend over sixty miles.

— Partial returns of the recent election in Idaho indicate that Hon. John M. Cannaday (Democrat) is elected delegate to Congress by a considerable majority.

— The State Gazette reports the organization of the Texas Paper Manufacturing Company, at New Braunfels, September 19. The water power there is immense.

— Gen. Thomas Francis Meagher was captured during the late engagement in Virginia. He was on not duty, but was visiting the army in civilian's dress.

— The Memorial Diplomatique says, fifteen of the twenty powers invited to the European Congress have replied in the affirmative. The small fish bite first.

— Large Union meeting are being held in Arkansas. At one, representing twenty western counties, a representative to the U. S. Congress was nominated, and he was elected Nov. 23d.

— The Brooklyn City Council have before them an ordinance authorizing passengers in horse cars and omnibusses to refuse to pay their fares unless furnished with seats.

— A meeting of all the Assessors in the country, under the Internal Revenue act, is to be held in Cleveland, Ohio, on the 16th inst., to consider amendments to the law.

— Warren, the comedian, will dissolve his connection with the Boston Museum company at the close of the present season. He has been at the Museum for sixteen years.

— Capt. William Flowers, of Bangor, Agent of the Grand Trunk Railway, has invented an apparatus for lowering loaded boats from the deck of vessels into the water.

— A barber in New York pledged himself to be severely "scrubbed" by four muscular men, in one of his own bath tubs, in case of Mr. Gunther's election. Mr. Gunther is elected; and the barber is busily engaged hardening his epidermis.

— Five large warehouses in Baltimore, used by the Commissary department for storage, forage, &c., were destroyed by fire on Saturday evening. The loss was some $90,000, about $60,000 of which was sustained by the Government.

— The estimates of the Secretary of the Treasury call for the following sums for the present fiscal year: Army and Navy, $700,000,000, of which $142,000,000 are for the Navy; civil list, Indian expenses, &c., $102,000,000.

— Robert Heller, the celebrated pianist and magician, died a few days since at Alexandria, Va., of tetanus, brought on from the effects of an accident upon the Baltimore and Washington railroad, by which a bolt was driven through one of his feet.

— The steamboat Isaac Newton, when opposite Yonkers on Saturday evening, caught fire and was totally destroyed. She was valued at $250,000, and fully insured. The fire was caused by the bursting of one of the flues. Seven persons were killed and nine injured, and several are missing.

—The Japanese have committed another murder. The Daimio is said to be preparing to send out some of his steamships-of-war as privateers. Another native prince has succeeded in closing the inland sea against foreign trade, after it had been open three or four years.

— Mrs. Lincoln will, soon after the meeting of Congress, make some changes in the etiquette of the White House. It is announced that she will receive her friends every day from 12 to 3 P. M., and that in the evening Mr. and Mrs. Lincoln will always be glad to see their friends from 8 to 10. This will do away with the inconveniences of levees on particular evenings.

RYE, N.H., Feb. 28, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even her school—as to affording her kinds very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. SWETT'S for removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1852.

I have for several years been afflicted with distress of my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which has relieved me, so that I have not had the least trouble from any of those complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor; and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. mav20o

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which BRONCHITIS AND LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be accorded, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL AND ASTHMATIC COMPLAINTS, to all THROAT AND LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

S. A. AVERY

Would inform his friends, patrons and all citizens of Portsmouth and vicinity, that NOW is the time to send in their names for Story Papers, Fashion Books and other publications for the year 1864.

Having received a liberal patronage the past year, he is in hopes to increase it the coming year, by prompt attention to this part of the business; and he has also made arrangements for an extra hand to take charge of that department.

And, if there are any papers, monthly, quarterly or publications of any kind, that I do not have for sale or for regular subscribers, I will order the same for the company free.

Furthermore, if any person wishes to subscribe for any work that they have read of or seen advertised, I will send by the first opportunity or exhibition at my store free of charge.

Peremptory Sale
—OF—
Valuable Wood and Timber Land

I shall sell at Public Auction, by directions contained in the will of the late John Perley, deceased, on WEDNESDAY, the ninth day of December, 1863, at 10 o'clock A. M., on the premises,

One hundred and sixty-six acres of Land, situate in the towns of Auburn and Candia, N. H., about one mile from the station of the Concord and Portsmouth Railroad in Auburn, and 8 miles from the city of Manchester. This lot is covered with a heavy growth of hard wood, interspersed with oak timber, and will be offered in two lots.

At 2 o'clock P. M. on the same day, after the above sale, will be sold on the premises, a lot of land situate in Auburn, on the highway near the residence of Mr. Geo. W. Severance, about three miles from the Massabesic station of the Concord and Portsmouth Railroad. This lot is covered with a thrifty growth of chestnut, oak and pine, and contains thirty-eight acres.

Terms of the sale are cash. Ten per cent. of the purchase money will be required to be paid on the completion of the sale, and the balance within thirty days, within which time the deed will be ready for delivery.

Plans of the lots may be seen at the dwelling house of Mr. JOHN MOORE, in Auburn, and the office of SAMUEL N. BELL, Esq., in Manchester.

The quantity and quality of wood and timber upon these lots, their situation near Manchester and the facilities for reaching good markets by the way of the Concord Railroad, have induced me to offer this as an opportunity seldom offered for a remunerative investment.

The sale being expressly provided for in the will of the deceased, and in accordance with the directions ordered by the Trustees, will be positive.

For further particulars inquire of MOSES DORMAN, Roxbury, Mass.; JOHN KILLEY, and GEO. W. CHAPLIN, Georgetown; J. TOWNE, at Naumkeag Bank, Salem, Mass.; of WILLIAM H. BACKETT, Auctioneer.

Brown's Bronchial Troches FOR **Coughs** AND **Colds.**

A NEGLECTED COUGH OR COLD, AN IRRITATED OR SORE THROAT, if allowed to progress results in serious Pulmonary, Bronchial and Asthmatic Diseases, often-times incurable. BROWN'S BRONCHIAL TROCHES reach *directly* the affected parts, and give almost immediate relief. For BRONCHITIS, ASTHMA CATARRH and CONSUMPTIVE COUGHS the Troches are useful. PUBLIC SPEAKERS and SINGERS should have the Troches to clear and strengthen the Voice. MILITARY OFFICERS and SOLDIERS who exercise the voice, and are exposed to sudden changes, should use them. Obtain only the *genuine*. "Brown's Bronchial Troches" having *proved* their efficacy by a test of many years, are highly recommended and prescribed by Physicians and Surgeons in the Army, and have received testimonials from many eminent men.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 8 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spao

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly.

CARDS AND BILL HEADINGS are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notice may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other Paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. jn20

Carrier Wanted.

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

☞ At the annual election for St. Andrews Lodge, No. 56, of this city, the following officers were elected and appointed: John Christie, Master. Wingate N. Ilsley, S. W. Harry G. Tanton, J. W. Nicholas Medbery, Chaplain. Joseph C. Walker, Treasurer. Henry C. Walker, Secretary. James W. Lord, S. D. John E. Rider, J. D. Thomas Norton, Marshal. Thomas S. Nowell, Deputy Marshal. Daniel G. Raitt, Nicholas E. Spinney—Stewards. Benjamin Weeks, Tyler.

☞ The business of recruiting under the last call, at the office of the Provost Marshal for the 1st N. H. District, has increased materially, and the number of recruits accepted guarantees that in several of the towns the draft will not be necessary in January next.

Ninety-nine recruits were accepted last week, and on Monday twenty-five more were enlisted. The prices paid average about $575 per man, but one man from Rollinsford received $700, he being a resident of that town.

The fact that the business is thus actively and successfully carried on, is owing, in part, to the exertions and energy of the U. S. recruiting officer, J. Horace Kent, Esq.

It may interest the young men of our own city to learn that the quota of Portsmouth, at forty minutes past three o'clock on Monday afternoon, lacked but one hundred and forty-nine men of being quite filled. The quota of Portsmouth is exactly 150 men, and it is to be hoped that the present week will not close before another soldier is sent to Concord to keep our solitary recruit company.

☞ Among other products of our City Farm exhibited to visitors on Thanksgiving day, by the Superintendant, was a considerable quantity of tobacco and chicory.—The former, from its present high price and the almost absolute necessity it has become to many of the Alms House, will prove a profitable crop; while the chicory, which is in fine condition, will be far better as a partial substitute for coffee than any of the thousand and one other ingredients with which the public is poisoned or nauseated.

☞ Rev. Mr. Patterson's lecture on "Business and Study," on Sunday evening, was as numerously attended as the preceding three, and the interest evinced therein shew that the audience felt themselves the gainers for the hour spent in listening to the admirable discourse delivered from the text contained in 2d Timothy, 2 c., 15 v.

As Rev. A. A. Miner is to lecture in the Universalist Church next Sabbath evening, the fifth lecture of Mr. Patterson's course, on "Church Going," will be delivered on the evening of Dec. 20.

☞ The warm weather of last week "pied" the ice (as a Portland paper hath it) on the ponds, but the present cold snap has begun to put it in condition again. It's invigorating to skate, it's pleasant to skate, and, last and most persuasive of all, it's fashionable to skate. So get your iron-clads and go ahead,—and don't dread making astronomical observations.

AUCTIONS.—The stock in the livery stable on State street is advertised to be sold at auction this morning, at 10 o'clock, by Mr. Wendell. The stock comprises horses, carriages, sleighs, and all that appertains to a livery stable.

The sale of books, photograph albums, etc., at Mr. Adams' auction store, Congress Block, will be continued this evening. The collection embraces many standard works in history, biography, poetry, science and philosophy, and also a good selection of popular miscellaneous works.

☞ We learn that the annual public examination of the Girls' High School will take place on Wednesday afternoon, at quarter-past 2 o'clock, at which time the Haven Medals will be distributed.

— Recent letters from England inform us of the death of the wife of the very eminent Bishop of Exeter. Her life had been devoted to Christian works, and when her death was near, she called all her domestics to her bed side and took leave of them. Her last words were—"Be sure to see that the old Bishop has his warm soup every evening."

Singing Schools.

MR. BENJ. B. DAVIS, of Concord, at the request of many citizens of Portsmouth, respectfully announces that he is now conducting the second Term of his Juvenile and Adult classes in Singing, at

MERCANTILE HALL, Portsmouth,

Each Wednesday Afternoon and Evening,

The Juvenile Class at 3 o'clock, the Evening Class for adults, at 7. The rudiments are taught, and also practice in singing, in both classes.

TICKETS for the Juvenile School, Half-Term, commencing Wednesday Sept. 75 cents, may be had at Mr. HEAD'S Book and Music Store, and at the Hall. Also the Book used, "The Nightingale," price 35 cents. Parents and others interested, are invited to visit the Juvenile class at any time.

TICKETS to Evening School, also 75 cents, may be had at Mr. Head's store and at the door. Also, the Book used, "The Harp of Judah," price 30 cents.

Per order Committee Arr.

Portsmouth, Nov. 30, 1863.

☞ Diarrhea and dysentery will decimate the volunteers far more than the bullets of the enemy, therefore let every man see to it that he carries with him a full supply of HOLLOWAY'S PILLS. Their use in India and the Crimea saved thousands of British soldiers. Only 25 cents per box. 213

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

Tickets for the Lyceum.

As the tickets for the course are nearly all sold, it is not deemed expedient to sell single evening tickets.

A few course tickets can be found at the usual places.

TICKETS FOR THE COURSE, $1.

All persons in this city and neighboring towns having tickets for the Lyceum for sale which have been left previous to the opening, will please make immediate returns to the secretary of the Association, 14 Pleasant street

THE ROSE OF JERICHO.

There is a flower that pilgrims bring
From the deserted Holy Land—
A dry, unsightly, faded thing,
Found buried in the desert sand.
Black, shrivelled, trodden under foot,
Long, longlife sap has ceased to be;
True emblem of a withered heart,
Is that dead Rose of Jericho.

And yet not Death, but Sleep has closed
Those petals of the Eastern flower,
For when you dip it in the stream,
The water has such living power,
That straight it opening blooms again,
As if it felt Spring's magic glow,
And while the burning petals spread
Of this fair rose of Jericho.

So, in the second spring of Love,
A kindred heart will other wake,
As April trees the winter's snows
Do from their budding branches shake.
It was for what it typified
That pilgrims plucked, long years ago,
This mystic flower from out the sand
That buries fallen Jericho.

EXTINCTION OF SLAVERY IN MISSOURI. A St. Louis letter to the New York Commercial says the order to recruit blacks in Missouri was a staggering blow to the remnant of the peculiar institution in Missouri. The practical working of the order is as follows: A recruiting officer goes into a district and recruits fifty or a hundred negroes—the masters receiving receipts by which, on proof of loyalty, they will be entitled to compensation. The negroes come to St. Louis, and on an examination by a surgeon, three-fourths of the recruits are declared physically unfit for service. They are rejected, and of course their masters' receipts are null and void. They are held for a few days, and in default of their masters' appearance, discharged. Not one in five of the rejected recruits ever return to slavery. This has been the operation of the negro recruiting system thus far, and the exodus of negroes from the country is more rapid than ever. Slaves slip themselves into parties of recruits, arrive in St. Louis, swear they hail from Arkansas or Mississippi, receive free papers, go into free States and thus are lost to the South forever.

WAR, PESTILENCE AND FAMINE.—About the middle of the fourteenth century, from an untoward season, and the occupation of nearly all the people in war, one of the most dreadful famines ever known on this globe desolated Italy. Even the angry passions of men were tamed by the dire calamity. The battle-axe fell from nerveless arms, and the wail of the starving rose alike from the thronged streets in the city, and from the lonely hovel in the country. As usual, the famine, next year, was followed by a pestilence, which, through its malignant contagion, swept through remote countries. This was probably the most direful plague on record. Its scenes of suffering and horror can never be described. The sick were left untended; the dead unburied.

The depravity and corruption of the human race, which introduced this calamity, aggravated its horrors. All the restraints of virtue were forgotten. All the instincts of humanity were abandoned. It is estimated that three-fifths of the human family were swept away by the pestilence. At one time it seemed as though God intended to exterminate the race from the earth.—But as soon as the ravages were stayed, the survivors again began to quarrel, again grasped their arms in bloody wars, again engaged in their old employment of killing one another.—*J. S. C. Abbott, in N. Y. Ledger.*

— At Chicago, on Thanksgiving day, Dr. Clarkson said to his congregation that if when the plates were all handed in, the amount seemed to be generous and sufficient, they would conclude the services by singing "Praise God from whom all blessings flow;" if not, he would pronounce the benediction and let the audience retire "unhonored and unsung." On inspection of the plates—the sum having been deemed satisfactory—the whole congregation joined heartily in singing "the Old Hundred Doxology" and were dismissed.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. Moreover, cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept up as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In cost, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; and fitted in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—so that next season, into the room, a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 30th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not having the Calendar Clock will find Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

75 State Street, opposite Kilby Street, BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, to be used in other foreign countries, prepared. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions. Opinions given and advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have the advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials herewith prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS DEPENDS ON THE BODY OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office do Inventors and the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and most secure* practitioners with whom I have had official intercourse"

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent, and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. Iron oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off to the flue, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cover can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Meadum,
Henry F. Wendell, John Sise, and others.

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER is a base for Artificial Teeth, presents all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is perfectly harmless, innocuous, its effect being that of the exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. PERKINS, for particular reviews in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

WEDNESDAY, DECEMBER 9, 1863.

THE REBELLION.

Gen. Foster officially reports, under date of Tazewell, Tenn., Dec. 7, that Longstreet was in full retreat up the valley, and our cavalry was following him vigorously. The road to Knoxville was clear; Gen. Sherman arrived there on the 6th.

A Chattanooga dispatch of the 7th states that Hardee is slowly falling back, and that the mountains are filled with deserters and stragglers from Bragg's army.

The Richmond Enquirer has a dispatch that Gen. Johnston has been ordered to take permanent command of Bragg's army.

Recent Richmond papers admit that Longstreet was repulsed in an attack on Knoxville, that he has raised the siege, and that he is retreating toward Abington, Va. The Federal authorities considered the deliverance and occupation of East Tennessee as finally settled by the events of this campaign.

CONGRESS, Monday.—The Senate discussed the question as to the right of the members from West Virginia to take seats, and finally admitted them by a vote of 36 to 5. Notice was given of a bill to repeal the $300 clause of the enrollment act, and to increase the pay of soldiers 50 per cent.

In the vote for Speaker in the House, the opposition were not united upon a candidate, Cox receiving 52, and the remaining 28 being divided among six other persons. Mr. Colfax, on taking the chair, delivered a brief, eloquent and patriotic address. The members were then sworn, except the Louisiana delegation, whose credentials were referred to the committee on elections.

In the House, on Tuesday, notice was given of a bill creating the office of Lieut-General. It is intended by it to give Gen. Grant the position to which his talents and his victories are generally thought to entitle him.

Mr. McPherson was elected Clerk, and N. G. Ordway, Esq., of this State, Sergeant-at-Arms.

In the Senate, Mr. Clark introduced a bill to grant a pension to John L. Broms (Burns?) the hero of Gettysburg. Mr. Wilson introduced a resolution to facilitate the payment of back pay and pensions of deceased soldiers, &c.

BOLD ATTEMPT AT ROBBERY.—We learn from the Portland Argus that about one o'clock on Saturday morning last, a robber was discovered in the house of a Mr. Whittier, at Chesterville, Me., by Mrs. W. The robber went into the room occupied by Mrs. W. and a sick child, and as he opened his lantern she screamed. The robber told her to desist or he would shoot her, but she continued, and in a moment Mr. Whittier appeared at the door of the room. The robber fired at him, but missed him. Mr. W. then attacked him and knocked the pistol from his hand; the robber then drew a knife and inflicted two severe but not dangerous wounds upon Mr. Whittier's head and neck, but by this time Mr. W. had knocked the assailant over and forced this weapon also from his hand. The robber then demanded that Mr. Whittier should let him out or he would shoot for his accomplices. At that instant an uncle of Mr. Whittier came to the door, and Mr. Whittier, mistaking him in the dark for an accomplice, assailed him, knocking him over the stove, breaking it, and was handling him roughly when he discovered his mistake. Meantime the robber escaped, leaving his pistol, knife and boots in the house. Mr. Whittier has been buying and selling cattle, and was known to have some $800 or $1000 by him. These murderous outrages are becoming alarmingly frequent in Maine.

☞ The President has issued a proclamation, dated Dec. 7, in which he says:

"Reliable information being received that the insurgent force is retreating from East Tennessee under circumstances rendering it probable that the Union forces cannot hereafter be dislodged from that important post, and esteeming this to be of high National consequence, I recommend that all loyal people do, on the receipt of this information, assemble at their places of worship and render special homage and gratitude to Almighty God for this great advancement of the National cause."

HAVE PEDESTRIANS THE RIGHT OF WAY?—The man on horseback, in the cart, on the coach box, or occupying the carriage, as he has the power, is apt to imagine he has the law also on his side, in keeping the road, in preference to the weaker mortal on foot. In New York this is not so, is not so here, we suppose, and ought not to be so anywhere. A cartman in the commercial metropolis has been fined and lost his license for striking a gentleman who took hold of the reins of his horse, that his daughters might have a chance, after waiting a long time, to cross the street.

To the Citizens of New Hampshire.

The great success which attended the Fair recently held in the city of Chicago, in aid of the U. S. Sanitary Commission, has led the people of New-England to believe it highly expedient to hold a Fair of a similar character, and for the same purpose, in Music Hall, Boston, commencing on the 14th inst. It is expected that each of the New-England States will participate, and that a place will be assigned to each for the articles which it may contribute.—In order that New-Hampshire may do justice to herself as well as discharge her whole duty to the brave men she has sent forth to battle and to suffer in defense of our common country, I have thought it proper to call the especial attention of the people of this State to this most praiseworthy enterprise. The great good which this organization has done and is doing, in affording relief to our sick and wounded soldiers, is too well known to require commendation.

It has seemed to me laudable, in this undertaking, to be guided somewhat by feelings of State pride, and that we can best subserve, not only the interests of our State, but contribute most liberally to this benevolent fund, by forwarding articles of our own manufacture, beside contributions in money.

It is earnestly to be hoped that every town in the State will take immediate measures to furnish and forward their articles, and cash contributions. Let it not be said that while New Hampshire has borne well her part in every sacrifice and in every struggle in the cause of American liberty, she turns a deaf ear to the call for aid from her fathers, brothers, and sons, who are languishing in hospitals or enduring the more terrible agonies of the battle-field.

Our friends may be assured that the funds entrusted to the U. S. Sanitary Commission will be faithfully and efficiently applied.

It may also be well to add, that all kinds of manufacture will be accepted, whether of wool, cotton, iron, wood, leather, or other material, including cloths, hosiery, blankets, flannels, bedding, machinery, carriages of all kinds, boots, shoes, leather, paper, books, silver ware, ale, whiskey, dried apples, &c., in short every thing of a useful character. Contributions in money or articles for the Fair sent to Hon. Benj F. Gale, Hon. Alien Tenny, Nathaniel White, Esq., Concord, N. H., Hon. Fred. Smyth, Col. James S. Cheney, and Bushrod Hill, Esq., of Manchester, N. H., or Hon. E. T. Morrill, and Hon. E. P. Emerson, Nashua, N. H., will be forwarded to the Commission free of charge, or the same may be sent directly to James B. Gove, care of Cheney & Co., No. 40 Court Square, Boston, Mass., who is the authorized agent of New Hampshire to receive them.

I make this appeal in behalf of our suffering soldiers, in the confident expectation that it will be promptly responded to by the patriotic people of our State.

JOSEPH A. GILMORE,
Governor of New Hampshire.

Concord, December 7, 1863.

—— The milkmen in Manchester,—they number twenty-two,—have unanimously voted to raise the price of milk to six cents per quart.

—— The residence of Rev. W. L. Gaylord, in Fitzwilliam, was burnt on Tuesday night of last week.

—— Hon. Frederick Smyth was the Union Republican candidate for Mayor of Manchester, at the election on Tuesday.

JENNY WADE, THE HEROINE OF GETTYSBURG.—The country has already heard of John Burns, the hero of Gettysburg; of how the old man sallied forth, a boat within himself, "to fight on his own hook," and how he fell wounded after having delivered many shots from his trusty rifle into the faces and hearts of his country's foes. John Burns' name is already recorded among the immortal, to live there while American valor and patriotism has an admirer and an emulator. But there was a heroine as well as a hero of Gettysburg. The old hero, Burns, still lives; the heroine, sweet Jenny Wade, perished in the din of that awful fray, and she now sleeps where the flowers once bloomed, and the perfume-laden air wafted lovingly over Cemetery Hill.

Before the battle, and while the National hosts were awaiting the assault of the traitor foe, Jenny Wade was busily engaged in baking bread for the National troops.—She occupied a house in range of the guns of both armies, and the rebels had sternly ordered her to leave the premises, but this she as sternly refused to do. While she was busily engaged in her patriotic work, a minie ball pierced her pure breast, and she felt a holy sacrifice in her country's cause. Almost at the same time a rebel officer of high rank fell near where Jenny Wade had perished. The rebels at once proceeded to prepare a coffin for their fallen leader, but about the time that was finished the surging of the conflict changed the position of the armies, and Jenny Wade's body was placed in the coffin designed for her country's enemy. The incidents of the heroine and the hero of Gettysburg are beautifully touching, noble and sublime.

Old John Burns was the hero of Gettysburg who participated in the struggle to save the North from invasion, while innocent Jenny Wade was the only sacrifice which the people of that locality had to offer on the shrine of their country. Let a monument be erected on the ground which covers her, before which the pilgrims to the holy tombs of the heroes of Gettysburg can bow and bless the memory of Jenny Wade. If the people of Gettysburg are not able alone to raise the funds to pay for a suitable monument for Jenny Wade, let them send a committee to Harrisburg, and our little boys and girls will assist in soliciting subscriptions for this holy purpose. Before the summer sunshine again kisses the grave of Jenny Wade; before the summer birds once more carol where she sleeps in glory; before the flowers again deck the plain made famous by gallant deeds, let a monument rise to deck the skies in tokens of virtue, daring and nobleness.—*Harrisburg Telegraph.*

— Rumor appoints Gen. Pleasanton to the command of the Army of the Potomac, it having been declined by Gens. Sedgwick and Warren.

— The Duke of Newcastle has issued an order forbidding British officials in the colonies from taking any active part in the management of newspapers.

— A thief, arrested in Maine the other day, expressed a wish to be jailed at Farmington in preference to Norridgewock, as he was better acquainted—having been in jail there before.

— It is stated that Maj. Gen. French has been relieved from his command in the army of the Potomac, and placed under arrest, as preliminary to charges in the recent affair at Mine Run.

— Dec. 6, 1863, a gentleman in Salem had as an accompaniment to dinner, tomatoes which grew either in 1845 or 1848—which he could not tell, as they were pur up in similar cans in both of those years.

— James Browster, a liberal man who is an honor to New Haven, who recently gave $8000 to the Orphan Asylum of that city, now offers to build on another wing to the Asylum, at a cost of $5000.

— Lord John Russell's wife had been a widow, a lady of dignified and ample proportion and presence. His lordship is of slender stature; hence he was called by the wits, "the widow's mite."

— A sad story comes to us by telegraph from Washington:—"A fire in a large laundry here on Monday afternoon destroyed clothing of the officers of the Russian fleet." The man who sent that item deserves promotion.

— A bill has been introduced into the Missouri Legislature to sell out the Pacific Railroad to J. C Fremont and others for seven million dollars, payable in State bonds. It passed to a second reading. The parties are to be under bonds to complete the road to Kansas City in 18 months.

— The Heads of Departments visited the Russian fleet on Monday, and were received with suitable honors. In the evening, the Russian legation and naval officers met the Cabinet and several American naval officers at a dinner given by the Secretary of State.

— The Buffalo Courier, an organ of the Vallandigham peace democracy, distinguished for its patriotism, characterized the recent inaugural ceremonies of the soldiers' cemetery as "The National Wake at Gettysburg." The body of the article was even more atrocious than its heading.

— The Hartford Times—the central and controlling organ of the copperhead party in Connecticut—expresses itself in favor of the enlistment of negroes in the armies of the United States. It recommends that the quota of Hartford be raised by procuring the whole number of colored volunteers, if possible.

— The New Bedford Standard states that on Wednesday last, the sloop Ranger of that port, and old and leaky craft, while crossing the bay from Cuttyhunk to Mattapoisett, was struck by the gale and overturned. Nathaniel Braley and Ansel Braley, father and son, and James Wing, all of Acushnet, were drowned.

— Nineteen colored men have been enlisted in Brooklyn who were under the impression that they would receive $400 bounty, the same as their white brethren; but no sooner had Pompey been sworn in and got his regimentals ordered, than the word came that "the law allows them no bounty." They enlisted for the bounty, and don't care to serve without it.

— The Providence Journal states that the "Old Darned Man," the eccentric pedestrian who for half a century has traveled continually through the western part of Rhode Island, and Windham county, Ct., into Massachusetts, backwards and forwards, with the ceaselessness of a pendulum, died in the road on Friday night, in Sterling, Ct. The poor harmless wayfarer had a history, but no one was ever able to draw it from him.

— The returns from 15 regiments and one company of nine months' men from Massachusetts show that during their term of service the loss by the casualties of battles was less than 7 and four-fifths per cent., that is, seventy-seven to a regiment, or between seven and eight to a company. The deaths by sickness amounted to four and three-tenths of one per cent., that is, forty-three to a regiment, or four and a fraction to a company.

☞ On Saturday, George Titcomb, Esq., of Newburyport, died aged 78 years. He was a printer by trade, and when a young man was in partnership with Jos. T. Buckingham. At the time of his decease, he was the oldest printer in town. He retired from the business a half century ago, and entered upon school teaching, in which he was engaged till old age unfitted him for such duties.

Brown's Bronchial Troches FOR **Coughs** AND **Colds.**

A NEGLECTED COUGH OR COLD, AN IRRITATED OR SORE THROAT, if allowed to progress results in serious Pulmonary, Bronchial and Asthmatic Diseases, often-times incurable. BROWN'S BRONCHIAL TROCHES reach *directly* the affected parts, and give almost immediate relief. FOR BRONCHITIS, ASTHMA CATARRH and CONSUMPTIVE COUGHS the Troches are useful. PUBLIC SPEAKERS and SINGERS should have the Troches to clear and strengthen the Voice. MILITARY OFFICERS and SOLDIERS who overtax the voice, and are exposed to sudden changes, should use them. Obtain of the genuine "Brown's Bronchial Troches" having *proved* their efficacy by a test of many years, are highly recommended and prescribed by Physicians and Surgeons in the Army, and have received testimonials from many eminent men.

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a family Pill. spno

Carrier Wanted.

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

☞ James McGlym and Alexander Cairmis are to be brought before Hon. W. H. Y. Hackett, U. S. Commissioner, at the Commissioner's room in the new Custom House this, Wednesday, morning, at 10 o'clock, for trial on a charge of counselling and aiding two U. S. soldiers to desert.

It appears that these two men came here from New York in company with two others named James Saunders and James J. Miller, all four intending to go as substitutes. But McGlym and Cairmis backed out from the agreement before they had enlisted, and them attempted to get the other two free from Jefferson Hall, where they had been placed under guard, preparatory to being sent to Concord. In order to accomplish this purpose, they attempted to bribe the guard, a Frenchman named D'Marsh, on Sunday evening to allow them to desert. The guard did not give them a decided answer, but as soon as possible divulged the whole affair to Lieut. Wentworth.

At Lieut. Wentworth's suggestion, the guard agreed with the two men to do what he could to facilitate the escape of the two, Saunders and Miller, and in order to establish the matter more certainly, the parties in the hall and those who were endeavoring to enable them to desert, were drawn into a correspondence, and the letters passing between them were intercepted.

The proposal was for the guard to allow the two soldiers to run out at 9 o'clock on Sunday evening, and their two friends were to meet them in the alley near the Post Office. Accordingly at that hour Lieut. Wentworth, with two of his Artillery company, dressed in the substitutes' uniform, were passed out of the hall, the guard firing his gun as the signal previously agreed upon; and McGlym and Cairmis, who were anxiously expecting their comrades, suddenly found themselves seized, and in durance vile.

The faithfulness of D'Marsh, the guard, is worthy of all praise, and should be appropriately noticed; while the skillful manner in which Lieut. Wentworth laid the trap to catch the scoundrels, and the entire success he met in carrying his plans into execution, reflect the highest honor upon him.

☞ Our thanks to Messrs. Marston, Randall & Co., the great fish dealers of this city and Boston, for a nice basket of very large and handsome tongues and sounds—"a sample of those taken from sixteen thousand pounds (16,000 lbs.) of cod, averaging from 20 to 60 pounds each." Everything desirable in the fish line, may be had in any quantity of this enterprising house, who make the Spring Market their headquarters here.

☞ Thirty-four recruits were accepted at the Provost Marshal's office, in this city, on Tuesday, and will be sent into camp at Concord to-day. Recruits are now sent up from this city every morning.

☞ The Army Committee of the Boston Young Men's Christian Association acknowledge the following contributions, among others, for the object of the Christian Commission:—Court street Christian Church, Portsmouth, $28; Methodist Church, Portsmouth, $70; Congregational Church, Rye, $10.25: Christian Church, Kittery, $14.50; Christian Church, York, $15.55. A large portion of the funds recently received by the Commission has been appropriated in aid of the Union soldiers in Richmond.

☞ We learn that the annual public examination of the Girls' High School will take place on Wednesday afternoon, at quarter-past 2 o'clock, at which time the Haven Medals will be distributed.

☞ The sale of valuable books at auction, at Mr. Adams' auction store, is to be continued this evening.

☞ A correspondent of the Portland Press owns a pointed pen, and is not afraid to use it. He says:—

Toll bridges are the curse of Portsmouth. On all sides but one, tribute has to be paid to enter a city which has one of the best harbors on the coast. Thousands of dollars' worth of trade in produce, &c., from the western part of Maine might be brought, if the tax was not levied upon them for bringing it here; but if the rich men from this city had rather walk with well blacked boots than to risk the danger of being sprinkled with mud from the passing trade, let them be content with the quietness which prevails.

DON'T SEE IT.—A musical man stopped our devil a few evenings since and propounded this question: "What has Brignoli which the rebels will make desperate efforts to obtain?" The imp told him he knew not, unless he might have a bottle of Golden Sheaf Whiskey in his saddle-bags; when his interrogator answered his own question: "His *tenor* C!" The miscreant is still at large.

— Municipal elections were held in several cities in Massachusetts on Monday, but there is not variety enough in the results to make the details interesting.

VOLUNTEERS.—The Union Volunteer Company, composed of Messrs. Perkins, Peck, Underhill & Branch, are bringing from twenty to forty recruits to this city per day. The same parties filled the quotas in the 2d district, and refer to Gov. Gilmore, Ex-Gov. Colby, and others.

WHAT ARE WE TO DO FOR BOURBON WHISKEY?—The recent military orders, issued by different commanders, stopping the manufacture, in their departments, of Bourbon Whiskey, and the prospective increase by Congress of the excise duty, has already made not only a great rise in the prices, but has also made it really difficult to obtain a good article at all. We insert to-day a new advertisement of the celebrated Golden Sheaf Whiskey. From evidence of the most undoubted character, we are satisfied that this whiskey is of excellent quality and undoubted purity, and that the immense sale it is having all over the country attests these facts in the strongest manner. Mr. C. A. Richards, the General Agent, is one of the largest and most respectable wine dealers in Boston, and supplies dealers, town agents, or private orders, with this whiskey in any required quantity. See advertisement.

☞ Diarrhœa and dysentery will decimate the volunteers far more than the bullets of the enemy, therefore let every man see to it that he carries with him a full supply of HOLLOWAY'S PILLS. Their use in India and the Crimea saved thousands of British soldiers. Only 25 cents per box. 213

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda. It is much better. Try it. Grocers and Druggists sell it.

Croup.

NEW HAVEN, Dec 11, 1862.

Having been taught that medicines, in order to be valuable, must originate with some particular faculty or school, we considered patent medicines (so called) a humbug; until, after losing our beloved child with Croup, we were forced by the suffering of another, from the same disease, and by the advice of friends to try Coe's Cough Balsam. Little Eddie had gone, and, though we loved him, we would not call him from his quiet rest, to share the sorrows of this unfriendly world. But Willie, is there no remedy for thee? We found it in Coe's Cough Balsam. It relieved him in about twenty minutes, to our great joy and the surprise of others. We cannot be hired to dispense with this priceless blessing, and we are glad to learn that Mr. Coe has made arrangements with parties, whereby it may become more extensively known. In view of this, let us say to every parent, when your child is suffering with Croup, give this balsam, give it freely. If we did not believe it to be the best remedy for you, we certainly would not say it. Truly yours,

EDWARD GWINELL,
MERCY GWINELL.

SAMBUCUS TREE. OF PORTUGAL.

The Great Remedy for Nervous Affections, Rheumatism, Chronic Complaints

Pure and Wine for Families

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Bladder and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no admixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have used the Wine.

THE MODEL COOK.

AN AIR-TIGHT STOVE,
WITH TWO OVENS.

And Five Boiling Places!

At the present high prices of fuel it is very desirable to economize consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat ordinarily wasted. A check draft is applied by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT STOVE, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed. We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time mechanism but once in 365 days, when they will automatically secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as any Clock can be made for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (on the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign patents, to ascertain the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the Specifications of Patents furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions which cannot, if not unnecessarily superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is more deservedly popular.

THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has attained a reputation for success that can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber for the twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

He also possesses his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, which he can refer to, for inspection, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, with the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of securing their applications in a form to secure for them as early and favorable a consideration as the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which he has obtained patents, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors in my sphere to him to prosecute their patents, as they may be sure of DEVOTED ATTENTION and skill bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SUCCESSFUL APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for pastry in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as those of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of the valuable furnace, would take pleasure in remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pots or fire-chamber, the health of those is free from headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some promising but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The constructions have been so complicated that heat, on its way to the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

The heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large proportion of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every lam fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience (a limited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Aversion to the sexes, nervous effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, love of solitude, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important!
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to it. female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention, and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

TICKLING IN THE THROAT,
WHOOPING COUGH,
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies, that he can, and will, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Strictures, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been used in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A feature on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the care of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

Portsmouth, N. H.

THURSDAY, DECEMBER 10, 1863.

THE REBELLION.

Official advices show that the results in East Tennessee are really glorious. Longstreet is skedaddling into Virginia as fast as possible, our cavalry urging him on; and a large number of prisoners were taken at Clinch river on the 6th.

The N. Y. Tribune's dispatch from Washington says; "Upon marching from Chattanooga Gen. Sherman was placed in command of all the Union forces in East Tennessee by order of Gen. Grant. The order has been approved by the War Department. Gen. Sherman's headquarters will be at Knoxville. Gen. Foster will retain command of the troops which were in East Tennessee previous to the arrival of Gen. Sherman."

There is nothing from Gen. Meade or Charleston.

☞ The President in his Message refers to a proclamation accompanying it; it is rumored that this grants the rebels an amnesty,—or an armistice of 60 days, and holds out inducements to citizens of rebellious states to set up new state governments, preparatory to returning to the Union on taking a prescribed oath of allegiance, submitting to the provisions of the recently enacted laws, together with those of the emancipation proclamation, &c.

The following is a dispatch from New York to the Boston Traveller: "The President's proclamation of amnesty creates a profound impression here. Gold and stocks fell in Wall street, and there is intense excitement."

DARING PIRACY.—Sixteen rebels took passage in the steamer Chesapeake, of the regular New York and Portland line, on Saturday afternoon, and seized the vessel at 1.30 on Monday morning, when 20 miles north northeast of Cape Cod. Capt. Willets was fired at nine times but not hit, and was then collared and put in irons. The Second Engineer, in attempting to throw hot water on the party, was shot dead.—The First Engineer was wounded in the face, but was taken away by the Confederates to manage the engines. The Captain, crew, and eight passengers arrived at St. John, N. B., on Wednesday morning.

The commander of the Confederates was Henry Braine. Lieut. Parr, one of Morgan's men, was second in command. They said they would attempt to run into Wilmington. They robbed the Captain and crew of all they possessed.

The steamer and cargo were valued at $160,000. She is a propeller steamer of 460 tons burthen, 11 feet draft, built at Philadelphia in 1853, and was owned principally in New York. She has vertical engines. The Chesapeake took an active part, last summer, in re-capturing the U. S. cutter Caleb Cushing, from the hands of the rebels.

Steamers have been sent from Portland and Boston in search of the Chesapeake.

Col. Goodrich, of Boston, received a dispatch from the Deputy Collector at Portland, on Wednesday, stating that the Chesapeake was then in the Bay of Fundy, has slight armament, was short of coal, and could be retaken.

The Transcript states that three times during the past year, the Boston police, acting under secret information, have detailed several of their number to guard the steamers between Boston and Eastern ports, and thus probably prevented the occurrence of similar attempts.

Messrs. Livermore, Clews, & Co., Bankers and U. S. 5-20 Loan Agents, have removed to their new and spacious office, No. 32 Wall street, lately occupied by John J. Cisco, Esq., as the U. S. Sub-Treasury.—The office has undergone many improvements, and is the finest in Wall street. The immense safe still remains, and is one of the features of the building. This change was rendered imperatively necessary by the large and increasing business of this popular firm.—*N. Y. Tribune.*

☞ In the U. S. House of Representatives on Tuesday, Mr. Washburne's complimentary resolution was passed unanimously. It presents the thanks of Congress to Major General Grant and the officers and soldiers who have fought under his command during the rebellion, and requests the President to cause a medal to be struck, with suitable emblems, devises and inscriptions, to be presented to Gen. Grant. A copy of the resolution is to be engrossed on parchment, and, together with the medal, transmitted to Gen. Grant by the President, and presented in the name of the people of the United States of America.

☞ The Boston papers of Wednesday evening contain but a portion of the President's Message, and we therefore do not attempt to publish an abstract of it this morning.

IMPUDENT.—What part of a soldier's duty would the ladies take the most delight in.—We wrote "present arms," but a snarly old Benedict at our elbow suggests "dress parade." We wouldn't stand in his shoes if his wife should find it out.

EDITORIAL JOTTINGS.

PHENIX HOTEL, CONCORD, Dec. 5.

Dear Chronicle:—My first breathing spell for a long while—so hither to Concord, en route for Boston, we came, Friday evening. Mostly darkness, by the way, after the soft and lovely autumnal sunset. This fine weather is helping out the winter very much.

Arriving at Concord, we first paid our respects to His Excellency Governor Gilmore, whom we found as usual at his post of duty, in his Railroad office this time.—The Governor is looking nicely, and it seems as if the more business he has on hand the better he likes it and the easier he does it. He's an executive man, sure, and loyal to the core—and, like Ben. Butler, believes in active, offensive warfare when we must have any. New Hampshire's good name will never suffer any detriment at his hands, nor for want of the most active exertions on his part—nor do we believe that the administration of any State Executive has ever been more popular than his.

Of course, with so decided and straightforward, and earnest a man, his official conduct must meet opposition and censure from the "opposition" party, which at present lives alone on opposing and denouncing everything that the country does to sustain its very existence. But we doubt if there be a single loyal man in the State who voted for Gilmore for Governor last Spring, who will not readily endorse his proceedings at the next election, and help give him a popular majority for the next Governor of New Hampshire. So mote it be—for we always believe in having men who know how to take care of their own private business, to look out for public interests.

SATURDAY, Dec. 6th.

The early porter at the Phenix, alas! didn't call us at half past 4, to take the half past 5 train to Boston, as ordered. So, waking ourself just after the cars left, we had the satisfaction of hurrying to the depot and making *sure* we were too late.—However, we didn't complain, for we have learnt better than to add to the constantly-accumulating censure of hotel, railroad, toll-gate, telegraph, post-office and newspaper officials—and have come long since to commiserate with all who are placed in such trying positions, as well as with almost everybody whose business it is to serve the fickle "public."

Especially, as, on leaving the well-loaded breakfast table, we saw, across the road, a man with but one hand and one arm sawing wood! A large pile of hard wood was before him, and quietly and steadily did his good right arm cut his saw through the sticks. We wondered whether he had been a soldier, and given his arm for his country's defence; and could but feel rebuked for vexation often felt at trivial losses or trials, in presence of such a philosopher. Our delay also gave us an opportunity to call on our friends of the "Statesman" newspaper—one of the best appointed and best managed printing and publishing establishments in the State; and also on Mr. J. R. Hill, the famous harness-maker, at his large and splendid new establishment.

BOSTON, Dec. 7.

Saturday noon found us here, after an exceedingly pleasant ride over the smooth-running C. M. & L. Railroad. Riddle's great sale of hundreds of sleighs and harnesses was progressing as we passed; and we stepped in long enough to see his splendid stock going at high prices compared with last year. Second-hand sleighs or carriages, like everything else, bought a year or two ago, bring their first cost, or more, at auction in the city now.

Being at Newton on Sunday, with friends, we attended church in the Episcopal Church at the Corner, where Rev. Mr. Green, said to be nephew and heir to the late Lord Lyndhurst, is rector; and Mr. J. G. Tompson, jr., has charge of the choir—a quartet of course, and the music fine, though quartets are not our favorite choirs, if indeed you can call them choirs at all, which, strictly, they are not.

A freezing ride of eight miles, in or rather on the outside of the over-crowded horse cars, from Watertown, at noon, gave us opportunity to attend the Chauncey St. church in the afternoon, where the eloquent Rev. Dr. Ellis holds forth; and to hear also the famous quartet, of which Miss Abby Plumer, formerly of Portsmouth, is now the soprano.

But with all the splendid execution of the best vocalists, and the richness of the finest voices,—no quartet singing could ever incite much devotion or praise in us—we want, as we believe do most people, whatever they may believe or pretend themselves, the blending harmonies of scores or hundreds. We rarely if ever hear a quartet, in which each voice was not too separate and distinct; whereas in a large and good choir all blend and become as it were one grand instrument of harmony and praise,—the performers almost losing all personal and separate presence for the time.

Sunday evening gave us a treat indeed at the Music Hall—the repetition of the grand choral inauguration of the great organ, by the Handel and Haiyn Society, a full orchestra, with Mr. Wheeler, an excellent tenor, and Miss Houston, a favorite in Boston, for soprano soloist. Carl Zerrahn swung his mighty baton as conductor, and B. J. Lang ruled the thunders of the majestic organ. The performances were splendid, but we shall not attempt to criticize or particularize. The audience was full, and the Hall, as recently adorned and beautified, presented a most pleasing spectacle. The programme was not well calculated to show the almost limitless variety of the king instrument, and it only struck us as other great and rich organs; but in external presence, it at once brought to mind the song respecting the hills of the old Granite State being "so lofty, magnificent and great." It is indeed sublime. One hardly realizes its immensity—it is larger than most church-fronts, we believe 40 feet wide by 60 in height. We shall print the "Ode on St. Cecelia's Day," sung on this occasion, in a day or two. Enough for now.

Yours ever, F.

— The rebel Congress met on Monday.

— Gen. Meagher has not been taken prisoner by the rebels.

— The Austrian Government has recently purchased machinery for making rifles, of a firm in Hartford, Conn.

— Gen. Grant has captured, since the war began, 472 cannon and 90,000 prisoners.

— A colored man, recently drafted, was drowned at Portland on Monday while skating.

— The estimates of the War Department are over two million dollars less than those last year.

— Illinois has over seventy-five regiments under the immediate command of Gen. Grant.

— Two hundred and eighty-five thousand bushels of oats were sent from Montreal last week to the United States, principally for the army.

— The rebels murdered two Illinois surgeons who remained to take care of the rebel wounded after the late battle in Tennessee.

— Two French steamers have recently arrived at Vera Cruz, bringing strong detachments of troops. Other ships were daily expected with fresh troops.

— An English lady who died recently left a legacy of £40,000 to Mr. Disraeli, of whom she was a great admirer, although she was an entire stranger to him.

— The sum of $150,000 has thus far been subscribed to the Volunteer War Fund of New York city. About $100,000 more is promised.

— The three Democratic members from New England, Marcy of New Hampshire, Sweat of Maine, and English of Connecticut, voted for Mr. Cox of Ohio for Speaker in Congress.

— Many members of Congress are in favor of striking out the $300 exemption clause from the enrollment act, thus compelling persons drafted to go into the ranks or to furnish substitutes.

A great mudhole in the streets of North Bennington, Vt., was fenced one night recently by the boys, with a fence taken from the burying ground, and on the fence was placed a sign, "Fishing herein prohibited by order of the selectmen."

— The Bromfield Street (Methodist) Church, Boston, was nearly destroyed by fire on Tuesday morning. Insured for $17,000. The organ, worth $4000 or $5000, was ruined, and was not insured.

— William H. Burr, a stenographer in the New York Superior Court, has resigned since he cannot "accept the humiliating position of serving under a man so notoriously disloyal and so universally detested as John H. McCunn."

— A great fire was raging at New York on Wednesday afternoon among vessels loading government stores on North river: Schooners with an immense quantity of hay and grain belonging to the government, had been destroyed.

— At the burning of a church in Boston on Tuesday, the pulpit was somewhat scorched, and a hymn book upon it considerably burned, but the pulpit Bible remained as it was on Sunday, its leaves unscorched and its covers unwarped.

— Commanding officers Walters and Robinson, of the U. S. steamers Reliance and Satellite, have been dismissed from the Navy for dereliction of duty in being unprepared for attack. These vessels were captured by the rebels on the Rappahannock.

— The Houlton, Me., Times says good beet sold in Fredericton last week for two cents per pound. The Bangor Courier says that good young beef can be had in that city, by the quarter, for 51-2 to 6 cents.

— Abijah Jenkins, who for a long time was a broker in Boston, is now a Brigadier General in the rebel army under command of General Lee. He was quite a busy politician, and was under great suspicion of receiving stolen goods, and other sharp practice.

— The chaplain of a Wisconsin regiment, a Universalist, in speaking recently of the barbarities of the rebels at Chicamauga, said: "My friends, I have always preached to you against any such institution as hell, or future punishment, but I believe there is a hell provided for these wicked devils as a military necessity."

— Mr. Riddell, elected Governor of Louisiana at the recent election held in that State, was the Postmaster of New Orleans at the time the State seceded from the Union. He refused to pay over to the rebel government the postage which accrued at that office previous to the establishment of the rebel postal system.

☞ A correspondent of the Manchester Mirror, in speaking of a recent concert in Dover, says:—"The performers were Baumbach, pianist; Miss Louise R. Adams, soprano; Mr. H. C. Barnabee, basso and humorist, (all of Boston.) Baumbach was good, Miss Adams fine, but Barnabee made the sensation. He was splendid, establishing his reputation as one of the deepest and purest *bassos*, and most comical of humorists, as well as perfect gentlemen that ever appeared in public. He is a New Hampshire boy, and a son of Portsmouth."

NEW HAMPSHIRE ITEMS.

—— Over 1200 recruits have already been raised in this State under the last call.

—— About two thirds of the quota for the 2d district have already been secured.

—— Gov. Gilmore has requested the Secretary of War to grant a furlough of several weeks to convalescent soldiers from New Hampshire, now in hospitals at Portsmouth Grove, R. I., Brattleboro, Vt., and Fort Schuyler.

—— It is stated that the Universalist Society in Dover are considering the feasibility of closing their church and uniting with the Unitarians.

—— There was little excitement over the municipal election in Manchester on Tuesday, and Hon. Frederick Smith, the Union candidate for Mayor, received 967 of the 977 votes cast.

—— In taking a collection in a church at Concord on Sunday evening, there was received a check for $10 not signed. That's worse than throwing in buttons.

—— In a house on Washington street, in Concord, a few days since, a poor woman was found with five or six children clothed in rags. There was only one ragged bedspread in the house, which the woman wore for a petticoat during the day-time. They have been cared for.

—— Brig. Gen. Hicks has communicated to Gov. Gilmore, by direction of the Provost Marshal General, the following decisions of the War Department, made under date of Dec. 2d, 1863—which will, so far as they are applicable, govern in regard to the State of New Hampshire:

1st. That quotas be apportioned to towns and wards in the Several Congressional Districts in the State, and that assurance be given to such towns and wards as may furnish their full quotas of volunteers under the recent call of the President for 300,000 men, that they will be exempt from the pending draft should one be rendered necessary in January next.

2d. That the several towns and wards receive credit for all such volunteers as may have been mustered into the service of the United States since the draft, and the number so credited be deducted from their proportion of the quota assigned the State under the recent call.

—— Lieut. J. D. Cooper of the N. H. 2d regiment, having satisfactorily defended himself at the court of inquiry, has been restored to his position in the army.

—— As the youngest son of Joseph Plummer, of Tuftonborough, just entered his teens, was gunning recently on Ossipee Mountain, he observed something running up a tree. He fired, and lo! down came a cub bear.

—— On the night of the 6th instant two barns near Ossipee Centre were burnt, together with fourteen head cattle, fifty tons of hay, &c., the property of Capt. John Smith. The fire was the work of an incendiary.

Special Notices.

Brown's Bronchial Troches FOR **Coughs** AND **Colds.**

A NEGLECTED COUGH OF COLD, AN IRRITATED OR SORE THROAT, if allowed to progress results in serious Pulmonary, Bronchial and Asthmatic Diseases, often times incurable. BROWN'S BRONCHIAL TROCHES reach *directly* the affected parts, and give almost immediate relief. FOR BRONCHITIS, ASTHMA CATARRH and CONSUMPTIVE COUGHS the Troches are useful. PUBLIC SPEAKERS and SINGERS should have the Troches to clear and strengthen the Voice. MILITARY OFFICERS and SOLDIERS who overtax the voice, and are exposed to sudden changes, should use them. Obtain only the *genuine*. "Brown's Bronchial Troches" having *proved* their efficacy by a test of many years, are highly recommended and prescribed by Physicians and Surgeons in the Army, and have received testimonials from many eminent men.

Sold by all Druggists and Dealers in Medicine in the United States and most foreign countries at 25 cents per box. n21—1mD&W

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so generously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

THANKSGIVING MEETING.—In keeping with the spirit and intent of the President's proclamation, the Mayor has issued the following invitation to the people of our city, which will no doubt be promptly and generally responded to. It is expected that the several clergymen of our city will take part in the services, and it is hoped that Rev. A. L. Stone, of Boston, will arrive in town in season to be present:

PUBLIC MEETING.
CITY OF PORTSMOUTH, December 9, 1863.

In accordance with the recommendation of the President of the United States, "reliable information having been received that the insurgent force is retreating from East Tennessee, under circumstances rendering it probable that the Union forces cannot hereafter be dislodged from that important post, and esteeming this to be of high national consequence," I respectfully invite the inhabitants of this city to assemble at the North Church on Thursday afternoon, Dec. 10, 1863, at 3 o'clock in the afternoon, "and render special homage and gratitude to Almighty God for this great advancement of the National cause."

JONATHAN DEARBORN, Mayor.

☞ It will be remembered that the second lecture of the Lyceum course is to be delivered at the Temple this (Thursday) evening. The lecturer, Rev. A. L. Stone, of Boston, is one of the most eloquent, pleasing and interesting lecturers in the country, and ever holds the closest and most eager attention of his audience wherever he appears. This he is always able to do, whatever may be his theme, but his subject to night is one which appeals directly to the sympathies of the people. As Chaplain of a Massachusetts regiment, he has had admirable opportunities to become thoroughly acquainted with "camp life," and will be able to describe most graphically its peculiarities, its hardships, its amusements, and its influences.

☞ Several papers out of the city have recently stated that "the people of Portsmouth have leased an island in the harbor and offered it to the Government free of cost, for the purpose of locating a general hospital for invalid soldiers." This, we understand, is a mistake. Some inquiries have been made of the owners of Peirce's Island as to the price at which they would rent it to the city for the above purpose, but nothing has yet been settled in regard to the matter.

☞ Orders were received at the Portsmouth Navy Yard on Wednesday afternoon to fit the U. S. steamer Dacotah for sea will all possibly dispatch, that she might join in the search for the steamer Chesapeake, captured by the rebels.

☞ One more soldier towards the quota of this city was enlisted on Wednesday.—Only 148 are now needed, and at the present rate, the quota will be quite filled in less than eleven months.

☞ New side-wheel steamer Neva, built at Eastport, Me., for parties in New York, put into Portsmouth harbor on Wednesday, to escape heavy weather.

[Communication.]

GIVE US AIR.—Will the Sexton or the Lecture Committee, or somebody, attend to the *ventilation* of the Temple? With such audiences as we may expect during the course of lectures which has opened so auspiciously it will be very injurious to health, as well as unpleasant, to sit with closed windows. Those who attended the lectures delivered by Dr. Gleason last winter, know that pure air can be enjoyed even in the Temple. The Dr. kept all the windows open. God surrounds the world miles deep with pure life-imparting air that we may have it in abundance. Why will we shut it out, and inhale an atmosphere that is charged with death? A. J. P.

Messrs. Editors:—Along with the excellent skating with which we have been favored the past few days, comes the inevitable biped with axe, spear, and basket for the purpose of catching eels. He is a splendid specimen of the *genus homo*, very righteously independent in his asseverations of his *right* to cut holes in the ice whenever and wherever his royal self chooses, and wondrously indignant that his operations are observed and commented on by those who are conscious of the injury that may result therefrom. So the ice cutting goes on, and the large, dangerous holes remain open, ready to receive the unwary individual who chances to pass near, or the swift skater whose first knowledge of the whereabouts of these traps may be gained by a couple of broken legs.

For years this has been allowed for the benefit of a very few at the expense of many. Our ponds have of late years been the resort of hundreds by day and in the evening, of both sexes, from the four-year old to children of a larger growth, for the sake of enjoying the exhilarating exercise of skating—yet it is made positively dangerous by the operations of a few stout, able-bodied men, who lay out their strength in developing the muscles of their arms and hands in drawing from their muddy beds several eels every year, thus deriving paltry sums from their successful efforts.—The hundreds who are discommoded thereby are unanimous in condemnation of the actions of these persons. *All* who have friends who enjoy the innocent amusement of skating or coasting on the ponds are interested. Cannot some measure be devised to rid us of this nuisance? Will not our worthy City Fathers take the matter in hand and abolish this custom altogether, or at least reserve a portion of each pond for the skaters? Will not the Chronicle aid us in our endeavors to obtain a proper representation of our case before the proper authorities? SKATER.

NAVAL.—Act. Ass't Paymaster Joseph Foster, of this city, is ordered to the Acacia.

Act. Ass't Paymaster Frank F. Hastings is ordered to the Sonoma.

Acting Ensign Charles C. Ricker, of the Nantucket, is promoted to the grade of acting master.

☞ James McGlym and Alexander Cairnis were brought before U. S. Commissioner Hackett, on Wednesday, on a charge of counselling and aiding United States soldiers to desert, and after an examination, were ordered to give bonds in $700 each for trial, in default of which they were committed to jail.

☞ The sale of valuable books at auction, at Mr. Adams' auction store, is to be continued this evening.

OLD ENGLAND.—Speak of Old England as we will, revile her as we may, there seems to be, away down deep in our natures, a love and a preference for the products of her industry. We also seem to have imbibed the tastes and habits of her people, and to-day there is nothing that smacks of good cheer more than the Roast Beef and Old Ale of Old England. Our readers will find a new advertisement in our paper to-day, setting forth the fact that Mr. C. A. Richards, of Boston, an old and highly respectable wine merchant, has received an agency for pure wines and spirits from the London docks. It seems to us they must be good, but we refer our readers both to the advertisement and the man.

SOLDIERS, TO THE RESCUE!—Young men, rushing into the exposures and dangers of a soldier's life, should prepare themselves for the fatal fevers, the dysentery, the sores and scurvy, which are almost certain to follow. HOLLOWAY'S PILLS, used occasionally during the campaign, will insure sound health to every man. Only 25 cents per box. 214

A SALVE FOR EVERY SORE.—When we consider the various diseases to which the skin is subject, it must be an object of importance to have at hand a sure and certain cure for most of them. For recent flesh-wounds, obstinate ulcers, troublesome felons, sore breast, ringworm and scald head, and chafings of the tender skin of infants, as well as for wens and callouses, Grace's Universal Salve is a certain and rapid remedy. Every father who goes into the woods should carry a box in his pocket, and every mother of a family should have a 25 cent box in the cupboard.

Chronicle Notice.

On and after Jan. 1, 1864, the price of the Daily Chronicle will be, as now, $5 per year, or $4 when paid strictly in advance. 40 cents per month—10 cents per week—3 cents single copy.

N. H. Gazette Notice.

On and after Jan. 1, 1864, the price of the New Hampshire Gazette will be $3 per year, or $2.50 when paid strictly in advance. Single copies 6 cents—to regular buyers 4 cents.

Croup.

NEW HAVEN, Dec 11, 1862.

Having been taught that medicines, in order to be valuable, must originate with some particular faculty or school, we considered patent medicines (so called) a humbug, until, after losing our beloved child with Croup, we were persuaded to try Coe's Cough Balsam. Little Eddie had gone, and, though we loved him, we would not call him from his quiet rest, to share the sorrows of this unfriendly world. But Willie, is there no remedy for thee? We found it in Coe's Cough Balsam. It relieved him in about twenty minutes, to our great joy and the surprise of others. We cannot be hired to dispense with this priceless blessing, and we are glad to learn that Mr. Coe has made arrangements with parties, whereby it may become more extensively known. In view of this, let us say to every parent, when your child is suffering with Croup, give this Balsam, give it freely. If we did not believe it to be the best remedy for you, we certainly would not say it. Truly yours,

EDWARD GWINELL,
MERCY GWINELL.

For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL.

The Great Remedy for Nursing Affections, Rheumatism, Chronic Complaints.

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Urinary and Glandular Organs. Very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to economize in consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a stove-pipe or cord, of wood or wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Cool or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and elegance are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the cost of all burned—and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars—the Calendar changes by the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar Attachment no more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Reissues, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Examination of Models, Specimens, Books, &c., to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters appertaining to Patents. Copies of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unexplained, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that business is SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGE, he would respectfully state that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The long experience of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, place him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in advising inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, upon all of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend his *all* inventors to apply to him to procure their patents, as they may be surer having the most faithful attention bestowed on their cases, and at more reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made *nine* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for pastry, and sweetness in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied, for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove; as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for warmth, it has the tendency to produce healthy air, which is much complained of in other Furnaces, is entirely obviated.

The objection made by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being much lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot ascend, and are forced up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off in a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 25 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have to store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

TEETH MOUNTED UPON GOLD, SILVER, AND VULCANIZED RUBBER.

All Artificial Teeth coming from my office will be warranted to give entire satisfaction.

Teeth extracted positively without pain, by administering
PURE NITROUS OXYD GAS.

No undue excitement ever accompanies or follows its use, and no injury, even to the most delicately constituted, can be an after result. n6

Portsmouth, Aug. 1st, 1863.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations in Dentistry.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would invite the special attention of Ladies who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. FREEMAN, Dr. BOARMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Gas. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

COLORED TROOPS.—Gen. Butler has issued a lengthy order relative to colored troops, the effect of which is to call upon male negroes to fight for the freedom of their race, and to instruct every officer and soldier in his command to aid the coming of all colored persons into our lines. Negro soldiers are to be paid a bounty of $10 and $10 per month, while their families are to be furnished with subsistence. Gen. Butler in his order calls upon Congress to place colored troops on equality with other troops of the United States. Superintendents of negro affairs are appointed to oversee these negroes unfit for soldiers, in labor for public service, for which they are to be paid. All offenses by citizens against negroes, except of a high and unprecedented nature, are to be tried by the Provost Court.

☞ The Richmond Whig of the 3d inst. comments upon the situation of the Confederate Government in plain terms, as follows:

With no other motive or thought than to advance the public interest, we would again respectfully suggest to the President the advantage of reconstructing his Cabinet, and calling to his aid the very ablest intellects of the country. The burdens and responsibilities of his post are too great for any man to bear. He has use for all the assistance it is possible to command. We have a Department of State that has not been able in nearly three years to establish relations with any other State, a Treasury Department that has failed to keep its finances from running to ruin, a War Department in the hands of a chief whose whole studies and course of life have been purely and peculiarly civic, a Navy Department without a Navy, a Post Office Department with a very shackling system of mails, a Department of Justice vacant. The business of each Department separately shows the want of more masterly hands, and the united powers of their Chiefs in Cabinet council (if councils are ever held) fail to supply the quantum of wisdom the country needs.

We are getting to deep waters, and a feeling of dread is shaking the souls of the people. There is nothing that the President can do that will so animate the hearts and stimulate their confidence in and affection for him, as the calling to his side (as his daily advisers) of a Cabinet of the wisest, truest, and most experienced men in the country, regardless of what may have been their former political associations.—The time is propitious, the occasion urgent, and the people unanimously expectant.—For his own continued capacity for usefulness and future fame, as well as on account of the sorely necessitous and exigent condition of the country, we earnestly press the recommendation.

COINCIDENCE.—Mr. John and Miss Mary Cross, brother and sister, died at Charlestown on Saturday, after a short sickness. Mr. Cross was 58 years of age, and his sister 42. Their funerals took place together and their remains were placed side by side.

have been sold in its native town, and not a single instance of its failure in cure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will inevitably cure TICKLING IN THE THROAT.*
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In Incipient CROUP we will venture a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer indescribably the fortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been cured in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healthy and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK,
A book for everybody—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The Single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller's still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the sale of pamphlets, which are sold at $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, inclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

FRIDAY, DECEMBER 11, 1863.

THE PRESIDENT'S MESSAGE.

The Message opens with an acknowledgment of gratitude to God for blessings received during the past year. Our foreign relations are then considered, and are pronounced to be in a satisfactory condition, and Great Britain and France are especially commended for their efforts to prevent the departure of rebel vessels from their ports. The various perplexing questions arising out of the blockade have been discussed amicably, and our Prize Courts have commanded the respect and confidence of foreign powers. Several other matters relating to the general routine of administration, as connected with our foreign relations, are briefly referred to. The President refers at some length to the uncertain state of international questions touching the rights of foreigners in this country and of United States citizens abroad; alluding particularly to the fact that very many naturalized foreigners, on being drafted, have sought to avoid military service on the plea of alienage. In order that records may be easily accessible, the President suggests that Clerks of the Courts send the name of persons naturalized to the Secretary of the Interior, in whose department they might be arranged and printed; and he proposes an amendment to the law by which the fact of voting shall nullify any plea of exemption on account of alienage.

The President also states that there is reason to believe that foreigners frequently become citizens of the United States, for the sole purpose of evading duties imposed by the laws of their native countries, to which they at once return, and still claim the interposition of this Government as citizens. Many altercations and great prejudices have arisen out of this abuse.

The operations of the Treasury during the past year are described, and declared successful. The enactment by Congress of a National Banking law has been proved a valuable support of the public credit, and the general legislation in relation to loans has fully answered the expectations of its framers. Since these measures have been in operation, all demands on the treasury, including the pay of the army and navy, have been promptly met. No considerable body of troops, it is believed, were ever more amply provided and more liberally and punctually paid. The receipts during the year, from all sources, including loans and balance in the Treasury, at its commencement, were $901,125,676 86, and the aggregate disbursements $895,796,630 65, leaving a balance on the 1st of July, 1863, of $5,329,044 21.

The report of the Secretary of War is referred to as a document of great interest, it giving accounts of the military operations of the year; the organization of colored troops; the exchange of prisoners; the operations under the enrollment act; the organization of the Invalid Corps, and the operation of the several subordinate departments.

The Navy Department is highly complimented for its successful performance of duty. More than 1000 vessels have been captured since the blockade was instituted, and the value of prizes already sent in for adjudication amounts to over thirteen millions of dollars. Our naval force consists of 588 vessels, completed and in course of completion; of these 75 are iron clad. The need of larger Navy Yard facilities for building and repairing irons, is urged upon the attention of Congress.

The actual receipts of the Post Office Department have very nearly equalled the expenditures, and as the decrease since 1860, in the annual amount of transportation, has been only about 25 per cent., while the annual expenditure on account of the same has been reduced 35 per cent., it is anticipated that the department may become self-sustaining in a few years, even with the restoration of the whole service.

The sale of public lands is largely on the increase. Under the provisions of the homestead act, 1,556,514 acres of land have been taken up since Jan. 1, 1863. A modification of this act for the benefit of the volunteers in the army and navy is suggested by the Secretary of the Interior, and endorsed by the President.

The attention of Congress is again called to a plan for a Mississippi river ship canal.

The closing portion of the message is devoted to an explanation of the reasons which led to the issue of a proclamation of amnesty appended to the message. The President compares the condition of the country now and one year ago, and the effect produced by the emancipation proclamation. Tennessee and Arkansas have been cleared of insurgents, and influential citizens in each, owners of slaves and advocates of slavery at the beginning of the rebellion, now declare openly for emancipation; and of those States not included in the Emancipation Proclamation, Maryland and Missouri, neither of which three years ago would tolerate restraint upon the extension of slavery into territory, only dispute now as to the best mode of removing it from their own limits. Of those who were slaves at the beginning of the rebellion, full one hundred thousand are now in the U. S. Military service—about one-half of which number actually bear arms in the ranks. So far as tested it is difficult to say that they are not as good soldiers as any.

The President regards the crisis as passed and, looking to the present and future and with reference to a resumption of the national authority with the States wherein that authority has been suspended, he has thought fit to issue a proclamation of amnesty. In speaking of the path prescribed he says that while he remains in his present position he shall not attempt to retract or modify the emancipation proclamation, nor will he return to slavery any person who is free by the terms of that proclamation, or by any of the acts of Congress.

The concluding paragraph of the message is as follows:—

In the midst of other cases, however important, we must not lose sight of the fact that the war power is still our main reliance. To that power alone can we look yet, for a time, to give confidence to the people in the contested regions, that the insurgent power will not again overrun them. Until that confidence shall be established, little can be done any where, for what is called reconstruction. Hence our chiefest care must still be directed to the Army and Navy, who have thus far borne their harder part so nobly and well. And it may be esteemed fortunate that, in giving the greatest efficiency to these indispensable arms, we we do also recognize the gallant men, from commander to sentinel, who compose them and to whom, more than to others, the world must stand indebted for the home of freedom disenthralled, regenerated, enlarged and perpetuated.

The Proclamation.

The proclamation alluded to in the Message, after stating that it is made issued the President's pardoning power and in accordance with the provisions of the confiscation act, offers to all persons who have directly or by implication participated in the rebellion, pardon and restoration of all rights of property, except as to slaves, and in property cases where rights of third parties have intervened, upon the condition that every such person shall take and subscribe an oath to support the Constitution and the Union, and the acts of Congress and the proclamation of the President in reference to slaves, unless the latter are modified or declared void by the Supreme Court.

Civil or diplomatic officers or agents of the rebel government, persons who left the United States judicial, legislative, military or naval service, officers in the rebel service above the ranks of colonel in the army or lieutenant in the navy, and all who have maltreated colored troops or their officers, are excepted from this amnesty.

The proclamation also provides that when in any one of the rebellious States a number of persons, not less than one tenth of the voters therein in 1860, shall take the oath and re-establish a State government, it shall be recognized and protected by the United States; and any provisions which may be adopted by such State government, in relation to the freed people, which shall recognize their permanent freedom, provide for their education, and make temporary arrangements for them as a laboring, landless and homeless class, will not be objected to by the National Executive. It is suggested that the name of the State, boundary, sub-divisions, constitution and general code of laws be maintained as before the rebellion, subject only to the modifications made necessary by the course of events during the progress of the rebellion.

The proclamation, however, has no reference to States in which loyal governments have been maintained; and does not decide the question whether members sent to Congress from any State shall be admitted to seats, this question resting constitutionally exclusively with the respective houses. The Proclamation is intended to present to the rebel States a mode by which the national authority and loyal State governments may be re-established; but it does not declare that no other possible mode would be acceptable.

☞ Perley telegraphs from Washington to the Boston Journal as follows:—

The message of President Lincoln is very generally approved here, although the more radical emancipationists are not altogether pleased with it, or with the proclamation accompanying it.

The National Intelligencer expresses the sentiments of the leading Border State men here in an editorial on the message and proclamation, of which it reports favorably. It says the President shows a disposition to conciliate as far as possible. While doubts are expressed as to the success of the proposed policy of reconstruction, the deference paid to the Supreme Court is praised, as is the President's ignoring the obliteration of State lines in the South.

☞ 2130 rebel prisoners from Chattanooga passed through Indianapolis on Monday, en route to Rock Island. 1200 more were expected there on Tuesday. 131 officers, mostly belonging to Gen. Breckinridge's command, also passed through, en route for Johnson's Island.

THE REBELLION.

The Memphis Bulletin says that Gen. Dick Taylor, who fired on the steamers at the mouth of Red river, had a deeper object than merely to obstruct navigation. It was probably his intention to capture a steamer and cross the river for the purpose of reinforcing the rebel army in Georgia. The Federal gunboats, it is thought, will prevent such a movement. It is known that Taylor had a large force, estimated as high as 13,000.

Official advices from Charleston state that the reduction of the city can be effected only when possession of the harbor is secured, so that the fleet can move directly up to the work. This does seem probable at a very early day. [We presume these official advices are from the fleet.]

Gen. Banks is actively at work in Texas, but the rebels are concentrating to oppose him.

Financial Terms Explained.—It is well to know the meaning of the business terms we read in our daily papers. For instance; we wonder how it is that "bulls" and "bears," "lame ducks" and "shorts" can be as common in Wall St., as in Aroostook. Let us explain a few of these phrases which pass under our notice. A "bear" broker is a man who bears down on the market, depressing prices so that he may buy at a low figure. When he has broken the market he is apt to turn into a "bull" broker, and toss up prices, so as to run off his low-bought stocks at a profit. Large amounts of sales are made on time, and a man who cannot fulfil his contract, is a "lame duck." If you should sell a thousand dollars' worth of gold at 50 per cent. premium on ten days' time, and have no gold to sell, you would become a "short" seller; because you would trust in the fall of gold to replace at a lower rate the amount sold. In buying on time, the purchaser can call for his stocks at any day before the expiration of the period agreed upon and a seller on time can deliver within the specified time.

The reports of the sales at the brokers' board are apt to mislead, if you do not know one or two facts. You read of sales of government bonds of 1881 at 109 1-2. This means that the bond sells at that price, carrying with it the last coupon, from January or July 1. This bond is sold "flat"—the interest being thrown in. A "seven-thirty" note, we read, is sold at 106 1-2; and in this case the interest on the last coupon is added to the price of the bond—so that in reality there is not much difference in the price of the two securities. A "certificate of indebtedness" is always sold, so that the accrued interest shall be added. They are of two kinds, coin and currency. The former all mature before March 4, 1864, and have their interest payable in gold. Currency certificates are simply twelve months' notes, at six per cent., payable in paper.—The bonds of 1881 and the "five-twenties" are six per cent. bonds, payable, principal and interest, in gold. The first named bond has twenty years to run; the latter—may run twenty years unless Uncle Sam wants to pay us; which he can do at any time after five years from date of the bond, and this is why we call them "five twenty."

The seven-thirty note is payable in paper, but the interest in gold. They can be exchanged for a twenty year gold face and interest bond, at any time before or at maturity.

— A fleet of war-steamers, including some of our fastest vessels, are ordered to leave New York in pursuit of the Chesapeake.

— In the U. S. Senate, Thursday, notice was given of a bill to encourage enlistments in the Navy, and to credit such enlistments on the military quota of the several States.

— The Navy Department discredits the rumor that thirteen Anglo-rebel steamers have recently run the blockade, as no rebel paper mentions the fact, while we have twenty-four swift steamers there.

— Mr. Wm. C. Godwin of Newburyport, fell from a load of wood and was run over on Tuesday afternoon, and died about 6 o'clock. He leaves a wife and four small children.

— A small dwelling house at Hartford was burned early on Tuesday morning, the occupants, Thomas McGuire and wife, perishing in the flames. They were dissipated characters, and the fire was doubtless the result of a drunken spree.

— Jeff. Davis issued his message on Monday, and it was in possession of the rebel pickets on the Rapidan on Tuesday, but they declared it to be a funeral oration and would not send it across the river to our pickets.

— The London Times says, the British Cabinet gave the most serious attention to the proposed Congress, but, with the greatest respect for the Emperor, resolved on courteously declining. The Times believes that other Governments will follow the example.

— A man and his wife in the western part of New York arose one morning last week, at 7 o'clock, as they supposed, got breakfast, eat it, and thinking it did not grow very light for the time of day, consulted the clock and found it to be only half past two. Result—another nap and another breakfast at the regular hour.

— The scarcity of boys for industrial employment is unprecedented in New York city. An advertiser may patronize the papers of largest circulation, for two or three days in succession, asking the services of a boy for some honest occupation, and get no response. In former years, the result would have been a crowd of applicants all eager in urging their claim.

— Mr. Speaker Colfax is a New Yorker by birth, a printer by trade and for a long time a popular political editor.

— The authorities of Augusta, Me., are insisting on having all the liquor shops closed at 6 o'clock P. M.

— Commodore Vanderbilt was thrown from his carriage on Monday, and severely injured.

— The steam-tank of a slaughter house in Cincinnati exploded on Monday, severely scalding three men.

— The Richmond papers do not know whether to be glad or sorry at Meade's retreat.

— Gen. Banks holds more than one third of the Texan coast, including the mouths of the Rio Grande, Nueces and the Aransas Rivers.

— A safe containing $45,000 was stolen in Baltimore on Saturday. The safe was found two miles out of the city, but the greenbacks were gone.

— The surplus of the Russian ball fund will be devoted to the purchase of coal for the New York poor—about one thousand tons.

— The Georgia Senate has postponed indefinately, by a large majority, the bill restricting the planting of tobacco to one acre.

— Two soldiers were burned to death at Augusta, Me., on Monday night, by the burning of their barracks. Several others were badly burned.

— A drunken sailor leaped from a third story window, a distince of thirty-five feet, to the frozen ground, on Tuesday evening, and was not seriously injured.

Courting by Book.— A gentleman sends to the lady of his affections, in another part of the country a Bible, with the leaf turned down at Romans, Chapter I, from the 9th to the 12th verses:

"For God is my witness, whom I serve with my spirit in the gospel of his son, that without ceasing I make mention of you always in my prayers, making request if by any means now at length I might have a prosperous journey by the will of God to come to you, for I long to see you, that I may impart unto you some spiritual gifts to the end that you may be established. That is, that I may be comforted together with you, by the mutual faith both of you and me."

In return for which the lady transmits a Bible to her lover, with the 13th verse of the 14th chapter of St. Luke, marked: "I pray thee, have me excused."

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

Brown's Bronchial Troches FOR **Coughs** AND **Colds.**

A NEGLECTED COUGH OF COLD, AN IRRITATED OR SORE THROAT, it allowed to progress results in serious Pulmonary, Bronchial and Asthmatic Diseases, often-times incurable. BROWN'S BRONCHIAL TROCHES reach *directly* the affected parts, and give almost immediate relief. For BRONCHITIS, ASTHMA, CATARRH and CONSUMPTIVE COUGHS the Troches are useful. PUBLIC SPEAKERS and SINGERS should have the Troches to clear and strengthen the Voice. MILITARY OFFICERS and SOLDIERS who overtax the voice, and are exposed to sudden changes, should use them. Obtain only the *genuine.* "Brown's Bronchial Troches" having *proved* their efficacy by a test of many years, are highly recommended and prescribed by Physicians and Surgeons in the Army, and have received testimonials from many eminent men.

Sold by all Druggists and Dealers in Medicine in the United States and most foreign countries at 25 cents per box. n24—1mD&W

☞ The Thanksgiving Service in the North Church, on Thursday afternoon, was a very pleasant occasion, bringing together loyal persons and thankful hearts from our several religious societies, at the call of the President and the invitation of the Mayor. The services were arranged by the pastor, Rev. Mr. Adams. Rev. Dr. Burroughs read Scripture; and prayer was offered by Rev. Mr. DeNormandie. Addresses were made by Rev. Dr. Stone of Boston, and by Rev. Messrs. Patterson, Waterhouse and Holman. Rev. Dr. Burroughs made the closing address; and Rev. Mr. Medbery pronounced the benediction. Thus, with Thankful Acknowledgements of God's goodness, words of hope and trust, interspersed with songs of praise, was passed a well spent hour of loyal and christian devotion, alike pleasant and profitable.

HORSE TRAINING.—Mr. D. Magner delivered a lecture in Exeter last Friday evening, on the subject of training horses, and on the afternoon previous and forenoon following exhibited an excellently trained horse, driving him without rein, and making him perform many feats showing considerable intelligence. He afterwards gave private lessons on the subject of horse taming. We hear he is to visit Portsmouth, and if he does, all the horse fanciers will find it for there interest to visit him.

NEW HAMPSHIRE ITEMS.

—— The Hack drivers in Manchester have just raised their fares from 15 to 25 cents.

—— In school district No. 19, in Tamworth, there were 23 persons liable to do military duty. Of these 17 enlisted in the army and 2 were drafted.

—— They've got a man in Concord who gives editors meerschaum pipes! His name—it is Elijah Knight. Can't somebody come down on us like Knight?

—— A young man in Manchester was severely injured on Monday night, by coming in collision with some boys while skating. His face was badly bruised, and he remained insensible for some time.

—— The morning train from Dover to Boston, on the B. & M. Railroad, run off the track on Monday, at Madbury, by the misplacement of a switch. The tender was smashed up, and some other damage done, but no person was injured.

—— The Granite State News says that in the County of Carroll there is a neighborhood consisting of four families, living within the limits of three towns. There are four legal voters connected with these families. That they may reach their respective places of voting, two of these must travel six miles, one eighteen, and the other forty, by the public highway, or twelve across mountains. They should be looked after about the first of March.

—— Mr. J. F. Moore, an insane person of Effingham, who has recently been placed in the Asylum at Concord, was only a few short months ago a rational, happy and industrious man, blessed with a wife and several lovely and interesting children, to whom he was fondly attached. In September last, two of the children sickened and died. This was a sad bereavement to the poor man, who took it deeply to heart, and refused to be comforted. A strange, unnatural sadness stole over him at first, and then reason fled. Often, on autumn nights, he stood sentinel over their graves, waiting and watching lest some imaginary intruder should take the loved ones away.

☞ By the great fire among the shipping at New York on Wednesday afternoon, one brig, nine schooners, two ice boats and over twenty barges and canal boats, with all their valuable cargoes, were totally destroyed. The loss cannot be less than $300,000. Every craft which floated on the water from pier No. 54 to pier No. 51, both inclusive, was utterly destroyed, except the few which were towed into the stream, and several of the latter were burned to the water's edge before the flames were extinguished. The damage to the piers will amount to $60,000. Being the property of the corporation, there is no insurance upon them. The fire originated from sparks which the wind blew among the hay while the cook of the Cora Campbell was lighting a fire in the cabin. One man employed on board of her is supposed to have been burnt to death.

☞ A very pleasant place to spend an hour, in Boston, is the National History Store of Mr. Charles G. Brewster, formerly of this city, situated on Tremont street, not far from the Museum. Besides a large variety of song and plumage birds, goldfish, stuffed birds and animals, shells, &c., —Mr. Brewster has just received a new and fine supply of minerals, and other curiosities, selected by himself during his recent tour in Europe, including many beautiful and some very rare specimens. All lovers of such things, among our citizens especially, should not fail to call, when in Boston.

—The iron-clad Keokuk, sunk at Charleston, is being raised.

Under the lead of their eccentric and extravagant Empress, the ladies of France are getting on bravely. When they took to wearing tasseled boots and cocked hats, and carrying gold-headed and jeweled canes, the world masculine lifted up its hands in dismay and gasped "What next?" The "What next" has come. *La France*, Eugenie's newspaper organ, announces the introduction of feminine *whiskers*, and gives directions for their cultivation. The side hair, near each ear, is to be trained downward toward the chin so as to simulate those facial ringlets. Here is the receipt as it appears in the Paris journal: "The little tuft which starts from the root of the hair, is now to fall down the cheek in a thick mass, &c., &c." Farewell to those springes for hearts vulgarly called "spit-curls."—Whiskers are to be the beau-catchers.—*N. Y. Ledger.*

A SLIGHT MISTAKE.—The Hartford Courant relates the following good story:—"In a village not twenty miles from this city, a woman took her infant female child to church to be christened, and had chosen for it the name of Lucy. Unfortunately, as it happened, the mother lisped, and when asked by the minister what name she had selected, replied, 'Luthy thir.' Understanding her to say 'Lucifer,' the man of clerical robes was naturally considerably shocked, but, as he had reached a point in the proceedings where the dignity of his office must be sustained, he controlled his feelings and not recognizing the horrible name given him, but supposing the child to be a boy, announced in loud tones the name of the little one to be '*George Washington!*'"

HOW TO MAKE A HUSBAND DIE EASY. The husband of a buxom wife, near Exeter, England, had long been dying, and at length one of the clergymen of the parish, making one of his daily visits, found him dead. The disconsolate widow, in giving her account of her spouse's last moments, told him her poor, dear man kept groaning and groaning, but could not die. "At last," she said, "I recollected that I had got a new piece of tape in the drawer, and so I took some of that and tied it as tight as I could around his neck, and then I stopped his nose with my thumb and finger, and poor dear, he went off like a lamb."

Chronicle Notice.

On and after Jan. 1, 1864, the price of the Daily Chronicle will be, as now, $3 per year, or $4 when paid strictly in advance. 40 cents per month—10 cents per week—3 cents single copy.

N. H. Gazette Notice.

On and after Jan. 1, 1864, the price of the New Hampshire Gazette will be $2 per year, or $1.50 when paid strictly in advance. Single copies 5 cents—to regular buyers 4 cents.

SOLDIERS, TO THE RESCUE!—Young men, rushing into the exposures and dangers of a soldier's life, should prepare themselves for the fatal fevers, the dysentery, the sores and scurvy, which are almost certain to follow. HOLLOWAY'S PILLS, used occasionally during the campaign, will insure sound health to every man. Only 25 cents per box. 214

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

LOST.—A Gold Enameled SLEEVE BUTTON, marked "W." The finder will be suitably rewarded on leaving it at the office of the Rockingham House. d9

☞ The Catholic Archbishop of Tuam, Ireland, writing to the Chancellor of the English Exchequer, on the subject of the Irish exodus to America, says:—

It is in vain then, that landlords, now changing their tone, beseech their tenantry to stay; it is in vain that the obsequious scribes of a government which so long treated them with cruelty implore them not to go. Their resolve appears determined as long as their just claims are so mercilessly unheeded. And hence the cool and stern indifference with which they leave a land that has lost for them the endearing character of a parent, and with it all the sacred attractions and security of home.

DECISION RESPECTING DISCHARGED SOLDIERS.—The Provost Marshal General has decided that soldiers who have received a discharge from the army on account of temporary disability, may be received anew under the last call for volunteers. They will not, however, be allowed to re-enter the service as veteran volunteers, but will receive only the bounties offered to fresh recruits.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In short, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar same worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

Pure Ingredients,
Careful Distillation,
Delicate Flavor,
Uniform Character.

IT CONTAINS IN A CONCENTRATED FORM THE DISTILLED JUICES

—OF—

WHEAT, RYE AND CORN,

free from all deleterious substances.

Possessing these qualities, it has become a standard article, and is highly recommended by Chemists, Physicians and Connoisseurs.

Sheaf Whiskey

is the refined distillation of the most carefully selected WHEAT, RYE AND CORN, and combines

NUTRITIVE,

MEDICINAL AND

RECUPERATIVE

properties which render it deservedly popular as

A Strictly Pure Stimulant.

This celebrated Whiskey is put up by the subscriber in cases, containing one dozen bottles each, and offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or send their orders for any quantity required to the General Depot for its sale,

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass of into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of fresh air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the heaviest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Meadum,
Henry F. Wendell, John Sise, and others.

TEETH MOUNTED UPON GOLD, SILVER, AND VULCANIZED RUBBER.

All Artificial Teeth coming from my office will be warranted to give entire satisfaction.

Teeth extracted positively without pain, by administering

PURE NITROUS OXYD GAS.

No undue excitement ever accompanies or follows its use, and no injury, even to the most delicately constituted, can be an after result. n6

No. 60 CONGRESS STREET,

Portsmouth, Aug. 1st, 1863.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, possesses all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless article, its effect being that of a stimulant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BARRETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known. We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and when it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICK LING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In case of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with the coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

SATURDAY, DECEMBER 12, 1863.

THE SECRETARY OF THE NAVY

In his report to Congress, states that the, blockade during the last year has been effectively maintained. It now extends a distance of 3549 miles, embracing 189 harbor or river openings, while much of the coast presents a double shore to be guarded. In addition to the coast blockade more than 100 vessels have been employed on Mississippi and other rivers. The Mississippi and its tributaties, after a severe struggle, have been re-opened. The blockade has been made more and more effective, and the year's results have been most disastrous to those engaged in violating it.

The operations before Charleston have destroyed the commerce of that city, and have proved the capacity of the Monitors both for attack and resistance. The city itself in a military or strategic view, is of little consequence, "and whether the rebels are able, by great sacrifice and exhaustion, to hold out a few weeks more or less is of no importance." A high testimonial is paid to the genius of John Ericsson.

The Rio Grande being the boundary between the United States and Mexico, is open to the navigation of both countries, and could not, therefore, be blockaded. This offered a great opportunity, and under the disguise of neutral trade, Matamoras suddenly became a great commercial mart for the rebels and their friends. The occupation of the Rio Grande and Brownsville, however, has put a stop to the extensive commerce of Matamoras.

The Jamestown and the Wyoming have guarded American interests in the East India and China seas during the year.

The naval force, at the commencement of the rebellion, consisted of 76 vessels, 42 only being in commission. Now we have 588 vessels, carrying 4443 guns. During the past year we have lost 32 vessels, carrying 166 guns. There have been commenced 58 vessels, to carry 452 guns, 24 of these being iron-clads. The following is a general exhibit of the navy, when the vessels under construction are completed:—

	Ships	Guns	Tons
Iron-clads (coast).....	46	120	63,516
Iron-clads (inland).....	30	152	20,788
Side-wheel steamers..	213	1,240	126,517
Screw-steamers.....	186	1,678	197,893
Sailing vessels.....	113	1,253	70,493
Total.....	588	4,443	467,987

There have been purchased during the year some thirty tugs, over fifty steamers for blockading and supply purposes, and over twenty other vessels for tenders and store ships. At least twenty of the steamers were captured in endeavoring to violate the blockade.

The Secretary argues that to maintain our rightful maritime position, and for predominance upon the ocean, it will be necessary to have vessels of greater size than any turreted vessel yet completed; and he renews his former declaration that a navy yard on a large scale, and, in many respects, of a new plan, amply furnished with all the proper facilities and aids for its operations, where machinery for steamers can be manufactured, iron vessels constructed, iron armature made and tested, and repairs of every description executed, is an absolute necessity. The relative advantages and disadvantages of iron and wooden vessels are discussed at length, and the Secretary concludes that besides turreted vessels for coast defence and large armored ships for naval conflict, we need and should have steamers of high speed constructed of wood, with which to sweep the ocean, and chase and hunt down the vessels of an enemy.

The injustice done to this country by the recognition of the rebels as belligerents by the principal European maritime powers, and by the declarations of neutrality, is commented upon at length; and the legitimate result of such actions on the part of the European nations is illustrated by detailed accounts of the Somter and Alabama, Florida and Georgia, "armed cruisers built in England, having an English armament on board, and manned by crews who are almost exclusively European." In referring to this matter, the Secretary says:—

This theory of recognizing rebels as belligerents so soon as they lift their arms against the government, and thus declaring them entitled to national privileges on the high seas and in the harbors of the world, although without a port or navy of their own, is the inauguration of a new policy in the history of nations. For a long succession of years it has been an important point in the progress of civilization, and particularly among maritime powers, that the police of the seas should be guarded and maintained by the subjection of captures to the adjudication of tribunals administering the law of nations, which receive from the hands of the captor his prize into the custody of that law, to be disposed of by its rules; but the course pursued in fostering and giving encouragement to the rebel robbers who, without a recognized national flag or a port at their command, or any means of bringing their captures to judgment, are committing their predatory acts, is a restoration of that Algerine and Tripolitan system which long afflicted the civilized world, but which, under the lead of our government, was exterminated in the early part of the present century.

The act of Rear Admiral Wilkes, in detaining the Vanderbilt in the West Indies, in violation of the express orders of the Department, by which detention the plans for the capture of the pirates while on the coast of Brazil were defeated, is severely commented upon.

The scarcity of seamen is alluded to, one of our largest and fastest steamers, destined for foreign service, having been detained for months for the want of men. The operation of the draft, and the payment of large bounties, have been somewhat detrimental to the naval service, sailors having entered the service as soldiers.

July 1st there were 34,000 seamen in the service. From that date to Oct. 1, 19,000, mostly landsmen, enlisted. The lack of seamen, however, arises from no diminution in the monthly number of enlistments, but from the increased wants of the service.—During the year 1862 the average number of enlistments was 1529 per month. During the present year the average has been over 2000 per month. And the Secretary suggests that as large a bounty be paid to those who enlist in the navy as to those who enter the army—that the quota of towns and communities under any call for the increase of the national forces be credited with the men furnished to the navy, and that seamen who may be drafted be permitted the choice of entering either the land or naval service.

The number of vessels captured by the squadrons to the 1st of November, is 1045—among them 175 steamers. This does not include a number of vessels which have been destroyed. The value of prizes sent to the courts for adjudication since the blockade was established is not less than thirteen million dollars. The value of those already condemned is $6,538,683 40; the expenses have been $607,407 54, leaving for distribution $5,897,970 26. One half of the net proceeds arising from the sale of prizes is by law set apart as a fund for the payment of naval pensions, and the Secretary suggests that this fund, now accumulating, should be made a permanent investment in registered Government securities. It is believed that the annual interest would be sufficient to meet all liabilities for naval pensions; and at least two million five hundred thousand dollars can now be invested without interfering with the prompt payment of pensions.

The appropriations made for the fiscal year ending June 20, 1863, were $71,587,-052 09; expenses of the department during the same time were $63,211,105 27; leaving an unexpended balance of $8,375,-946 82. This amount will, however, be absorbed in the completion and armament of vessels under contract, and the payment of other liabilities incurred prior to the close of the fiscal year. The expenditures have embraced, among other things, the construction in whole or in part, and the repair, of seventy-one iron-clad vessels, and the purchasing, repairs and alterations of three hundred and sixty vessels. The estimates submitted for the fiscal year ending June 30, 1865, amount to $142,618,785 40. A considerable portion of this expenditure will be for vessels and property which will remain on hand when the rebellion shall be suppressed. And whatever sums may be expended for docks, yards, buildings, machinery, &c., will be permanent investments for the country.

JEFF. DAVIS' MESSAGE.—The Message of Jefferson Davis to the Confederate Congress was sent in on the 7th inst. He is very despondent over the loss of Vicksburg, Port Hudson and many other points. He says there has been no improvement in the relations of the Confederacy with foreign countries since his message last January; on the contrary there is greater divergence in the conduct of European nations, assuming a character positively unfriendly. Of the Confederate finances he says: "The public finances demand the strictest and most earnest attention. A prompt and efficacious remedy for the present condition of the currency is necessary to a successful performance of the operations of the Government." He recommends taxation instead of further sales of bonds or issues of treasury notes, adding, "The holders of the currency now outstanding can only be protected by substituting for it some other security."

He calls the people to the rescue of their country; recommends putting an end to the sub rosa business, and suggests a modies may be reinforced rapidly. He regrets ification of the exemption law, that the arm the suspension of the exchange of prisoners, and that communication with trans-Mississippi is so obstructed. He concludes as follows:—

The enemy refuses proposals for the only peace possible between us; the only hope for peace is now in the vigor of our resistance."

— The Portland Press states that a spaniel which had been blind for a long time, the cornea of both eyes being covered with a white film, recently fell into the river, and becoming entangled in the sea-weed, very narrowly escaped drowning. But on coming out of the water, he was found to have recovered the use of his right eye.

— The Secretary of the Treasury recommends to increase the tax on State banks.

— The amount Washington Irving received during his life, for his works, was $205,383.34.

— E. W. Gantt, of Arkansas, formerly a rebel Brig. General, has been pardoned by the President.

— Rev. W. H. Channing, Unitarian, of Washington, has been elected Chaplain of the U. S. House of Representatives.

— The soldiers in the Army of the Potomac do not look with favor on the proposal to go into winter quarters.

— Rumor now assigns Gen. Thomas to the command of the Army of the Potomac, with a change of its leading officers.

— Mr. Everoett said in conversation, the other day, at Gettysburg, that he was never much of a "Bell-Everett man!"

— A fire at Memphis, Tennessee, on the 3d instant, destroyed twenty thousand dollars' worth of property.

— Miss Rose Kennedy, an eminent pianist, formerly of New Orleans, has died at Baden-Baden. She went to Germany to pursue her studies.

— The Engineer Department estimates five millions and a third as required for fortifications, &c., for the year ending June, 1865.

— It is rumored that the grade of Lieut. General will be conferred on Gens. Halleck, Banks, Grant, Dix, Hooker, Thomas, Sherman and others.

— The estimate of clothing for the army the next fiscal year is $58,000,000. The sum of $900,000 is asked for the benefit of prisoners of war.

— W. K. Sebastian, the present U. S. Senator from Arkansas, who has been a Union man throughout, is on his way to Washington to claim his seat.

— The rebel Gen. John Morgan is said to have been in Cumberland County, Ky., on the morning of the 7th, in company with five of his officers, proceeding towards the South.

— Capt. Andrew Crawford, freight agent of the Montreal Ocean Steamship Company, suddenly dropped on the deck of steamship Hibernian at Portland on Thursday, and expired almost immediately, from apoplexy.

— The rebel officers in charge of Union prisoners at Richmond, who have been guilty of brutality to the prisoners, have been removed, and more humane officers appointed in their place.

— The representatives of the press in Washington propose to tender a complimentary dinner to Hon. Schuyler Colfax, as he is the first newspaper editor ever elected Speaker of the House.

— The Herald states that an old lady in Newburyport refused to touch a newspaper containing the President's message, because the President had had the small pox, and she was afraid she should catch it.

— "It may seem strange," writes a correspondent with the Army of the Potomac, "but I have met many citizens even in Culpepper county, who had never seen the star-spangled banner previous to the coming of Meade's army."

— A down-east paper, in speaking of its promptness in giving the message, says—"the fact that it was transmitted by telegraph and repeated at different stations, will account for many errors, but these we think are few."

— Hawkins, one of the parties in the recent kidnapping case at Montreal, has been tried and found guilty. The trial of Hon. Joshua R. Giddings, American Consul at Montreal, on the same charge, is set down for the 17th inst.

— The Commissioner of the General Land Office has just transmitted to the Governor of Iowa a certificate authorizing new locations on other public lands for over 2,200,acres as indemnity for a like quantity in Jasper County, Iowa, claimed as swamp, but which had been disposed of as arable public lands of the United States.

— Asel H. Thompson has been arrested at Bangor for entering the house of Mr. David W. Whittier, at Chesterville, Me., with the intention of robbing it, and for shooting at Mr. Whittier, as described in our paper of Wednesday. When caught, Thompson was endeavoring to sell a team he had hired. He has been sent to Farmington jail.

THE REBELLION.

Rebel accounts stated that Longstreet had fallen back to Morristown, where a stand would probably be made. Their loss at Knoxville is stated at 600, including some high officers; and the failure of the assault on the 29th is attributed to forged orders recalling Gen. Anderson's brigade.

Gen. Banks and staff returned to New Orleans on the 3d.

Rebel accounts report that the Senate of Georgia has ordered the conscription of every able-bodied citizen over 15 years of age.

Blockade running into Suwanee river, Ga., is closed by the destruction of the steamer Laura by the Federal gunboat Union.

A Charleston dispatch of the 5th reports the destruction of the Calcium Light at Fort Gregg by a shot from Fort Moultrie, and says Sumter is considered safe against all assaults.

AMENDMENT TO THE CONSTITUTION. The following is the act which Mr. Wilson of Iowa proposes to introduce into the House, and of which he gave notice on Monday:

"A joint resolution submitting to the Legislatures of the several States a proposition to amend the Constitution of the United States:

Be it resolved by the Senate and House of Representatives of the United States of America in a Congress assembled, two-thirds of both Houses concurring, that the following article be proposed to the Legislatures of the several States as an amendment to the Constitution of the United States, which, when ratified by three-fourths of said Legislatures, shall be valid to all intents and purposes, as part of said Constitution, viz:

Article 13—Section 1. Slavery being incompatible with free government, is forever prohibited in the United States, and involuntary servitude shall be permitted only as a punishment for crime.

Section 2. Congress shall have full power to enforce the foregoing section of this article by appropriate legislation.

☞ The Southern account of the recent battles near Chattanooga, concedes that a portion of the Confederate army was not animated with that spirit of gallantry which has hitherto characterized it. While the right wing, under Hardee, made a stout and successful fight, the left, under Breckinridge, gave way after a feeble resistance and retreated in disorder and confusion.—It is asserted in the report to which we refer that this was no fault of Bragg or his subordinate officers, but merely because of the disinclination of the men to fight.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, ILLIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spuo

Brown's Bronchial Troches FOR **Coughs** AND **Colds.**

A NEGLECTED COUGH or COLD, AN IRRITATED or SORE THROAT, if allowed to progress results in serious Pulmonary, Bronchial and Asthmatic Diseases, often times incurable. BROWN'S BRONCHIAL TROCHES reach *directly* the affected parts, and give almost immediate relief. For BRONCHITIS, ASTHMA CATARRH and CONSUMPTIVE COUGHS the Troches are useful. PUBLIC SPEAKERS and SINGERS should have the Troches to clear and strengthen the Voice. MILITARY OFFICERS and SOLDIERS who overtax the voice, and are exposed to sudden changes, should use them. Obtain only the *genuine.* "Brown's Bronchial Troches" having *proved* their efficacy by a test of many years, are highly recommended and prescribed by Physicians and Surgeons in the Army, and have received testimonials from many eminent men.

☞ "Perley" sends to the Boston Journal the following statement of the estimates made by the Secretary of the Navy, for the Portsmouth Navy Yard for the ensuing year:

Pay of naval officers	$21,170
Pay of seamen	8,024
Pay of civil officers	18,850
Plumbers', coppersmiths' and tin shop.	36,888
Quay walls	22,585
Mooring piers	12,320
Iron store	7,968
Extension of ship house	4,540
Machinery and tools	23,460
Repairs on floating dock	4,000
Repairs of all kinds	27,000
Barracks and guard house, Seavey's Island.	6,500
Improving Marine Barracks	22,000
Contingent expenses	150,000

Among the items for fortifications are the following: The amount asked for new Fort Constitution, Portsmouth harbor, is $100,000; the last appropriation was $200,000; for new Fort McClary $100,000; the last appropriation was $100,000.

☞ The official report of the Chief of the Bureau of Ordnance contains the following:—

At Portsmouth, N. H., Navy Yard, the ordnance work is principally confined to constructing gun carriages and ordnance equipments. About 128 men are employed. Work of excellent quality. Lieut. Commander Sicard in charge.

The Chief also reports that danger of explosion renders it advisable to remove the powder magazine at the Portsmouth Navy Yard, as well as those at Boston and New York.

☞ Henry E. Ham, of this city, late clerk in Gen. Rowley's office, has been promoted to Commissary Sergeant of the 30th Maine Regt. Vet. Vols., Camp E. D. Keyes, Augusta, Me.

Paymaster Simon R. Marston, U. S. A. of this city, is now at home on a furlough.

☞ The orders which were received at the Portsmouth Navy Yard on Wednesday from Washington to dispatch the steamer Dacotah in search of the Chesapeake as soon as possible, were countermanded on Thursday. On Friday, however, the order to fit her out was renewed, and measures were at once taken to do so. She may possibly get away this afternoon.

☞ Rev. Dr. A. A. Miner, of Boston, will preach at the Universalist Church tomorrow (Sunday) morning, and lecture in the evening. Evening services commence at 7 o'clock.

NEW HAMPSHIRE ITEMS.

—— The 3d regiment now lacks but 17 men of the maximum number.

—— The Young Ladies' Soldiers' Aid Society, of Nashua, are to give a valuable gold watch, manufactured by the Nashua Watch Co., to the New England Sanitary Fair, to be holden in Boston the week commencing Dec. 14th.

—— A call has been issued for a convention of the Democrats of this State at Concord, on January 8, 1864, to put in nomination candidates for Governor and Railroad Commissioner. All are invited who are in favor of "the Constitution as it is and the Union as it was."

—— Recruits come in at Concord at the rate of about 40 daily, and rapidly increasing. Recruiting has been stopped for the 2d, 3d, 8th, 10th, 13th and 14th, and the men are now enlisting for the 6th, 9th and 11th, which regiments are with Gen. Burnside at Knoxville. The former regiments are nearly or quite full.

THE CHESAPEAKE.—The St. John, N. B., Evening Globe states that the scheme to capture the Chesapeake was matured in that city. Five of the captors went from that city and are of the lowest character.—They were paid their passage money to New York, and were promised $500 each on the steamer being safely taken into Wilmington. It was also arranged that at a certain store in New York each member of the party was to call at different times for a parcel containing a revolver, ammunition, and a pair of handcuffs.

The Chesapeake did not coal at St. John, but lay off the harbor and took on board Capt. Parker, formerly of the privateer Retribution, who is to command. The Globe states that the citizens of St. John condemn the act of the pirates entirely.—The Chesapeake is reported to have been, on Thursday, at Pubnico Harbor, near Cape Sable.

A Portland dispatch states that the cargo of the steamer was owned exclusively by American and Canadian merchants. Our Consul at St. John telegraphed, Thursday, that a steamer answering the description of the Chesapeake is at Shelburne, N. S. She attempted to coal on Thursday night. The government has been asked to detain her, a committee making affidavit of the charge, and the Crown officer is deliberating upon it.

Twelve steamers have been sent in pursuit of the Chesapeake. One of them, the Acacia, has put into Portland, leaking badly. A dispatch says that it is supposed she was scuttled by a portion of her crew, who deserted as soon as she reached the wharf. When she reached the wharf she was leaking so badly that her pumps could not free her. To prevent her from sinking an alarm of fire was raised and the engines pumped her out.

☞ Something solid to be thankful for is certainly to be found in our late successes at Knoxville, although the gain is not of that kind which makes most noise. The victory is great for us, the defeat most damaging to the rebels. A cotemporary said of it when the news came:—

Decisive news at last from East Tennessee—news more glorious and infinitely more important than if we had heard of a battle and a victory almost anywhere else. The siege of Knoxville is at an end. The rebel effort to regain East Tennessee is abandoned forever. Longstreet is in full retreat toward Virginia, our cavalry pursuing.

The country may breathe freer. We can hardly realize the tremendous peril we have escaped. East Tennessee was so long neglected that its value even now is only half understood, yet it is true beyond question that the loss of it is absolutely fatal to the rebel Confederacy. Our possession of it makes the military subjugation of all the territory which still owns the lawless sway of Jeff. Davis only a question of time.—Nothing but despair could have driven the rebels to abandon their effort, and the conviction that it can never be recovered will be equally potent to paralyze their operations in other quarters.

A look at the map of the United States will show that East Tennessee in our hands is a complete barrier against the rebel incursions into Kentucky, and other States.

Gen. Burnside's whole campaign has been a master-piece, and his final stand at Knoxville is what saved us the State and shortened by many months the duration of the war.

The President's Proclamation is a fit recognition of this mercy. The country will reverently and gratefully join with him in thanksgiving.

Chronicle Notice.

On and after Jan. 1, 1864, the price of the Daily Chronicle will be, as now, $5 per year, or $4 when paid strictly in advance. 40 cents per month—10 cents per week—3 cents single copy.

N. H. Gazette Notice.

On and after Jan. 1, 1864, the price of the New Hampshire Gazette will be $2 per year, or $1.50 when paid strictly in advance. Single copies 6 cents—to regular buyers 4 cents.

SOLDIERS, TO THE RESCUE!—Young men, rushing into the exposures and dangers of a soldier's life, should prepare themselves for the fatal fevers, the dysentery, the sores and scurvy, which are almost certain to follow. HOLLOWAY'S PILLS, used occasionally during the campaign, will insure sound health to every man. Only 25 cents per box. 214

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambucci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHENLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHENLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

ODE ON ST. CECILIA'S DAY.

Song (for the first time in this country) at the inauguration of the great organ, Boston Music Hall, by the Handel and Hayden Society:

RECIT.—From harmony, from heavenly harmony
This universal frame began.
RECIT. (Accomp.)
When nature underneath a heap
Of jarring atoms lay,
And could not heave her head,
The tuneful voice was heard from high,
Arise, arise, ye more than dead;
Then cold and hot, and moist and dry,
In order to their stations leap,
And music's power obey.
CHORUS.
From harmony, from heavenly harmony
This universal frame began:
From harmony to harmony,
Thro' all the compass of the notes it ran,
The diapason closing full in man.
AIR.
What passion cannot music raise and quell?
When Jubal struck the chanted shell
His listening brethren stood around,
And, wond'ring, on their faces fell,
To worship the celestial sound:
Less a God, they thought, there could not dwell
Within the hollow of that shell,
That spoke so sweetly and so well.
AIR AND CHORUS.
The trumpet's loud clangor excites us to arms,
With shrill notes of anger and martial alarms;
The double double beat of the thundering drums,
Cries hark! hark! the foes come—
Charge! charge! 'tis too late to retreat.
MARCH.
AIR.
The soft complaint of flutes,
In dying notes discovers
The woes of hopeless lovers,
Whose dirge is whispered by the warbling lute.
AIR.
Sharp violins proclaim
Their jealous pangs and desperation;
Fury, frantic, indignation, depth of pains,
And height of passion for the fair disdainful dame.
AIR.
But O! what art can teach,
What human voice can reach
The sacred organ's praise?
Notes inspiring, holy love
Notes that wing their heavenly ways
To join the choirs above.
AIR. (A la Hornpipe.)
Orphens could lead the savage race,
And trees unrooted left their place,
Sequacious of the lyre:
AIR. (Accomp.)
But bright Cecilia raised the wonder high,
When to her organ vocal breath was given
An angel heard, and straight appeared,
Mistaking earth for heaven.
SOLO AND CHORUS.
As from the power of sacred lays
The spheres began to move,
And sang the great Creator's praise
To all the blessed above;
So when the last and dreadful hour
This crumbling pageant shall devour,
The trumpet shall be heard on high,
The dead shall live, the living die,
And Music shall untune the sky.

To the Hon. Judge of Probate for the County of Rockingham, in the State of New Hampshire.

Respectfully shews JOHN BENNETT, of Portsmouth in the County of Rockingham, that he is Guardian of Joseph Willard Marden, Lucy Wesch Marden, Willard Marden and Sarah A. Marden, by the appointment of the Judge of Probate for the County of Rockingham, in the State aforesaid; that said Wards are seized of a certain tract or parcel of land, situated in said Portsmouth, containing about one acre, and bounded and described as follows: On the north by land of John H. Dennett, northeasterly by land of Nathaniel Jackson (deceased), southerly and easterly by land of George Dennett, and westerly and westerly by the North Road, so called

Also, a certain other tract of land, situate in said Portsmouth, containing about four rods, to be the same more or less, and bounded northwester ly by land of Bickford L. Rand (deceased), northeasterly by land of Nathaniel C. Berry, southeasterly by land of Josiah Marston, southerly by land of Samuel Walden, and northwesterly by land of Jefferson Norton and Mr. Rollins's land; they being the same premises set forth in trust deed of Joseph W. Marden to Robert Leftavour, as by his deeds dated May 20, A. D. 1857, and July 15, 1860, fully appears, the said deeds being deeds of trust, and the rights of said Wards to be sold being their rights subject to said trust; and that it is necessary for the support of the said Wards and will be conducive to their interest to have all their right, title and interest in the premises sold; wherefore he prays that he may be licensed and authorized to sell the same at public auction, according to the statute in such case made and provided.

JOHN BENNETT, Guardian.

STATE OF NEW HAMPSHIRE.

Rockingham ss. Probate Court at Portsmouth, in said County, November 24, A. D. 1863

Upon the foregoing Petition it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Portsmouth, in said County, on the second Tuesday of January next, and that the Petitioner notify the heirs of said deceased and all persons concerned or interested therein to appear at said Court, and show cause if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Daily Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The ovens are furnished with tin, and buckets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and comfort are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed. We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight, showing the day of the week, the month, and day of the month, including the 29th day of February at leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT.

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Aperient. It is recommended by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

COOKING STOVE,

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the attention top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the ashes, after the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be kept burning day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this invaluable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given quantity of fuel, and to prevent the escape of heat in the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for the failure is, the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, and yet with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Wall,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas.

He is fully convinced that it is a perfectly harmless anesthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

THE REBELLION.

Advices from Texas represent the health of our army as excellent, and they are ready and eager to push into the interior.

The Monitor Weehawken sunk at her moorings off Morris Island, S. C., on Sunday Dec. 6, during the prevalence of a gale. Thirty of her crew perished; among whom were four of her engineers. The Captain and remainder of her crew are safe. The other monitors rode out the storm. The Weehawken lies in five fathoms of water, but is expected to be raised. The loss is said to be from neglect and bad management. No accurate list of the lost has been obtained. The Boston Traveller's correspondent states that much credit is due Capts. Ammen and Bradford of the Navy for their great exertions made to save the perishing sailors.

Gen. Washburne officially reports that the command of Matagorda Bay gives us substantially the control of central and western Texas, and all of the important points on the east coast except Galveston. The rebels blew up the magazine of fort Esperanza. It is a large, complete work, bomb-proof and partially cased with railroad iron. We captured 70 guns, ranging from 24 to 128 pounders. The garrison escaped, a gale preventing the landing of our troops.

BY TELEGRAPH, SUNDAY.

A Washington dispatch says: Intelligence direct from the Army of the Potomac states that Gen. Meade has not been superseded, nor will he be at present. He issued special orders on Saturday delegating to Corps Commanders power to grant furloughs to officers and men, thus showing that no offensive movement, for the present at least, is contemplated.

The Richmond Enquirer of the 10th and 11th is received, from which dispatches from Charleston are obtained. On the afternoon of the 9th the Federals opened fire on the city and threw eight shells. Moultrie and the James Island batteries returned the fire, silencing the Federals. Five buildings in the city were struck; no person was injured. During the night the Federals shelled the city again, between 10 and 11 o'clock P. M., and 3 and 4 A. M. 20 shots were thrown. The rebel batteries opened heavily upon the Federals during the shelling of the city. The dispatch states that they (the rebels) kept up a constant fire during the day, 16th, driving the Federal working parties from Forts Gregg and Wagner. There was no firing of any consequence on Sumter or on the city during that day.

A dispatch from Bristol, Tenn., 10th, states that Longstreet's forces were drawn up in line of battle at Rutledge. His rear was skirmishing with the Federals, whose pursuit had not been vigorous since the rebel forces left Morristown. The rebel cavalry were skirmishing all day, Monday, with the advance of Wilcox's cavalry, on Clinch river.

THE CHESAPEAKE.—Capt. Willets, who reached Portland on Friday evening, furnished the following copy of the order under which the captors acted in seizing that vessel:—

"*Order*"—"To Lieut. John Cibbon Braine. You are hereby ordered to proceed to the city of New York, and State of said, with the following: 1st Lieut. H. A. Parr, 2d Lieut. David Collins, Sailing-master Geo. Robinson, and a crew of eleven men; you will on arrival there, engage passage on board the steamer and use your discretion as to the proper time and place to capture. Your action towards crew and passengers will be strictly in accordance with the President's instructions. You will as circumstances will permit, bring your prize to the Island of Grand Manan for further orders; Seal Cove Harbor, if accessible. "JOHN PARKER,

Captain C. S. Privateer Retribution."

December 2d, 1863.

The Boston Post states that this Capt. "Parker," who commanded the rebel privateer Retribution previous to her capture and who has just taken charge off St. John, N. B., of the steamer Chesapeake and her present crew of murderers, is a man named Locke, a Nova Scotian, who formerly sailed from Boston, having had a vessel built for him by Boston parties.

The Chesapeake left Shelburne at midnight Friday after shipping some men and scaling.

— Reports have been received at Havana that over 300 of the St. Domingo insurgents have delivered themselves up to the Spanish authorities. Hagas and two other leaders in the rebellion are reported captured at Hayti, and at the disposal of the Spanish government.

— The operations of the Bureau of Colored Troops have put fifty thousand dusky warriors into the field, notwithstanding operations have been retarded by several obstacles. The qualifications of the colored man for the several branches of the military service are considered fully established.

— The large blockade runner Minna, with a very valuable assorted cargo, was captured on the 9th, near Charleston.

TO STOP PIRACIES.

For this purpose we need a system of Inspection, Passport, and Search, which might be maintained by a slight tax on all passengers by sea steamers, &c.

The New York Tribune of Thursday says, in speaking of the Chesapeake:—

It is not cause for surprise that a gang of rebel pirates has seized a steamer which recently left this harbor for Portland. It is only remarkable that the enterprise was not long since undertaken. What was to prevent? Steamers daily leave this port without inspection of any kind. There is no passport system, no detective system, no more supervision or watchfulness than if the country was buried in profoundest peace. New York is openly the depot and rendezvous of rebel emissaries and spies of every description. They carry on the business of Rebellion with no hindrance from anybody. A great hotel on Broadway is their headquarters; its proprietor and nine-tenths of its guests perfectly well known to be rebels. The city ostentatiously offers all facilities to rebel agents. All markets are accessible to them. They have powerful friends. They seem to have no enemies or opponents. The Custom House opens its portals to their commerce. The great lines of steamers which ply from New York are subsidized by them, and are the regular carriers of their mails, their agents, their cargoes.

Take one instance out of many. The Cunard steamer Corsica left this port on Monday for Nassau—that British den of rebel and Anglo-rebel pirates. We are assured that on this steamer went twenty or thirty men who were notoriously rebel agents and officers; necessarily known to be such by the officers of the steamer, who themselves are rebel sympathizers. Among them was one Commack—for the last two years the general rebel agent at Havana, who has done not less for the rebel cause than Lee or Davis; for he has been the soul of all schemes for supplying the Confederacy by breach of the blockade. This man was pointed out to a United States Revenue officer, but the officer replied that it was not his business to make arrests, and would take no step to stop him—so he went unmolested—he and his comrades.

While such things are possible, why should not piracy flourish? Does any man doubt that the plot to seize the Chesapeake was well known in this city, and that her capture was chuckled over in the New York Hotel last night? And yet, need such things be possible? The remedy is in the hands of the Government, if they choose to apply it. But as matters stand to-day, any number of rebels may embark on any steamer that leaves this port, and take possession of her if they choose, before she is past Sandy Hook. The Chesapeake may have a dozen pirate consorts before the end of the year, if Northern ports are to remain open for rebel egress and ingress.

But there ought to be no great difficulty in recapturing the Chesapeake. Send *all* available vessels in pursuit—they will catch her. And if Government will give the right orders for this case, it will do much to prevent others. The captors of the Chesapeake are simply pirates and murderers—by all laws, human and divine—and should be dealt with accordingly. It will be time enough to listen to rebel threats after they are hanged.

VICKSBURG AS IT IS.—A letter from Vicksburg to the St. Louis Republican gives the following description of Vicksburg and its appearance:—

Vicksburg, the scene of such a tragical siege, looks the better for its occupation by the Yankees. The characteristic thrift is apparent at a glance. Several fine steamers at the landing, buildings going up on the sites of the wrecks of former cosey, bustle and business in the streets, a theatre and eating saloon, stores, express offices, and all the hum of a commercial city.

Of the military appearance of the city it can do harm to say that, although strong enough before by nature and art, as we found to our cost in its siege, it is still further strengthened by a new and formidable line of works, in addition to those of its former defenders. We rode over the lines to-day, and found the rain and wind fast washing away the traces of that prodigious labor. Such is the nature of the soil that it washes into deep gullies and chasms where not overgrown.

Of contrabands of all sorts and sizes there are over 7000 in and about the city. Their condition is not so bad as has been represented by lachrymose old women and clergymen. Indeed, some derangement and suffering is sure to issue from any system of things that could be invented. The able-bodied are drilling and digging in hundreds; the others are doing the necessary drudgery of both camp and town. Two large schools are open for the tuition of the juniors, of which there are several thousand lying about, of all shades, and all equally dirty and happy, as if they knew not they were each and all the veritable "irrepressibles."

THRILLING ADVENTURE.—James Dorling, of LaFayette, Ind., met with a thrilling adventure recently. He had been away on business, and returning on foot, had reached the middle of the river bridge above that city, when he was startled by the sound of an approaching train. The night was dark. A heavy rain had made the cross-ties very slippery and insecure.—To run, he dare not; to jump was certain death; and with wonderful presence of mind, he locked his arms around one of the ties, and swinging off between the rails, he hung suspended in mid-air until the train passed over. The train having passed, Mr. Dorling righted himself and went home, but the shock to his nervous system prostrated him.

—"Perley" insists that all the corps commanders of the Army of the Potomac, with one exception, are to be relieved, and that the army is to be reorganized immediately; also that Gen. Hooker will probably be the next commander.

— The government had 5,777 cannon, of all descriptions, on hand Nov. 1.

— The Americans in London observed November 26 as a day of thanksgiving.

— The Baptist church at South Berwick recently celebrated its fortieth anniversary. All its pastors, five in number including the present one, were in attendance.

— The Invalid corps now numbers twenty thousand, officers and men, and it has increased by that number the strength of the armies in the field.

— Jacob Lamb, a soldier of the Revolution, died at Indianapolis on Monday evening, at the age of 100 years and 9 months. He served under Gen. Wayne.

— The rebels having put Hardee in Bragg's place as commander, Gen. Grant must now put him in Bragg's place as a defeated commander.

— During the late Houghton Race Meeting at Newmarket, England, William Lang ran a mile in the wonderful time of four minutes and three seconds.

— During the present war not a single ship or squadron has ever been delayed in its movements for the want of ordnance or ordnance supplies.

— The Biddeford Journal states that it is common to see several French families arriving in that city at one time. They come from Canada and the men enlist.

— A farmer took a single wagon load of his produce to Syracuse, recently, and sold it for $1588 50. It was the wool produced by his 880 sheep.

— The English farmers are discussing the question of feeding wheat to their stock, some of them insisting that at present prices it is cheaper for feed than other grains.

— A St. Louis dispatch, 11th, states that flour had declined twenty cents within the last two days. Wheat and oats had also declined. Corn remained unchanged.

— The Supreme Court has given a unanimous opinion, declaring the law allowing the Iowa soldiers to vote constitutional and valid.

— In the State of Texas, the flag of the Union has, during the whole war, been upheld by a small force at Franklin, so the rebels have never succeeded in wholly excluding Federal authority from that State.

— The aggregate nominal value of 8,322 letters, containing money and other valuables, received at the dead letter office last year, was $1,544,277.81. 7,552 were delivered to their owners.

— An Irishwoman was seen sawing wood in Court street, Boston, on Friday, while her husband carried it up stairs. The crowd raised a purse of several dollars for her.

— A deputation from the Jews of Presburg was lately received by the Emperor of Austria, to present to his majesty a couple of geese, as usual at Martinmas from time immemorial.

— Mr. Ashley will introduce into Congress a bill at an early day, providing that the free States may recruit to fill their quotas in the rebel States, offering such bounties as they may please.

— Advices from Mexico, via San Francisco, state that Gen. Comonfort has been killed while fighting a band of Mexicans who favored French occupation. The French were marching on.

— Three very swift Clyde steamers have recently been sold for the blockade running business, viz; the Caledonia, Iona and Fairy. Two others, the Nola and the Dare, are fitting out. The Scotchman says the steamboat owners never before had such a harvest, some of their steamers having been sold for nearly double their original cost, and that after a season's use.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spuo

J. D. STEVENS,
Cor. Sec. N. H. S. A. A.

☞ Rev. H. D. Fisher (a Messenger from Gens. Grant and Schofield of our army in the West,) is to speak at the North Church this evening, on the condition of the Freedmen on the Mississippi river. A circular issued by some of the best loyal men in Boston says:—

Fifty thousand of these unfortunates, chiefly women and children, are now in want of food, shelter and clothing. They need also the care and teaching which will aid them to procure subsistence. The chances of war, the disorganization of labor and of society, the entire change of condition, render hardships inevitable to this class, who have never been accustomed to take care of themselves, and who are now deprived of home, of employment, and of all needful things. Their destitution is appalling. Strange and terrible diseases are sweeping them off by hundreds. Children, bereft of their parents, are perishing for the want of the merest necessaries of life.

These facts are stated by agents, detailed for the purpose by Maj. Gen. Schofield, and by that victorious hero, Gen. Grant.

The Western Sanitary Commission offers to apply the contributions of our people.

The daring acts of piracy and murder committed by the men who seized the steamer Chesapeake continue to be the principal topic of town talk, and men whose judgment is authority insist that the public safety demands a special detective police force. Our streets swarm with blockade-runners and rebels who have played the part of spies and agents in the service of the Confederacy. They have their places of rendezvous, their signs of recognition, their treasury, and their Coppery associates, who work the wires for them. Arebel who has been vibrating between this city and Savannah is now the petted guest at one of our fashionable hotels. He boasts openly of his adhesion to the rebel government, and it is well known that he assisted in tarring and feathering a good Union man in Georgia because he would not join with him in denouncing the old flag of Stars and Stripes. It is supposed that arrangements have been made to seize other vessels, and kill any loyal man who may stand in the way of the pirates from the South and elsewhere who now infest this city; hence the necessity of placing detectives on their track. Many of them are spotted, and will find it difficult to accomplish their purposes; but a system of granting or refusing passports would make it nearly impossible to do further mischief like that of the Chesapeake. Every hotel, every railroad depot, every steamboat pier should be watched. No suspected men should be permitted to leave the city for a journey, by land or by sea, without a passport, and no vessel should be allowed to leave without good and satisfactory evidence that nothing on board will be used to give aid and comfort to the rebels. The Chesapeake is now pursued by a fleet of armed steamers. She had only a small supply of coal, and her stock of provisions was not large, unless the packages which were put on board a short time before her departure contained the needed stores. She had two cannon and a number of muskets and pistols on board, and there is little doubt that some of the freight parcels contain powder. Various opinions are given in relation to the desperadoes. Some suppose that the guerrilla Morgan and some of his staff are the leaders; others that some of the men who hoped to rescue the prisoners on Johnson Island are the guilty parties; but the more prevalent impression is that the plan was concocted here in secret conclave by the class of men who encouraged Andrews to lead the rioters in their work of slaughter and conflagration.—*New York Tribune.*

— The steamer Rappahannock arrived at Calais, under the rebel flag, from Shoreness, England, Nov. 26, in an unfinished state, and pierced for eight guns. She was seized by the French Customs authorities, but they were afterwards ordered to release her. She was formerly Her Majesty's steam sloop Victor, and was sold with three other steamers a few weeks ago. The other three war steamers are reported to be fitting out for rebel privateers.

— Gen. Halleck, in his report of the military operations of the past year, states that Gen. Grant never disobeyed an order, and has never complained that the Government did not furnish him with all the means and assistance in its power to facilitate the execution of any plan he saw fit to adopt.

— The Washington correspondent of the Springfield Republican says Gen. Grant desires to be a Lieutenant General, but will not consent to run against Mr. Lincoln in a republican convention as a candidate for the Presidency. His ambition is to take the highest military honors, and he cares nothing at all about politics.

NEW HAMPSHIRE ITEMS.

—— Thursday morning the thermometer was below zero in Peterboro.

—— "Colary infantum" is somewhat fatal in Laconia, as shown by the Democrat of that place. The editor has not had a "spell" of it.

—— A subscription has been opened with encouraging prospects of success for a bank in Concord under the national law, with a capital of $100,000.

—— The house and outbuildings of Mr. Caleb Bean of the "South Road," in Salisbury, were wholly consumed by fire last Thursday morning. The property was insured.

—— The town of Lancaster, having furnished a surplus upon previous calls for volunteers exceeding her quota under the last call, has memorialized Gov. Gilmore asking why the surplus is not allowed.

—— The Democrats of Hillsborough Councillor District, have nominated Hon. David Patten of Hancock as candidate for councillor, and Gen. George Stark of Nashua and Hon. E. W. Harrington of Manchester as delegates to the national Democratic convention.

—— Peter Brilton, 22 years of age, of Manchester, was killed in one of the mills of the Stark Corporation on Thursday. The American states that in attempting to throw a belt from a pulley with his foot, his leg was caught and he was carried round the revolving shaft with great rapidity, dashing his head against timbers, and scattering his brains over the machinery. One of his legs was torn off. It was a horrid spectacle.

☞ The election of Mr. Ordway, of New Hampshire, to the office of Sergeant-at-Arms, vacates one of the most important special agencies of the Post Office Department in New England. There have been a number of gentlemen recommended for the place, and the Postmaster General has sent for the applicants in order to select the one best qualified and adapted for the situation.

— Private advices from North Carolina indicate that delegates from that State to the rebel Congress will introduce a bill authorizing the secession of such States now in the Confederacy as may desire to re-enter the Union.

It is said that the President was prompted to issue his proclamation of amnesty by indications from several quarters that it would be received with gladness.

— Daniel Stone, son of Mr. Amasa Stone of Charlton, Mass., committed suicide by drowning in the Schuylkill, at Philadelphia, on Thanksgiving day. He was an eminent bridge builder and was the victim of an over-wrought brain, which he was striving to restore to its natural tone by cessation from business.

— The seizure of the steamer Chesapeake has led to a renewed discussion of the passport question, and the expediency of again establishing a system of espionage over parties leaving the seaport towns and cities of the North.

Chronicle Notice.

On and after Jan. 1, 1864, the price of the Daily Chronicle will be, as now, 85 per year, or $4 when paid strictly in advance. 40 cents per month—10 cents per week—3 cents single copy.

N. H. Gazette Notice.

On and after Jan. 1, 1864, the price of the New Hampshire Gazette will be $2 per year, or $1.50 when paid strictly in advance. Single copies 6 cents—to regular buyers 5 cents.

SOLDIERS, TO THE RESCUE!—Young men, rushing into the exposures and dangers of a soldier's life, should prepare themselves for the fatal fevers, the dysentery, the sores and scurvy, which are almost certain to follow. HOLLOWAY'S PILLS, used occasionally during the campaign, will insure sound health to every man. Only 25 cents per box. 214

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly.

I'D LIKE TO AID THE SOLDIERS.

I'd like to aid the soldiers,
Yes, I'd like to hold and save;
But in all the army's rank and file
There's nobody I know,
There's nobody I know;
For Willie Warner got exempt,
And Peter wouldn't go.

I'd like to aid the soldiers,
But I have no time at all;
For what is left from other things
Is too exceeding small—
'Tis too exceeding small
To do the soldiers any good,
And these I want it all.

I'd like to aid the soldiers,
But there's nothing I can spare;
I've things that might make dressing-gowns,
But nothing I can't wear;
No—nothing I can't wear;
And pray why should I toil myself?
I have nobody there.

I'd like to aid the soldiers,
But my purse is very lean;
And with all my furloughs to buy—
You'd know just what I mean,
You'd know just what I mean;
It costs so much to live in style
And dress one to be seen.

I'd like to aid the soldiers,
If I could as well as not;
And the willing sympathy else
Should give them all they've got—
Yes, give them all they've got;
And I'd send them my good wishes—
'Tis really all I ought.—[Harper's Weekly.

Would inform his friends, patrons and all citizens of Portsmouth and vicinity, that NOW is the time to send in their names for Story Papers, Fashion Books and other publications for the year 1864.

Having received a liberal patronage the past year, he is in hopes to increase it the coming year, by prompt attention to this part of the business; and he has also made arrangements for no extra hand to take charge of this department.

And, if there are any papers, monthly, quarterly or publications of any kind, that I do not have for sale or for regular subscribers, I will order the same for the coming year.

Furthermore, if any person wishes to subscribe for any work that they have read of or seen advertised, I will send for the same and have it on exhibition at my store free of charge.

LAST AND BEST.
THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In not, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Baking.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed. We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to indicate all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and warranted without extra charge.

The Great Remedy for Bloody Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

As A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven large as usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tedious and injurious headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe and chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being but little heavier than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pots, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used.
We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert E. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

DR. GOODALL
Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.
Teeth inserted on Gold and Silver, and all other operations performed as usual.
Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!
He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.
He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.
I take pleasure in referring the public to Dr. TRASKWELL, Dr. BOARDMAN, Dr OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and life with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

THE CHILDREN AND THE RATS.—M. Victor Hugo possesses the power of describing with a peculiar charm, the habits and manners of children. Of this, "Les Miserables" contains several illustrations, from which we select the following as an example:

Little Gavroche, walking about the streets one cold wet night, encounters two well-dressed little boys, aged respectively five and seven, who seem to be in great distress; Gavroche stops and questions them, whereupon they tell their tale very simply; they lived in a nice house with "mamma," who is a "lady"—in the same house as "mamma" lives another "lady," "Mademoiselle Miss" (so called, as we afterwards learn, from the fact of her parentage being a mixture of French and English.) Some people came and took "mamma" away; these people turned the little ones into the street, giving them a piece of paper, whereon was written an address which they were to try to find; but the wind was high, and blew the paper away, and the little outcasts wander about, cold, hungry and miserable.

Gavroche, possessing a kind heart, is touched by the children's distress; he conjectures, quite as quickly as Javert would have done, the probable state of the case with regard to "mamma," and gives a tolerably correct guess as to the social status of "Mademoiselle Miss." He takes the two little boys into a baker's shop, regales them with a piece of bread, and then conducts them to his own dwelling for the night. On the way he teaches them a little slang, while the children are comforted by his kind manner, look up to him with the profound deference due from seven and five years to the superior age of thirteen, and call him "Monsieur."

Gavroche's residence is in many respects a peculiar one—but let it suffice here to observe, that among the other disadvantages which it poses, is that of being overrun with rats. The three children go to bed together, with the youngest in the middle, and as soon as the light is extinguished, the rats begin to make a terrible noise. The elder child goes quietly to sleep; Gavroche, too, being very tired, is just closing his drowsy eyelids, when he is aroused by the voice of the little one, who is alarmed by the darkness and the noise.

"Monsieur," says the small timid voice.

"Hein," replies Gavroche (A short pause, during which the gamin' nearly goes to sleep.)

"Monsieur," says the small voice again.

"Hein," says Gavroche.

"What are rats?"

"Mice," answers Gavroche. (Another pause.)

"Monsieur," says the small voice for the third time.

"Hein," says Gavroche.

"Why don't you have a cat?"

"I have had one; I brought one home, but they ate it up." (Another pause; uneasiness of 'le petit' who turns the thing over in his mind, and thinks he must have misunderstood his friend.)

"Monsieur," pursues the five year old.

"Hein," says Gavroche.

"What was it that was eaten up?"

"The cat."

"And what ate up the cat?"

"The rats."

"What, the mice?"

"Yes, the rats." (Excessive consternation of 'le petit' at the idea of these mice who devour cats!—Another pause, the final and important question:)

"Monsieur."

"Hein?" says Gavroche, drowsily.

"*Will these mice eat us up also?*"

"Pardi!" replies the 'gamin,' who straightway goes to sleep and answers no more questions that night.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence, with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a speedy and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, &c., and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now robust in all that makes life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 15, 1863.

THE REBELLION.

Both the contending armies in Virginia are busily engaged in constructing huts for winter quarters—Lee on the Rapidan and Meade between Brandy Station and the Rappahannock. Ten days' furloughs are being liberally granted to our officers, and sutlers are returning to the army. Many three years' regiments are enlisting for the war.

Large numbers of rebel deserters are daily coming into our lines and claiming protection under the amnesty proclamation.

It is said that the President and Sec. Stanton wish to reinstate Gen. Hooker in command of the Army of the Potomac, but Gen. Halleck opposes it. Gen. Meade demands a court of inquiry into his late movement. Gen. Burnside is expected at Washington; he may succeed Gen. Schofield.

It is stated that Price, with what is left of his army, is moving from Arkansas into Texas, a large Federal force pursuing him.

☞ In the U. S. Senate on Monday, Fernando Wood offered a resolution providing for the appointment of a commission to Richmond to terminate the war and secure a peace "under the Constitution on terms of justice and equality." It was promptly tabled, yeas 98, nays 59.

In the House the standing committees were announced. The Chairmen of some of the principal ones are—Elections, Dawes of Mass.; Judiciary, Wilson of Iowa; Public Expenditures, Hurlburt of N. Y.; Military Affairs, Schenck of Ohio; Naval Affairs, Rice of Mass.; Foreign Affairs, Davis of Ind.

☞ The rebel authorities decline receiving any more packages of provisions for the Union prisoners, and give as a reason what they allege to be an imputation upon their honor by the press and government authorities, that they were not delivering the goods forwarded in good faith to the prisoners. As to the bad condition of the prisoners returned to Annapolis, they say they were extreme cases of consumption, and that it was a grave error on the part of the authorities to allow such prisoners to return. For the present nothing would be received but letters and enclosures of money, and Southern money had better be sent.

In this connection the following dispatch from Richmond may not be without interest. It is probable that Mr. Foote gives the true state of the case:

In the rebel Congress, on the 8th inst., Mr. Foote of Tenn. said that the President never visited the army without doing it injury. Never has he visited any of the armies but what it has been followed by disaster. He charged him with almost having ruined the country, and he would most his champions anywhere to discuss it. He accused Commissioner Northrup with having starved the enemy's prisoners and with stealthily placing the Confederate government in the attitude charged by the enemy. From the 1st to the 16th of November meat was furnished to the prisoners very irregularly. For 12 days the supply was inadequate, and for 8 days they got none at all. He demanded the removal of Northrup, for the honor of the country.

☞ Gen. Grant has issued the following order from the President of the United States:

The General commanding takes great pleasure in publishing to the brave army the following despatch:

Washington, Dec. 8.—Major General Grant:—Understanding that your lodgment at Chattanooga and Knoxville is now secured, I wish to tender your command my more than thanks, my profoundest gratitude for the skill, courage and perseverance with which you and they, over so great difficulties, have effected that important object. God bless you all. A. LINCOLN.

GODEY'S LADY'S BOOK for January is a brilliant number, and its fashion-plates and patterns are dazzling to the uninitiated Nobody but Godey can compete with Godey. This number commences a new volume, and the price of this unexcelled ladies' Magazine is as follows: one copy, one year, $3; two copies, $5; three copies, $6; four copies, $7. The old club prices are resumed, even in these hard times; and the magazine is even better than ever.

☞ Mechanics, inventors, manufacturers, engineers, agriculturists, and chemists in particular, and everybody in general, ought to take the Scientific American, which occupies a field peculiar to itself, and is now the only journal of the kind published in this country., Volume X., new series, commences on the 1st of January next.

Those who preserve their numbers for binding have, at the end of the year, two handsome volumes of 416 pages each—832—with several hundred engravings. $3 for one year; specimen copies sent free; also, gratis, a pamphlet of "Advice to Inventors." Address MUNN & Co., Publishers, 37 Park Row, New York City.

—The Boston City Election took place on Monday. At 2 o'clock, Lincoln, Union, the present incumbent, had 3183; Rich, dem., 825; Spinney, "workingman," 351.

NEW HAMPSHIRE ITEMS.

—— New Hampshire's volunteer quota is half filled.

—— Manchester needs about forty more men to complete its quota.

—— The War Department has sustained Gov. Gilmore's appointment of officers for the Eighth Regiment.

—— Nearly $3000 have been subscribed in Concord in aid of the Sanitary Fair in Boston.

—— Several extensive real estate sales have recently been made in Belknap county. Five sales of land, &c., foot up $22,383.

—— Surgeon William H. Thayer, 14th regiment, is announced as Senior Surgeon at Concord, and is Medical Director in all departments of the service under command of Gen. Hinks.

—— A precocious pullet in Tuftonborough commenced laying when not quite five months old, and was not content with laying one dozen or fifteen eggs, but presented her mistress with thirty-five eggs; then she (i. e. the pullet) commenced setting in earnest with the zeal of an old hen.

—— It is officially stated that such towns and wards as may furnish their full quotas of volunteers under the recent call, will be exempt from the draft in January next. Also the several towns and wards will receive credit for all volunteers mustered into the service of the United States since the last draft, and the number so credited will be deducted from their proportion under the recent call.

— Efforts are making to add regiments of volunteer artillery to the regular army.

— Cork carpeting has been introduced in England. It is durable and sightly.

— The rebel Senate has prohibited the employment of substitutes in the army.

— A movement will be made in Congress at once to increase the pay of soldiers to $18 per month.

— The business of the Portland Horse Railroad exceeds the most sanguine expectation of its most hopeful projectors.

— A firm in Bath, Me., is known by the name of Frost & Sparks. They ought to be able to "blow hot and cold."

— Of the 25 men who deserted from the Steamer Acacia, at Portland, all but three have been captured by the police.

— The Los Angelos Vigilance Committee have taken another prisoner from the possession of the sheriff and hung him.

— The Chief of Police in Portland has given orders to the department to question all persons found in the streets after 11 o'clock at night.

— The inmates of the Massachusetts State Prison have manufactured a large number of ingenious and beautiful articles for the Sanitary Fair in Boston.

— Representative Arnold and Solicitor Whiting are preparing an act to extend all over the seceded States and Territories the prohibition of slavery.

— In Russia, the candles used in the mines are made of tallow mixed with powdered charcoal, which is found to increase the intensity of light.

— A religious writer recently spoke of an opponent as "an exceedingly sectarian Unsectarian—a very bigoted Anti-bigot."—That describes a great many men.

— The Pioneer Amazonian Mining Company has been incorporated in California. The mine is owned, and is to be managed by a Board of Trustees composed entirely of ladies. Capital, $200,000.

— Willis S. Clinton was arrested in New York on Friday, for counterfeiting the U. S. postal currency. On his person was found $220 of the counterfeits, admirably executed.

— The trouble with the gunboat Acacia which put into Portland, in a sinking condition, was caused by the bilge valve under the boiler being left open—it is said, intentionally—by one of the firemen.

— Messrs. Bates and Blair of the Cabinet support the President's second proclamation, and this disposes of the organized effort to induce the President to dismiss them.

— Admiral Farragut has declined the invitation of the authorities of Baltimore to accept their hospitalities, owing to the near approach of the day of his departure to resume his command in the Gulf.

— Mr. Ashley will introduce into Congress a bill at an early day, providing that the free States may recruit to fill their quotas in the rebel States, offering such bounties as they may please.

— The Masons in Maine have just erected a fine granite monument surmounted with a bust, over the grave of Gov. Robert P. Dunlap, in Brunswick, Me. Gov. Dunlap filled the highest places in the Masonic fraternity of the State and of the United States.

— The first number of a very neatly printed and well filled local paper, called the Sentinel, comes to us from Bridgton, Me. The increasing trade and manufactures of that flourishing town require such a newspaper, and its editor, David Hale, Esq., is fully competent to conduct it. The business men of Bridgton owe it to themselves liberally to support this new candidate for their favor.

PRINTERS' ROLLERS.—Our experience with rollers, we think, has been singular.—A dozen years ago we had the good fortune to spend a winter in the employ of Gideon H. Rundlett, Esq., and he was certainly one of the most agreeable and fair men we ever worked for. He was no printer, though he then published the N. H. Gazette; and the slim support the "democracy" gave the establishment, rendered economy advisable in its management.

So to prevent the too frequent purchase of new rollers, Mr. R. procured a water-tight box; and when the edition of four tokens was to be worked off on the hand-press, this box was partly filled with hot water, and the rollers steamed therein till they were soft as pulp. This brought up the old type in good shape; but the difficulty was, that in the not too warm rooms the glue and molasses (that is, what molasses had not been steamed out) soon cooled; and it was only by the greatest haste that the last of the pile could be got off in tolerable style. But, strange to say, the rollers never tore at all, we believe, nor behaved badly under this singular treatment, except to grow hard as a board again in a few hours. But we don't believe we shall ever forget those steamed rollers—shall you, Ed Blake? or you roller-boys, Nat Gunnison or John Hanscom?

Well, years *rolled* on, and Ned Fuller took the Gazette; and after getting us to agree to start a *Daily* Gazette with him, was scared out of it by everybody throwing cold water on the project. So as he had no work for us, and we were unfortunate enough to have to labor for a living—else shirk for it, and that's the hardest of all labor—we concluded to start this Chronicle; and here it is to this day, and here it will be we know not for how much longer, till you get enough of it, readers, or we get tired of the hard work of printing it, or "make money enough" out of it, (which won't be at the present prices of stock, even were our subscription higher yet.)

And pretty soon Br. Fuller got him a power-press, and discarded the hand machine for newspaper work, and the old rollers (not ours of steaming celebrity, though, for *they* must have "gone to the dogs" or the boys, long before,) were put up garret in their box. And there they lay, through winters' colds and summers' heats,—and everybody knows *how* cold and how hot only attics *can* be—say for six or seven years, till we bought the Gazette, a couple of years ago or so. Then seeing these rollers look so smooth and round, tho' hard as stone almost, we were curious to try an experiment; and we shortened one of them, and placing it in one of our always moist roller-boxes for a long while, it grew so soft and pliable that we have actually used it on our power-press to print the Chronicle, on a few occasions the past summer. And it was, we think, about nine years old at the time! And "we have it yet, and can produce it"—smooth, and soft and tough. What think you of that, Mr. "Printer?"

Now we don't say this is as good as new, nor do we want to starve the roller-makers; but we do think that printers could much lessen their trouble and expense of rollers, by judicious care and proper fixtures, less frequent washing, and constant uniform temperature of offices. Why, we believe we have had but two new rollers for our daily paper for more than a year, until now; and our type is not new by one nick, and has generally given tolerable impression. A new roller-maker in Boston, months ago, sent us a sample of a new roller composition he was desirous of introducing; and so good was the article, and so well was it cared for, that when we wished to get another, the maker could not be found—he had given up business, or moved nobody knew where.

One word more of rollers and boys, as we have spoken of both above. Printers' rollers look exactly like India rubber; and the publisher of the Journal, several years ago, threw an old roller into the yard, and probably after softening by the rains, it was picked up and sold as old rubber, to a peddler or junk dealer, for a shilling a pound, when it wasn't worth a possible cent! [Not to friend Colman, however, for he keeps his eyes open wider than that.]

Besides the above incidents of roller history—we have restored to good condition, and used to do nice work, the very smallest rollers, which had become very hard from a year's disuse—by keeping them in a large box partly filled with water. F.

— The Washington Chronicle publishes a rumor that Alex. H. Stevens and five other rebels have come down to Fortress Monroe under a flag of truce with proposals of peace; but Perley telegraphs that it is a hoax.

— It is rumored that instructions have been received at the naval stations to dispatch a large force of vessels to strengthen the blockade off Wilmington. Some of the fastest vessels in the navy are now off Wilmington, but the numerous inlets render it almost impossible to maintain an inviolable blockade.

— "Love," the magician, recently performed in Norwich, Ct., at which exhibition it was announced that he would cause the "mysterious disappearance of a young lady." He performed the contract by running away with Mrs. Edward Jillson of that place. The Love-ing pair were soon captured.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 8 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

TO SUBSCRIBERS.—It will be seen by the Publisher's Notice that the price of the Daily Chronicle is to be raised somewhat, though not nearly so much as the cost of printing it has been increased. $6 per year, or $5 in advance, will now be the rate; 50 cents per month, 12 cents per week, single copies 8 cents.

Our Weekly, the N. H. Gazette, is also increased in cost and price—$1.50 a year in advance, single copies 6 cents, to regular buyers 4 cents.

ADVERTISERS by yearly contracts will also observe that from Jan. 1, 1864, an increase of twenty-five per cent. will be made on our charges to them. If any may not desire a continuance, they will please give us early notice.

☞ Francis Bacon, Esq., has been appointed Clerk of the Portsmouth Navy Yard, *vice* Howard Cutts, Esq., deceased. Mr. B. held the position of Naval Store Keeper during Col. Wentworth's nine months' absence in the army, and since that time has been employed as writer in the Naval Store Keeper's office. He has a rare faculty of transacting business with accuracy and despatch, and is a thorough gentleman. ‡

☞ The numerous friends of Mr. Thos. P. Moses, in this vicinity, will be glad to learn that he has recently been heard from, through a letter received by flag of truce, in answer to one sent him by Col. Jackson from Hilton Head. Mr. Moses is still practising his old profession of music, at Edgefield, South Carolina; and hosts of his old scholars hereabouts will be pleased to receive tidings of him after an involuntary silent absence of months and years. Nobody ever labored harder than he to cultivate and disseminate a love for music and the beautiful among our citizens, especially the youth—in the hearts of many of whom his memory will always be kept green and fragrant.

☞ About 2 o'clock A. M., a few nights since, one of our citizens was awakened by a noise as of some one attempting to break into his house. He hastily arose and diligently searched his house, finding no one and hearing nothing. At length, however, he opened the front door and there discovered an individual very much "disguised," with liquor, the brick in his hat resting upon the bricks in the pavement, while his "locomotive organs" were elevated over the steps, and his boots had been knocking at the door.

It was a bitter cold night; the man might freeze if left there. Accordingly the gentleman took him into the house, but soon deemed it advisable to send him to the station house. Unfortunately there was no watchman in sight just at that moment, and the gentleman started with his unexpected caller for the headquarters of the police.—The absence of the watchman is to be regretted, for few gentlemen would care to be called out at 2 o'clock in the morning to preserve a drunken man from freezing to death, provided one of the city watch could do it just as well. And the man was very drunk and very heavy, and it was a toilsome journey. On Congress street a man was seen on the opposite side of the street, and to him he called to come over and help him. But this stranger could not have been one of the watch, for he quickly ran away.

Of other incidents of the trip,—of where the watch were finally found, and of many other things, this deponent saith not.

☞ The boilers for the new iron-clad Agamenticus at the Portsmouth Navy Yard, have arrived, and she will be launched as soon as they are placed on board.

The ship New Hampshire will, probably, be launched in a week or two. In speaking of this vessel, and the Vermont, the Secretary of the Navy in his annual report, says:

We have but few sailing vessels of the larger class, and these few to which steam cannot be applied may be used to advantage for other than fighting purposes; one of them, the Vermont, has been fitted and used as a storeship, and the New Hampshire, formerly the Alabama, a ship-of-the-line, is being prepared for a similar purpose. They are each available and useful for this object, are adapted to it in every respect, and can be made capable of defence against attack. But for cruising and the objects held in view in their construction, these magnificent specimens of the old naval architecture, and of the skill of our mechanics, although in their day they elevated the naval dignity, and attested the power of the republic, have now become comparatively useless.

☞ John Kilroy, charged with an assault on John Norton, an Irishman, about two weeks since, was brought before the Police Court on Monday, and bound over in $200 for trial.

☞ Exeter's quota under the last call was filled on Saturday. That for Dover will, probably, be filled to-day.

PAPER.—The stock on which we now print the Chronicle and Gazette, costs us $3.15 per ream. Former price $1.60.—Who says high prices?

☞ The weather for the past few days has been various enough to satisfy the most eager searcher for change. The cold of the first part of last week securely locked the ponds in ice, and old and young were rejoicing in the capital skating, when, suddenly, on Friday night, the silent snow came and the "ice made daggers at the sharpened eaves." This spoiled the skating, but there were visions of sleighing which compensated, until Saturday, when the almost inevitable Saturday rain storm set in (we *did* have one pleasant Saturday a week ago,—it should be remembered,) and quickly the golden anticipations of rides were known to be fallacious. The rain has continued, 'off and on,' to the present writing, (Monday afternoon,) and about two o'clock P. M., the programme was diversified by loud thunder and vivid lightning.

☞ John G. Saxe always draws a crowd; so, if you wish to go with the crowd, go to hear him at the Temple to-night.

☞ Thanks to our worthy substitute Hensler, for Norfolk newspapers.

Also to somebody unknown for the Pomeroy (Ohio) Telegraph.

— A San Francisco paper speaks of green corn grown without a drop of water falling upon it. It was planted in June, in Suisun Valley, and grew and matured without being irrigated. The ears are large, and the grains full. The editor thinks this is the first time that any farmer has attempted to grow corn in California during the summer.

SOLDIERS, TO THE RESCUE!—Young men, rushing into the exposures and dangers of a soldier's life, should prepare themselves for the fatal fevers, the dysentery, the sores and scurvy, which are almost certain to follow. HOLLOWAY'S PILLS, used occasionally during the campaign, will insure sound health to every man. Only 25 cents per box. 214

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Morning Chronicle.

THE ART OF ADVERTISING.—Mr. F. Leypoldt, the Philadelphia publisher of several choice new publications, has issued recently, Heinrich Heine's Book of Songs; simultaneously, Matthew Arnold's essay upon Heine, reprinted from the Cornhill Magazine. The Boston Commonwealth calls the publication of this essay a "magnificent" mode of advertising, "a touch beyond any of our publishers," even Ticknor, "who approximates to it when he persuades Curtis to review Longfellow in the Atlantic."

A PATRIOTIC FAMILY.—The Worcester Spy states that at a war meeting held at East Brookfield Dec. 9th, William Hatch, Benjamin Hatch and Hiram Hatch, three brothers, and only sons of Mr. Stilman Hatch, enlisted. All three of the boys are under age, but the father came forward and signed the papers, giving his consent. The patriotism of that family is worth something.

— Messrs. J. F. Dunn & Co. of Galesburg, Illinois, have made an assignment, and the Mayor of the city, principal of the banking firm, is said to have absconded. A large amount was due to soldiers and their families, to charitable institutions and to laboring men, which will be nearly a total loss.

☞ Hall's Journal of Health, for December, contains valuable practical hints, moral and social, as well as medical.

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHEA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhea, Gleet, pains and weakness in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Tumors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest stings of a child.
SEMINAL WEAKNESS.
Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by this habit are, Nervous Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Eruptions on the face, Diseases of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important!
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every nature, and from having his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to his advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

LAST AND BEST.
THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!
At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range, and in less time also.
The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into use at pleasure), all the heat from the fuel is made available for cooking purposes.
The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A clock draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desired.
A Water Tank and Hot Closet can be applied to either size, when needed.
The ease, no noise or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Baking.
It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.
No family, large or small, where economy, convenience and cleanliness are desirable, should be without one.
We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.
We offer this beautiful coal burner to the public with full confidence in its merits.
It has been introduced three years since, and has come rapidly into use.
The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.
The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.
The quantity of fuel used is very small indeed.
We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure to all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

SPEER'S SAMBUCI WINE.
PURE AND FOUR YEARS OLD,
OF CHOICE OPOPHTO FRUIT,
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL,

Every family should use the SAMBUCI WINE celebrated in Europe for its medicinal and healthful properties as a gentle stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and for nursing mothers and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for week together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who now use it, using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable, Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and no more of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so often complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, the most promising but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the smoke pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:
Samuel Chases, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, progresses all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in WARRANTING *PERFECT SATISFACTION* in all cases.
Teeth inserted on Gold and Silver, and all other operations performed as usual.
Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!
He is fully convinced that it is a perfectly harmless anæsthetic, in fact leaving the patient an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.
He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.
I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr BARNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention. All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

NOTES OF FORMER DAYS.

Collected and Collated—By UNCLE TOBY.

Lt. Gov. Dunbar—Gov. Belcher—John Rindge.—In 1731, June 24th, David Dunbar, a native of Ireland, was appointed Lt. Governor of the province of New Hampshire, and Surveyor General of the woods. He had been a Colonel in the British service, but upon the reduction of the army his regiment was disbanded. He was afterwards appointed Commander of the fort at Pemaquid, which he called Fort Frederick, and he assumed the government of the few inhabitants in that part of the province of Maine. Being used to military discipline, he exercised his authority there with rigor. The proprietors of the lands applied to Gov. Belcher for redress, who issued his proclamation, requiring the inhabitants to submit to the government of Massachusetts. Upon representation to the King in Council, Dunbar's authority was revoked. As an altercation had taken place between Belcher and Dunbar, his appointment of Lieutenant Governor was peculiarly disagreeable to Belcher, and the contention which had already commenced between them increased, as long as Dunbar continued in the country. Upon his arrival here, he joined the party in opposition to Belcher, and in their communications to the Board of Trade, each party endeavored to procure the removal of the other.

Dunbar was not allowed a seat in the Council: Shadrach Walton, the senior Counsellor, in the absence of the Governor, presided at the board.

Dunbar was Commander of the fort at Great Island; he had authority to grant passes to outward bound vessels, and licenses for marriages. From these several appointments he received about fifty pounds sterling. His salary as Surveyor General of the woods was two hundred pounds sterling, and the perquisites nearly one hundred pounds, which were divided between him and his deputies.

Theodore Atkinson, Benning Wentworth, and Joshua Peirce were appointed Counsellors; but through Belcher's remonstrances, the two former were not admitted to a seat in the Council for nearly two years. In the mean time they were chosen representatives from this town, and in that House kept up their opposition. The Governor and his friends were desirous of having the province united with Massachusetts; the other party exerted themselves to have a separate Governor, who should reside in the province.

The Assembly determined to petition the King, to settle the line between this province and Massachusetts. The 7th of October they made a choice of Mr. John Rindge as their agent. He was a merchant of this town, and about to take passage for London on his mercantile business. Being opulent, he advanced what money was necessary to prosecute the design.

The south meeting house was built on a lot of land presented to the parish by Captain John Pickering. After the frame was raised, Rev. Mr. Emerson made a prayer on a stage, erected within it for the purpose. This was the last of his public exercises.

The town gave permission to a number of persons to build a bridge over the cove, from Marshall's landing to Paul's, provided they would build and maintain the same at their own expense. This bridge had a hoist or draw in it for vessels to pass thro', and was called Swing bridge, [now Liberty Bridge, in Water street. The bridge built in 1727 was Canoe Bridge, now over a mere common sewer in Washington street.]

— At a meeting of the citizens of Skowhegan, Me., held on Wednesday last, it was voted to exempt from taxation for a term of ten years, money sufficient to build a woolen factory in that place.

COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the preeminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the patient.
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

THE REBELLION.

800 rebel cavalry attempted on Sunday night to cut the railroad communication between the army and Washington, by burning the bridges across Cedar Creek. They were driven off, after a short fight, with considerable loss in killed and wounded.

The Richmond Enquirer has a dispatch from Bristol, Tenn., 9th, stating that Gen. Gillmer's (rebel) brigade encountered the advance of Wilcox's (Union) corps, 2000 strong, near Maynardsville, Tenn., and routed them, capturing a large number of prisoners. Wilcox's command was composed of raw troops.

A Chattanooga dispatch gives a rumor that Longstreet in his retreat from Knoxville lost four thousand prisoners and nearly all his cannon and trains.

Brig. Gen. Wild's negro brigade, in Gen. Butler's department, occupied Elizabeth City, N. C., on the 10th. Artillery and cavalry, as well as a considerable naval force, have gone to co-operate with Gen. Wild, and Elizabeth City is likely to be made the base of important operations.

The rebel Senate, on motion of Wigfall, has appointed a committee to investigate the condition of the Union prisoners in Richmond. No official information has been received that the rebels have refused to receive provisions for the Union prisoners.

Gen. Foster has superseded Gen. Burnside, and the latter has departed for Cincinnati.

THE GREAT FAIR in Boston, in aid of the New England Sanitary Commission, was inaugurated on Monday evening with complete success. The scene at the Music Hall was brilliant in the extreme. All the cunning devices of woman's art and taste in needlework—elegant cushions, mats, embroidery, and fancy articles of every conceivable kind, made of richest materials with exquisite skill—useful articles of personal apparel and for domestic use, of choice fabrics and best workmanship—vases, statuary, pictures, and bijouterie of every sort, glittering with gold and beautified with most delicate coloring—products brought from almost every clime and wrought into shapes of endless beauty—all in overwhelming profusion and arranged with rare taste and skill, greeted the eye along the line of tables. To New Hampshire and Vermont were assigned the tables in the centre of the main floor, and right royally are they filled with useful and ornamental articles from those States. And in the passage way outside the hall is a lot of sheep contributed by a gentleman of Manchester.

The hall was densely crowded on Monday evening, among those present being Gov. Gilmore and staff in full uniform, Hon. Peter Sanborn, State Treasurer, and other prominent gentlemen from this State. So great was the attendance that the receipts at the door amounted to over $6000. No articles were sold in the evening the great feature being a concert on the new organ.

MUNICIPAL ELECTIONS were held on Monday in Boston, Roxbury, Charlestown, Worcester, Newburyport and Lowell.

In Boston a comparatively light vote was thrown, the falling off being mainly in the opposition vote. Mr. Lincoln, for Mayor, has a plurality of 4064, and a clear majority over all of 3415. Mr. Lincoln is the present incumbent, and has earnestly supported the Government.

In Charlestown there was a spirited contest, resulting in the re-election of Mayor Stone, Union, by 80 plurality.

In Roxbury there was but one candidate for Mayor, Hon. George Lewis, the present Mayor, receiving a unanimous vote—1034.

In Worcester and Lowell, also, the present Mayors were re-elected with little opposition.

In Newburyport there were two tickets in the field, one headed by Mr. Charles H. Coffin, and representing the Republicans and temperance men, and the other by Mr. G. W. Jackman, and representing the war Democrats and the liquor interest. The result was a rum victory, this being the great question at issue in the election. The Jackman ticket had a majority of 220 votes.

☞ The First National Bank at Newark, N. J., was on Sunday the scene of one of the coolest burglaries on record. The bank is situated in Broad street, near the canal, in the second story of the buildings. At noon the community was aroused by a great explosion which shook the building. The indications are that the burglars had been there all day. The place was thoroughly rifled. A large safe was rolled to a great distance from the building and blown up.—The safe was destroyed, and the building narrowly escaped. The robbers obtained the large amount of three dollars, the entire contents of the safe. No trace of the rogues has yet been discovered.

☞ After the capture of Brownsville Gen. Banks paid an official visit to the American Consul at Matamoras. The Mexicans, having previously learned of his intention to do so, invited him to the Public Hall. The military were paraded, a salute was fired, and all the enthusiasm of a gala day was manifested. Speeches were made by prominent Mexicans, expressing their sympathy with the Union cause in the United States, and Gen. Banks replied, hoping that Mexico would come out of her present troubles triumphantly. After a great many mutual expressions of friendship and sympathy the party adjourned to the office of the American Consul.

☞ Mr. Wilson introduced a bill in the U. S. Senate on Monday, giving $400 bounty to veterans, and $300 to other volunteers. It also authorizes a premium of $25 for the enlistment of veterans, and $15 for other volunteers. It increases the pay of privates to $16, and of non-commissioned officers proportionately; and negro soldiers are to be equipped and paid the same as white soldiers.

— It is said that letters have been received in Washington from prominent conservative members of the rebel Congress, from North Carolina, asking unofficially up on what terms the Southern States would be permitted to return to the Union.

— British steamer Ceres, a new double propeller, with four engines, all below the water line, has been captured while attempting to run the blockade off Wilmington.—She was loaded with arms, ammunition and clothing. The boat cost £50,000; her engines £10,000.

— Some unknown person entered the Malden Bank, at Malden, Mass., on Tuesday forenoon, murdered the book keeper, Mr. Frank E. Converse, 17 years of age, who was alone in the bank at the time, by shooting him through the head, and decamped with $5000 in bills on the bank.—It was a bold and awful tragedy.

— Ginery Twitchell, Esq., made one of his characteristic speeches, at Brookline, Mass., on Friday night. "I see," said he, "before me some twenty men, who, were there a vacancy on any one of my gravel trains, would rush to get it; but the chance of death there is far greater than on the battle-field, and it is all gravel and no glory."

— A letter from one of the officers of the iron clad Wehawken states that Admiral Dahlgren had entered into definite arrangements with Mr. Whitney and his partner, who had gone down to raise the iron clad Keokuk, by which arrangements the Wee hawken is to be raised and the Government is to pay the parties what is right.

— The N. Y. Tribune has private advices that the secessionists at Havana, doubtless acting upon private advices from Dixie, have given up the rebel cause. One with $400,000 of Confederate funds in his hands, has confiscated the whole to the replenishment of his private exchequer, and fled therewith to parts unknown. It was understood there that the break up of the concern must be quite near at hand.

NEW HAMPSHIRE ITEMS.

—— Robert H. Mathes, of Durham, has been promoted to 2d Lieutenant of Co. B, Maine 17th regiment.

—— The telegraph station at Hampton was struck by lightning on Monday afternoon.

—— We are indebted to the author, Mr. Warren K. Day, of Dover, for a new waltz for the piano, entitled Twilight Zephyrs, for which he has our thanks.

—— While a Mrs. Haines of New Boston, was sitting by the stove on Saturday last, her clothes caught fire, and she was so badly burned before the fire could be extinguished, that she died on Sunday about 7 o'clock.

—— Another barn, owned by George W. Moody, in Ossipee, was burnt on Monday evening of last week, and several fires were seen on Tuesday evening of which no particulars have been learned. One man has been arrested on suspicion, and is now held at Ossipee.

—— Hon. John P. Hale is Chairman of the Senate Naval Committee, and Senator Clark of the Committee on Claims. Representative Rollins is Chairman of the Committee on Accounts, and a member of the Committee on Public Expenditures; Patterson of the Committee on the District of Columbia, and of the Committee on Expenditures of the War Department; and Marcy of the Committee on Revolutionary Pensions and of the Committee on Expenditures of the Navy Department.

— Admiral Wilkes is preparing a letter in reply to the Secretary of the Navy, vindicating himself from the charge of preventing the capture of the Alabama.

No. 29 Congress street, Portsmouth, N. H.

S. A. AVERY

Would inform his friends, patrons and all citizens of Portsmouth and vicinity, that NOW is the time to send in their names for Story Papers, Fashion Books and other publications for the Year 1864.

Having received a liberal patronage the past year, he is in hopes to increase it the coming year, by prompt attention to the part of the business; and he has also made arrangements for an extra hand to take charge of this department.

And, if there are any papers, monthly, quarterly or publications of any kind, that I do not have for sale or for regular subscribers, I will order the same for the coming year.

Furthermore, if any person wishes to subscribe for any work that they have read of or seen advertised, I will send for the same and have it on exhibition at my store free of charge.

PROSPECTUS
— OF THE —
Cheapest Family Paper in New England.

THE ONLY AGRICULTURAL PAPER IN NEW HAMPSHIRE.

DOLLAR WEEKLY MIRROR
— AND —
JOURNAL OF AGRICULTURE, FOR 1864.
PUBLISHED AT MANCHESTER, N. H.
John B. Clarke, Editor and Proprietor.

Immense Inducements for Clubs.
GREAT PREMIUMS.
Watches, Sewing Machines and Books.

THE DOLLAR WEEKLY MIRROR, printed at Manchester, N. H., has had a larger circulation for several years than any other secular paper printed in the State. Last January we bought the JOURNAL OF AGRICULTURE

And added to it the Weekly, devoting the first page entirely to Agriculture, with a practical farmer for Editor, and experienced writers to aid him. The distinctive features of the Mirror are well known.

In the News Department it has no equal in the State. The news is printed day by day for the Daily and transferred to the Weekly.

The Daily is issued morning, noon, and evening, and has news from all parts of the country by Telegraph. It has correspondents in the chief towns in the State, and with all the New Hampshire Regiments. No news of importance can escape its notice.

We have a short hand Reporter, who can give verbatim reports of Speeches, Lectures and Sermons. If we have room for them. Consequently the MIRROR account of Conventions and Meetings of importance are more accurate and of greater length than those of papers whose editors report from memory.

The MIRROR will maintain the position it has held since the war began, of unyielding fidelity to the Federal Government in its efforts to crush the schemes of traitors, restore the Union and compel the Rebel States to ground arms and swing again into line. It will back the Government without an if or a but, in all necessary schemes or edicts to accomplish that result, even though it be to knock the fetters from every slave, burn every Southern city, and hang Jeff Davis and all the Southern leaders on a "sour apple tree."

The blessings of the Union and the Constitution are too precious, and were purchased at too great a sacrifice to be lost for the mere purpose of giving an aristocratic class the privilege to keep slaves under the lash and sell them under the hammer of an auctioneer.

All rebel property must go to the wall, her cities sacked and her plantations laid desolate, if it be necessary to save the Union. We believe with the launched Douglas in Congress that "there can be no NEUTRALS in this war." All must be in favor of putting down the Rebellion or opposed. The former rejoice at all our victories, aid all our soldiers, cheerfully vote men and money, and grieve at our defeats. The latter are Copperheads, who rejoice the most when our soldiers are the sadden, oppose the draft, oppose the vote of soldiers, laugh at our calamities, praise the Southern Chivalry, and say "O, we never can subdue the South." Fighting is not the thing, "Moral power" is the only weapon. Shame on such base traitors.

To that class the MIRROR will apply the lash without mercy. The word Copperhead does not refer to such patriots as Douglas in the last months of his eventful life; as Judge Holt or Gov. Bramlette, noble Kentuckians; Gen. Dix, Gen. Sickles, Brady, Richard Busteed, John Cochrane, John Van Buren, and other wheel-horses of the New York Democracy; or Gen. Butler, Gen. Logan, Gen. Grant, Gen. Thomas, Gen. Foster, or that great Irish patriot, Gen. Meagher, all old Jacksonian Democrats; or the fifty thousand Democrats in Ohio that voted against Vallindigham; and the tens of thousands Democrats in New York, Pennsylvania, Maryland, Missouri, Illinois, Maine and California, that have lately held that they love their country better than they do party, and that they detest all combinations that do not support our government in its efforts to crush out a "hell-born and hell bound rebellion;" and save our National Banner from trailing in the dust.

1864 will be big with stirring events. In it Rebellion will starve to death, or give up the ghost in despair in all probability. What shall be done with the repentant traitors? What doom shall be meted out to the leaders of the Rebellion? Will the slaves go free? are questions to be settled. In its midst will be the Presidential Election, with entirely new issues, and the result may again shake and put in jeopardy this Republic. On all the questions of the day the MIRROR will have a decided voice, free, untrammeled and fearless.

Agricultural Department.

To meet the increasing demand for home reading upon Domestic and Agricultural topics, the first page of the DOLLAR WEEKLY MIRROR will continue, as heretofore, to be devoted exclusively to these subjects, under the head of

N. H. JOURNAL OF AGRICULTURE,

which publication was merged with the MIRROR last January. The amount of Agricultural matter will be fully equal to that of any agricultural journal in New England. Its Editor, living upon a farm and his weekly budget will be made up of timely and seasonable articles, based upon actual experience and observation. He believes in progress in rural as well as other pursuits, and his leading objects are to arrest the attention of Farmers by placing before them such *facts and figures* as will have a tendency to induce them to adopt *system and thoroughness* in all their operations.

The leading features in this Department the coming year, will be

SHEEP AND SHEEP HUSBANDRY,

which, from the force of circumstances, takes the lead of all rural pursuits. Such information as may be obtained in regard to improved breeds, and the opinion of practical men upon their management, will form constant topics of discussion. Next in order will be

HORSES AND CATTLE.

This paper is the only one in New England that makes the subject of horses and their management a *specialty*, giving it full and ample space for control of the performances of the most noted ones in the country, as well as a variety of other matter appertaining to horses and their management.

MILCH COWS AND DAIRY FARMING

will form an important feature in the JOURNAL OF AGRICULTURE, the leading points of the several breeds will form subjects of frequent discussion. Their peculiarities and adaptation for particular uses, a subject that every man who keeps a cow or yoke of oxen is interested in, will receive due attention. The management of

HOGS AND POULTRY,

necessary appendages to every farm, but too often so badly managed as to be sources of but very small profit, will be looked after. Articles on

FRUIT AND FLOWER GROWING,

written by practical fruit men, will occupy a conspicuous place in our columns. Another important feature will be the large number of

VALUABLE AND USEFUL RECEIPTS,

which will be published each week. No lady who has the care of a household, or even expects to, can fail of finding in this one department much valuable and interesting information. No paper in New England publishes so many useful receipts as the MIRROR AND JOURNAL OF AGRICULTURE.

REPORTS OF THE MARKETS

will be published full and early—especially the Wool and Cattle Markets. In fact, the JOURNAL OF AGRICULTURE is designed to be, and will be, A COMPLETE FARM COMPENDIUM.

Its Editor will advocate and plead for an improved system in the management of rural affairs; for that *Industry, Perseverance and Economy* which are sure to bring thrift and independence in their train. He will be assisted by a large number of

PRACTICAL CONTRIBUTORS,

whose pens will be guided by experience and observation. It will be the aim of all connected with the paper to make it not only *Useful and Entertaining*, but the leading paper in the State in all its special departments.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spio

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. jn20

HELP FOR THE FREEDMEN.—There was a large meeting, considering the storm, in the North Church on Monday evening, to hear from Rev. H. Fisher, Chaplain of the Kansas 5th, sent North by Gen. Schofield in behalf of the 50,000 suffering freedmen on the Mississippi. W. H. Y. Hackett, Esq., was called to the chair, and introduced the speaker in a few appropriate remarks. Prayer was offered by Rev. S. Holman. Mr. Fisher then stated the causes of the numbers and sufferings of the freedmen, and placed the matter in such a light that all must have felt the force of his appeal for immediate aid.

The matter was committed to an already existing committee, who will speedily call for contributions. The ladies were requested to send bundles of clothes to the store of Benjamin Cheever. S.

☞ A decided success, in every respect, is the Citizens' Lyceum. A full house, first rate entertainments,—everybody interested, and satisfied with what they hear and see, and so of course with themselves.—Among others very efficient in helping the affair to its great success—and it takes lots of work to do it—are our schoolmasters, from the President down; and credit is due all hands, and is readily given too. The Citizens' Lyceum is a public benefit—we hope any proceeds will be funded, to secure its continuance another year. *It is a treat* to see a house *full* of live people occasionally.

NEW HALL.—We are delighted to be informed by a responsible gentleman that arrangements are being made to build a new and large public hall in this city, another season. The affair, though a private enterprise, is in the hands of parties who will not fail to render it a credit and satisfaction to our public.

REV. MR. HAWKINS.—Next to the pleasure of seeing an old friend in his proper person, is that of meeting a worthy representative of the absent friend if living, or a worthy descendant of a friend deceased.

This latter pleasure we have enjoyed within the past few days, in meeting for the first time Rev. Mr. Hawkins of the Protestant Episcopal Church, who sought us out as an old friend of his father, John Hawkins, of Washington fame and sterling worth.

That the son of one so distinguished in the temperance effort, and of one who rose so high from a condition so low and sad, should be a worthy minister of the gospel, is indeed a pleasure; and beyond this it is a joy to know that he is a worthy son of a worthy sire, going about doing good; and that he is in this city just now, on a philanthropic errand.

Having been for two or three months among the freedmen in Eastern Virginia, Norfolk, Hampton, &c., he is well posted up as to their condition, wants, and prospects; and he has just been appointed a collecting agent here, and in the vicinity in New Hampshire, and in the State of Maine, to raise funds in aid of the National Freedmen's Relief Association.

In this capacity he is commended by his standing in the Church, by the good name and life of his parent, and by his own mental and moral worth;—and his object needs only to be well understood, to attain great success. U. T.

☞ The Morris Minstrels are to appear at the Temple to-night. In speaking of their concert in Troy, N. Y., a short time since, the Times of that city, says:—

Last night Maud's Hall was crowded to excess with people anxious to hear the Morris Minstrels, a troupe second in talent to none that ever visited this city. Everything was "applauded to the echo, which did applaud again." The Songs, "Home of My Youth," by Pease, "Blue Eyed Jennie," by Curtis, and "The Tender Sigh," by Surridge, were beautifully given, whilst the comic singing by Pell and Wagner, caused roars of laughter. Kanane's clog dance was wonderful. The Crystalenia Solo by G. F. Dell was a whole entertainment in itself. The comicalities of Pell and Wagner were rich and side-splitting, and their burlesques inimitable. From first to last the crowded audience was kept in good humor, and of the hundreds present last night, a very large number will repeat their visit to-night.

☞ The great Fair in Boston in aid of the Sanitary Commission is exciting unusual interest throughout New England, and in order to accommodate those of our citizens who wish to attend it, the Eastern railroad will run an extra train from this city to Boston, at reduced rates on Thursday, Dec. 17. See advertisement.

☞ Those suffering with diseases of the eye or the ear are referred to the advertisement of Dr. J. Moses, of Nashua, who will be at the Franklin House in this city, on Tuesday, Wednesday and Thursday of next week.

— Benjamin Cox, a venerable and esteemed citizen of Salem, died on Saturday. On the late Thanksgiving day he ate his *eightieth* Thanksgiving dinner in the same room in which he had eaten it on every successive Thanksgiving since he was four years old.

☞ A live man is Br. John B. Clarke, of the Manchester Mirror—and a lively paper is his Weekly, advertised in another column this morning. The only fault we find with it is, that it is too cheap, or rather, too good for the price—but subscribers won't be likely to complain of that. [Nor will they, generally, of fair, remunerative rates, either, so far as our somewhat-extended experience goes.]

But Clarke is amply able to manage his own business, and few men know better than he how to make a readable newspaper. No matter what other paper you "take"—if you are a farmer or gardener, you can't afford to be without the Dollar Weekly Mirror; and "*any* other man" will find matters of interest in it always. Every *New Hampshire* farmer should have it, sure, the only agricultural paper in our State, and worth more *here* than any three "foreign" papers. And besides the paper, which is worth far more than is asked for it—somebody is going to get a nice gold watch, a sewing machine, and $20 and $10, for a little trouble in getting clubs of subscribers. We hope Rockingham county will win, for we want the people to have a Fair somewhere here next year, and nobody will help it more than the Mirror and Agriculturist, if a chance is given.

Don't fail to read the advertisement.

— 10,000 deserters from our army, it is said, are now in Canada, many of them in a destitute condition.

— The pirate Alabama was at Madras about Oct. 20, took a look around the place and immediately put to sea without communicating with the shore.

REBEL EXPECTATIONS.—A prisoner captured at Chattanooga stated that it had been a disputed question in the rebel camp which brigade should escort the army at Chattanooga to Richmond; and on being asked why Bragg didn't shell us, said that Bragg declined to do so, believing it to be "contrary to the laws of civilized warfare to shell *prisoners*." The rank and file of Bragg's army had been flattered with assurances that they had our army at Chattanooga in a snare.

SOLDIERS, TO THE RESCUE!—Young men, rushing into the exposures and dangers of a soldier's life, should prepare themselves for the fatal fevers, the dysentery, the sores and scurvy, which are almost certain to follow. HOLLOWAY'S PILLS, used occasionally during the campaign, will insure sound health to every man. Only 25 cents per box. 214

Chronicle Notice.

On and after Jan. 1, 1864, the price of the Daily Chronicle will be, $6 per year, or $5 when paid strictly in advance. 50 cents per month—12 cents per week—3 cents single copy.

ECLIPSES.

In olden time, when Cupid wooed
And Psyche told her love,
They wandered, in their blissful mood,
From out the enchanted grove,
To where the generous moon poured down
A flood of glorious light,
And bathed the lovely scene around
With sheen of silver bright.

The hundredth kiss he pressed her for,
Nor did the maid resist,
But yielded her lips his arms,
Quite willing to be kissed.

The modest moon her face withdrew
Just as they touched their lips,
And that's the reason—so they say—
The moon has an eclipse.

But oh! in these degenerate days,
The moon has grown quite bold;
She's not so modestly inclined
As in the days of old.

'Tis only at deceitful love
She hides her face fair:
And that's the reason, new-a-days,
Eclipses are so rare.

For if at every kiss she hid
Her face behind a pall,
The fashion has so common grown,
We'd have no moon at all.

—*N. O. Picayune.*

☞ The lively New York correspondent of the Boston Post, who is fearless and bold, thus discourses on a subject which has lately been but vaguely hinted at in the newspapers:—

The fanciful styles of hair dressing now in vogue among fashionable ladies have almost revolutionized the insides as well as the outsides of the dear creatures' handsome heads. Time was when, in Martell's little back room in Maiden Lane, all the stylish darlings in town could have the wool pulled over their eyes within a few hours of any great sensational soiree—but now what with the growth of the city, the novelties of fashion, and above all, the oddities and eccentricities of individual taste, the hair dressing profession numbers its hundreds of members, and the business has become one of the most lucrative branches of trade. Beauty no longer draws us with a *single* hair, but between the curls, locks, puffs, braids, frauts, topsays, rats, cats, mice, and waterfalls, which are now made to constitute the capillary attractions of most of our fashionable femininities, the head-ornamentation of a lady of *best ton* has become the pivot of an immense amount of anxiety, vexation, expense and waste of time—and many a bachelor is brought down with bleeding heart by the dead shots of the new style of hair-trigger.

A MAN SHOT.—The Worcester Transcript of Friday says that on the forenoon of that day an Irishman named Edward Halpin, enrolled in that city, entered the Provost Marshal's office, declared he was an alien, and used much abusive language, accusing Dr. Martin of exempting a party for $60. He was ordered to leave, but refused, and had to be removed by force.—As he was leaving the building he made an assault on the sentinel, W. F. Cook, who, in self defence, shot Halpin with a pistol through the arm. Halpin was taken to the police office, and an investigation of the affair will take place.

We learn that the pirates who captured the Chesapeake were looked upon as suspicious characters when they went on board the New England, to take passage for Boston, and were watched by armed men during the whole time they were making the trip. The boat on the St. John route has been prepared for some weeks for any attempt on the part of pirates to take possession of the boat. We have no doubt the Boston and Portland boats are equally well prepared.—*Portland Press.*

— Some letters to young men contain the following: "Talk to women as much as you can. This is the way to gain fluency." As if any young man with the usual amount of modesty, in talking with a lady, could get in a word edgewise, even if he does "talk as much as he can."

— One of the most elegant churches in New York, was paid for out of the proceeds of an acre of land left many years ago by a parishoner to one of the clergymen for the pasture of a cow."

LAST AND BEST.

THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much heat is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; becomes in Winter warm, excellent in a family, where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and elegance are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with the confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to perform all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

GOLDEN SHEAF
WHISKEY.
THE DISTINCTIVE FEATURES
OF
GOLDEN SHEAF WHISKEY
ARE
Pure Ingredients,
Careful Distillation,
Delicate Flavor,
Mellow Character.
IT CONTAINS IN A CONCENTRATED FORM
THE DISTILLED JUICES
OF
WHEAT, RYE AND CORN,
free from all deleterious substances.

Possessing these qualities, it has become a standard article, and is highly recommended by Chemists, Physicians and Connoisseurs.

Golden Sheaf Whiskey

is the refined distillation of the most carefully selected WHEAT, RYE and CORN, and combines NUTRITIVE,
MEDICINAL AND
RECUPERATIVE
properties which render it deservedly popular as

A Strictly Pure Stimulant.

This celebrated Whiskey is put up by the subscriber in cases, containing one dozen bottles each, and offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or send their orders for any quantity required to the General Depot for its sale,

91 Washington street, Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovel-up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be confined day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for the obvious fact, combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Shaw, and others.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TRUMBULL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety to the Gums. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

VOL. 23. PORTSMOUTH, N. H. TUURSDAY DEC. 17, 1863 NO 143.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

MAYOR GUNTHER.—The Journal of Commerce, which alone, of the daily press of New York, sustained the election of Gunther, thus refers to a point in his election somewhat discussed in other States:—

We beg gentlemen, therefore, to dismiss from their minds any idea that Mr. Gunther's election was a triumph of the "peace party." It is pure nonsense. It would have been very funny if the "peace men" elected a ticket in opposition to the Daily News, their organ, and to the distinguished managers of the Peace Convention held here awhile ago, every one of whom sustained Boole and the ring. If Mr. Gunther had been run as a peace man, he would not have had votes enough to be worth counting.

JOHN PHŒNIX OUTDONE.—A paragraph has been going the rounds of the press, in which an account is given of a horse having a new hoof grown on by the use of a certain farrier's ointment. Now this reminds us of an incident that happened in Lyons, Wis. A Mormon priest named Nichols professed a power of doing miraculous things and compounding wonderful medicines. He made a nerve and bone all-healing salve, and thought he would experiment a little with it. He first cut off his dog's tail and applied some of the salve to the stump. A new tail grew out immediately. He then applied some to the piece of tail which he cut off, and a new dog grew out. He didn't know which dog was which. This may seem a tough story, but we have Nichols' word for it, and we dont think he would lie.—*Exchange.*

A "big Ingun" having strayed from his camp, found himself lost on trying to return to it. After looking about, he drew himself up and exclaimed, "Ingun lost!" but recovering himself, and feeling unwilling to acknowledge such short sightedness, continued, "No, Ingun no lost—wigwam lost; (striking his breast) Ingun here!"

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as she was troubled more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have used it in a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH CURTIS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I. CHESLEY, *Lee, May 31, 1861.*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISAAC CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, No 7 High street, Portsmouth, N. H., promptly attended to. mav26

COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
WHOOPING COUGH,
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES
have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.*
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the sick unfortunate, quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Pimples, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK,
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vebeloi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid these pills. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Portsmouth, N. H.

THURSDAY, DECEMBER 17, 1863.

THE REBELLION.

Gen. Butler reports that an expedition to Charles City Court House was a complete success, although accomplished during a terrible storm. Our cavalry carried the enemy's camp after a sharp fight, the enemy firing from their houses. We captured the whole command of three companies, (8 officers and 82 men,) fifty-five horses and three mules, besides many shot, &c., left on the ground. The enemy's camp, with its equipments, arms, &c., was destroyed.—Our loss is Capt. Gregory, severely wounded, one sergeant and one corporal killed, and four men wounded.

Col. Miscner reports from Columbia, Tenn., that the rebel deserters and citizens are flocking to that post in great numbers, asking to be allowed to take the oath under the President's proclamation. Col. M. says, in regard to the numbers arriving, that he has never seen the like.

A Nashville dispatch gives a rumor that Longstreet has repulsed Gen. Sherman.

LETTER FROM BOSTON.

BOSTON, MASS., Dec. 14.

Friend Miller:—To-night Governor Gilmore and Staff will accompany Governor Andrew and Staff to the Sanitary Fair at the Music Hall. As all will appear in full uniform, they will be one of the "sights."—Great preparations have been made, and it is confidently expected that the proceeds of this fair will add materially to the funds of the Sanitary Commission. The wife of your worthy Governor will preside at one of the tables. The weather has been stormy all day, but to-night it is clear and cool, and no doubt the hall will be filled with the elite of the city.

This afternoon 200 volunteers for the 6th and 9th N. H. regiments arrived from Concord, under charge of Capt. Durgin, of the 12th, and Capt. Crafts, of the 5th. They will be quartered at Long Island for the present. Stories have been circulated of the suffering of our conscripts and volunteers at the Island, but they are without foundation, as Gen. Dana provides them with every comfort possible. Occasionally a party of 200 or 300 will arrive late in the day, and it is impossible to make them as comfortable for the night as they would be at the "cattle pen."

New Hampshire has done bravely in filling our army, and every son of the old Granite State is proud of her. Recruiting in Boston proceeds slowly: some complaint was made that the country towns were paying extra bounties and taking the men from the city, and Gov. Andrew issued an order that the amounts so paid should be deducted from the State bounty. But our country friends avoid that by declaring it a private bargain, and Boston not paying any such bounty loses many who would otherwise enlist here. We shall not raise more than half our quota, and as the $300 commutation clause will probably be stricken from the law, the number of anxious faces is daily increasing.

Mayor Lincoln is re-elected by a handsome majority. Mr. Samuel R. Spinney was the candidate of the Workingmen's party. Mr. Spinney is a Portsmouth boy, and is very popular in South Boston, where he resides. The vote to-night shows that he was far ahead of his ticket in that ward. Acting Ensign George E. Wingate has been ordered to the gunboat Osceola, now at the Charlestown Navy Yard. Master's Mate Charles C. Ricker, another Portsmouth boy, has been promoted to Acting Master.

Last Tuesday the new ship Simla, owned by Jonathan Tredick and Son, arrived here from Portsmouth: she will be docked at East Boston to be coppered. J. Y. M.

☞ The Worcester Transcript notices the marriage of Sergeant Plunkett of the 21st Mass. to Miss Nellie Lorrimer of that city. Sergt. Plunkett is the gallant soldier who lost both arms at Fredericksburg while bearing the flag of his regiment in front, after six men had been successively and immediately shot down under its folds. He was a hero. The noble girl, who accepted for a husband the brave man so mutilated in the service of his country, is a heroine.

The reports of the Secretaries of War and the Navy, last December, spoke of work to be done—now they tell of work achieved; then the departments were overburdened with the labors suddenly cast upon them—now they have systematized those labors. A year ago men were not sure that the mere business of such vast armies and fleets as we were sending out would not prove impossible to manage—now they may see that this formidable difficulty, if it has not been conquered, has at least been brought well under.—*Boston Post.*

☞ We learn from Jeff. Davis' message that only three of the Southern States have ever collected the rebel internal revenue, South Carolina, Mississippi and Texas.—Also that the shrewd slave-holding legislators carefully exempted both land and slaves from the internal tax, so that two-thirds of the property ought to begin to pay something.

NEW HAMPSHIRE ITEMS.

—— The 3d, 4th and 7th regiments are brigaded together at Morris Island, S. C.

——The receipts of the Cheshire railroad, for the eleven months ending with November, were $464,963, a gain of $76,952 over last year.

—— John Place, of Alton, about 50 years of age, while sitting upon the gunwale of the steamer Dolly Dutton on Tuesday last, slipped off into the Lake and was drowned.

—— Col. Donahoe, of the 10th regiment, has recently visited the 3d, with which he was formerly connected, and on his departure was presented with a purse of over $70 by the officers of the regiment.

—— Mr. Solomon Prince, aged 92 years and 4 months, died at Amherst, on the 3d inst. Mr. Prince was the oldest person but one in the town, and until quite recently has been able to attend to his duties upon the farm.

——Charles R. Farnham of Manchester, Quartermaster on board U. S. ship Brazileira, doing blockade duty on the coast of Georgia, was drowned in November last by the upsetting of a boat. He was 19 years of age.

—— An Irishman in Manchester, ordered to carry in some coal at a gentleman's residence, was directed to "put it over the road quick," and left. When the gentleman returned, he found the Irishman had carried the coal across the street.

—— One of the tables at the Boston Fair is occupied by a party of ladies from New Hampshire, who began only about ten days ago to collect their contributions, and in that brief space have gathered together enough to produce the anticipated sum of ten thousand dollars.

—— A printer in Manchester has been arrested for breaking and entering the house of a fellow workman, and stealing therefrom clothing and money. It is pleasant to know, for the credit of the craft, that he is not a native, but had recently come from New York.

——There is a widow lady in Windham, 83 years of age, who can spin, knit, sew and read coarse print without spectacles.—She has had ten children, nine of whom have lived to have families. She has 57 grandchildren, thirty of whom are males; fifteen of them have been in the Union army, and nine of them are there now.

—— The Concord Patriot, in speaking of the Democratic County Convention at Epping last week, says:—

The resolutions adopted are decidedly "steep," declaring that the Democrats of the North should have taken no part in the war, protesting against its continuance, and pronouncing for immediate peace, and a truce, withdrawal of troops and negotiation to that end.

The Patriot in another item says:—

The Republican papers are imagining that great discord exists in the Democratic party in this State; but we "don't see it." There is no discord—not even a difference of opinion upon any question or issue important to be considered in the approaching canvass; but there is entire harmony in their firm and unyielding hostility to the rascality, rottenness and imbecility of the Administration and its party.

Putting this and that together, we may know about the position the New Hampshire Democracy occupies, in the opinion of the best authority in such matters.

JEFF. DAVIS ON SLAVERY AND STATE RIGHTS.—The rebel President is the prince of liars. Hear him on State Rights. In his message he says of the United States:—

Having begun the war in direct violation of *their* constitution, which forbade the attempt to coerce a State, they have been hardened by crime, until they no longer attempt to veil their purpose to destroy the institutions and subvert the sovereignty and independence of these States.

His State never had any Sovereignty.—The *old thirteen* plainly gave away theirs, in the Federal Constitution; and nothing is said in this document which forbids *coercing* a rebel State. Buchanan and the nullifiers said that; but the Constitution, Gen. Washington, Daniel Webster and Andrew Jackson held a different doctrine. Hear Jeff. protest against slavery:—

Whatever obstinacy may be displayed by the enemy in his desperate sacrifices of money, life and liberty, in the hope of *enslaving* us, the experience of mankind has too conclusively shown the superior endurance of the o who fight for home, liberty and independence, to permit any doubt of the result.

Is it indeed a calamity to be *enslaved*, and is the enslaver an evil doer? So argues the head man of the rebel confederacy. But can he or any one else tell why or how it is any worse to enslave Jeff. Davis than it was to enslave Fred. Douglas?

He prates of fighting for *liberty*, by which he means the license to found an empire whose corner stone was to be chattel slavery: but this corner stone proves to be a mill-stone tied to the neck of his bogus empire, and both together are destined to sink, like the Babylonian emblem of the Revelation, into the unfathomed depths, never more to rise. U. T.

— Capt. Samuel H. Davis of the 14th Connecticut has been dismissed the service, with the loss of all pay and emoluments, for willfully breaking his arrest.

For the N. H. Gazette.

CRAIG'S MICROSCOPE;

PENNSYLVANIA TKA.

Mr. Editor:—A little while since I found in possession of a friend the much advertised Craig Microscope and borrowed it.—Now I will tell you about it.

I must premise that microscopes, aside from the solar, are of two kinds, compound and simple. The compound microscope is an arrangement of two or more lenses, together with a stage for the object and a mirror below to throw light up through the delicate semi-transparent object. The object is reversed, the left-hand side appearing to the right, as when seen in a mirror. The lenses are in a tube: the lower is called the objective, the upper the eye-piece. Several objectives commonly belong to the same microscope—the higher powers often of immense cost.

The simple microscope uses but one lens at a time. It has beneath it the stage and mirror. It is cheaper and of much less power. It does not reverse objects, and therefore they may be manipulated or dissected under it, and then studied by the aid of the compound microscope. From three to five lenses usually accompany a simple microscope. These lenses may be quite cheap. The shorter the focal distance, the greater the magnifying power and the less of an object can be seen. The inch lens is generally the most useful; to me a shorter focus is of very little use indeed.

A globular lens would have a focal distance of 0: the lens must touch the object. It would magnify powerfully; the more, the smaller the globe. Such are cheaply made by melting a fibre of glass in the flame of a spirit lamp. A still better lens is made by making a round hole in a sheet of iron, brass or tin, and putting in the hole a drop of water.

Craig's microscope is a simple microscope with a globular lens. It can be used with only such and such objects. It is a good toy and nothing more.

It is stated in respectable journals that the Chinese tea, *Thea viridis*, grows spontaneously in Pennsylvania. They ought to know better. The shrub is doubtless *Ceanothus Americanus*; the leaves have the merit of being shaped like tea leaves, and the honor of having been used as a substitute in the Revolution. But it required sugar, imagination and patriotism, and all in large quantity, to make the spurious article "go down."

Our drouth in Central Illinois still continues and is almost unparalleled. The weather is splendid. Just after Thanksgiving the thermometer went down to about —8, but it soon came up. The roads are excellent and less dusty than would be expected.

Can some reader of the Gazette inform me through its columns of the address of Chandler S. Emery, son of Dr. Emery of Eliot, Me., who was at Berwick Academy in 1827? Yours truly, I. F. H.

— Satan is a subtle individual, but the army trader is a sutler.

— The gross receipts at the Fair in Boston on Tuesday were over $30,000.

— A coal operator at Carbon, Pa., has sold his lease on some coal lands for $700,000. A few years ago the same man was a bankrupt.

— It is stated that, for the first time since the presidency of General Jackson, the administration has been able to organize in its interest the Congress elected for the last two years of its term.

— The House Committee on Territories will soon report bills to bring Nebraska, Utah and Colorado into the Union as States and also to create a new Territory out of part of Nebraska.

— The new State of West Virginia has been divided by her Legislature into townships, like other Free States and unlike the Slave States, which have no civil division below Counties. She has also adopted a comprehensive Free School system.

— The boys of Dayton, Ohio, organized themselve sinto a wood sawyers' brigade, and turned out and sawed up the four hundred cords of wood brought into the city by the people of the surrounding country for the soldiers' families. Good for the boys.

— The gallantry of our troops at Chattanooga is unsurpassed in the annals of war. If the rebels cannot hold a position like that of Lookout Mountain in the face of our brave boys, where can they seek refuge from their dashing assaults?

— In the country around Chattanooga, for an area of about nine hundred square miles, there are no preparations for crops of grain—all is desolate and in decay.—Hedges untrimmed and broken, fences destroyed, and dilapidated buildings force themselves upon the view.

— Speaker Colfax was the author of the resolution which passed the House requesting the President to confine James M. Mason, then in custody at Fort Warren, in the cell of a convicted felon until Col. Corcoran should be treated by the rebels as an ordinary prisoner of war.

— Gen. Buford's medical attendants have no hope of his recovery.

— Adjt. Gen. Thomas is dangerously ill in the Southwest.

— Do one thing at a time—that's the rule. When you have done slandering your neighbor, begin to say your prayers.

— If a pretty woman asks you what you will bet, answer that you will lay your head to hers.

— Rev. J. C. Fletcher has returned from Brazil, where his mission was very successful.

— A number of towns in Massachusetts propose to fill their quotas of volunteers by recruiting contrabands in the South.

— A Fair held by the American ladies in Montreal, for the benefit of the Sanitary Commission, yielded the sum of $700.

— The cheese manufacturers of New York have convened to take measures for the prevention and punishment of adulteration of milk.

— The quota of Stoneham, Me., is seven; twenty-two have volunteered. Seventy-one persons are enrolled in the town; ninety-two have enlisted. So says the Portland Courier.

— In Utah the currency seems to be peculiar. The local newspaper says: "Until further advised no more little pigs are wanted on indebtedness to the Deseret News, as feed is scarce."

— In reference to Earl Russell's description of our war as a struggle for empire on one side and for independence on the other, Richard Cobden adds: "I say it is an aristocratic rebellion against a democratic government."

— In a crusade against hoops, a physician of Australia says they are the cause of hernia, varicocele, &c., to a frightful extent. In spite of all the tirades against the "skeletons" they hold their ground in public favor.

— A man was arrested in Bangor the other day for horse stealing. The next day he was wanted in another county for robbery and attempted murder, when it was found that the officer had taken him out, enlisted him in the army, and pocketed his bounty as a reward.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spuo

Carrier Wanted.

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

☞ Lieut. Col. Jacob J. Storer, of the 13th N. H. regiment, was seriously injured at New York on Monday evening. The illness of his father, Admiral Storer, of this city was calling him home, and he was about to take the 8 o'clock mail train for Boston. The train was standing still, and Col. Storer stepped from the baggage car to enter the sleeping car just as a Harlem train came past, and he was caught between the cars and bruised in a serious manner. Being anxious to proceed he was taken to Bridgeport, Conn., but was unable to continue further. He was conveyed to a hotel, medical attendance secured, and everything possible done for his comfort.

A GOOD DAY'S WORK.—Forty-three were enlisted at the Provost Marshal's office between the arrival of the Boston train at 10 A. M. and 4 o'clock P. M., on Wednesday. Six or eight others were examined, but did not enlist, as they wished a furlough before doing so.

On Tuesday thirty-three were enlisted. The work goes bravely on, and the chances for another draft are rapidly growing smaller.

If there is to be a draft for any place, Portsmouth now appears to have the inside track, and is far ahead of all competitors.—The number required has, however, been reduced to 147.

ORDNANCE ESTIMATES.—In the ordnance estimates there is asked: at Portsmouth, for howitzer and gun shed, $5000; for machinery and for furnishing new wing of building, $8050; for grading grounds and repairs of railways, $7000—$20,050.

☞ A correspondent of the Manchester Mirror, writing from Morris Island under date of Dec. 8, makes the following mention of one of "the Sons," which will be pleasing to his many friends here. We have already published the fact that he has been promoted in accordance with the recommendation of Adm. Dahlgren.

Ensign Ricker of the Nahant, recently recommended for promotion by Admiral Dahlgren, is a native of Portsmouth, N. H. A few weeks since, when a monitor got aground near Sullivan's Island, Mr. Ricker passed a hawser from the Nahant under a most perilous fire, to take the grounded monitor in tow. The Admiral witnessing the act, sent for him afterwards to come on board the flagship for examination for an Acting Master.

☞ Mr. Charles Dunn, of Dover, had one of his feet badly crushed in the new Machine Shop at the Portsmouth Navy Yard, on Wednesday afternoon, a plate of iron weighing 1300 pounds, which he was engaged in hoisting, falling upon it.

The Portsmouth Chronicle has raised its subscription price to $6, or $5 in advance. Cheap enough, when the white paper costs over $3 a year.—*Newburyport Herald.*
